Administration and Support.....	49

## MILITARY PERSONNEL OVERVIEW

The FY 2014 OCO requests funding so that the United States may continue security stabilization efforts in Afghanistan and continue the global fight against terror. These efforts are in addition to ongoing daily military operations around the globe. Without additional funds in FY 2014, the Navy would have to use funds from readiness and investment accounts to finance the continuing costs of military operations. Absorbing costs of this magnitude will seriously degrade combat operations and weaken the nation's ability to react to future threats.

This request includes **\$578.6 million** for Navy military personnel costs as shown in the following tables:

	FY 2012 Actual	FY 2013* Estimate	FY 2014 Request
<b>Summary by Appropriation</b>			
Military Personnel, Navy	1,077,429	874,625	558,344
Reserve Personnel, Navy	39,050	39,335	20,238
<b>Total</b>	<b>1,116,479</b>	<b>913,960</b>	<b>578,582</b>

\*Reflects the FY 2013 President's Budget request.

\*Reflects the FY 2013 President's Budget request.

The following table reflects mobilization and deployment assumptions as well as active over strength estimates. Mobilization numbers include personnel deployed to theater as well as personnel remaining in CONUS supporting OEF.

	Average Strength		
	FY 2012 Actual	FY 2013* Estimate	FY 2014 Request
Active Navy Deployment by IDP Payment	26,424	31,899	2,409
Navy Reserve Mobilization	4,360	5,962	3,999
Active Navy Overstrength (not additive/included above)	3,836	-	-
<b>Total</b>	<b>30,784</b>	<b>37,861</b>	<b>6,408</b>

\*Reflects the FY 2013 President's Budget request.

In response to the terrorist attacks on the United States on September 11, 2001, the President invoked his authority (10 U.S.C 12302) to order to active duty Ready Reserve members and delegated his authority to the Secretary of Defense in Proclamation 7463 of September 14, 2001. This declaration of national emergency has been extended, thereby continuing the authority to order to active duty Ready Reserve members. In order to sustain current military operations, funding is requested to finance the incremental costs (i.e., pay, allowances, subsistence, and other personnel costs) for personnel mobilized for duty in support of Operation Enduring Freedom (OEF).

The Navy's current military personnel request of **\$578.6 million** is comprised of the following major costs:

#### **Reserve Mobilization and Active Deployment Costs (\$416.3 million)**

- Basic military pay and entitlements (i.e., Basic Pay, Basic Allowance for Housing (BAH), retired pay accrual, social security contributions, and incentive pays) for Reserve members on active duty to provide essential military operation support or backfill for those active personnel deployed overseas in support of OEF. This includes funding for Reserve Component members mobilized to support Wounded Warrior Transition Units.
- Special Pays for Mobilized Reserve and Active Component Personnel, primarily:
  - Hostile Fire Pay (HFP) (\$7.50 per day)

- Family Separation Allowance (FSA) (\$250 per month)
- Hardship Duty-location Pay (\$100 per month if deployed for less than 12 months and \$300 per month if deployed for more than 12 months)
- Assignment Incentive Pay & HDP Pay – (\$1,000 per month) – “Boots-on-ground” payment for Sailors deployed beyond 12 months
- Basic Allowance for Subsistence (BAS) – for Reserve Component members in support of OEF.

### **Subsistence-In-Kind (SIK) Costs (\$23 million)**

- Funds requested provide Subsistence-in-Kind (SIK) (food and drink) to Sailors while deployed in support of OEF. SIK includes the cost of procuring subsistence for garrison dining facilities (Subsistence in Messes), operational rations, and augmentation rations. The Navy provides subsistence in mess facilities and operational rations for members of all military services participating in OEF.

### **Permanent Change of Station Active Component (\$11.5 million)**

The Permanent Change of Station (PCS) program pays for the travel, transportation, storage and dislocation allowances for reassignment of military members and families traveling individually for operational or rotational moves in support of OEF. Costs are for the dislocation allowance, shipment of household goods, temporary and non-temporary storage of household goods, temporary lodging expense, and member mileage and per diem.

### **Casualty and Disability Benefits (\$45.4 million)**

- Casualty Benefits for the following benefits associated with the death and traumatic injury of service members (T-SGLI) costs.
  - Death Gratuity payments to survivors of members dying on active duty (**\$1.2 million**).
  - Funding for Service Member’s Group Life Insurance (SGLI)/ Traumatic-SGLI insurance premiums that the Department of Defense pays on behalf of service members (**\$34.9 million**).
  - Reimbursement of SGLI/TSGLI premiums for deployed Sailors (**\$9.4 million**).

### **Additional Mobilization/Deployment Costs (\$62.2 million)**

- Funds requested provide unemployment benefits to ex-service members who are discharged or released under honorable conditions; the Reserve Income Replacement Program (RIRP); Interest on Uniformed Services Savings Deposits payments authorized by Section 1035 of 10 U.S.C., and Stop-Loss Retroactive Pay for eligible members.

### **Pre and Post Mobilization Training (\$20.2 million)**

- Basic pay and allowances, special pays, and PCS costs for Reserve members associated with OCO mobilization and post deployment training.

The following table reflects the amounts requested for military personnel by appropriation and by M-1 line item.

	FY 2012 Total Actual	FY 2013* Total Estimate	FY 2014 Total Request
<b>MILITARY PERSONNEL, NAVY</b>			
<b>BUDGET ACTIVITY 1: PAY AND ALLOWANCES OF OFFICERS</b>

## **RESERVE MOBILIZATION/ ACTIVE DEPLOYMENT COSTS**

**INTENTIONALLY  
BLANK**

<b>Appropriation: Military Personnel, Navy</b>	<b>FY 2014</b>
<b>Budget Activity 1: Pay and Allowances of Officers</b>	<b>(Amounts in Thousands)</b>
<b>Budget Line Item: Basic Pay</b>	<b>\$99,067</b>

### **Part I - Purpose and Scope**

The funds requested will provide for the incremental basic compensation for mobilized officers and active military personnel that are above the baseline strength levels.

### **Part II - Justification of Funds Required**

The request provides the basic compensation for mobilized Reserve and Active Component over strength officer personnel. The FY 2014 military pay raise reflects a 1 percent across-the-board pay raise effective January 1, 2014.

Detailed cost computations are provided in the following table:

	<b>FY 2012 Actual</b>			<b>FY 2013 Estimate</b>			<b>FY 2014 Request</b>		
	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>
<b>Total</b>									
Reserve Mobilization	1,251	\$83,879	\$104,933	1,479	\$85,743	\$126,814	1,148	\$86,286	\$99,067
Active Component Overstrength	997	\$81,949	\$81,703						
<b>Total</b>	<b>2,248</b>		<b>\$186,636</b>	<b>1,479</b>		<b>\$126,814</b>	<b>1,148</b>		<b>\$99,067</b>

**Appropriation: Military Personnel, Navy**

**FY 2014**

**Budget Activity 1: Pay and Allowances of Officers**

**(Amounts in Thousands)**

**Budget Line Item: Retired Pay Accrual**

**\$24,271**

#### **Part I - Purpose and Scope**

The funds requested provide for the Department of Defense's contribution to its Military Retirement Fund, in accordance with 10 U.S.C 1466.

#### **Part II - Justification of Funds Requested**

The budget estimates are derived as a product of: (a) The DoD Actuary approved part-time Normal Cost Percentages (NCP) is 24.5 percent of basic pay for FY 2014 for part time (mobilized reserves) and 32.4 percent of basic pay for full time (active component over strength); (b) The total amount of the basic pay expected to be paid during the fiscal year. The funds provide the Retired Pay Accrual payments for mobilized Reserve and Active Component over strength officer personnel. The summary cost computations are provided in the following table:

	FY 2012 Actual			FY 2013 Estimate			FY 2014 Request		
	Strength	Rate	Amount	Strength	Rate	Amount	Strength	Rate	Amount
<b>Total</b>									
Reserve Mobilization	1,251	\$20,384	\$25,501	1,479	\$20,922	\$30,943	1,148	\$21,140	\$24,271
Active Component Overstrength	997	\$28,108	\$28,024						
<b>Total</b>	<b>2,248</b>		<b>\$53,525</b>	<b>1,479</b>		<b>\$30,943</b>	<b>1,148</b>		<b>\$24,271</b>

**Appropriation: Military Personnel, Navy**

**FY 2014**

**Budget Activity 1: Pay and Allowances of Officers**

**(Amounts in Thousands)**

**Budget Line Item: Basic Allowance for Housing (BAH)**

**\$31,959**

### **Part I - Purpose and Scope**

In the FY 1998 National Defense Authorization Act, Congress approved the payment of a Basic Allowance for Housing (BAH) to Servicemembers. The Overseas Housing Allowance (OHA) payment, formerly located in overseas station allowances, moved into this section due to a change in Section 603 of P.L. 105-85, the National Defense Authorization Act for FY 1998. The continental United States, Alaska, and Hawaii BAH is termed BAH Domestic, while the overseas housing allowance is called BAH Overseas. Payment to Servicemembers is authorized by 37 U.S.C. 403.

### **Part II - Justification of Funds Requested**

This program provides a cash allowance to those military personnel not provided with government quarters adequate for themselves and their dependents. This allowance enables such personnel to obtain civilian housing as a substitute. The funds provide the BAH allowance for mobilized Reserve and Active Component over strength officer personnel. The summary cost computations are provided in the following table:

	FY 2012 Actual			FY 2013 Estimate			FY 2014 Request		
	Strength	Rate	Amount	Strength	Rate	Amount	Strength	Rate	Amount
<b>Total</b>									
Reserve Mobilization	1,251	\$26,011	\$32,540	1,479	\$27,187	\$40,210	1,148	\$27,836	\$31,959
Active Component Overstrength	997	\$28,656	\$28,570						
<b>Total</b>	<b>2,248</b>		<b>\$61,110</b>	<b>1,479</b>		<b>\$40,210</b>	<b>1,148</b>		<b>\$31,959</b>

<b>Appropriation: Military Personnel, Navy</b>	<b>FY 2014</b>
<b>Budget Activity 1: Pay and Allowances of Officers</b>	<b>(Amounts in Thousands)</b>
<b>Budget Line Item: Basic Allowance for Subsistence (BAS)</b>	<b>\$3,427</b>

### **Part I - Purpose and Scope**

The funds requested will provide for subsistence allowance authorized by 37 U.S.C. 402 and P.L. 96-343.

### **Part II - Justification of Funds Requested**

All officers, regardless of dependency status and pay grade, are paid a monthly Basic Allowance for Subsistence (BAS) at the same statutory rate. The funds provide the BAS allowance for mobilized Reserve and Active Component over strength officer personnel. Summary cost computations are provided in the following table:

	FY 2012 Actual			FY 2013 Estimate			FY 2014 Request		
	Strength	Rate	Amount	Strength	Rate	Amount	Strength	Rate	Amount
<b>Total</b>									
Reserve Mobilization	1,251	\$2,831	\$3,440	1,479	\$2,953	\$4,367	1,148	\$2,985	\$3,427
Active Component Overstrength	997	\$2,966	\$2,957						
<b>Total</b>	<b>2,248</b>		<b>\$6,397</b>	<b>1,479</b>		<b>\$4,367</b>	<b>1,148</b>		<b>\$3,427</b>

<b>Appropriation: Military Personnel, Navy</b>	<b>FY 2014</b>
<b>Budget Activity 1: Pay and Allowances of Officers</b>	<b>(Amounts in Thousands)</b>
<b>Budget Line Item: Special and Incentive Pays and Allowances</b>	<b>\$13,065</b>

### **Part I - Purpose and Scope**

The funds requested provide for payments to officers for the following special pays.

Family Separation Allowance (FSA): Paid at the rate of \$250 per month to members with dependents who are on duty away from home for a period of more than 30 continuous days (37 U.S.C. 427).

Hostile Fire/Imminent Danger Pay (IDP): Prior to Dec. 31, 2011, members eligible for IDP were paid the full monthly rate of \$225 for any complete or partial month they served in a qualifying area. The 2012 National Defense Authorization Act modified IDP payments, limiting eligibility to only the actual days served in a qualifying area. Now service members will receive \$7.50 for each day they are on official duty in an IDP area up to the maximum monthly rate of \$225. The monthly rate is paid to members who serve an entire calendar month in an IDP area regardless of the number of individual days in that month.

Hardship Duty Pay (HDP): The monthly rate may *not exceed* \$1,500 per month. The funds requested provide additional payment to personnel performing duty in a location that is designated by the Secretary of Defense as hardship duty (37 U.S.C. 305).

Foreign Language Proficiency Pay (FLPP): (37 U.S.C. 316) -a monthly payment made to qualified officers whose military specialty requires proficiency in a foreign language. The FY05 NDAA increased the monthly cap from \$300 to \$1,000 per month for members entitled to basic pay and a one-time bonus not to exceed \$6,000 for Reserve component members who fulfill a 12 month certification period.

Assignment Incentive Pay (AIP): The monthly rate *may not exceed* \$3,000 per month. The funds requested provide additional payment to personnel performing duty in assignments that is designated by the Secretary of Defense difficult to fill (37 U.S.C. 307a).

Parachute: (37 U.S.C. 301(a) (3)) - duty involving parachute jumping as an essential part of military duty. Payment is a flat \$150 per month, except for duty involving High Altitude Low Opening (HALO) jumps which receive \$225 per month.

Diving duty pay: (37 U.S.C. 304) - a monthly amount not to exceed \$240 paid to officers on active duty assigned to diving duty. Recipients of diving duty pay are required to maintain proficiency as divers and must actually perform diving duty.

Sea pay (37 U.S.C. 305a):

(a) Career sea pay (CSP) - a variable amount paid monthly that ranges from \$50 to \$700 to officers on active duty who are permanently or temporarily serving on a ship, the primary mission of which is accomplished while underway, or while serving as a member of the off crew of a two-crewed submarine; or when serving on a ship, the primary mission of which is accomplished while in port. CSP is earned only during a period that the ship is away from its homeport for 30 consecutive days or more. The FY 2001 National Defense Authorization Act enhanced CSP which increases existing sea pay rates in order to restore incentive values of sea pay and expands CSP to officers with less than three years of sea duty if they are assigned to qualifying sea duty.

(b) Premium sea pay - \$100 per month paid to officers who are entitled to CSP who have served more than 36 consecutive months on sea duty payable on the 37th consecutive month.

Demolition Duty: ((37 U.S.C. 301(a)(4)) - duty involving the demolition of explosives as a primary duty including training for such duty. Payment is a flat \$150 per month.

Separation Pay: Provides for separation payments for reserve component members who either sell back their unused leave or receive payments due to physical disability under 10 USC 1212.

Overseas Station Allowance: (37 U.S.C. 405 and the Joint Travel Regulations) – Provides for payments of a per diem allowance to member and their dependents on duty outside the United States for increased cost of living, housing and temporary lodging allowances.

Naval Special Warfare (NSW) Critical Skills Retention Bonus: (37 U.S.C. 323) - Financial incentive to address the critical shortages of SEAL DOPMA grade officers. Bonus varies based on options for service, either a two or a five year option.

Aviation Career Incentive Pay: ((37 U.S.C. 301(a)) – Financial incentive for members to serve as military aviators throughout a military career. Payment ranges from \$125 to \$840 per month determined by years of aviation service.

Medical/Dental: (37 U.S.C. 302) –

- (a) Medical Variable Special Pay (sec 302(a)) – Monthly payment to medical corps officers on active duty or order to active duty. Amount paid varies with total length of creditable service and ranges from \$1,200 to \$12,000 per year.
- (b) Medical Board Certified Pay (sec 302 (a)) – Monthly payment which varies with length of creditable service paid to medical corps officers who become board certified or re-certified as having successfully met specified post-graduate education, training and experience requirements in a medical or osteopathic specialty. Payment ranges from \$2,500 to \$6,000 per year.
- (c) Medical Incentive Pay (sec 302 (b)) – Up to \$50,000 for medical corps officers below the grade of O7 who meet certain criteria and who agree to remain on active duty for a period of one year and who are not undergoing medical or osteopathic internship, initial residency, subspecialty or fellowship training.

- (d) Dental Variable (sec 302(b)) – Monthly payment to dental corps officers on active duty or on call to active duty. Amount paid varies with total length of creditable service and ranges from \$3,000 to \$12,000 per year.
- (e) Psychologist diplomate/non-physician (sec 302(c)) – Annual amount for medical service corps officers who are health care providers, certified by a professional board of their specialty and awarded a diploma as a diplomate in psychology. Payment ranges from \$2,000 to \$5,000 dependent upon years of creditable service.

Nuclear Officer Incentive Pay: (37 U.S.C. 312, 312b and 312c) - an annual bonus paid to officers below the grade of 07 who are qualified to supervise, operate and maintain nuclear propulsion plants and agree to remain on active duty; or paid to officers who complete nuclear power training.

Responsibility Pay: (37 U.S.C. 306) – Amount which varies by grade payable to officers on active duty serving in Secretary of the Navy designated positions of unusual responsibility which are of a critical nature to the Navy.

CONUS COLA: (37 U.S.C. 403b) – Payment to officers who are assigned to high cost areas in the Continental United States. The amount of COLA payable is the product of spend able income times the difference between the COLA index for the individual's high cost area and the threshold percentage.

Uniform Allowance: (37 U.S.C. 415/416) – Initial clothing allowance paid to officers upon commissioning and active clothing allowance to reserves upon entry or reentry on active duty. Also provides for civilian clothing allowance as authorized by 37 U.S.C. 419.

## **Part II - Justification of Funds Requested**

The projected average number of personnel is based on the total spaces where each type of pay is authorized to meet force structure requirements. Funding requirements are based on the estimated number of officers eligible for each type of payment and rate of payment. The changes in IDP and HDP for FY 2014 reflect the results of a recent review that changed some of the locations that qualify for these pays. Summary cost computations are provided in the following tables:

## Appropriation: Military Personnel, Navy

### Budget Activity 1: Pay and Allowances of Officers

#### Budget Line Item: Special and Incentive Pays and Allowances

**Appropriation: Military Personnel, Navy**

**FY 2014**

**Budget Activity 1: Pay and Allowances of Officers**

**(Amounts in Thousands)**

**Budget Line Item: Social Security Tax**

**\$7,579**

### **Part I - Purpose and Scope**

The funds requested provide for employer's tax to the Social Security Administration as required by the Federal Insurance Contribution Act (FICA).

### **Part II - Justification of Funds Requested**

The FICA tax is developed by multiplying the total earnings for FICA tax purposes by the applicable percent. The Old Age, Survivor, and Disability Insurance (OASDI) rate is 6.2 percent and the Hospital Insurance (HI) rate is 1.45 percent. The maximum amounts of earnings per individual on which tax is payable are:

<u>Calendar Year</u>	<u>OASDI Base</u>	<u>Medicare Base</u>
2012	\$110,100	No Upper Limit
2013	\$113,700	No Upper Limit
2014	\$117,900	No Upper Limit

The funds provide the employer's Social Security Tax payment for mobilized Reserve and Active Component over strength officer personnel. Summary cost computations are provided in the following table:

	FY 2012 Actual			FY 2013 Estimate			FY 2014 Request		
	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>
<b>Total</b>									
Reserve Mobilization	1,251	\$6,417	\$8,028	1,479	\$6,559	\$9,701	1,148	\$6,601	\$7,579
Active Component Overstrength	997	\$6,268	\$6,249						
<b>Total</b>	<b>2,248</b>		<b>\$14,277</b>	<b>1,479</b>		<b>\$9,701</b>	<b>1,148</b>		<b>\$7,579</b>
<b>Total Funded</b>			<b>\$363,655</b>			<b>\$251,237</b>			<b>\$179,368</b>

<b>Appropriation: Military Personnel, Navy</b>	<b>FY 2014</b>
<b>Budget Activity 2: Pay and Allowances of Enlisted</b>	<b>(Amounts in Thousands)</b>
<b>Budget Line Item: Basic Pay</b>	<b>\$108,938</b>

#### **Part I - Purpose and Scope**

The funds requested will provide for the incremental basic compensation and length of service pay increments for mobilized enlisted personnel and active military personnel that are above the baseline strength levels.

#### **Part II - Justification of Funds Requested**

The funds provide the basic compensation for mobilized Reserve and Active Component over strength enlisted personnel. The FY 2014 military pay raise reflects a 1 percent across-the-board pay raise effective January 1, 2014. Summary cost computations are provided in the following table:

	FY 2012 Actual			FY 2013 Estimate			FY 2014 Request		
	Strength	Rate	Amount	Strength	Rate	Amount	Strength	Rate	Amount
<b>Total</b>									
Reserve Mobilization	3,109	\$37,146	\$115,486	4,483	\$36,283	\$162,655	2,851	\$38,212	\$108,938
Active Component Overstrength	2,839	\$33,737	\$95,779						
<b>Total</b>	<b>5,948</b>		<b>\$211,265</b>	<b>4,483</b>		<b>\$162,655</b>	<b>2,851</b>		<b>\$108,938</b>

<b>Appropriation: Military Personnel, Navy</b>	<b>FY 2014</b>
<b>Budget Activity 2: Pay and Allowances of Enlisted</b>	<b>(Amounts in Thousands)</b>
<b>Budget Line Item: Retired Pay Accrual</b>	<b>\$26,690</b>

### **Part I - Purpose and Scope**

The funds requested provide for the Department of Defense's contribution to its Military Retirement Fund, in accordance with 10 U.S.C 1466.

### **Part II - Justification of Funds Requested**

The budget estimates are derived as a product of: (a) The DoD Actuary approved part-time Normal Cost Percentages (NCP) is 24.5 percent of basic pay for FY 2014 for part time (mobilized reserves) and 32.4 percent of basic pay for full time (active component over strength); (b) The total amount of the basic pay expected to be paid during the fiscal year. The funds provide the Retired Pay Accrual payments for mobilized Reserve and Active Component over strength enlisted personnel. The summary cost computations are provided in the following table:

	FY 2012 Actual			FY 2013 Estimate			FY 2014 Request		
	Strength	Rate	Amount	Strength	Rate	Amount	Strength	Rate	Amount
<b>Total</b>									
Reserve Mobilization	3,109	\$9,026	\$28,061	4,483	\$8,853	\$39,688	2,851	\$9,362	\$26,690
Active Component Overstrength	2,839	\$11,572	\$32,853						
<b>Total</b>	<b>5,948</b>		<b>\$60,914</b>	<b>4,483</b>		<b>\$39,688</b>	<b>2,851</b>		<b>\$26,690</b>

**Appropriation: Military Personnel, Navy**

**FY 2014**

**Budget Activity 2: Pay and Allowances of Enlisted**

**(Amounts in Thousands)**

**Budget Line Item: Basic Allowance for Housing (BAH)**

**\$51,780**

### **Part I - Purpose and Scope**

In the FY 1998 National Defense Authorization Act, Congress approved the payment of a Basic Allowance for Housing (BAH) to Servicemembers. The Overseas Housing Allowance (OHA) payment, formerly located in overseas station allowances, moved into this section due to a change in Section 603 of P.L. 105-85, the National Defense Authorization Act for FY 1998. The continental United States, Alaska, and Hawaii BAH is termed BAH Domestic, while the overseas housing allowance is called BAH Overseas. Payment to Servicemembers is authorized by 37 U.S.C. 403.

### **Part II - Justification of Funds Requested**

This program provides a cash allowance to those military personnel not provided with government quarters adequate for themselves and their dependents. This allowance enables such personnel to obtain civilian housing as a substitute. The funds provide the BAH allowance for mobilized Reserve and Active Component over strength enlisted personnel. The summary cost computations are provided in the following table:

	FY 2012 Actual			FY 2013 Estimate			FY 2014 Request		
	Strength	Rate	Amount	Strength	Rate	Amount	Strength	Rate	Amount
<b>Total</b>									
Reserve Mobilization	3,109	\$16,972	\$52,767	4,483	\$16,880	\$75,673	2,851	\$18,163	\$51,780
Active Component Overstrength	2,839	\$16,955	\$48,136						
<b>Total</b>	<b>5,948</b>		<b>\$100,903</b>	<b>4,483</b>		<b>\$75,673</b>	<b>2,851</b>		<b>\$51,780</b>

<b>Appropriation: Military Personnel, Navy</b>	<b>FY 2014</b>
<b>Budget Activity 2: Pay and Allowances of Enlisted</b>	<b>(Amounts in Thousands)</b>
<b>Budget Line Item: Special and Incentive Pays and Allowances</b>	<b>\$28,853</b>

### Part I - Purpose and Scope

The funds requested provide for payments to enlisted personnel for the following special pays:

Family Separation Allowance: Paid at the rate of \$250 per month to members with dependents who are on duty away from home for a period of more than 30 continuous days (37 U.S.C. 427).

Hostile Fire/Imminent Danger Pay (IDP): Prior to Dec. 31, 2011, members eligible for IDP were paid the full monthly rate of \$225 for any complete or partial month they served in a qualifying area. The 2012 National Defense Authorization Act modified IDP payments, limiting eligibility to only the actual days served in a qualifying area. Now service members will receive \$7.50 for each day they are on official duty in an IDP area up to the maximum monthly rate of \$225. The monthly rate is paid to members who serve an entire calendar month in an IDP area regardless of the number of individual days in that month.

Hardship Duty Pay: The monthly rate may *not exceed* \$1,500 per month. The funds requested provide additional payment to enlisted personnel performing duty in a location that is designated by The Secretary of Defense as hardship duty (37 U.S.C. 305).

Foreign Language Proficiency Pay (FLPP): (37 U.S.C. 316) - a bonus not to exceed \$1000/mo paid to individuals certifying in languages identified on the DoD Strategic Language List. Certification must be renewed via testing annually to maintain eligibility. This pay increases language capacity and readiness across the active and reserve components by encouraging members to identify their skill and improve their proficiency.

Assignment Incentive Pay (AIP): The monthly rate *may not exceed* \$3,000 per month. The funds requested provide additional payment to personnel performing duty in assignments that is designated by the Secretary of Defense difficult to fill (37 U.S.C. 307a).

Parachute: (37 U.S.C. 301(a) (3)) - duty involving parachute jumping as an essential part of military duty. Payment is a flat \$150 per month, except for duty involving High Altitude Low Opening (HALO) jumps which receive \$225 per month.

Diving duty pay: (37 U.S.C. 304) - a monthly amount not to exceed \$240 paid to officers on active duty assigned to diving duty. Recipients of diving duty pay are required to maintain proficiency as divers and must actually perform diving duty.

Sea pay (37 U.S.C. 305a):

(a) Career sea pay (CSP) - a variable amount paid monthly that ranges from \$50 to \$700 to officers on active duty who are permanently or temporarily serving on a ship, the primary mission of which is accomplished while underway, or while serving as a member of the off crew of a two-crewed submarine; or when serving on a ship, the primary mission of which is accomplished while in port. CSP is earned only during a period that the ship is away from its homeport for 30 consecutive days or more. The FY 2001 National Defense Authorization Act enhanced CSP which increases existing sea pay rates in order to restore incentive values of sea pay and expands CSP to officers with less than three years of sea duty if they are assigned to qualifying sea duty.

(b) Premium sea pay - \$100 per month paid to officers who are entitled to CSP who have served more than 36 consecutive months on sea duty payable on the 37th consecutive month.

Demolition Duty: (37 U.S.C. 301(a)(4)) - duty involving the demolition of explosives as a primary duty including training for such duty. Payment is a flat \$150 per month.

Uniform Allowance: (37 U.S.C. 418) – Payments cover initial clothing upon enlistment or promotion to E7 and civilian clothing allowance when authorized by competent orders. Payments also cover basic maintenance allowances and supplementary clothing allowances as authorized.

Flying Duty: (37 U.S.C. 301 (a) (1) and (2)) – Payments for both crew and non-crew members for performance of hazardous duty involving frequent and regular aerial flight and to induce members to volunteer for and remain in flying duty assignments. Payments range from \$125 to \$250 per month for crew members and from \$110 to \$150 per month for non crew members.

Special Duty Assignment Pay: (37 U.S.C. 307 - Payment to enlisted personnel to obtain a sufficient number of qualified volunteers to sustain adequate manning levels in designated special duty assignments.

CONUS COLA: (37 U.S.C. 403b) – Payment to enlisted who are assigned to high cost areas in the Continental United States. The amount of COLA payable is the product of spend able income times the difference between the COLA index for the individual's high cost area and the threshold percentage.

Overseas Station Allowance: (37 U.S.C. 405) – Per diem allowance paid to members and their dependents on duty outside the United States for increased cost of living, housing and temporary lodging allowances.

Aid and Attendance Allowance for Catastrophically Injured: (37 U.S.C 439) – Allowance paid to Enlisted who require regular aid and attendance during and after hospitalization as a result of injuries sustained in combat or in a combat-related event.

Separation Pay: Provides for separation payments for reserve component members who either sell back their unused leave or receive payments due to physical disability under 10 USC 1212. (Includes Wounded, Ill and Injured)

## **Part II - Justification of Funds Requested**

The projected average number of personnel is based on the total spaces where each type of pay is authorized to meet force structure requirements. Funding requirements are based on the estimated number of officers eligible for each type of payment and rate of payment. The changes in IDP and HDP for FY 2014 reflect the results of a recent review that changed some of the locations that qualify for these pays. Summary cost computations are provided in the following tables:

## Appropriation: Military Personnel, Navy

<b>Total</b>	<b>5,948</b>		<b>\$16,166</b>	<b>4,483</b>		<b>\$12,443</b>	<b>2,851</b>		<b>\$8,334</b>
 <b>Total Funded</b>			 <b>\$490,185</b>			 <b>\$410,669</b>			 <b>\$224,595</b>

<b>Appropriation:</b> Military Personnel, Navy	<b>FY 2014</b>
<b>Budget Activity 4:</b> Subsistence of Enlisted Personnel	<b>(Amounts in Thousands)</b>
<b>Budget Line Item:</b> Basic Allowance for Subsistence/Subsistence-in-Kind	<b>\$35,315</b>

### **Part I - Purpose and Scope**

The funds requested for this budget activity are for the payment of authorized Basic Allowances for Subsistence (BAS) and Subsistence-in-Kind (SIK). Subsistence-in-Kind includes the cost of procuring subsistence for garrison dining facilities (Subsistence in Messes), operational rations, and augmentation rations. The Navy provides subsistence at Camp Lemonier, Djibouti as well as various satellite messes of Camp Lemonier. The Marine Corps transferred management of Camp Lemonier, Djibouti to the Navy as of October 1, 2006. The Army transferred responsibility for galley operations at ISA Air Base, Bahrain to the Navy as of November 11, 2010. The funds requested will continue to finance subsistence of personnel stationed at Camp Lemonier and ISA Air Base.

**Basic Allowance for Subsistence** is linked to the Department of Agriculture (DoA) food plan indices. All enlisted members (except recruits and holdees) are entitled to BAS. Members continue to receive BAS while deployed.

**Subsistence-in-Messes** is the cost of bulk subsistence for dining facilities operated in support of OEF. This requirement is dependent on the number of personnel using the dining facilities and the cost of food. This is an additional cost above the BAS since members are authorized to continue receiving their BAS even though food is provided in theater.

**Operational Rations** are rations used for field subsistence. Operational rations include the Meal-Ready-to Eat (MRE), Unitized Group Rations (UGR) that include “heat and serve” and A-ration varieties, and other operational rations, such as Cold Weather Rations. The SIK funds the cost of operational rations for both officers and enlisted sailors. The number of active duty personnel and the type of operational rations served determine costs for operational rations.

**Appropriation: Military Personnel, Navy****Budget Activity 4: Subsistence of Enlisted Personnel****Budget Line Item: Basic Allowance for Subsistence/Subsistence-in-Kind****Part II - Justification of Funds Requested**

This budget activity includes the Basic Allowance for Subsistence (BAS) paid to the mobilized enlisted sailor. The BAS is paid under the following conditions: (1) when authorized to mess separately, (2) while on authorized leave, and (3) when subsistence-in-kind is not available. All mobilized sailors are paid their full BAS entitlement. Funds provide for incremental subsistence costs for personnel supporting OEF. Summary cost computations are provided in the following table:

Enlisted BAS <u>Total</u>	FY 2012 Actual			FY 2013 Estimate			FY 2014 Request		
	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>
Reserve Mobilization	3,109	\$4,001	\$12,440	4,483	\$4,288	\$19,223	2,851	\$4,335	\$12,359
Active Component Overstrength	2,839	\$3,868	\$10,981						
<b>Total</b>	<b>5,948</b>		<b>\$23,421</b>	<b>4,483</b>		<b>\$19,223</b>	<b>2,851</b>		<b>\$12,359</b>

**Appropriation: Military Personnel, Navy****Budget Activity 4: Subsistence of Enlisted Personnel****Budget Line Item: Basic Allowance for Subsistence/Subsistence-in-Kind**

Subsistence-In-Kind (SIK)	FY 2012 Actual			FY 2013 Estimate			FY 2014 Request

Subsistence in Messes	5,522	\$4,158	\$22,960	5,557	\$4,615	\$25,647	5,240	\$4,381	\$22,956
Total	5,522		\$22,960	5,557		\$25,647	5,240		\$22,956
Total Subsistence of Enlisted Personnel		\$46,381			\$44,870				\$35,315

## **PERMANENT CHANGE OF STATION**

**INTENTIONALLY  
BLANK**

<b>Appropriation:</b> Military Personnel, Navy	<b>FY 2014</b>
<b>Budget Activity 5: Permanent Change of Station (PCS)</b>	<b>(Amounts in Thousands)</b>
<b>Budget Line Item: Permanent Change of Station (PCS)</b>	<b>\$11,455</b>

### **Part I – Purpose and Scope**

The Permanent Change of Station (PCS) program pays for travel, transportation, storage, and dislocation allowances for reassignment of military members and their families traveling individually or as part of an organized unit in support of Operation Enduring Freedom (OEF). Costs are for the dislocation allowance, shipment of household goods, temporary and non-temporary storage of household goods, temporary lodging expense, and member mileage and per diem.

### **Part II – Justification of Funds Requested**

Accession moves are necessary to ensure the Navy meets increase in strength requirements and distributes the correct grade and skill mix for Sailors deploying in support of OCO. There are also increased costs for moves to support transition teams and deploying personnel to Afghanistan. These moves fully man deploying units to authorized strength levels and provide military advisors to the Afghanistan government. Additional moves are also required to reset the forces in support of deploying units for OEF, moves for Sailors retained due to specialized skills, and Sailors separating after returning from deployment. Summary cost computations are provided in the following table:

**Appropriation: Military Personnel, Navy****Budget Activity 5: Permanent Change of Station (PCS)****Budget Line Item: Permanent Change of Station (PCS)**

	FY 2012 Actual			FY 2013 Estimate			FY 2014 Request		
	Strength	Rate	Amount	Strength	Rate	Amount	Strength	Rate	Amount
<b>Total</b>									
Accession Moves	2,152	\$1,870	\$4,024	2,146	\$1,907	\$4,092	1,579	\$1,946	\$3,071
Operational Moves	1,667	\$6,457	\$10,765	3,283	\$6,642	\$21,807	201	\$6,718	\$1,353
Rotational Moves	1,926	\$13,764	\$26,505	2,084	\$13,386	\$27,897	179	\$14,320	\$2,559
Separation Moves	1,695	\$2,558	\$4,337	1,154	\$2,745	\$3,168	1,680	\$2,661	\$4,472
<b>Total</b>	<b>7,440</b>		<b>\$45,631</b>	<b>8,667</b>		<b>\$56,964</b>	<b>3,639</b>		<b>\$11,455</b>

## **CASUALTY AND DISABILITY BENEFITS**

**INTENTIONALLY  
BLANK**

<b>Appropriation: Military Personnel, Navy</b>	<b>FY 2014</b>
<b>Budget Activity 6: Other Military Personnel Costs</b>	<b>(Amounts in Thousands)</b>
<b>Budget Line Item: Casualty and Disability Benefits</b>	<b>\$45,443</b>

### **Part I – Purpose and Scope**

The Servicemembers' Group Life Insurance (SGLI) program is a low cost group life insurance for Servicemembers on active duty. These payments are required, under section 1969(b) of title 38, United States Code, when actual mortality rates exceed peacetime mortality rates. The Traumatic Servicemembers' Group Life Insurance (SGLI) provides automatic traumatic injury coverage to all Servicemembers covered under the SGLI program. Every member who has SGLI also has T-SGLI, effective December 1, 2005. Funding is for SGLI/T-SGLI insurance premiums that the Department of Defense pays on behalf of Servicemembers. Funding for Death Gratuity (Combat Deaths) is for payments to survivors of members while dying on active duty.

### **Part II – Justification of Funds Requested**

The funds are required to make extra hazard payment to the Department of Veterans Affairs to finance the increased number of SGLI death claims for policy year 2013, which is not on a fiscal year (policy year based on July 1 – June 30). The average claim in policy year 2010 was \$383,663 and is expected to remain at that level for policy year 2011 and 2012. Funds are also required to make benefit payments to military personnel who incur a traumatic injury in support of Operation Enduring Freedom (OEF). Section 606 of the FY 2007 National Defense Authorization Act directs the Department to pay the full premium for coverage under Servicemembers' Group Life Insurance program during service in OEF. This amount the Department pays is \$27.00 per month for each member.

**Appropriation: Military Personnel, Navy****Budget Activity 6: Other Military Personnel Costs****Budget Line Item: Casualty and Disability Benefits**

	FY 2012 Actual			FY 2013 Estimate			FY 2014 Request		
	Strength	Rate	Amount	Strength	Rate	Amount	Strength	Rate	Amount
<b>Total</b>									
SGLI			\$27,776			\$34,720			\$22,323
T-SGLI Prospective			\$10,416			\$12,499			\$12,564

SGLI/T-SGLI Insurance Premium	25,938	\$324	\$8,404	22,218	\$324	\$7,199	28,876	\$324	\$9,356
Death Gratuity (Combat Deaths)	12	\$100,000	\$2,200	9	\$100,000	\$900	12	\$100,000	\$1,200
<b>Total</b>			<b>\$69,156</b>			<b>\$55,363</b>			<b>\$45,443</b>

## **ADDITIONAL MOBILIZATION/DEPLOYMENT COSTS**

**INTENTIONALLY  
BLANK**

<b>Appropriation: Military Personnel, Navy</b>	<b>FY 2014</b>
<b>Budget Activity 6: Other Military Personnel Costs</b>	<b>(Amounts in Thousands)</b>
<b>Budget Line Item: Additional Mobilization/Deployment Costs</b>	<b>\$62,168</b>

### **Part I – Purpose and Scope**

Unemployment benefits are for payments to ex-Servicemembers who are discharged or released under honorable conditions as prescribed in paragraph (1) of section 8521(a) of Title 5, United States Code as amended by Section 301, PL. 102-164. The Reserve Income Replacement Program (RIRP), authorized in the FY 2006 NDAA, authorized the payment to members of the reserves who are involuntarily mobilized and experiencing a monthly active duty income differential as a result of extended or frequent mobilizations.

Public Law 111-32, Section 310 appropriated \$534.4 million in FY 2009 supplemental appropriations to make payment of claims to members of the Armed Forces, including members of the reserve components, and former and retired members under the jurisdiction of the Secretary who, at any time during the period beginning on September 11, 2001, and ending on September 30, 2009, served on active duty while the members' enlistment or period of obligated service was extended, or whose eligibility for retirement was suspended, pursuant to section 123 or 12305 of title 10, United States Code, or any other provision of law (commonly referred to as a "stop-loss authority") authorizing the President to extend an enlistment or period of obligated service, or suspend an eligibility for retirement, of a member of the uniformed services in time of war or of national emergency declared by Congress or the President.

### **Part II – Justification of Funds Requested**

Eligibility for unemployment benefits is defined as active service in the armed forces where upon an individual was discharged under honorable conditions and had completed their first full term of active service; or was discharged before completing their first term under an early release program, because of hardship, for medical reasons, or for personality disorders, or ineptitude (but only if the service was continuous for 365 days or more). These increased costs are primarily the result of Reserve Component mobilization. Payment for RIRP is up to \$3,000 per month. The amount of Stop-Loss Retroactive Pay to be paid to or on behalf of an eligible member, retired member, or former member described above shall be \$500 per month for each month or portion of a month during the period specified above that the member was retained on active duty as a result of application of the stop-loss authority. Section 310 stated that the military departments may not pay claims that are submitted more than 1 year after the date on which the implementing rules for claims take effect. The program should have expired on October 21, 2010; however, the deadline was extended several times under the Continuing Resolutions in FY 2011. Public Law 112-10, of April 15, 2011, extended the claim submission deadline until

October 21, 2011. At this time, no new claims can be submitted for consideration. These funds are available for obligation until expended on claims received prior to the deadline, but not yet processed for payment.

The Navy's share of the \$534.4 million for this program is **\$2.870** million. FY 2012 obligations were **\$38** thousand.

**Appropriation: Military Personnel, Navy****Budget Activity 6: Other Military Personnel Costs****Budget Line Item: Additional Mobilization/Deployment Costs**

MOBILIZATION TRAINING**

**INTENTIONALLY  
BLANK**

<b>Appropriation: Reserve Personnel, Navy</b>	<b>FY 2014</b>
<b>Budget Activity 1: Reserve Component Training and Support</b>	<b>(Amounts in Thousands)</b>
<b>Budget Line Item: Special Training</b>	<b>\$18,100</b>

#### **Part I - Purpose and Scope**

The funds requested will provide pay and allowances for Navy Reservists performing Active Duty for Training (ADT) in support of OCO mission-related operations as part of Operation Enduring Freedom (OEF). FY14 ADT man-days support Navy Expeditionary Combat Command, Commander Navy Air Force Reserve and other contributory support.

Yellow Ribbon Reintegration Program (YRRP): Section 582 of the FY 2008 National Defense Authorization Act directs the establishment of "a national combat veteran reintegration program to provide National Guard and Reserve members and their families with sufficient information, services, referral and proactive outreach opportunities through the entire deployment cycle." The pre deployment phase (from first notification of mobilization until deployment) focuses on educating members, families and affected communities on combat deployment. The post-deployment phase (from arrival at home station until 180 days following demobilization) consists of reintegration activities at the 30-60-90 day interval after unit demobilization. The focus is on reconnecting members and their families with the service providers (i.e. TRICARE, Judge Advocate General (JAG), Department of Veterans Affairs, etc.) to ensure a clear understanding of the entitled benefits. YRRP program achieved maturity in FY12 resulting in improved forecasting of actual requirements. FY14 budget request is based on forecasted Ready Mobilization Pool requirements and historical execution.

## **Part II - Justification of Funds Requested**

The FY14 OCO request for ADT (Special Training) will provide Navy Reserve operational support directly to Navy commands conducting OCO mission-related training and operations. Costs are determined by using an average cost per man-day; the unit of strength in the table below is Reserve man-days.

The FY14 OCO request for YRRP supports the members' pay and allowances and travel costs for reintegration training through pre and post deployment phases. The rates are a composite of officer/enlisted daily costs per person per manday. The summary cost computations are provided in the following table:

	FY 2012 Actual			FY 2013 Estimate			FY 2014 Estimate		
	Mandays	Rate	Amount	Mandays	Rate	Amount	Mandays	Rate	Amount
<b>Total</b>									
Active Duty for Training (Special Training)	66,690	\$461	\$30,744	68,604	\$470	\$32,244	35,406	\$478	\$16,924
Yellow Ribbon Reintegration Program	3,723	\$372	\$1,385	4,140	\$379	\$1,569	3,047	\$386	\$1,176
<b>Total</b>	70,413		\$32,129	72,744		\$33,813	38,453		\$18,100

<b>Appropriation: Reserve Personnel, Navy</b>	<b>FY 2014</b>
<b>Budget Activity 1: Reserve Component Training and Support</b>	<b>(Amounts in Thousands)</b>
<b>Budget Line Item: School Training</b>	<b>\$1,753</b>

### **Part I - Purpose and Scope**

The funds requested provide Active Duty for Training periods for Navy Reserve officers and enlisted personnel to attend service and other professional schools for training and development in their designators and ratings. These training opportunities provide strategic depth and deliver operational capabilities to ensure Navy Reservists are ready to meet mission-critical, OCO mobilization requirements. The FY13 estimates are based on prior year execution trends. FY14 budget request is based on forecasted Ready Mobilization Pool requirements.

### **Part II - Justification of Funds Requested**

The budget estimates are derived from the estimated number of school attendees multiplied by the expected cost per student. The summary cost computations are provided in the following table:

	<b>FY 2012 Actual</b>			<b>FY 2013 Estimate</b>			<b>FY 2014 Estimate</b>		
	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>
<b>Total</b>									
Active Duty for Training (Schools)	343	\$15,348	\$5,264	253	\$15,676	\$3,966	110	\$15,936	\$1,753
<b>Total</b>	343		\$5,264	253		\$3,966	110		\$1,753

**Appropriation: Reserve Personnel, Navy**

**FY 2014**

**Budget Activity 1: Reserve Component Training and Support**

**(Amounts in Thousands)**

**Budget Line Item: Administration and Support**

**\$385**

### **Part I - Purpose and Scope**

The funds requested will provide for the special pay and allowances and Permanent Change of Station (PCS) benefits for Full Time Support (FTS) Navy Reservists performing active duty in support of Navy OCO mission requirements in Operation Enduring Freedom (OEF).

### **Part II - Justification of Funds Requested**

The requested funding will support FTS Navy Reserve officers and enlisted personnel who are assigned in support of OCO mission requirements and who are entitled to Imminent Danger Pay (IDP), Hardship Duty Pay (HDP), and Permanent Change of Station (PCS) benefits. IDP provides special pay to FTS officers and enlisted personnel who are assigned to designated areas in support of OCO requirements. HDP provides special pay to FTS officers and enlisted who are assigned to designated hardship locations in support of OCO requirements. These pays are directly associated with the OCO and will cease to be a requirement when the OCO ends. Therefore, these pays are included in this OCO request. The decreases in IDP and HDP reflect the results of a recent review that changed some of the locations that qualify for these pays. The PCS benefit is related to those FTS Sailors that execute an operational PCS move directly as a result of OCO. The summary cost computations are provided in the following table:

	<b>FY 2012 Actual</b>			<b>FY 2013 Estimate</b>			<b>FY 2014 Estimate</b>

## MILITARY PERSONNEL OVERVIEW

The FY 2014 Overseas Contingency Operations (OCO) Request provides funds so that the United States may continue its security stabilization efforts in Afghanistan and the global fight against terrorism. These deployments are in addition to the daily military operations around the globe. Without additional funds in FY 2014, the Marine Corps would have to use funds from their readiness and investment accounts to finance the continuing costs of military operations. In FY 2014, Marine Corps military personnel costs for deployment costs and reserve mobilization are expected to average about \$31.8 million per month for Operation Enduring Freedom (OEF). Absorbing costs of this magnitude would seriously degrade combat operations and would weaken the nation's ability to react to future threats.

This request includes \$1,071.2 million for Marine Corps military personnel costs as shown in the following tables:

Summary by Appropriation	FY 2012 Total Actual	FY 2013 Total Request*	FY 2014 Total Request**
Military Personnel, Marine Corps	\$546,763	\$1,621,356	\$1,019,322
Reserve Personnel, Marine Corps	\$17,927	24,722	\$15,134

<b>Total Military Personnel</b>	<b>\$1,056,082</b>	<b>\$15,134</b>	<b>\$1,071,216</b>

The following table reflects mobilization and deployment assumptions. Mobilization numbers include personnel deployed to theater as well as personnel remaining in CONUS supporting OEF.

	<b>Average strength FY 2012 Total</b>	<b>Average strength FY 2013 Total</b>	<b>Average strength FY 2014 Total</b>
Active Marine Corps Deployment (IDP)	20,585	15,546	5,521
Marine Corps Reserve Mobilization	4,566	4,096	2,850
<b>Total</b>	<b>25,151</b>	<b>19,642</b>	<b>8,371</b>
Temporary End Strength	-	<b>17,679</b>	<b>9,787</b>

In response to the terrorist attacks on the United States on September 11, 2001, the President invoked his authority (10 U.S.C 12302) to order to active duty Ready Reserve members and delegated his authority to the Secretary of Defense in Proclamation 7463 of September 14, 2001. This declaration of national emergency has been extended, thereby continuing the authority to order to active duty Ready Reserve members. In order to sustain current military operations, funding is requested to finance the incremental costs (i.e., pay, allowances, subsistence, and other personnel costs) for personnel mobilized for duty in support of OEF.

The Marine Corps' military personnel requirement of \$1,071.2 million is comprised of the following major costs:

#### **Temporary End Strength Costs (\$690.2 million)**

- Personnel-related costs for additional Marine Corps military personnel maintained on active duty above the normal strength levels of 182,100 in FY 2014 to sustain the readiness levels of deploying units. The Marine Corps anticipates ending FY 2014 with end strength of 190,200.

#### **Reserve Mobilization/Active Deployment Costs (\$297.4 million)**

- Basic military pay and entitlements (e.g., Basic Allowance for Housing (BAH), retired pay accrual and social security contributions, incentive pays, etc.) for Reserve members on active duty to provide essential military operation support or backfill for those active personnel deployed overseas in support of OEF.
- Special Pays for Mobilized Reserve Personnel:
  - Hostile Fire Pay/Imminent Danger Pay (IDP) (\$7.50 per day up to a maximum of \$225 per month)
  - Family Separation Allowance (FSA) (\$250 per month)
  - Hardship Duty Pay (HDP) (\$100 per month when received in conjunction with Hostile Fire Pay/Imminent Danger Pay)
- Subsistence for all Reserve Component members in support of OEF.
- Stop Loss Retroactive Pay: payments paid to or on behalf of an eligible member, retired member, or former member (see page 27).

#### **Additional Mobilization and Deployment Cost (\$38.7 million)**

- Includes Unemployment Compensation Benefits for ex-service members who are discharged or released under honorable conditions.
- Includes interest paid on the Savings Deposit Program.

#### **Casualty and Disability Benefits (\$29.8 million)**

- Reimbursement of SGLI/T-SGLI insurance premiums to deployed Marines. (**\$1.4 million**).
- Reimbursement to the Department of Veterans Affairs for Service members' Group Life Insurance (SGLI) and Traumatic Service member's Group Life Insurance (T-SGLI) claims directly associated with contingency operations (**\$21.4 million**).
- Death Gratuity payments to survivors of members dying on active duty (**\$7.0 million**).

#### **Pre and Post Mobilization Training (\$15.1 million)**

- Basic pay and allowance costs for a surge in training of members in alerted Reserve units prior to mobilization and post deployment training to re-certify skills not utilized during extended deployments.

## **RESERVE MOBILIZATION AND ACTIVE DEPLOYMENT**

**INTENTIONALLY  
BLANK**

**Appropriation: Military Personnel, Marine Corps**  
**Budget Activity 1: Pay and Allowances of Officers**  
**Budget Line Item: Basic Pay**

**FY 2014**  
**(\$ in Thousands)**  
**\$143,065**

#### **Part I - Purpose and Scope**

The funds requested will provide for the incremental basic compensation for mobilized Reserve officers and active military personnel that are temporarily above the baseline strength levels.

#### **Part II - Justification of Funds Required**

The request provides the basic compensation for mobilized Reserve officer personnel and temporary end strength active officer personnel. The FY 2014 military pay raise reflects a 1.0 percent across-the-board pay raise effective January 1, 2014.

Detailed cost computations are provided in the following table:

<b>Total</b>	<b>FY 2012 Actual</b>			<b>(In Thousands) FY 2013 Estimate</b>			<b>FY 2014 Estimate</b>		
	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>

**Appropriation: Military Personnel, Marine Corps**  
**Budget Activity 1: Pay and Allowances of Officers**  
**Budget Line Item: Retired Pay Accrual**

**FY 2014**  
**(\$ in Thousands)**  
**\$41,321**

#### **Part I - Purpose and Scope**

The funds requested provide for the Department of Defense's contribution to its Military Retirement Fund, in accordance with 10 U.S.C 1466.

#### **Part II - Justification of Funds Requested**

The budget estimates are derived as a product of: (a) The DoD Actuary approved part-time Normal Cost Percentages (NCP) rate of 24.5 percent and full-time NCP rate of 32.4 percent for FY 2014. (b) The total amount of the basic pay expected to be paid during the fiscal year.

The funds provide the Retired Pay Accrual payments for mobilized Reserve officer personnel and temporary end strength active officer personnel. The summary cost computations are provided in the following table:

<b>Total</b>	<b>FY 2012 Actual</b>			<b>(In Thousands)</b> <b>FY 2013 Estimate</b>			<b>FY 2014 Estimate</b>		
	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>

Temporary End Strength	-	-	-	2,176	\$21,893.62	\$47,641	1,314	\$19,567.46	\$25,712
<b>Total</b>	<b>736</b>		<b>\$15,361</b>	<b>2,909</b>		<b>\$61,932</b>	<b>2,034</b>		<b>\$41,321</b>

**Appropriation: Military Personnel, Marine Corps**  
**Budget Activity 1: Pay and Allowances of Officers**  
**Budget Line Item: Basic Allowance for Housing (BAH)**

**FY 2014**  
**(\$ in Thousands)**  
**\$48,408**

#### **Part I - Purpose and Scope**

In the FY 1998 National Defense Authorization Act, Congress approved the payment of a Basic Allowance for Housing (BAH) to service members. The Overseas Housing Allowance (OHA) payment, formerly located in overseas station allowances, moved into this section due to a change in Section 603 of P.L. 105-85, the National Defense Authorization Act for FY 1998. The continental United States, Alaska, and Hawaii BAH is termed BAH Domestic, while the overseas housing allowance is called BAH Overseas. Payment to service members is authorized by 37 U.S.C. 403. The BAH inflation annualized rate for FY 2014 is 4.2 percent.

#### **Part II - Justification of Funds Requested**

This program provides a cash allowance to those military personnel not provided with government quarters adequate for themselves and their dependents. This allowance enables such personnel to obtain civilian housing as a substitute.

The funds provide the BAH allowance for mobilized Reserve personnel and temporary end strength active officer personnel. The summary cost computations are provided in the following table:

	(In Thousands)								
	FY 2012 Actual			FY 2013 Estimate			FY 2014 Estimate		
	Strength	Rate	Amount	Strength	Rate	Amount	Strength	Rate	Amount
<b>Total</b>									
Reserve Mobilization	473	\$26,823.49	\$12,688	733	\$28,422.16	\$20,833	720	\$29,466.11	\$21,216

<b>Total BAH</b>			<b>\$20,198</b>			<b>\$70,235</b>			<b>\$48,408</b>

<b>Appropriation: Military Personnel, Marine Corps</b>	<b>FY 2014</b>
<b>Budget Activity 1: Pay and Allowances of Officers</b>	<b>(\$ in Thousands)</b>
<b>Budget Line Item: Basic Allowance for Subsistence (BAS)</b>	<b>\$6,073</b>

#### **Part I - Purpose and Scope**

The funds requested will provide for subsistence allowance authorized by 37 U.S.C. 402.

#### **Part II - Justification of Funds Requested**

All officers, regardless of dependency status and pay grade, are paid a monthly Basic Allowance for Subsistence (BAS) at the same statutory rate. The BAS inflation rate for FY 2014 is 3.4 percent.

The funds provide the BAS allowance for mobilized Reserve personnel and temporary end strength active officer personnel. Summary cost computations are provided in the following table:

	<u>FY 2012 Actual</u>			<u>(In Thousands)</u>			<u>FY 2013 Estimate</u>			<u>FY 2014 Estimate</u>		
	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>

<b>Total</b>	<b>736</b>		<b>\$2,073</b>	<b>2,909</b>		<b>\$8,590</b>	<b>2,034</b>					<b>\$6,073</b>

<b>Appropriation: Military Personnel, Marine Corps</b>	<b>FY 2014</b>
<b>Budget Activity 1: Pay and Allowances of Officers</b>	<b>(\$ in Thousands)</b>
<b>Budget Line Item: Special and Incentive Pays and Allowances</b>	<b>\$8,275</b>

#### **Part I - Purpose and Scope**

The funds requested provide for payments to officers for the following special pays:

**Family Separation Allowance (FSA):** (37 U.S.C. 427) – Paid at the rate of \$250 per month to members with dependents who are on duty away from home for a period of more than 30 continuous days.

**Hostile Fire/Imminent Danger Pay (IDP):** (37 U.S.C. 310) – Paid at the rate of \$7.50 per day, up to a maximum of \$225 per month, to personnel subject to hostile fire or in an area in which they are in imminent danger of being exposed to hostile fire.

**Hardship Duty Pay (HDP):** (37 U.S.C. 305) – Paid at the rate of \$100 per month, when received in conjunction with Hostile Fire Pay/Imminent Danger Pay, to personnel performing duty in a location that is designated by The Secretary of Defense as hardship duty.

**Aviation Career Incentive Pay:** (37 U.S.C. 301(a)) – Financial incentive for members to serve as military aviators throughout a military career.

**Foreign Language Proficiency:** (37 U.S.C. 316) – Duty performed requiring proficiency in a foreign language identified by the Secretary concerned.

**Assignment Incentive Pay:** (37 U.S.C. 307(a)) – Duty performed in an assignment designated by the Secretary concerned.

**Flight Deck Duty:** (37 U.S.C. 301) – To provide additional payment for personnel involved in frequent and regular participation in aerial flights.

**Parachute:** (37 U.S.C. 301(a) (3)) – Duty involving parachute jumping as an essential part of military duty. Payments are either \$150 or \$225 per month.

**Diving Duty Pay:** (37 U.S.C. 304) – A monthly amount paid to personnel assigned to diving duty. Recipients of diving duty pay are required to maintain proficiency as divers and must actually perform diving duty.

**Career Sea Pay:** (37 U.S.C. 305(a)) – To provide additional payment of career sea pay (CSP) or career sea pay premium (CSP-P) to personnel for duty performed while serving on sea duty.

**Uniform Allowance:** (37 U.S.C. 415/416) – Initial clothing allowance paid to officers upon commissioning and active clothing allowance to reserve upon entry or reentry on active duty. Also provides for civilian clothing allowance as authorized by 37 U.S.C.

**Overseas Station Allowance:** (37 U.S.C. 405) – Provides for payments of a per diem allowance to member and their dependents on duty outside the United States for increased cost of living, housing and temporary lodging.

**CONUS Cola:** (37 U.S.C. 403b) – Payment to officers who are assigned to high cost areas in the Continental United States. The amount of COLA payable is the product of spend able income times the difference between the COLA index for the individual's high cost area and the threshold percentage.

**High Altitude Low Opening (HALO):** (37 U.S.C. 301) – To provide additional payment for personnel who perform parachute jumps at altitudes higher than 10,000 feet and free fall to low altitudes before parachute opening.

#### **Part II - Justification of Funds Requested**

The projected average number of personnel is based on the total spaces where each type of pay is authorized to meet force structure requirements. Funding requirements are based on the estimated number of officers eligible for each type of payment and rate of payment. Summary cost computations are provided by the following tables:

**Appropriation: Military Personnel, Marine Corps****FY 2014****Budget Activity 1: Pay and Allowances of Officers****(\$ in Thousands)****Budget Line Item: Special and Incentive Pays and Allowances****\$3,108**

The projected average number of personnel is based on the total spaces where each type of pay is authorized to meet force structure requirements. Funding requirements are based on the estimated number of officers eligible for each type of payment and rate of payment.

Summary cost computations are provided by the following tables:

<b>Mobilized Reserve Total</b>	<b>FY 2012 Actual</b>			<b>(In Thousands)</b>			<b>FY 2014 Estimate</b>

**FY 2014**

**Budget Activity 1: Pay and Allowances of Officer**

**(\$ in Thousands)**

**Budget Line Item: Separation Pay**

**\$43,118**

### **Part I - Purpose and Scope**

The funds requested provide for separation payments to officer personnel for the following pay and allowances:

Severance Pay: Payments to personnel who are separated due to a service connected disability and have a disability rating of less than 30% (10 U.S.C. 1212).

Accrued Leave: Unused accrued leave paid to members discharged from active duty under honorable conditions (37 U.S.C. 501).

Involuntary Separation Pay (ISP): Payment to members, who have served more than 6 but less than 20 years of active duty, who are involuntarily separated from active service (10 U.S.C. 1174).

Voluntary Separation Pay (VSP): Financial incentive for members, who have served more than 6 but less than 20 years of active duty, to voluntarily separate from active service (10 U.S.C. 1175).

Temporary Early Retirement Authority (TERA): Provides voluntary early retirement, at a reduced amount, to members who have served at least 15 but less than 20 years of active duty (10 U.S.C. 1293).

Lump Sum Leave (LSL): Unused accrued leave paid to members separating under VSP and TERA provisions (37 U.S.C. 501).

### **Part II - Justification of Funds Requested**

The funds requested will provide for separation pay and allowances for mobilized Reserve officers and active military personnel that are temporarily above the baseline strength levels. Summary cost computations are provided in the following table:

	<b>FY 2012 Actual</b>			<b>(In Thousands)</b>			<b>FY 2013 Estimate</b>			<b>FY 2014 Estimate</b>

**Budget Line Item: Social Security Tax**

**FY 2014**  
**(\$ in Thousands)**  
**\$10,937**

### **Part I - Purpose and Scope**

The funds requested provide for employer's tax to the Social Security Administration as required by the Federal Insurance Contribution Act (FICA).

### **Part II - Justification of Funds Requested**

The FICA tax is developed by multiplying the total earnings for FICA tax purposes by the applicable percent. The Old Age, Survivor, and Disability Insurance (OASDI) rate is 6.2 percent and the Hospital Insurance (HI) rate is 1.45 percent. The maximum amounts of earnings per individual on which tax is payable are:

<u>Calendar year</u>	<u>OASDI Base</u>	<u>Medicare Base</u>
2012	\$110,100	No upper limit
2013	\$113,700	No upper limit
2014	\$117,900	No upper limit

The funds provide the employer's Social Security Tax payment for mobilized Reserve officer personnel and temporary end strength active officer personnel. Summary cost computations are provided by the following table:

	<u>FY 2012 Actual</u>			<u>(In Thousands)</u> <u>FY 2013 Estimate</u>			<u>FY 2014 Estimate</u>

#### **Part I - Purpose and Scope**

The funds requested provide for the Department of Defense's contribution to its Military Retirement Fund, in accordance with 10 U.S.C. 1466.

#### **Part II - Justification of Funds Requested**

The budget estimates are derived as a product of: (a) The DoD Actuary approved part-time Normal Cost Percentages (NCP) rate of 24.5 percent and full-time NCP rate of 32.4 percent for FY 2014. (b) The total amount of the basic pay expected to be paid during the fiscal year.

The funds provide the Retired Pay Accrual payments for mobilized Reserve and Guard enlisted personnel and temporary end strength active enlisted personnel. The summary cost computations are provided in the following table:

	<b>FY 2012 Actual</b>			<b>FY 2013 Estimate</b>			<b>FY 2014 Estimate</b>		
	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>
<b>Total</b>									
Reserve Mobilization	3,830	\$7,315.40	\$28,018	3,363	\$7,550.14	\$25,391	2,130	\$7,749.65	\$16,508
Temporary End Strength	-	-	-	15,503	\$9,081.60	\$140,792	8,473	\$7,652.07	\$64,836
<b>Total</b>	<b>3,830</b>		<b>\$28,018</b>	<b>18,866</b>		<b>\$166,183</b>	<b>10,603</b>		<b>\$81,344</b>

**Appropriation: Military Personnel, Marine Corps**  
**Budget Activity 2: Pay and Allowances of Enlisted**  
**Budget Line Item: Basic Allowance for Housing (BAH)**

**FY 2014**  
**(\$ in Thousands)**  
**\$89,578**

#### **Part I - Purpose and Scope**

In the FY 1998 National Defense Authorization Act, Congress approved the payment of a Basic Allowance for Housing (BAH) to service members. The Overseas Housing Allowance (OHA) payment, formerly located in overseas station allowances, moved into this section due to a change in Section 603 of P.L. 105-85, the National Defense Authorization Act for FY 1998. The continental United States, Alaska, and Hawaii BAH is termed BAH Domestic, while the overseas housing allowance is called BAH Overseas. Payment to service members is authorized by 37 U.S.C. 403. The BAH inflation annualized rate for FY 2014 is 4.2 percent.

#### **Part II - Justification of Funds Requested**

This program provides a cash allowance to those military personnel not provided with government quarters adequate for themselves and their dependents. This allowance enables such personnel to obtain civilian housing as a substitute.

The funds provide the BAH allowance for mobilized Reserve and active enlisted combat extension personnel and temporary end strength active enlisted personnel. The summary cost computations are provided in the following table:

	<u>FY 2012 Actual</u>			<u>(In Thousands)</u>			<u>FY 2014 Estimate</u>		
	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>

<b>Appropriation: Military Personnel, Marine Corps</b>	<b>FY 2014</b>
<b>Budget Activity 2: Pay and Allowances of Enlisted</b>	<b>(\$ in Thousands)</b>
<b>Budget Line Item: Special and Incentive Pays and Allowances</b>	<b>\$42,046</b>

#### **Part I - Purpose and Scope**

The funds requested provide for payments to enlisted personnel for the following special pays:

**Family Separation Allowance:** (37 U.S.C. 427) – Paid at the rate of \$250 per month to members with dependents who are on duty away from home for a period of more than 30 continuous days.

**Hostile Fire/Imminent Danger Pay:** (37 U.S.C. 310) – Paid at the rate of \$7.50 per day, up to a maximum of \$225 per month, to personnel subject to hostile fire or in an area in which they are in imminent danger of being exposed to hostile fire.

**Hardship Duty Pay:** (37 U.S.C. 305) – Paid at the rate of \$100 per month, when received in conjunction with Hostile Fire Pay/Imminent Danger Pay, to personnel performing duty in a location that is designated by The Secretary of Defense as hardship duty.

**Flying Duty (Crew member):** (37 U.S.C. 301(a)) – To provide additional payment for enlisted personnel involved in frequent and regular participation in aerial flight as a crew member.

**Flying Duty (Non-crew member):** (37 U.S.C. 301(a)) – To provide additional payment for enlisted personnel involved in frequent and regular participation in aerial flight as a non-crew member.

**Uniform Allowance:** (37 U.S.C. 415/416) – Initial clothing allowance paid to officers upon commissioning and active clothing allowance to reserve upon entry or reentry on active duty. Also provides for civilian clothing allowance as authorized by 37 U.S.C.

**CONUS Cola:** (37 U.S.C. 403b) – Payment to officers who are assigned to high cost areas in the Continental United States. The amount of COLA payable is the product of spendable income times the difference between the COLA index for the individual's high cost area and the threshold percentage.

**Overseas Station Allowance:** (37 U.S.C. 405) – Provides for payments of a per diem allowance to member and their dependents on duty outside the United States for increased cost of living, housing and temporary lodging.

**Foreign Language Proficiency:** (37 U.S.C. 316) – Duty performed requiring proficiency in a foreign language identified by the Secretary concerned.

**Parachute:** (37 U.S.C. 301(a) (3)) – Duty involving parachute jumping as an essential part of military duty. Payments are either \$150 or \$225 per month.

**Demolition Duty:** (37 U.S.C. 301(a) (4)) – Duty involving the demolition of explosives as a primary duty including training for such duty. Payment is \$150 per month.

**Diving Duty Pay:** (37 U.S.C. 304) – A monthly amount paid to personnel assigned to diving duty. Recipients of diving duty pay are required to maintain proficiency as divers and must actually perform diving duty.

**Assignment Incentive Pay:** (37 U.S.C. 307(a)) – Duty performed in an assignment designated by the Secretary concerned.

**Flight Deck Duty:** (37 U.S.C. 301) – To provide additional payment for personnel involved in frequent and regular participation in aerial flights.

**Career Sea Pay:** (37 U.S.C. 305(a)) – To provide additional payment of career sea pay (CSP) or career sea pay premium (CSP-P) to personnel for duty performed serving on sea duty.

**High Altitude Low Opening (HALO):** (37 U.S.C. 301 (a) (3)) – To provide additional payment for personnel who perform parachute jumps at altitudes higher than 10,000 feet and free fall to low altitudes before parachute opening.

**Appropriation: Military Personnel, Marine Corps**

**FY 2014**

**Budget Activity 2: Pay and Allowances of Enlisted**

**(\$ in Thousands)**

**Budget Line Item: Special and Incentive Pays and Allowances**

**\$42,046**

**Part II - Justification of Funds Requested**

The projected average number of personnel is based on the total spaces where each type of pay is authorized to meet force structure requirements. Funding requirements are based on the estimated number of enlisted personnel eligible for each type of payment and rate of payment.

Summary cost computations are provided by the following tables:

<b>Mobilized Reserve Total</b>	<b>FY 2012 Actual</b>			<b>(In Thousands)</b> <b>FY2013 Estimate</b>			<b>FY2014 Estimate</b>

**Budget Activity 2: Pay and Allowances of Enlisted**  
**Budget Line Item: Separation Pay**

**FY 2014**  
**(\$ in Thousands)**  
**\$78,956**

#### **Part I - Purpose and Scope**

The funds requested provide for separation payments to enlisted personnel for the following pay and allowances:

Severance Pay: Payments to personnel who are separated due to a service connected disability and have a disability rating of less than 30% (10 U.S.C. 1212).

Accrued Leave: Unused accrued leave paid to members discharged from active duty under honorable conditions (37 U.S.C. 501).

Involuntary Separation Pay (ISP): Payment to members, who have served more than 6 but less than 20 years of active duty, who are involuntarily separated from active service (10 U.S.C. 1174).

Voluntary Separation Pay (VSP): Financial incentive for members, who have served more than 6 but less than 20 years of active duty, to voluntarily separate from active service (10 U.S.C. 1175).

Temporary Early Retirement Authority (TERA): Provides voluntary early retirement, at a reduced amount, to members who have served at least 15 but less than 20 years of active duty (10 U.S.C. 1293).

Lump Sum Leave (LSL): Unused accrued leave paid to members separating under VSP and TERA provisions (37 U.S.C. 501).

#### **Part II - Justification of Funds Requested**

The funds requested will provide for separation pay and allowances for mobilized Reserve enlisted personnel and active military personnel that are temporarily above the baseline strength levels. Summary cost computations are provided in the following table:

<u>Reserve Mobilization</u>	<u>FY 2012 Actual</u>			<u>(In Thousands)</u>			<u>FY 2014 Estimate</u>		
	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>

**Appropriation: Military Personnel, Marine Corps**  
**Budget Activity 2: Pay and Allowances of Enlisted**  
**Budget Line Item: Social Security Tax**

**FY 2014**  
**(\$ in Thousands)**  
**\$20,463**

#### **Part I - Purpose and Scope**

The funds requested provide for employer's tax to the Social Security Administration as required by the Federal Insurance Contribution Act (FICA).

#### **Part II - Justification of Funds Requested**

The FICA tax is developed by multiplying the total earnings for FICA tax purposes by the applicable percent. The Old Age, Survivor, and Disability Insurance (OASDI) rate is 6.2 percent and the Hospital Insurance (HI) rate is 1.45 percent. The maximum amounts of earnings per individual on which tax is payable are:

<u>Calendar year</u>	<u>OASDI Base</u>	<u>Medicare Base</u>
2012	\$110,100	No upper limit
2013	\$113,700	No upper limit
2014	\$117,900	No upper limit

The funds provide the employer's Social Security Tax payment for mobilized Reserve enlisted personnel and temporary end strength active enlisted personnel. Summary cost computations are provided by the following table:

	<u>FY 2012 Actual</u>			<u>(In Thousands)</u> <u>FY2013 Estimate</u>			<u>FY2014 Estimate</u>		
	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>	<u>Strength</u>	<u>Rate</u>	<u>Amount</u>
<b>Total</b>									
Reserve Mobilization	3,830	\$2,290.75	\$8,774	3,363	\$2,367.15	\$7,961	2,130	\$2,419.79	\$5,155
Temporary End Strength	-	-	-	15,503	\$2,164.29	\$33,553	8,473	\$1,806.74	\$15,308
<b>Total</b>	<b>3,830</b>		<b>\$8,774</b>	<b>18,866</b>		<b>\$41,514</b>	<b>10,603</b>		<b>\$20,463</b>

<b>Appropriation: Military Personnel, Marine Corps</b>	<b>FY 2014</b>
<b>Budget Activity 6: Other Military Personnel Costs</b>	(\$ in Thousands)
<b>Budget Line Item: Stop Loss Retroactive Pay</b>	<b>\$0</b>

**Part I – Purpose and Scope**

Public Law 111-32, Section 310 appropriated \$534.4 million in FY 2009 supplemental appropriations to make payment of claims to members of the Armed Forces, including members of the reserve components, and former and retired members under the jurisdiction of the Secretary who, at any time during the period beginning on September 11, 2001, and ending on September 30, 2009, served on active duty while the members' enlistment or period of obligated service was extended, or whose eligibility for retirement was suspended, pursuant to section 123 or 12305 of title 10, United States Code, or any other provision of law (commonly referred to as a "stop-loss authority") authorizing the President to extend an enlistment or period of obligated service, or suspend an eligibility for retirement, of a member of the uniformed services in time of war or of national emergency declared by Congress or the President.

**Part II – Justification of Funds Requested**

The amount to be paid to or on behalf of an eligible member, retired member, or former member described above shall be \$500 per month for each month or portion of a month during the period specified above that the member was retained on active duty as a result of application of the stop-loss authority. Section 310 stated that the military departments may not pay claims that are submitted more than 1 year after the date on which the implementing rules for claims take effect. The program would have expired on October 21, 2010; however, President Obama signed legislation which extended the deadline until October 21, 2012. These funds are available for obligation until expended.

The Marine Corps share of the \$534.4 million for this program is \$17.8 million. As of September 30, 2012, cumulative obligations for this program were \$12.3 million and during FY12 execution, \$43 thousand was obligated and recorded as an Overseas Contingency Operation (OCO) obligation.

<b>Total</b>	<b>25</b>		<b>\$43</b>	-	-	-	-	-	-

**Appropriation: Military Personnel, Marine Corps**  
**Budget Activity 4: Subsistence of Enlisted Personnel**  
**Budget Line Item: Basic Allowance for Subsistence**

**FY 2014**  
**(\$ in Thousands)**  
**\$45,965**

#### **Part I - Purpose and Scope**

The funds requested for this budget activity are for the payment of authorized Basic Allowances for Subsistence (BAS).

#### **Part II - Justification of Funds Requested**

Basic Allowance for Subsistence (BAS) is linked to the Department of Agriculture (DoA) food plan indices. All enlisted members (except recruits and holdees) are entitled to BAS. Members continue to receive BAS while deployed. The BAS inflation rate for FY 2014 is 3.4 percent. Summary cost computations are provided in the following table:

<b>Basic Allowance for Subsistence (BAS)</b>	<b>FY 2012 Actual</b>			<b>FY2013 Estimate</b>			<b>FY2014 Estimate</b>		
	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>

**INTENTIONALLY  
BLANK**

## **PERMANENT CHANGE OF STATION**

**INTENTIONALLY  
BLANK**

**Appropriation: Military Personnel, Marine Corps**

**FY 2014**

**Budget Activity 5: Permanent Change of Station (PCS)**

**(\$ in Thousands)**

**Budget Line Item: Accession, Rotational and Separation Travel**

**\$23,852**

### **Part I - Purpose and Scope**

The Permanent Change of Station (PCS) program pays for travel, transportation, storage, and dislocation allowances for reassignment of military members and their families traveling individually or as part of an organized unit in support of Operation Enduring Freedom (OEF). Costs are for the dislocation allowance, shipment of household goods, temporary and non-temporary storage of household goods, temporary lodging expense, and member mileage and per diem.

### **Part II – Justification of Funds Requested**

The President's baseline budget does not include funding to ensure the Marine Corps meets its combat extension requirements and distributes the correct grade and skill mix for units deploying in support of Overseas Contingency Operations (OCO) and temporary end strength. Additional moves are required to reset the forces in support of deploying units for OEF and separation moves to meet mandatory baseline end strength. Moves for Marines to and from overseas is necessary in order to support OCO. Summary cost computations are provided in the following table:

<b>PCS Moves</b>	<b>FY 2012 Actual</b>			<b>(In Thousands)</b>			<b>FY 2014 Estimate</b>		
	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>

**Budget Line Item: Casualty and Disability Benefits**

**FY 2014**  
**(\$ in Thousands)**  
**\$29,772**

#### **Part I - Purpose and Scope**

The Service members' Group Life Insurance (SGLI) program is a low cost group life insurance for service members on active duty. These payments are required, under section 1969(b) of title 38, United States Code, when actual mortality rates exceed peacetime mortality rates. The T-SGLI is a new program that provides automatic traumatic injury coverage to all service members covered under the Service members' Group Life Insurance (SGLI) program. Every member who has SGLI also has T-SGLI, effective December 1, 2005. Funding for death gratuity payments is for payments to survivors of members dying on active duty. The amount payable was increased from \$12,000 to \$100,000 in Section 664 of the FY 2006 National Defense Authorization Act. Funding is for SGLI/T-SGI insurance premiums that the Department of Defense pays on behalf of service members.

#### **Part II – Justification of Funds Requested**

The funds are required to make extra hazard payment to the Department of Veterans Affairs to finance the increased number of SGLI death claims for policy year 2013, which is not on a fiscal year basis (policy year based on July 1 -June 30). Section 606 of the FY 2008 National Defense Authorization Act directs the Department to pay the full premium for coverage under Service members' Group Life Insurance program during service in Operation Enduring Freedom (OEF). This amount the Department pays is \$27.00 per month for each member.

**Appropriation: Military Personnel, Marine Corps**  
**Budget Activity 6: Other Military Personnel Costs**  
**Budget Line Item: Unemployment Benefits**

**FY 2014**  
**(\$ in Thousands)**  
**\$37,733**

#### **Part I – Purpose and Scope**

Unemployment benefits are for payments to former service members who are discharged or released under honorable conditions as prescribed in paragraph (1) of section 8521(a) of Title 5, United States Code as amended by Section 301, PL. 102-164.

#### **Part II – Justification of Funds Requested**

Eligibility for unemployment benefits is defined as active service in the armed forces where upon an individual was discharged under honorable conditions and had completed their first full term of active service; or was discharged before completing their first term under an early release program, because of hardship, for medical reasons, or for personality disorders, or ineptitude (but only if the service was continuous for 365 days or more). These increased costs are primarily the result of Reserve Component mobilization. Summary cost computations are provided in the following table:

<b>Total</b>	<b><u>FY 2012 Actual</u></b>			<b><u>FY 2013 Estimate</u></b>			<b><u>FY 2014 Estimate</u></b>		
	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>

**Budget Line Item: Interest on Savings Deposits**

**FY 2014**  
**(\$ in Thousands)**  
**\$930**

#### **PART I - PURPOSE AND SCOPE**

As authorized by Title 10, U.S.C, Section 1035, this program allows members to deposit up to \$10,000 of their allotted pays into the Savings Deposit Program and be reimbursed up to 10% interest on all deposits.

#### **PART II - JUSTIFICATION OF FUNDS REQUESTED**

The Servicemen's Saving Deposit Program was reinstated for participants deployed to designated contingency operations. Computation of funding requirements is provided in the following table:

	<b><u>FY 2012 Actual</u></b>			<b><u>FY 2013 Estimate</u></b>			<b><u>FY 2014 Estimate</u></b>

**MEDICARE-ELIGIBLE RETIREE HEALTH CARE FUND (MERHCF)  
FOR TEMPORARY END STRENGTH**

**INTENTIONALLY  
BLANK**

**PROJECT: MERHCF**

<b>FY 2014</b>
<b><u>(\$ in Thousands)</u></b>
<b>\$36,760</b>

**PART I - PURPOSE AND SCOPE**

FY 2001 National Defense Authorization Act (NDAA) directed the establishment of the Medicare-Eligible Retiree Health Care Fund to pay for Medicare-eligible retiree health care beginning on October 1, 2002. Prior to this date, care for Medicare-eligible beneficiaries was financed through annual Congressional appropriations for space available care in Military Treatment Facilities (MTFs). The Fund covers Medicare-eligible beneficiaries, regardless of age.

**PART II - JUSTIFICATION OF FUNDS REQUESTED**

The Fund covers Medicare-eligible beneficiaries, regardless of age. Computation of funding requirements is provided in the following table:

	(In Thousands)								
	<u>FY 2012 Actual</u>			<u>FY 2013 Estimate</u>			<u>FY 2014 Estimate</u>		
	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>	<b>Strength</b>	<b>Rate</b>	<b>Amount</b>

## **RESERVE PRE AND POST MOBILIZATION TRAINING**

**INTENTIONALLY  
BLANK**

<b>Appropriation: Reserve Personnel, Marine Corps</b>	<b>FY 2014</b>
<b>Budget Activity 1: Reserve Component Training and Support</b>	<b>(\$ in Thousands)</b>
<b>Budget Line Item: School Training</b>	<b>\$3,213</b>

### **Part I – Purpose and Scope**

To provide formal training of curricula not managed by Marine Corps Training and Education Command (TECOM) through the Marine Corps Training Information Management System (MCTIMS). The establishment of an IRR Mobile Training Team Cadre in which IRR Marines play active roles as instructors in the preparation of SMCR units for pre-deployment training, in the support of SMCR annual training, and in providing optempo relief to schoolhouses and training organizations has resulted in an increase in funding requirements. Much of the increase in school training may be attributed to mandates by evolving Total Force policy initiatives by CMC and directives by COCOMs and OSD. It is necessary to support locally-managed formal training hosted at Marine Corps and Other Service installations in order to attain and maintain the required level of proficiency in a specific skill for which a member has been initially qualified and to encourage professional military growth. This, also, provides for "hands on" training in the actual performance of those skills particular to an individual MOS.

### **Part II – Justification of Funds Requested**

The budget estimates are derived from the estimated number of man-days multiplied by the average estimated cost per Marine per man-day. The length of the tour and man-day rates of the individual Marines will vary among and within school and training plan requirements.

School Training	<b>18,420</b>	\$264.00	<b>\$4,863</b>	<b>16,259</b>	\$272.89	<b>\$4,437</b>	<b>11,768</b>	\$273.00	<b>\$3,213</b>

<b>Appropriation: Reserve Personnel, Marine Corps</b>	<b>FY 2014</b>
<b>Budget Activity 1: Reserve Component Training and Support</b>	<b><u>(\$ in Thousands)</u></b>
<b>Budget Line Item: Special Training</b>	<b>\$11,679</b>

### **Part I – Purpose and Scope**

Funding will cover Marine Corps Reserve incremental costs due to FY 2014 deployment preparation and support that are above the baseline Special Training budget. This funding is required to support a capability gap generated as a direct result of deployments for Overseas Contingency Operations (OCO) and the reset of Marine Corps Reserve units. The Special Training funding will provide for basic pay, travel, per diem, retired pay accrual, special pays (e.g. flight pay, Special Operations Forces (SOF) pay and Foreign Language Proficiency pay), Basic Allowance for Subsistence (BAS), Basic Allowance for Housing (BAH), the government's share of Federal Insurance Contribution Act (FICA), and Family Separation Allowance (FSA) for pre and post mobilization planning and training of key members of SMCR Unit staff. Additionally, the funds will provide for post-primary Military Occupational Specialty (PMOS) training assignment of recently commissioned Reserve Officers from the Officer Candidate Course-Reserve (OCC-R) program into SMCR units scheduled to mobilize and deploy. Funds will provide junior officers an opportunity to posture themselves to serve as small unit leaders of SMCR Units.

The Yellow Ribbon Program is designed for mobilized reservists and their support network. Its goal is to educate on the potential challenges of mobilization and deployment away from home. The program requires units to provide at least one pre-deployment information session, one information session during deployment, and three post deployment sessions to help with the challenges of reintegrating in families and civilian life.

### **Part II – Justification of Funds Requested**

Section 582 of the FY 2008 National Defense Authorization Act directs the establishment of “a national combat veteran reintegration program to provide Reserve members and their families with sufficient information, services, referral and proactive outreach opportunities through the entire deployment cycle.” The pre-deployment phase (from first notification of mobilization until deployment of the mobilized unit) focuses on educating Members, families and affected communities on combat deployment. The post-deployment phase (from arrival at home station until 180 days following demobilization) consists of reintegration activities at 30, 60 and 90 day intervals after unit demobilization. The focus is on reconnecting members and their families with the service providers (i.e. TRICARE, JAG, Department of Veterans Affairs, etc.) to ensure that all members understand their entitled benefits clearly. In addition, combat stress and transition and how members and their families can address these issues are also integral to the post-deployment phase.

The budget estimates are derived from the estimated number of man-days multiplied by the average estimated cost per Marine per man-day. The length of the tour and man-day rates of the individual Marines will vary among and within unit requirements.

<b>Budget Activity 1: Reserve Component Training and Support</b>	<b>(\$ in Thousands)</b>
<b>Budget Line Item: Administration and Support, FTS Deployment Costs</b>	<b>\$242</b>

### **Part I – Purpose and Scope**

The funds requested will provide for the special pay and allowances for Full Time Support (FTS) Marine Corps Reservists performing active duty in support of USMC OCO mission requirements in Operation Enduring Freedom (OEF).

### **Part II – Justification of Funds Requested**

The requested funding will support FTS USMC Reserve officers and enlisted personnel who are assigned in theatre as Individual Augmentees (IA) in support of OCO mission requirements and who are entitled to Imminent Danger Pay (IDP) and Hardship Duty Pay (HDP). IDP provides special pay to FTS officers and enlisted personnel who are assigned to designated areas in support of OCO requirements. HDP provides special pay to FTS officers and enlisted who are assigned to designated hardship locations in support of OCO requirements. These pays are directly associated with the OCO and will cease to be a requirement when the OCO ends. Therefore, these pays are included in this OCO request.

**Family Separation Allowance:** Paid at the rate of \$250 per month to members with dependents who are on duty away from home for a period of more than 30 continuous days (37 U.S.C. 427).

**Hostile Fire/Imminent Danger Pay:** Paid at the rate of \$7.50 per day, up to a maximum of \$225 per month, to personnel subject to hostile fire or in an area in which they are in imminent danger of being exposed to hostile fire (37 U.S.C. 310).

**Hardship Duty Pay:** Paid at the rate of \$100 per month, when received in conjunction with Hostile Fire Pay/Imminent Danger Pay, to personnel performing duty in a location that is designated by The Secretary of Defense as hardship duty (37 U.S.C. 305).

FY 2014 Overseas Contingency Operations (OCO) Request**

**OPERATION AND MAINTENANCE, NAVY  
May 2013**

**INTENTIONALLY  
BLANK**

**NAVY**

**Contingency Operation(s): Operation Enduring Freedom/Operation New Dawn  
Operation and Maintenance, Navy**

- I. Description of Operations Financed:** Operation Enduring Freedom (OEF) includes the Department of the Navy's continuing support for efforts to track down terrorists and provide stability, primarily in Afghanistan and operations in the Horn of Africa (HoA). These objectives also include destroying terrorist training camps and infrastructure, capturing Al Qaeda leaders, stopping terrorist activities, and preventing the re-emergence of international terrorist organizations. Support costs include increased operations for Carrier Strike Groups, Expeditionary Strike Groups and associated aircraft operations, activation of reserve personnel and units, Individual Augmentees (IA), increased fuel consumption and spare parts, additional maintenance supporting higher equipment usage, deployment of medical capabilities, extended communications and intelligence support, and related transportation costs. Operation New Dawn (OND) concluded in FY 2012. No funds are requested in FY 2013 and FY 2014 for OND.
- II. Force Structure Summary:** The DoN is continually deployed in support of the contingency operations overseas serving as members of carrier strike groups, expeditionary strike groups, Special Operating Forces, Seabee units, Marine forces, medical units, as IAs and other units critical to success in OEF. Our Sailors are fully engaged on the ground, in the air, and at sea in support of operations in Afghanistan. On any given day there are approximately 12,000 afloat and 9,000 Sailors ashore throughout CENTCOM and the Horn of Africa. These Sailors are conducting maritime infrastructure protection, explosive ordnance disposal, combat construction engineering, cargo handling, combat logistics, maritime security, customs inspections, detainee operations, civil affairs, base operations and other forward presence activities. In collaboration with the U.S. Coast Guard, the Navy also conducts critical port operations, port and oil platform security, and maritime interception operations.

**NAVY**  
**Contingency Operations: Operation Enduring Freedom/Operation New Dawn**  
**Operation and Maintenance, Navy**  
**Budget Activity 01**  
**Activity Group 1A**  
**Detail by Subactivity Group 1A1A Mission and Other Flight Operations**

- I. **Description of Operations Financed:** Mission and Other Flight Operations include all Navy and Marine Corps Tactical Air (TACAIR), Anti-Submarine Warfare (ASW), Strategic Communications (STRATCOM) forces, ship and shore-based fleet air support, operational testing and evaluation and miscellaneous items such as transportation of squadron equipment and travel/Temporary Active Duty (TAD) during deployment workup. Funding provides flying hours to maintain an adequate level of readiness enabling Navy and Marine Corps aviation forces to perform their primary mission as required in support of national objectives.

II. **Financial Summary (\$ in Thousand)**

OEF	CBS Title	FY2012	FY 2013	Delta	FY 2014
		Total	Total		Total
1.0	Personnel	\$0	\$0	\$0	\$0
2.0	Personnel Support	\$36,593	\$17,020	-\$1,443	\$15,577
3.0	Operating Support	\$721,355	\$894,954	-\$94,863	\$800,091
4.0	Transportation	\$28,929	\$25,124	\$4,377	\$29,501
	OEF Totals	\$786,877	\$937,098	-\$91,929	\$845,169
<hr/>					
<b>OND/Post-OND</b>					
1.0	Personnel	\$0	\$0	\$0	\$0
2.0	Personnel Support	\$6,283	\$0	\$0	\$0
3.0	Operating Support	\$58,795	\$0	\$0	\$0
4.0	Transportation	\$10,750	\$0	\$0	\$0
	OND Totals	\$75,828	\$0	\$0	\$0
	SAG Total	\$862,705	\$937,098	-\$91,929	\$845,169

**Explanation of Change between FY 2013 and FY 2014:** The decrease in flight operations costs is due to decreased flying hours as a result of a smaller requested presence in support of OEF operations and the draw down of troops and equipment from Afghanistan. The Navy/USMC flying hours are funded to T2 5/2.0 in the baseline budget with the balance of flight operations funded in OCO to meet mission requirements. The composite fuel rate used for FY14 is \$152.04 per barrel.

		FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>A. Subactivity Group 1A1A Mission and Other Flight Operations</b>					
1. <b>Cost Breakdown Structure (CBS) 2.0</b>					
a. OEF CBS 2.1- Temporary Duty (TAD/TDY)					
		\$36,321	\$17,020	-\$1,443	\$15,577
<b>OEF Narrative Justification:</b> This funds the costs of travel, per diem, and lodging for military and civilian aircrew, aviation maintenance, and flight operations personnel in support of OEF. Examples include travel costs to support operations in Afghanistan/Horn of Africa. Also funds aircrew, aviation maintenance, and flight operations personnel. Examples of items covered are per diem, rental vehicles, billeting, and travel associated with pre- and post-deployment support for United States Central Command (CENTCOM) deployers.					
b. OND CBS 2.1- Temporary Duty (TAD/TDY)		\$6,220	\$0	\$0	\$0
<b>OND Narrative Justification:</b> This includes the costs of travel, per diem, and lodging for military and civilian personnel that result from participation in or support to the contingency operation. Examples include travel costs to support operations in Iraq. Also funds aircrew, aviation maintenance, and flight operations personnel. Examples of items covered are per diem, rental vehicles, billeting, and travel associated with pre- and post-deployment support for United States Central Command (CENTCOM) deployers.					
c. OEF CBS 2.5- Other Personnel Support		\$272	\$0	\$0	\$0
<b>OEF Narrative Justification:</b> This includes costs such as permanent change of station, end of term of service, or special actions associated with household goods or privately-owned vehicle storage.					
d. OND CBS 2.5- Other Personnel Support		\$63	\$0	\$0	\$0
<b>OND Narrative Justification:</b> This includes costs such as permanent change of station, end of term of service, or special actions associated with household goods or privately-owned vehicle storage.					

		FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
2.	<b><u>Cost Breakdown Structure (CBS) 3.0</u></b>				
a.	OEF CBS 3.2- Operations OPTEMPO	\$700,048	\$865,136	-\$81,531	\$783,605
<b><u>OEF Narrative Justification:</u></b> This includes incremental cost of flying hours in support of OEF operations. Funding includes the flying hour costs to operate frontline Navy and Marine Corps land-based aircraft as well as embarked Carrier Air Wings and afloat Marine Corps Expeditionary Strike Group aircraft. Includes materials and services used during an operation such as petroleum, oils and lubricants (POL), spare and consumable parts such as repair components, kits, assemblies, and repairable and nonrepairable items for equipment maintenance support.					
b.	OND CBS 3.2- Operations OPTEMPO	\$57,981	\$0	\$0	\$0
<b><u>OND Narrative Justification:</u></b> This includes the incremental costs to operate units that support OND operations. Includes the costs to operate frontline Navy and Marine Corps land-based aircraft as well as embarked Carrier Air Wings and afloat Marine Corps Expeditionary Strike Group aircraft. Includes materials and services used during an operation such as petroleum, oils and lubricants (POL), spare and consumable parts such as repair components, kits, assemblies, and repairable and nonrepairable items for equipment maintenance support.					
c.	OEF CBS 3.3- Other Supplies and Equipment	\$2,117	\$7,818	-\$5,411	\$2,407
<b><u>OEF Narrative Justification:</u></b> The Navy request includes decreased equipment funding for International Marine/Maritime Satellite (INMARSAT), aviation support equipment gear for forward deployed units (cranes, power carts, testers, power torques, erosions gages, etc. ), and maintenance of Tactical Air Control System used by the forward deployed Marine Air Control Squadron (MACS).					
d.	OND CBS 3.3- Other Supplies and Equipment	\$814	\$0	\$0	\$0
<b><u>OND Narrative Justification:</u></b> This includes the incremental cost of supplies and equipment required to equip and sustain forces during all phases of the operation, such as special protective gear for equipment or containers.					
e.	OEF CBS 3.5.4- Contractor Logistics Support	\$19,190	\$22,000	-\$7,921	\$14,079
<b><u>OEF Narrative Justification:</u></b> The request funds the contractor logistic support required for USMC Aircraft Reset, which includes actions taken to restore aircraft to a desired level of combat capability commensurate with the units' mission.					
3.	<b><u>Cost Breakdown Structure (CBS) 4.0</u></b>				
a.	OEF CBS 4.1- Airlift	\$28,929	\$23,124	\$6,377	\$29,501
<b><u>OEF Narrative Justification:</u></b> This includes transportation of Navy and USMC personnel, equipment, and material by commercial or military aircraft. Increase is due to redeployment of troops and equipment as part of the drawdown of forces in Afghanistan. (Note: Navy is responsible for Marine Corps personnel and equipment transportation to and from operating destinations, and tactical air sustainment while in theater.)					
b.	OND CBS 4.1- Airlift	\$10,750	\$0	\$0	\$0
<b><u>OND Narrative Justification:</u></b> This includes transportation of Navy and USMC personnel, equipment, and material by commercial or military aircraft.					

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
c. OEF CBS 4.6- Second Destination Transportation	\$0	\$2,000	-\$2,000	\$0
<b>Total</b>	<b>\$862,705</b>	<b>\$937,098</b>	<b>-\$91,929</b>	<b>\$845,169</b>

**OEF Narrative Justification:** The funding provides for a significant amount of shipments related to OEF operations that include transportation funding for cargo and mail movement, support of Marine Corps air units for Navy procured aviation equipment, and material related to rework by industrial activities.

**Explanation of Change between FY 2013 and FY 2014:** The Advance Skill Management (ASM) / Aviation Maintenance Training Continuity System (AMTCS) is an automated software management tool designed to track technical exposure for personnel. This application creates efficiencies in training, reduce turn-around-time and improve sortie generation rates. Funding will convert legacy systems to ASM for the 11 remaining Marine squadrons. No funding was requested for FY2013 or FY 2014.

- I. Description of Operations Financed:** Engineering Technical Services - This program provides on-site technical information, instruction and training (formal and on the job) to aviation maintenance personnel at the organizational and intermediate levels of maintenance for a network of 30 detachments dispersed worldwide. The purpose of the training is to elevate the technical knowledge and skills of Navy and Marine aviation maintenance technicians in the installation, maintenance, repair and operation of all types of aviation equipment and associated support equipment. Engineering Technical Services (ETS) are performed by Contractor Engineering Technical Service (CETS) and Navy Engineering Technical Service (NETS) personnel. Naval Air Technical Data and Engineering Services Command (NATEC) Admin functions, which include technical data management, data distribution, digitization and conversion, Fleet liaison, customer service.

**Detail by Subactivity Group 1A4A Air Operations and Safety Support**

- I. Description of Operations Financed:** Air Operations and Safety Support consists of seven major programs. **1.** The Air Traffic Control (ATC) program provides logistics, engineering, and maintenance support for identification and landing systems for facilities ashore and afloat. **2.** The Marine Air Traffic Control and Landing Systems (MATCALS) program provides depot maintenance and engineering support for tactical shore-based landing aids and Marine Air Traffic Control systems. Systems include Airport Surveillance Radars, Precision Approach Radars, control and communications systems, air navigation aids, towers, and the ancillary equipment associated with the systems. MATCALS provides life-cycle support of electronic and other systems used by the Marine Air Traffic Control Detachments (MATCD) in support of Marine expeditionary forces. This includes support of the Fleet Support Team (FST), the program office, and other supporting activities in maintaining this equipment in operational condition. Included in the FST tasking is technical and training support to Fleet units, technical manual developments and updates, maintenance tracking programs, engineering investigations, and resolution of obsolescence issues. **3.** The Aircraft Launch and Recovery Equipment (ALRE) program provides life-cycle management including launchers, recovery, visual landing aids, information systems, fleet technical support, and policy management. **4.** The Expeditionary Airfields (EAF) program supports airfield matting refurbishment, in-service engineering, life-cycle management, logistical and technical efforts, and fleet direct and technical support for expeditionary airfields. **5.** The Aviation Life Support Systems program provides in-service basic design engineering and logistics management support for over 1,000 Aircrew Systems products for the total life cycle. Examples of Aircrew Systems products that are essential to aircrew safety and survival include clothing and equipment that Navy and Marine Corps aircrew and passengers need to function within all flight envelopes (helmets, oxygen masks, flight suits, gloves, in-flight personal communications), escape safely from disabled aircraft (ejection seats, parachutes, Helicopter Emergency Escape Devices), survive on land and water (water flotation/life vests, seat survival kits, medical items), and effect a successful rescue (survival radios/electronics, rescue slings, horse collar, hoisting rings). **6.** The Aviation Facilities and Landing Aids program supports improvements in shore-based landing aids, installation of the Naval Air Systems Command (NAVAIR) provided equipment, development/revision of aviation facilities planning and design criteria, and NAVAIR facilities and management functions. The Aviation Facilities and Landing Aids program supports improvements in shore-based landing aids, installation of the Naval Air Systems Command (NAVAIR) provided equipment, development/revision of aviation facilities planning and design criteria, and NAVAIR facilities and management functions. The Aviation Facilities and Landing Aids program supports improvements in shore-based landing aids, installation of the Naval Air Systems Command (NAVAIR) provided equipment, development/revision of aviation facilities planning and design criteria, and NAVAIR facilities and management functions. **7.** The Aviation Mobile Facilities program supports aviation mobile facility configurations for the Navy and Marine Corps. Also includes funding for pollution prevention, environmental protection, and other miscellaneous operations and services.

**II. Financial Summary (\$ in Thousand)**

	<b>SAG Total</b>	<b>\$11,750</b>	<b>\$15,794</b>	<b>\$1,695</b>	<b>\$17,489</b>

**Explanation of Change between FY 2013 and FY 2014:** Increased costs in FY 2014 are associated with additional requirements for Expeditionary Airfields, Mobile Facility Rehabilitation, Depot Repair, and Precision Approach Landing System (PALS).

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>A. Subactivity Group: 1A4A Air Operations and Safety Support</b>				
1. <b>Cost Breakdown Structure (CBS) 3.0</b>				
a. OEF CBS 3.5.1 - Organizational Level Maintenance	\$0	\$8,564	-\$5,882	\$2,682
<b>OEF Narrative Justification:</b> Funding is required to conduct four CVN Class AN/SPN-46(V)3 pre-deployment grooms, and overhaul two sets of AN/SPN-46(V)3 PALS pedestal groups (two ships) for F18 E/F, C2, E2, and other carrier air wing aircraft precision approach landings aboard deployed aircraft carriers.				
b. OEF CBS 3.5.2 -Intermediate Level Maintenance	\$0	\$0	\$4,100	\$4,100
<b>OEF Narrative Justification:</b> Funding is required to perform repair and rehabilitation of 60 Mobile Maintenance Facilities (MMFs) returning from OEF deployment. Rehabilitation of the Mobile Facilities is required to return the assets to a serviceable condition and restore maintenance capabilities to the originating squadrons. Forty-seven generators will also be reworked, as they have been running non-stop for four years, and have accumulated in excess of 35,000 operating hours each. The generators will be torn down and rebuilt, and damage and corrosion to the housing will be repaired and repainted.				
c. OEF CBS 3.5.3 - Depot Level Maintenance	\$11,750	\$7,230	\$3,477	\$10,707
<b>OEF Narrative Justification:</b> The increased requirement in FY 2014 is for Expeditionary Airfields costs for FARPs and FOBs support and Depot Repair. Funding will support continued operations of all T/M/S aircraft deployed by USMC, USA, USAF and Allied Nations in Afghanistan. Funding will ensure M31 Arresting Gear, AM2 matting/accessories, and Fresnel Lens Optical Landing System (FLOLS) airfield lighting assets are available to continue A/C sorties at FOBs Bastion, Delaram II, Dwyer, Kandahar, and COP Whitehouse. Funding is also required to induct ATC systems into depot restoration to return them to pre-deployment condition.

- I.** **Description of Operations Financed:** The Air Systems Support program provides funding for engineering and logistics analysis necessary to sustain aircraft systems and equipment. This includes support to sustain aircraft platforms across Navy and Marine Corps Training and Test and Evaluation Commands. Additionally, it provides for critical aircraft components, ground support equipment, automatic test equipment, and information systems which capture, store, and maintain system performance, failure, and readiness maintenance data. Technical products include maintenance plans and procedures, technical data updates (drawings, publications, provisioning information), and system software maintenance to include threat library assessment necessary to meet inventory requirements of the Fleet Response Plan and offset the effects of aging on systems, obsolescence, and component reliability. Outcomes include resolution of critical issues affecting safety of flight, increased readiness through reliability improvements, and reduced operation and maintenance costs.

**Explanation of Change between FY 2013 and FY 2014:** Increases are associated with the following: flight clearance products issued in support of OCO (P-3SP), P-3, UAS, EP-3, H-53, H-1, and NP-3D; AEA/EA-6B safety/readiness shortfall mitigation, SH-60B/F Automated Identification System (AIS), reliability centered maintenance for the H-60, SH-60B ASW Attack Accuracy, and ICAP-3 requirements; EWDS UDF threat data updates, USQ-113 ineffective jamming, and HH-60H Close Air Support (CAS) - Hellfire missile attack deficiency corrections.

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>A. Subactivity Group: 1A4N Air Systems Support</b>				
1. <u>Cost Breakdown Structure (CBS) 3.0</u>				
a. OEF CBS 3.1 - Training	\$0	\$0	\$1,430	\$1,430
<b>OEF Narrative Justification:</b> Funding is required for sustainment of the P-3 to provide technical and logistics training support for Advanced Sensor Systems and to provide recertification training to support operational employment of the P496 system.				
b. OEF CBS 3.5.1 - Organizational Level Maintenance	\$2,247	\$17,760	-\$16,113	\$1,647
<b>OEF Narrative Justification:</b> Funding is required for the following: flight clearance products issued in support of OCO (P-3SP), P-3, UAS, EP-3, H-53, H-1, and NP-3D; USMC Reset to conduct comprehensive reviews and analysis of aircraft known to suffer structural or fatigue areas due to high OPTEMPO utilization; the SH-60B/F Automated Identification System (AIS); the HH-60H Fast Tactical Imaging (FTI) system; and the H-60 reliability centered maintenance.				
c. OEF CBS 3.5.2 - Intermediate Level Maintenance	\$3,152	\$813	-\$813	\$0
<b>OEF Narrative Justification:</b> Funds the Airborne Electronic Attack (AEA) EA-6B Fleet Support Teams (FSTs) at the levels required for Safety of Operations / Facts of Life to support Ready for Tasking (RFT) and Ready Basic Aircraft (RBA) requirements for OEF. The EA-6B is the only tactical electronic attack platform available in theater and provides unique support to OEF troops and commanders.				
d. OEF CBS 3.5.3 - Depot Level Maintenance	\$39,404	\$440	\$74,974	\$75,414
<b>OEF Narrative Justification:</b> Funding is required for ASE on-site technical assist visits for EW systems and AEA-EA-6B FSTs at the levels required to support Ready for Tasking (RFT) and Ready Basic Aircraft (RBA) requirements for OEF. Funding is required to support RBA and Engine Readiness Goal (ERG) for the AV-8B/F-402 and for sustainment of the EP-3E to provide technical and logistics support of Advanced Sensor Systems. Funding is required to achieve the accuracy of torpedo placement mandated by the CNO for the SH-60B ASW, to provide ICAP-3 support to HARM and EA-6B, and to pay for controls and displays, Random Pulse Modulation (RPM), Digital Random Pulse Modulation (DRPM), and Electronic Warfare Battle Management (EWBM). Funding is required to update EWDS UDF threats, and provides operational mission data for EA-6B, EA-18G, and Order-of-Battle data for E-2C, MH-60R, and multiple NAVAIR platforms using J MPS. Funding is required to repair six EA-6B high-priority software problems required to improve jamming effectiveness and to correct HH-60H tactical mission software and companion FLIR ACRT software to display the 20 degree safety fan on the tactical display. Funding is required for Expeditionary Pack Up Kit (EPUK) and MALSP II implementation support. MALSP II requires new technologies in order to accommodate a change in warfighter doctrine, which includes EPUK Release 2 (next generation buffer management capability).

**Detail by Subactivity Group 1A5A Aircraft Depot Maintenance**

- I. Description of Operations Financed:** The Aircraft Depot Maintenance program provides for Airframe, Engine and Component rework to meet established Chief of Naval Operations (CNO) readiness goals. The goals are: 1. Airframe Rework: maintain Primary Aircraft Authorization (PAA) at 100% deployed squadrons and 90% non-deployed squadrons. 2. Engine Rework: maintain a net Ready-for-Issue (RFI) engine/module spares pool at 90% of authorized levels and zero bare firewalls. Airframe Rework: This program provides inspection, rework and emergent repairs of Fleet aircraft. Through periodic depot level maintenance activities, aircraft major structures and airframe systems are maintained in a safe flyable condition. Depot maintenance is currently performed under both the Integrated Maintenance Concept (IMC) and the Standard Level Depot Maintenance (SDLM) programs. The IMC concept uses Planned Maintenance Intervals (PMI), performing more frequent depot maintenance, with smaller work packages, reducing out of service time. The goal of this program is to improve readiness while reducing operating and support costs. Currently, the AV-8B, H-1, H-46, H-53, MV-22, H-60, and P-3 aircraft programs have been incorporated under IMC. The SDLM program uses an Aircraft Service Period Adjustment (ASPA) to adjust individual aircraft period end dates for selected aircraft when material condition warrants. Under ASPA inspection guidelines, only aircraft that cannot safely be extended for another 12 month tour are inducted in the depot for SDLM. Engine Rework: The engine rework program accomplishes the repair and overhaul of aircraft engines, gearboxes and torque meters. The program objective is to return depot-repairable engines to ready-for-issue (RFI) status to support Fleet aircraft and Fleet engine pool requirements. Under the Naval Aviation Maintenance Program (NAMP), engines are repaired at the lowest level of maintenance possible. Engines beyond the repair capability of intermediate maintenance activities are scheduled for induction in the depots. Engine field team is included in this budget submission to provide on-site depot level maintenance on an as-needed basis. Components: The Component Repair Program supports the depot level repair of aeronautical components for the aircraft systems and equipment under Contractor Logistics Support (CLS). CLS support is provided for weapon systems and equipment, which will be commercially supported for the life-of-type, and special programs and projects, which do not have an established material support date (MSD). This program also funds contractor maintenance of engines for the V-22 Osprey (Power By the Hour) Program.

- I. Description of Operations Financed:** Support services provides unscheduled services to the fleet that are budgeted on the basis of historical level of effort and projected emergent requirements. Enhances fleet readiness by providing expeditious solutions for the correction of unplanned maintenance problems incurred during fleet operations. Services include Depot Support Items, Customer Services, Customer Fleet Support, Ferry Flight and Maintenance Support. Depot Support Items include the costs of Salvage, Preservation and De-preservation, Acceptance and Transfer by the three Fleet Readiness Centers (FRC's). Customer Services includes the costs of, but not limited to, helicoil and stud replacement on large assemblies. This also includes propeller rework for commercially supported aircraft: TC-12, T-34, T-44, C-12 and C-26. Customer Fleet support includes the costs associated with Customer Fleet Training and Navy Oil Analysis sampling conducted at the Fleet Readiness Centers (FRC's). Ferry Flights includes the costs of travel, per diem, and fuel associated with bringing aircraft to a rework facility prior to maintenance or returning aircraft to the fleet following maintenance. Additionally, integrated logistics support is provided for the Executive Helicopter. Maintenance Support provides funding for requirements development, management and content certification for the Technical Directive Status Accounting System (TDSA) which tracks modifications to Naval Aviation Equipment worldwide along with the Kit Management Information System and their subsequent migration to Navy Enterprise Resource Planning (NERP). These systems are the Navy's only official record of current approved changes and kit status for the configuration status of Naval aeronautical equipment.

- I. Description of Operations Financed:** The Aviation Logistics program provides Navy and Marine Corps aviation programs with Contractor Logistics Support (CLS) and Performance Based Logistics (PBL). CLS is the performance of maintenance and/or materiel management functions for a DoD system by a commercial activity. PBL is the purchase of support as an integrated, affordable, performance package designed to optimize system readiness and meet performance goals for a weapon system through long-term support arrangements with clear lines of authority and responsibility. The aircraft described below were realigned from 1A5A to 1A9A starting in FY2012.

KC-130J - Airframe contractor provides services and products supporting the KC-130J weapon system including Repair of Repairables (RoR), on-site Fleet field representatives, and engineering and logistics support. NSWC Crane provides RoR for KC-130J peculiar airframe avionics product support and management utilizing performance based methodologies with a fixed input (cost per flight hour) and fixed output (readiness or supply chain effectiveness) for aircraft systems and subsystems. Power by the Hour (PBtH) contractor provides all parts support required in the performance of depot level maintenance both scheduled and unscheduled for the engine and propeller systems.

V-22 - The Joint Performance Based Logistics (PBL) contractor provides services and products supporting the MV-22 weapon system including obsolescence and configuration management, sustainment of maintenance planning and supportability analysis, technical data support, in service engineering and logistics support, training and trainer support, and sustainment of peculiar support equipment. The PBtH contractor provides engine sustainment on a flight hour basis that includes all material required for depot engine and component repair.

F-35 - The Joint Strike Fighter (JSF) aviation logistics approach is a total PBL government and industry partnership for maintenance and engineering support of the airframe and propulsion systems including depot level repairables and consumables, support equipment, Autonomic Logistics Information System (ALIS), simulators and maintenance trainers, aircraft and engine components, and software maintenance through separate Performance Based Agreements (PBA).

**II. Financial Summary (\$ in Thousand)**

**Explanation of Change between FY 2013 and FY 2014:** The increase in requirements reflects higher costs for the KC-130J and the V-22 Platforms

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>A. Subactivity Group: 1A9A Aviation Logistics</b>				
1. <b>Cost Breakdown Structure (CBS) 3.0</b>				
a. OEF CBS 3.5.3 - Depot Level Maintenance	36,878	44,150	\$5,980	50,130
<b>OEF Narrative Justification:</b> The request provides incremental aviation logistics support for the KC-130J and MV-22 aircraft. The KC-130J requirements are based on current flight hour data, the number of supported aircraft in FY 2014 and the Harvest HAWK Weapons Mission Kit. The V-22 funding provides for MV-22 mission care (engine support) and sustainment of Integrated Defensive Weapon System (IDWS) including procurement of additional repair parts, repair services, and Field Support Representative (FSR) support necessary for IDWS kits deployed to OEF.

**Detail by Subactivity Group 1B1B Mission and Other Ship Operations**

- I. Description of Operations Financed:** This sub-activity group provides resources for all aspects of ship operations required to continuously deploy combat ready warships and supporting forces in support of national objectives. Programs supported include operating tempo (OPTEMPO), fleet and unit training, operational support such as command and control, pier side support and port services, organizational maintenance, and associated administrative and other support. Costs consist of distillate fuel to support OPTEMPO underway days per quarter, organizational level repairs, supplies and equipage (S&E), utilities costs, Temporarily Assigned Duty (TAD) for shipboard and afloat staff personnel, and charter of lease back units through the Military Sealift Command (MSC).

	<b>OND Totals</b>	<b>\$5,548</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>
	<b>SAG Total</b>	<b>\$1,520,940</b>	<b>\$463,738</b>	<b>\$485,801</b>	<b>\$949,539</b>

**Explanation of Change between FY 2013 and FY 2014:** The demand for naval presence remains high for the foreseeable future and the level of operations required are not proportional to decreases in the "Boots on Ground" in Afghanistan. Total ship operations supports 58 underway days per quarter when deployed and 24 underway days per quarter when not deployed, of which OCO represents 13/4 underway days. The profile is 45/20 in the baseline and 13/4 in the OCO, which is the same as the FY12 profile. The FY13 funding profile supports 51/24 baseline underway days and 7/0 OCO underway days. The FY14 shift to 13/4 OCO underway days is the main reason for the increase between FY13 and FY14. The composite fuel rate used for FY14 is \$152.04 per barrel. Additionally, \$109M utilities costs, including commodities such as steam, water, electricity, and sewage, were transitioned from OCO to baseline in FY14. This decrease is offset by an \$116M increase in funding for fuel and repair parts and costs as a result of increased OPTEMPO to support OEF operations. Due to the stress on ships because of extended deployments and high OPTEMPO to support OEF, additional funding is required for the repair parts and costs and fuel consumption.

FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
-----------------	------------------	-------	------------------

**A. Subactivity Group 1B1B Mission and Other Ship Operations**

1. **Cost Breakdown Structure (CBS) 2.0**

a. OEF CBS 2.1- Temporary Duty (TAD/TDY)

\$17,200	\$6,038	-\$1,547	\$4,491
----------	---------	----------	---------

**OEF Narrative Justification:** This includes the costs of travel, per diem, and lodging for military and civilian personnel that result from participation in or support of the operation. Examples of items covered are per diem, rental vehicles, billeting, etc.

b. OND CBS 2.1- Temporary Duty (TAD/TDY)

\$1,577	\$0	\$0	\$0
---------	-----	-----	-----

**OND Narrative Justification:** This includes the costs of travel, per diem, and lodging for military and civilian personnel that result from participation in or support of the operation. Examples of items covered are per diem, rental vehicles, billeting, etc.

c. OEF CBS 2.2- Clothing and Other Equipment and Supplies

\$0	\$16	\$2	\$18
-----	------	-----	------

**OEF Narrative Justification:** This includes the cost of individual and organizational clothing and equipment not already issued to military personnel and civilian personnel deploying to, participating in, or supporting the operation. Includes chemical defense uniforms (CDUs), anti-flash hoods & gloves, fire fighting suits, inclement weather clothing (e.g. desert flight suits, non-standard desert utility uniforms, boots, gas masks and chemical protective clothing).

d. OEF CBS 2.5 - Other Personnel Support

\$3,896	\$4,678	\$79	\$4,757
---------	---------	------	---------

**OEFA Narrative Justification:** This includes other personnel support costs not included above such as permanent change of station, end of term of service, or special actions associated with household goods or privately-owned vehicle storage. Also includes the rental of quarters for Expeditionary Strike Group (ESG) staff personnel during deployment to augment Commander Fifth Fleet (C5F) Bahrain staff.

e. OEF CBS 2.7 - Body Armor

\$0	\$253	\$4	\$257
-----	-------	-----	-------

**OEFA Narrative Justification:** The request includes costs associated with body armor necessary for deployed military and civilian personnel to participate in, or support efforts associated with OCO.

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
2. <b><u>Cost Breakdown Structure (CBS) 3.0</u></b>				
a. OEF CBS 3.2 - Operations OPTEMPO	\$1,269,688	\$300,627	\$508,712	\$809,339
 <b><u>OEF Narrative Justification:</u></b> This includes the costs to operate units that conduct or support OEF operations. Includes the costs of incremental steaming days above baseline supporting OCO. This includes materials and services used during an operation to include petroleum, oils and lubricants (POL) and spare and consumable parts such as repair components, kits, and assemblies. The increase supports 13/4 underway days in FY14 OCO vice 7/0 underway days in FY13 OCO.				
b. OND CBS 3.2- Operations OPTEMPO	\$3,421	\$0	\$0	\$0
 <b><u>OND Narrative Justification:</u></b> This includes the costs to operate units that conduct or support OND operations. Includes the costs of incremental steaming days above baseline supporting overseas contingency operations (OCO). This includes materials and services used during an operation to include petroleum, oils and lubricants (POL) and spare and consumable parts such as repair components, kits, and assemblies. Utility costs includes commodities such as steam, water, electricity, sewage, and other miscellaneous services during Overseas Contingency Operations (OCO) directed deployments.				
c. OEF CBS 3.3 - Other Supplies and Equipment	\$83,478	\$30,527	-\$29,851	\$676
 <b><u>OEF Narrative Justification:</u></b> This includes acquisition (via lease, rental, or purchase) of supplies and equipment required to equip and sustain the forces during all phases of the contingency operation such as special protective gear for equipment or containers, fuel systems, repair parts, catapult and arresting gear, T-bars, cross deck pendants, or purchase cables. Also includes support equipment gear such as cranes, power carts, testers, erosions gages, etc.				
d. OEF CBS 3.4 - Facilities/Base Support	\$4,679	\$0	\$0	\$0
 <b><u>OEF Narrative Justification:</u></b> This includes increased physical security costs solely to support the contingency operation. Includes repair parts costs in support of facilities necessary for forward deployed, ready and standby carriers in support of OCO. Also includes vehicle and base support for Expeditionary Strike Group (ESG) staff personnel while deployed to Bahrain.				
e. OEF CBS 3.5.1 - Organizational Level Maintenance	\$0	\$13,662	\$5,523	\$19,185
 <b><u>OEF Narrative Justification:</u></b> This includes the cost of equipment maintenance activities performed at the organizational maintenance level, to include the cost to overhaul, clean, inspect, and maintain organic equipment to the required condition at the conclusion of the operation or unit deployment.				

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
f. OEF CBS 3.7 - Other Services and Miscellaneous Contracts	\$99,543	\$2,089	\$4,461	\$6,550
<b>OEF Narrative Justification:</b> This includes costs of procuring miscellaneous supplies used during the C5F operations including port costs for Forward Deployed Naval Forces/Expanded Maritime Intercept Operations (FDNF/EMIO) ships. Also, includes costs of leasing or renting miscellaneous supplies or services used during the operation, and leased equipment and services in foreign ports (e.g. armed security guards, divers, and picket/surveillance boats).				
g. OND CBS 3.7 - Other Services and Miscellaneous Contracts	\$550	\$0	\$0	\$0
<b>OND Narrative Justification:</b> This includes costs of leasing or renting miscellaneous supplies or services used during the operation, including port costs for Forward Deployed Naval Forces/Expanded Maritime Intercept Operations (FDNF/EMIO) ships, and leased equipment and services in foreign ports (e.g. armed security guards, divers, and picket/surveillance boats).				
<b>3. Cost Breakdown Structure (CBS) 4.0</b>				
a. OEF CBS 4.1- Airlift	\$0	\$735	\$13	\$748
<b>OEF Narrative Justification:</b> This includes transportation of Navy organic mission equipment into theater.				
b. OEF CBS 4.2- Sealift	\$36,908	\$104,900	-\$1,603	\$103,297
<b>OEF Narrative Justification:</b> FY 2014 includes the cost of USNS Humphreys and USNS Flint, which were activated to support higher operating tempo for OEF.				
c. OEF CBS 4.5- Other Transportation	\$0	\$213	\$8	\$221
<b>OEF Narrative Justification:</b> This includes transportation not included as airlift, sealift, ready reserve forces, or port handling/inland transportation. Includes the cost of delivery of end item(s) to a location in support of a contingency operation. Includes shipping material to Forward Deployed Naval Force (FDNF) Craft and Fifth Fleet Area of Operations (AOR).				
<b>Total</b>	<b>\$1,520,940</b>	<b>\$463,738</b>	<b>\$485,801</b>	<b>\$949,539</b>

**Detail by Subactivity Group 1B2B Ship Operational Support and Training**

- I.** Description of Operations Financed: Ship Operational Support and Training provides for the detailed pre-planning, engineering, training and range operations necessary to insure that all operating force ships and their crews are operating at high levels of readiness. Specific programs funded include:
- Surface Support includes the AEGIS Program, which supports the Navy's AEGIS cruiser and destroyer fleet.
  - The Receipt, Segregation, Storage, and Issue (RSSI) program provides for the movement, handling, storage, and disposal of ordnance as required by Fleet operations and inventory management. Also supports personnel and material to manage the Navy worldwide disposable ordnance inventory, and accomplishes required reuse and declassification in the most effective and economical manner consistent with safety, security, and environmental regulations and constraints.
  - Fleet Systems Engineering Team (FSET), which supports the Maritime Operations Center (MOC) in end to end troubleshooting for critical C2 functions.
  - Support for contingent Navy Divers and Navy Seal Teams when onboard submarines to conduct Special Operations Forces (SOF) missions.
  - Engineering support for the Shipboard Electromagnetic Compatibility Improvement Program (SEMCIP).

**Explanation of Change between FY 2013 and FY 2014:** The reduction in funding requested in FY14 is due to decreased requirements supporting Afloat Forward Staging Base and Command and Control (C2) support to Maritime Operation Centers (MOCs).

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>A. Subactivity Group 1B2B Ship Operational Support and Training</b>				
1. <b><u>Cost Breakdown Structure (CBS) 1.0</u></b>				
a. OEF CBS 1.2- Civilian Pay	\$880	\$1,391	-\$726	\$665
<b>OEF Narrative Justification:</b> This includes civilian labor in support of ship load/offload operations. Receipt, Segregation, Storage and Issue (RSSI) ordnance support, and support for trans-shipment of ordnance at Air Mobility Command (AMC) Terminal Norfolk to and from OCO theaters. Includes the costs of special pays received by civilians sent on Individual Augmentee				
2. <b><u>Cost Breakdown Structure (CBS) 2.0</u></b>				
a. OEF CBS 2.1- Temporary Duty (TAD/TDY)	\$693	\$528	-\$69	\$459
<b>OEF Narrative Justification:</b> This includes the costs of travel, per diem, and lodging for military and civilian personnel that result from participation in or support to the contingency operation. Travel in support of ship missile load/offload operations and the Tomahawk Land Attack Missile (TLAM) Quick Response Team.				
b. OND CBS 2.1- Temporary Duty (TAD/TDY)	\$119	\$0	\$0	\$0
<b>OND Narrative Justification:</b> This includes the costs of travel, per diem, and lodging for military and civilian personnel that result from participation in or support to the contingency operation. Provide support to flight line and NATO Ammo Depot Souda Bay in support of rollback.				
c. OEF CBS 2.5 - Other Personnel Support	\$0	\$0	\$0	\$125
<b>OEF Narrative Justification:</b> This includes the costs of personnel support to manage the Navy worldwide disposable ordnance inventory in the most effective and economical manner consistent with safety, security, and environmental regulations and constraints.				

		FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
3.	<b>Cost Breakdown Structure (CBS) 3.0</b>				
a.	OEF CBS 3.2- Operations OPTEMPO	\$7,425	\$15,122	-\$2,300	\$12,822
	<b><u>OEF Narrative Justification:</u></b> This supports propeller repair and overhaul requirements to achieve acceptable Ready-For-Issue inventories due to continued increased submarine propeller use. Also supports Shipboard Electromagnetic Compatibility Improvement Program (SEMCIP), which includes the incremental costs to prepare units (CSG, ESG, ships and subs) for deployment to combat theaters, to resolve electro-magnetic interference issues in-theater. Includes costs of corrective maintenance and fuel workups in support of C5F deployments, force protection, and convoy security tactical movement teams. Includes support costs for the Video Distribution System , which provides capability to Navy Divers and Navy Seal Teams when onboard submarines to conduct Special Operations Forces (SOF) Missions. Locomotive overhaul for ordnance onloads/offloads of deploying and returning ships. Public Works Center provides crane and forklift support during ship loads/offloads. Afloat Forward Staging Base sea-based training support to SOF. Spectrum expertise/guidance is provided to mitigate unintended interference between Counter-Radio Frequency Improvised Explosive Device (RC-IED) Electronic Warfare (CREW) equipment and other blue force spectrum-dependent equipment such as communications systems.				
b.	OND CBS 3.2- Operations OPTEMPO	\$6,400	\$0	\$0	\$0
	<b><u>OND Narrative Justification:</u></b> This supports propeller repair and overhaul requirements to achieve acceptable Ready-For-Issue inventories due to continued increased submarine propeller use. Also supports Shipboard Electromagnetic Compatibility Improvement Program (SEMCIP), which includes the incremental costs to prepare units (CSG, ESG, ships and subs) for deployment to combat theaters, to resolve electro-magnetic interference issues in-theater. Public Works Center provides cranes, forklifts and misc vehicle rentals to support ship loads/offloads.				
c.	OEF CBS 3.3- Other Supplies and Equipment	\$0	\$438	\$161	\$599
	<b><u>OEF Narrative Justification:</u></b> This includes costs (via lease, rental, or purchase) of supplies and equipment required to equip and sustain forces during all phases of ordnance operations for C5F deployers, such as palletization of materials, and special protective gear for equipment or containers.				
d.	OEF CBS 3.6- C4I	\$4,321	\$875	-\$875	\$0
	<b><u>OEF Narrative Justification:</u></b> This supports OCO Command and Control (C2) capabilities in a cyber contested environment. Specifically this supports OCO C2 mission assurance for Operation Enduring Freedom (OEF) that are at risk of cyber attacks and compromises that would disrupt operations in CENTCOM . Fleet Systems Engineering Team (FSET) supports Maritime Operation Centers (MOCs) operations in Afghanistan, Horn of Africa (HOA), and other OCO efforts in CENTCOM AOR. Funding provides on site C4I technical support for U.S. and coalition surface forces and maritime aviation units to include cyber defense, satellite communications systems, network, and applications.				
e.	OND CBS 3.6- C4I	\$1,494	\$0	\$0	\$0
	<b><u>OND Narrative Justification:</u></b> This supports OCO Command and Control (C2) capabilities in a cyber contested environment. Specifically this supports OCO C2 mission assurance for Operation New Dawn (OND) that are at risk of cyber attacks and compromises that would disrupt operations in CENTCOM .

- I. Description of Operations Financed:** Financing within this program supports maintenance ranging from Overhauls (OH) to Restricted Technical Availabilities (RA/TA) performed at Naval Shipyards (public) or private shipyards. Ship overhauls restore the ship, including all operating systems that affect safety or current combat capability, to established performance standards. This includes the correction of all discrepancies found during pre-overhaul tests and inspections or developed from maintenance history analysis. RA/TA repairs include selected restricted availabilities, phased maintenance availabilities, emergent repairs, service craft overhauls, repairs during post-shakedown of new units, interim dry docking, battery renewals and various miscellaneous type repairs.

**II. Financial Summary (\$ in Thousand)**

**Explanation of Change between FY 2013 and FY 2014:** Increased funding is for Long Term Reset to account for the effects of increased operating tempo supporting OCO operations on ship maintenance. FY 2014 ship maintenance is proportional to the OCO and base split for prior year ship operations and fully funds ship maintenance requirements when combined with the base budget.

- I. Description of Operations Financed:** The planning and technical support function supports management for availabilities, life cycle maintenance, and class maintenance impacts due to alterations, repair material management, and special projects for ship logistics managers. The Supervisors of Shipbuilding, Conversion, and Repair (SUPSHIPS) are designated contract administrators and on-site technical and business agents for the Navy Department and other Department of Defense shipbuilding, design and conversion and facility contracts at assigned shipyards. They are also responsible for planning, procuring, and providing field program management of overhauls, repairs, alterations, and inactivations performed on Naval and other DOD ships at private shipyards. The Fleet Modernization Program (FMP) funds all design services in support of Operations and Maintenance Navy (O&M,N) alterations. The FMP is designed to upgrade ships of the fleet to be mission capable in countering current and projected threats and improve operational capabilities. The Berthing and Messing program funds off-ship berthing costs for a ship's crew when the ship is uninhabitable during an availability or overhaul. This program also supports berthing barge operation and maintenance.

- I. Description of Operations Financed:** Funding provides for communications systems that directly support fleet operations. The Naval Network and Space Operations Command operates and maintains space systems (spacecraft and ground-based components) to fulfill Naval and national requirements. This funding provides support for Commercial Broadband Satellite Program (CBSP) for increased data throughput, Navy Global Broadcast Service (GBS) for antenna group refurbishment, maintenance for TacMobile systems supporting OCO operations, DISN Subscription Service (DSS) that provides Long Haul communication circuit capability for OCO, operation and maintenance of Joint Explosive Ordnance Disposal Very Small Aperture Terminals (JEOD VSAT) required in JUONs and connectivity with the Afghanistan Mission Network (AMN), and the Navy's share of CENTCOM transponder fees.

**Explanation of Change between FY 2013 and FY 2014:** Decrease in funding due to reduction in requirements for the GBS, Ultra High Frequency (UHF) leases, and JEOD VSAT

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>A. Subactivity Group 1C1C Combat Communications</b>				
1. <b><u>Cost Breakdown Structure (CBS) 2.0</u></b>				
a. OEF CBS 2.5 - Other Personnel Support	\$7	\$0	\$0	\$0
<b>OEF Narrative Justification:</b> This includes costs for other personnel support such as permanent change of station, end of term service, or special actions associated with household goods or privately-owned vehicle storage.				
2. <b><u>Cost Breakdown Structure (CBS) 3.0</u></b>				
a. OEF CBS 3.6- C4I	\$79,483	\$42,965	-\$5,205	\$37,760
<b>OND Narrative Justification:</b> Funding is required for the following items: (1) Long Haul communications capability DISN Subscription Services (DSS) supports the T-1 line from Naples to Bahrain and Camp Lemonier. (2) Funding is required for the maintenance of Joint Explosive Ordnance Disposal Very Small Aperture Terminal (JEOD VSAT) terminals directly supporting OCO JEOD VSAT provides reliable and secure mobile voice, data, and video communications for widely dispersed Joint EOD teams operating in austere and remote locations supporting OCO operations. Without funding, communications between JEOD teams will be severely compromised, which may result in the failure of EOD teams reporting to missions or the inability to gain access of critical IED information. (3) Also funds Electronic Warfare (EW) which provides support and advises the Fleet Commander on Electronic Warfare Readiness and tactical EW issues. Serves as the primary EW integration organization for the Fleet. Enables Navy's ability to control congested and uncontested EW spectrum at the time and place of our choosing and will determine our ability to influence and defeat adversaries in the future. (4) Funding is required to provide leases for 6 UHF SATCOM channels to Joint and Coalition Forces and Commanders in support of OCO. These channels allow satellite access, and lack of funding will allow the channels to be available to other countries, risking permanent loss of these channels. This may lead to OCO missions being denied due to lack of available channels.				
b. OND CBS 3.6- C4I	\$5,159	\$0	\$0	\$0
<b>OND Narrative Justification:</b> Funding through FY12 is required for : (1) The DISN Subscription Service (DSS) that provides Long Haul communications circuit capability via the E-1 line from Bahrain to Naples. Also supports Electronic Warfare (EW) that provides the 15 contractors who support and advise the Fleet Commander on Electronic Warfare Readiness and tactical EW issues. Serves as the primary EW integration organization for the Fleet. Enables Navy's ability to control congested and uncontested EW spectrum at the time and place of our choosing and will determine our ability to influence and defeat adversaries in the future. (2) The Joint Maritime Ashore Support Terminal mobile command and control systems assigned to units deploying to CENTCOM AOR. These units are routinely operating under harsh environmental conditions for extended periods of time that far exceeds the designed operational life expectancy of the TacMobile systems.

- I.** **Description of Operations Financed:** Funding in this subactivity group supports the Enhanced Naval Warfare Gaming System (ENWGS); naval warfare management; warfare tactics development/documentation; exercise support and analysis; fleet training administration and range operations; and unified commands. Funding provides for operation and maintenance of range instrumentation, air and surface, and subsurface targets, minor range engineering projects, fleet training on test ranges, consumable costs, Electronic Warfare (EW) threats, and underwater tracking systems. The program also provides funds for courses to train and evaluate Carrier and Expeditionary Strike Group staff's tactical and operational proficiency in doctrine, tactics techniques and procedures and execute the Fleet Synthetic Training program. The program has recently added the Navy Warfare Centers of Excellence (WCOE's) which synchronizes Navy efforts in Mine Warfare (MIW), Anti-Submarine Warfare (ASW) and Air Missile Defense (AMD).

**II. Financial Summary (\$ in Thousand)**

OEF	CBS Title	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total

	<b>SAG Total</b>	<b>\$39,977</b>	<b>\$25,970</b>	<b>-\$619</b>	<b>\$25,351</b>

**Explanation of Change between FY 2013 and FY 2014:** The decrease in FY 14 is due to lower requirements for Afloat Force Staging Base training for deploying forces, and Mobile Sea Range (MSR) vessel maintenance requirements. The composite fuel rate used for FY14 is \$152.04 per barrel.

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>A. Subactivity Group 1C4C Warfare Tactics</b>				
1. <b><u>Cost Breakdown Structure (CBS) 1.0</u></b>				
a. OEF CBS 1.2 - Civilian Pay	\$742	\$0	\$67	\$67
<b>OEF Narrative Justification:</b> Costs in FY14 are due to personnel overtime and premium pay to support extended and accelerated periods when providing training services to Fleet units for contingency type operations. The training services provided are tailored to contingency type threats, which included advance electronic simulations for ground based threat systems, and advanced profile at sea target presentations for boat threats.				
2. <b><u>Cost Breakdown Structure (CBS) 2.0</u></b>				
a. OEF CBS 2.1- Temporary Duty (TAD/TDY)	\$14,510	\$566	\$1,089	\$1,655
<b>OEF Narrative Justification:</b> Travel in support of training Commander, Strike Force Training Atlantic (CSFTL), Tactical Training Group Atlantic (TTGL), Expeditionary Warfare Training Group Atlantic (EWTGL), Afloat Training Group Atlantic (ATGL), Naval Strike and Air Warfare Center (NSAWC), and others as appropriate. Training supports forces supporting Afghanistan, Pakistan, Horn of Africa, Persian Gulf and Gulf nations, Arabian Sea, and Indian Ocean.				
2. <b><u>Cost Breakdown Structure (CBS) 3.0</u></b>				
a. OEF CBS 3.1 - Training	\$9,877	\$16,970	-\$2,376	\$14,594
<b>OEF Narrative Justification:</b> Funding supports the design and implementation of specific training for strike groups to meet Commander Fifth Fleet (C5F) and United States Central Command (CENTCOM) Request for Forces (RFF) requirements and operational assignment in Areas of Responsibility (AOR), including irregular warfare training requirements, maritime intercept operations, and EVBSS training.				
b. OEF CBS 3.3- Other Supplies and Equipment	\$72	\$126	\$741	\$867
<b>OEF Narrative Justification:</b> This includes costs (via lease, rental, or purchase) of supplies and equipment required to equip and sustain tactical training forces during all phases of the operation, including supplies in support of electronic warfare (EW) related remote operations.				
c. OEF CBS 3.5.1 - Organizational Level Maintenance	\$0	\$171	-\$171	\$0
<b>OEF Narrative Justification:</b> This supports Mobile Sea Range vessels in performing required maintenance and proportional depot level maintenance required after Visit Board Search and Seizure (VBSS)/Maritime Interdiction Operations (MIO). Maintenance is based on a percentage of time used to support VBSS/MIO.				
d. OEF CBS 3.5.2 - Intermediate Level Maintenance	\$2,232	\$2,250	\$82	\$2,332
<b>OEF Narrative Justification:</b> Funds maintenance directly attributable to operations of Mobile Sea Range Vessels (PREVAIL, HUGO, HUNTER). Funding provides proportional daily maintenance costs for conducting training specific to CENTCOM requirements.				

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
f. OEF CBS 3.7 Other Services and Miscellaneous Contracts	\$12,516	\$5,887	-\$51	\$5,836

**OEF Narrative Justification:** This funding provides for network connectivity with coalition partners during Fleet Synthetic Training exercises to specific requirements of Command Fifth Fleet (C5F)/United States Central Command (CENTCOM). Also provides for Environmental Impact Statements/Studies for supporting training operations in Overseas Contingency Operations (OCO) theaters. Includes costs of leasing or renting miscellaneous supplies or services associated with the tactical training of units and personnel deploying to C5F, including operations and maintenance costs associated with Fleet Training Range systems, use of other military service ranges, and contractor support for electronic warfare (EW) related remote training operations.

g. OND CBS 3.7 Other Services and Miscellaneous Contracts	\$28	\$0	\$0	\$0
---	------	-----	-----	-----

**OND Narrative Justification:** This funding provides for network connectivity with coalition partners during Fleet Synthetic Training exercises to specific requirements of Command Fifth Fleet (C5F)/United States Central Command (CENTCOM).

Total	\$39,977	\$25,970	-\$619	\$25,351

Subactivity Group 1C4C

**NAVY**  
**Contingency Operations: Operation Enduring Freedom/Operation New Dawn**  
**Operation and Maintenance, Navy**  
**Budget Activity 01**  
**Activity Group 1C**  
**Detail by Subactivity Group 1C5C Op Meteorology and Oceanography**

- I. Description of Operations Financed:** Funding within this subactivity group supports the performance of Naval meteorological and oceanographic mission functions worldwide and provides a wide array of essential operational meteorological and oceanographic products and services to operating forces afloat and ashore. These services include collecting and processing environmental data using resources such as oceanographic ships, aircraft, satellites, and computing systems. These products and services enhance the performance of active and passive sensors and weapon systems and optimize the effectiveness of the sea control mission for mine countermeasures and tactics.

**II. Financial Summary (\$ in Thousand)**

OEF	CBS Title	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
1.0	Personnel	\$866	\$1,231	-\$1,231	\$0
2.0	Personnel Support	\$1,223	\$1,203	\$1,273	\$2,476
3.0	Operating Support	\$40,714	\$16,792	\$777	\$17,569
4.0	Transportation	\$0	\$0	\$0	\$0
	OEF Totals	\$42,803	\$19,226	\$819	\$20,045
<b>OND/Post-OND</b>					
1.0	Personnel	\$0	\$0	\$0	\$0
2.0	Personnel Support	\$0	\$0	\$0	\$0
3.0	Operating Support	\$32	\$0	\$0	\$0
4.0	Transportation	\$0	\$0	\$0	\$0
	OND Totals	\$32	\$0	\$0	\$0
	<b>SAG Total</b>	<b>\$42,835</b>	<b>\$19,226</b>	<b>\$819</b>	<b>\$20,045</b>

**Explanation of Change between FY 2013 and FY 2014:** Increased funding is requested in FY14 for maintenance and upgrade of the United States Marine Corps Meteorological Mobile Facility Replacement (METMF(R)).

		FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>A. Subactivity Group 1C5C Op Meteorology and Oceanography</b>					
1. <b>Cost Breakdown Structure (CBS) 1.0</b>					
a. OEF CBS 1.2- Civilian Pay		\$866	\$1,231	-\$1,231	\$0
<b>OEFA Narrative Justification:</b>	This includes the cost of overtime and premium pay to support theater operations. Also includes flight pay costs for oceanographic modeling. Overtime to deploy personnel to OCONUS operation areas aboard CNMOC TAGs 60 ships. NAVOCEANO Surveys are a significant impact to COCOM OHB (Oceanographic, Hydrographic, Bathymetric) data collection which is a vital element in OPLAN and contingency planning. Fleet Survey Teams - The Fleet Survey Team's mission is littoral and expeditionary Hydrographic Operations. OCO is utilized to fund overtime labor for civilians conduct operations in the designated AOR's. Littoral & Riverine Modeling - Manpower requirements that are used by 5th Fleet ONI and others to identify potential areas of pirate attacks, based on environmental conditions.				
2. <b>Cost Breakdown Structure (CBS) 2.0</b>					
a. OEF CBS 2.1- Temporary Duty (TAD/TDY)		\$1,223	\$1,203	\$1,273	\$2,476
<b>OEFA Narrative Justification:</b>	This funds travel to deploy Fleet Survey Team personnel to OCONUS operation areas.				
3. <b>Cost Breakdown Structure (CBS) 3.0</b>					
a. OEF CBS 3.3- Other Supplies and Equipment		\$0	\$4,954	\$84	\$5,038
<b>OEFA Narrative Justification:</b>	This funds equipment for Fleet Survey teams to conduct operations in the CENTCOM AOR. Current Meters, buoy support, RAD system, SHARP system, Commercial Imagery, calibration maintenance, NOSSP system enhancement and computer software are vital data gathering instruments that are critical to validate data models provided to the warfighter.				
b. OEF CBS 3.6- C4I		\$900	\$991	\$509	\$1,500

**OEFA Narrative Justification:** The Meteorological Mobile Facility (Replacement) (METMF(R)) OCO requirement recapitalizes combat-worn weather sensors including the Doppler weather radar. These systems are a critical component of the overall Marine Air Ground Task Force (MAGTF) operational capability worldwide and supports the MAGTF and Combatant Commander (COCOM) Battlespace Sensing Strategy. Without this funding, combat worn and technically obsolete METMF(R) systems deployed for OEF will be limited in supporting the Marine Corps in theater due to inaccurate weather information. In addition, a critical engineering change to upgrade the operating system of these units must be completed in FY14 in order to maintain network certification accreditation and authority to operate on DoD networks.

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
c. OEF CBS 3.7 Other Services and Miscellaneous Contracts	\$39,814	\$10,847	\$184	\$11,031

**OEF Narrative Justification:** Littoral and riverine modeling support 5th fleet requirements for characterization of environmental conditions. Piracy Performance Surface manpower requirements are utilized by 5th Fleet and others to identify potential areas of pirate attacks, based on environmental conditions. LIDAR contracts support CHARTS surveys, which are utilized to provide rapid execution of shallow water surveys in OCO designated AORs. Bathymetric Data Production contract supports Safety of Navigation requirements in OCO designated AORs. The Naval Oceanography Special Warfare Center (NOSWC) under the Commander, Naval Meteorology and Oceanography Command provides Naval Special Warfare (NSW) forces with meteorological and oceanographic information for tactical, operational, and strategic advantage during mission planning and execution. METOC Essential Elements of Information (EEIs) are critical to the successful execution of the NSW mission planning process in support of OCO. Also, METOC is one of the five elements of NSW's Technical Special Reconnaissance (TSR) Program to improve "find and fix" capability against terrorist and insurgent networks. The capability to accurately sense environmental parameters allows NSW METOC personnel to sufficiently characterize the physical environment to support NSW missions. Procurements include: disposable wave buoys, stand alone sensors, observation systems.

d. OND CBS 3.7 Other Services and Miscellaneous Contracts	\$32	\$0	\$0	\$0
---	------	-----	-----	-----

**OND Narrative Justification:** OCO is utilized to fund contract support to conduct operations in the designated AOR.

Total	\$42,835	\$19,226	\$819	\$20,045

Operation and Maintenance, Navy  
Exhibit OP-32 Overseas Contingency Operations  
Subactivity Group 1C5C

**NAVY**  
**Contingency Operations: Operation Enduring Freedom/Operation New Dawn**  
**Operation and Maintenance, Navy**  
**Budget Activity 01**  
**Activity Group 1C**  
**Detail by Subactivity Group 1C6C Combat Support Forces**

**I. Description of Operations Financed:** This subactivity group includes funding to support ship environmental protection diving and salvage operations, fleet commands and staffs, ocean facilities program, fleet-wide imaging services, unified commands support, operations of Navy Mobile Construction Battalions (NMCB), Amphibious Craft Units, Special Combat Support Forces, repair of combatant craft and equipment, and transportation of combat forces and equipment.

**II. Financial Summary (\$ in Thousand)**

		FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>OEF</b>	<b>CBS Title</b>				
1.0	Personnel	\$722	\$2,578	-\$2,578	\$0
2.0	Personnel Support	\$211,731	\$260,653	-\$80,157	\$180,496
3.0	Operating Support	\$496,104	\$663,129	-\$227,984	\$435,145
4.0	Transportation	\$414,959	\$741,999	-\$145,344	\$596,655
	<b>OEF Totals</b>	<b>\$1,123,516</b>	<b>\$1,668,359</b>	<b>-\$456,063</b>	<b>\$1,212,296</b>
<b>OND/Post-OND</b>					
1.0	Personnel	\$42	\$0	\$0	\$0
2.0	Personnel Support	\$3,390	\$0	\$0	\$0
3.0	Operating Support	\$13,112	\$0	\$0	\$0
4.0	Transportation	\$9,644	\$0	\$0	\$0
	<b>OND Totals</b>	<b>\$26,188</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>
	<b>SAG Total</b>	<b>\$1,149,704</b>	<b>\$1,668,359</b>	<b>-\$456,063</b>	<b>\$1,212,296</b>

**Explanation of Change between FY 2012 and FY 2013:** Reductions in FY 2014 reflect reduced costs for inland transportation, personnel gear, Reserve Component activation, and training due to the drawdown of troops in Afghanistan offset by increases in airlift and second destination transportation (SDT) to support the redeployment of troops. The composite fuel rate used for FY14 is \$152.04 per barrel.

		FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>A. Subactivity Group 1C6C Combat Support Forces</b>					
1. <b>Cost Breakdown Structure (CBS) 1.0</b>					
a. OEF CBS 1.2- Civilian Pay		\$722	\$2,578	-\$2,578	\$0
<b>OEF Narrative Justification:</b> This includes the cost of overtime and premium pay to support theater operations. C2F (OEF-HOA) - Political Affairs Advisor to JTF HOA.					
b. OND CBS 1.2- Civilian Pay		\$42	\$0	\$0	\$0
<b>OEF Narrative Justification:</b> This includes the cost of overtime and premium pay to support theater operations.					
2. <b>Cost Breakdown Structure (CBS) 2.0</b>					
a. OEF CBS 2.1- Temporary Duty (TAD/TDY)		\$162,419	\$189,064	-\$33,046	\$156,018
<b>OEF Narrative Justification:</b> This includes the costs of travel, per diem, and lodging for military and civilian personnel that result from participation in or support to the contingency operation. This includes Temporary Assigned Duty (TAD) from Expeditionary Combat Readiness Center (ECRC) to Individual Augmentee (IA) destinations and back to the ECRC, and subsequently Permanent Change of Station (PCS). Also includes Travel and Per Diem expenses for Naval Expeditionary Combat Command (NECC) personnel supporting OEF operations. More than 1,800 service members are assigned to JTF-HOA with many of those forces operating outside the boundaries of NSA Camp Lemonier, DJ. NMCB, Civil Affairs and Maritime Civil Affairs teams work continuously in remote and austere areas within Africa and with AFRICOM Headquarters in Stuttgart, GE. Also includes travel for Returning Warrior program and Operational Stress and Control and Suicide Prevention programs.					
b. OND CBS 2.1- Temporary Duty (TAD/TDY)		\$3,178	\$0	\$0	\$0
<b>OND Narrative Justification:</b> This includes the costs of travel, per diem, and lodging for military and civilian personnel that result from participation in or support to the contingency operation. This includes Temporary Assigned Duty (TAD) from Expeditionary Combat Readiness Center (ECRC) to Individual Augmentee (IA) destinations and back to the ECRC, and subsequently Permanent Change of Station (PCS). Travel funding for NECC personnel to attend Expeditionary Small Arms Instructor (ESAMI), TAD in support of RFFs, travel and per diem for ECRC Headquarters personnel and ECRC Liaison Officers (LNO), and ECRC Forward Detachments.					
c. OEF CBS 2.2- Clothing and Other Personnel Equipment and Supplies		\$40,619	\$58,560	-\$36,173	\$22,387
<b>OEF Narrative Justification:</b> Funding provided for clothing/Personal Gear Issue (PGI) - Sustainment and refresh for updates for Items such as camouflage utility uniforms (CUU), desert camouflage uniforms, and TYPE III uniforms to support Overseas Contingency Operations. Operations will be conducted in harsh environmental maritime conditions that consume large amounts of resources (e.g., clothing and other consumable supplies) in of support CONUS operations as well as uniform issue for deploying Individual Augmentees for 3,250 Sailors. Delta between FY13 and FY14 is the result of a new camouflage uniform design that is anticipated to be implemented in FY12 to FY13.					
d. OND CBS 2.2- Clothing and Other Personnel Equipment and Supplies		\$27	\$0	\$0	\$0
<b>OND Narrative Justification:</b> This includes the cost of individual and organizational clothing and equipment not already issued to military personnel and civilian personnel deploying to, participating in, or supporting a contingency operation. Also includes organizational clothing/Initial Equipment for Combat Skills Warrior, Rapid Fielding Initiative Issues and Personally Procured Personal Protective Equipment Organizational Clothing/Individual Equipment (OC/IE) for large scale mobilization in support of overseas contingency operations.					

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
e. OEF CBS 2.3- Medical Support/Health Services	\$1,217	\$448	-\$153	\$295
<b>OEF Narrative Justification:</b> The funding includes costs associated with providing medical consumables to military and civilians, deploying detachments (DETs), medical supplies/EMT kits, Authorized Medical Allowance List (AMAL/ADALs), replacement/replenishment of Chemical, Biological and Radiological (CBR) and anthrax medicinals. Also includes additive costs associated with providing medical services to military personnel in clinics, hospitals, hospital ships or other medical treatment facilities. Includes medical services for Individual Augmentee (IA).				
f. OND CBS 2.3- Medical Support/Health Services	\$3	\$0	\$0	\$0
<b>OND Narrative Justification:</b> This provides protective eye wear and other medical services for Individual Augmentee (IA) Sailors training at Navy Individual Augmentee Combat Training (NIACT).				
g. OEF CBS 2.4- Reserve Component Activation/Deactivation	\$139	\$2,494	-\$2,019	\$475
<b>OEF Narrative Justification:</b> This includes contractor costs associated with backfilling civilian position while participating in Individual Augmentee (IA) mission.				
h. OND CBS 2.4- Reserve Component Activation/Deactivation	\$182	\$0	\$0	\$0
<b>OND Narrative Justification:</b> Per diem accommodation costs for Mobilization Group personnel.				
i. OEF CBS 2.5- Other Personnel Support	\$479	\$2,212	-\$2,060	\$152
<b>OND Narrative Justification:</b> This includes contractor costs associated with backfilling civilian position while participating in Individual Augmentee (IA) mission.				
j. OEF CBS 2.7 - Body Armor	\$6,857	\$7,875	-\$6,706	\$1,169

**OEF Narrative Justification:** Individual Body Armor (IBA) provides an increased level of protection for all personnel. NAVSEA conducts a continuous test and evaluation of body armor systems to take advantage of the latest in technologies. NAVSEA issues the IBA and Combatant Commanders have mandated all personnel (Military and Civilian) supporting combat operations be equipped with serviceable body armor in-theater. The OCO funding requested will continue fielding and replacing serviceable body armor to support contingency operations to include replacement sets of X-Small Arms Protective Inserts (X-SAPI); X-Side Ballistic Inserts (X-SBI), and Improved Outer Tactical Vest (IOTV) with cut-away components. The IBA is also required to be replaced or X-Rayed for damage at post deployment. FY14 funds are required for phased replacement.

### 3. Cost Breakdown Structure (CBS) 3.0

a. OEF CBS 3.1- Training	\$20,914	\$39,415	-\$31,077	\$8,338
--------------------------	----------	----------	-----------	---------

**OEF Narrative Justification:** This includes the costs associated with predeployment training of units and personnel to participate in or support an operation as well as the costs associated with training troops and personnel during the contingency operation. Navy request includes Explosive Ordnance Disposal (EOD) training and other training exercises; deployment specific EOD/Diver/Tech training and preparation for units and personnel to assume directed missions. Supports NECC's 5 Home Station Training Lanes providing C-IED predeployment training to meet theater, COCOM and Navy requirements and provides integrated C-IED staff to accomplish integration of C-IED training. This was previously funded by JIEDDO.

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
b. OND CBS 3.1- Training	\$1,043	\$0	\$0	\$0

**OND Narrative Justification:** This includes the costs associated with predeployment training of units and personnel to participate in or support an operation as well as the costs associated with training troops and personnel during the contingency operation.

c. OEF CBS 3.2- Operations OPTEMPO	\$37,418	\$64,264	-\$32,550	\$31,714
------------------------------------	----------	----------	-----------	----------

**OEF Narrative Justification:** This includes the incremental cost to operate units that conduct or support contingency operations, such as materials and services used during an operation to include: petroleum, oils and lubricants (POL) and spare and consumable parts such as repair components, kits, assemblies. Funding for fuel and petroleum products for training during the FRTP (Fleet Readiness Training Plan) in preparation for Overseas Contingency Operations which will be conducted in harsh environmental conditions that consume large amounts of resources in support of SABAR (Satellites, Balloons, And Rockets), CESE (Civil Engineering Support Equipment) , MHE (Materiel Handling Equipment), MRAP (Mine Resistant Ambush Protected) and other supporting equipment. Operational costs will continue to remain high as units continue to operate worn equipment in harsh climatic conditions across a large area of operations in Afghanistan. Also includes the cost of spare and consumable parts, materials and services used for corrective maintenance and fuel workups in support of C5F deployments.

d. OND CBS 3.2- Operations OPTEMPO	\$1,204	\$0	\$0	\$0
------------------------------------	---------	-----	-----	-----

**OND Narrative Justification:** This includes the incremental cost to operate units that conduct or support contingency operations, such as materials and services used during an operation to include: petroleum, oils and lubricants (POL) and spare and consumable parts such as repair components, kits, assemblies. Units include High Mobility Multipurpose Wheeled Vehicles (HMMWV), rib boats, patrol boats, weapons, antifreeze, hazmat charges, and other tactical vehicles and equipment.

e. OEF CBS 3.3- Other Supplies and Equipment	\$83,092	\$153,464	-\$92,531	\$60,933
--	----------	-----------	-----------	----------

**OEF Narrative Justification:** This includes acquisition (via lease, rental, or purchase) of supplies and equipment required to equip and sustain the forces during all phases of the contingency operation such as special protective gear for equipment or containers. Navy request includes: Night vision camera kits, field survival equipment, tapes, batteries, generators, repair kits, tents, connex boxes for deployed teams, repair parts and consumables for other equipment requirements, equipment/vehicle leases, and equipment and supplies purchases to conduct mission rehearsal exercises. Replacement/reset of in-theater Tables of Allowance (TOA) items with a limited service life that are severely worn due to overseas contingency operations (OCO), including Intermediate Logistics Overhaul (ILO) for Navy Expeditionary Combat Command (NECC) TOAs for equipment used in OEF.

f. OND CBS 3.3- Other Supplies and Equipment	\$2,224	\$0	\$0	\$0
--	---------	-----	-----	-----

**OND Narrative Justification:** This includes acquisition (via lease, rental, or purchase) of supplies and equipment required to equip and sustain the forces during all phases of the contingency operation such as special protective gear for equipment or containers.

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
g. OEF CBS 3.4- Facilities/Base Support	\$47,690	\$18,678	\$17,377	\$36,055

**OEF Narrative Justification:** This includes items such as: Support for security assessments, outsourcing surveys, waiver requests, exercises, and evaluation. Navy request also includes: Facilities costs for deployed Forward Deployed Naval Forces (FDNF) Craft, Combined Enterprise Regional Information Exchange (CENTRIX) network support, cranes, forklifts, Integrated Condition Assessment System (ICAS) for Embassy, general broadcasting service maintenance, cables for communication, building renovations, satellite lease and maintenance, network, shipping costs, utilities and real estate leases. Camp Moreell facilities upkeep and base operations support (generators, dumpster rental, etc.); Range scheduling and ammo handling fees; communication upgrades. Warrior Transition Program (WTP) Kuwait: WTP tent accommodates ECRC Forward staff and transiting 10,000+ redeploying IA's per year; Navy Individual Augmentee Command Training (NIACT), FT. Jackson facilities: barracks accommodates IA Sailors and Liaison Officer support. WTP is the only NAVCENT location for this program at Camp Arifjan, Kuwait. With more than 1,800 service members assigned to JTF-HOA and many working outside the boundaries of NSA Camp Lemonier, Base Operational Support costs are high. Civil Affairs (CA) teams and Maritime Civil Affairs Teams (MCAT) are working in remote areas for long periods of time building relationships and enhancing security capacity, building capacity with the host nation military or other US Agencies. Due to a lack of safe drinking water throughout the AOR, bottled water is provided via contract to many of these locations. The Forward Operation Location in Manda Bay, KE routinely supports in excess of 200 US service members.

h. OEF CBS 3.5.1 - Organizational Level Maintenance	\$38,867	\$16,617	\$17,889	\$34,506
---	----------	----------	----------	----------

**OEF Narrative Justification:** This includes the cost of equipment maintenance activities at the conclusion of a deployment. Includes the cost to clean, inspect, and maintain organic equipment to the required condition. Navy request includes vehicle maintenance and other vehicle support. Also includes contractor support costs when required material and maintenance of an end item or system is performed. Examples include repairs and improvements to Up-Armored High Mobility Multipurpose Wheeled Vehicles (HMMWV), other tactical vehicle repair parts and tools; forklift tires; platform tailgates; and repair of sensors and electronic equipment. NECE - Equipment (CESE) is returned to CED Gulfport for overhaul repairs.

i. OND CBS 3.5.1 - Organizational Level Maintenance	\$4,503	\$0	\$0	\$0
---	---------	-----	-----	-----

**OND Narrative Justification:** This includes the cost of equipment maintenance activities at the conclusion of a deployment. Includes the cost to clean, inspect, and maintain organic equipment to the required condition.

j. OEF CBS 3.5.3 - Depot Level Maintenance	\$29,405	\$113,556	-\$22,809	\$90,747
--	----------	-----------	-----------	----------

**OEF Narrative Justification:** Funds provide for reset of Table of Allowance (TOA) equipment in the OEF AOR based on modeled output inclusive of OPTEMPO rate as well as anticipated forces in theater in the FY14 time frame. Funding is also requested for phased replacement and technical refresh of TOA items at the end of their lifecycle. This program is reducing the number of configurations on the battlefield and providing commonality across the Navy Expeditionary Forces. Funding is requested for requirements to maintain In-Service Engineering Agent (ISEA) and lifecycle support for the Expeditionary Forces and their associated equipment sets.

k. OEF CBS 3.5.4 - Contractor Logistics Support	\$3,047	\$23,582	-\$18,522	\$5,060
---	---------	----------	-----------	---------

**OEF Narrative Justification:** This includes funding for reset of supplies and equipment for Naval Construction Force (NCF) in OEF AOR. Request also includes funding for Phased Replacement and Technical Refresh of Navy Expeditionary Combat Command equipment to current configuration and operating environment.

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
1. OEF CBS 3.5.6 - MRAP Maintenance	\$47,995	\$24,882	\$25,494	\$50,376

**OEF Narrative Justification:** This includes maintenance of MRAP Vehicles MRAP (previously the JPO (Joint Program Office) was responsible). The current Navy MRAP Family of Vehicles (FoV) is 582.

m. OEF CBS 3.6- C4I	\$62,453	\$34,599	-\$3,857	\$30,742
---------------------	----------	----------	----------	----------

**OEF Narrative Justification:** This includes the cost of designing, engineering, installing and maintaining C4I systems required to support the contingency operations. Navy request includes: replacement of electronic equipment; satellite and other communications services; iridium phones and services; comms gear for classroom training evolutions; development of low bandwidth version of NFAAS, IA survey software license, annual license renewal cost, blackberry IA application and services; and annual operations and maintenance fees. JTF-HOA: With more than 1,800 service members assigned to JTF-HOA and many working outside the boundaries of NSA Camp Lemonier, communications connectivity is a challenge. Internet services are provided on an ad hoc basis through the AOR with many remote areas lacking even cellular phone connectivity. Much of the connectivity is procured through satellites. Forward operational units require secure communications as well as NIPR access. Funds also include HSWAN/DKET maintenance costs. With extreme high temperatures and dust/sand storms throughout Djibouti, much of the ADP equipment experience a shortened useful life, requiring frequent replacement. Funding is also required for the procurement and installation of C4I systems/equipment associated with the relocation of the CJTF-HOA JIOC from a non-force protected location to a new headquarters building.

n. OND CBS 3.6- C4I	\$4,004	\$0	\$0	\$0
---------------------	---------	-----	-----	-----

**OND Narrative Justification:** This includes the cost of designing, engineering, installing and maintaining C4I systems for NECC required to support the contingency operations.

o. OEF CBS 3.7 Other Services and Miscellaneous Contracts	\$125,186	\$174,072	-\$87,398	\$86,674
---	-----------	-----------	-----------	----------

**OEF Narrative Justification:** This includes costs of procuring, leasing, or renting miscellaneous supplies or services used during the contingency operation. Navy request includes the following: Vehicle leases for various NECC units within the CENTCOM AOR to include Bahrain, Dubai, Afghanistan, and UAE, to include drivers. Service contracts remain to be a significant mode of procurement for contingency operations to ensure driver, interpreters, fuel, shipping, and other requirements are met. Funding supports manpower management responsibilities for sourcing Navy Individual Augmentation (IA/OCO) requirements. ICASS contract services and various equipment contracts to support ISA Air Base are also required.

p. OND CBS 3.7 Other Services and Miscellaneous Contracts	\$134	\$0	\$0	\$0
---	-------	-----	-----	-----

**OND Narrative Justification:** This includes costs of procuring, leasing, or renting miscellaneous supplies or services used during the contingency operation.

q. OEF CBS 3.8 IED Operations	\$37	\$0	\$0	\$0
-------------------------------	------	-----	-----	-----

**OEF Narrative Justification:** This includes costs of IED operations in support of OEF.

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
4. <b><u>Cost Breakdown Structure (CBS) 4.0</u></b>				
a. OEF CBS 4.1- Airlift	\$398,537	\$673,979	-\$93,901	\$580,078
<b><u>OEF Narrative Justification:</u></b> This includes transportation of Navy and USMC personnel, equipment, and material by air either by commercial or military assets. Navy is responsible for Marine Corps personnel and equipment transportation to and from operating destinations, and tactical air sustainment while in-theater.				
b. OND CBS 4.1- Airlift	\$9,642	\$0	\$0	\$0
<b><u>OND Narrative Justification:</u></b> This includes transportation of Navy and USMC personnel, equipment, and material by air either by commercial or military assets. Navy is responsible for Marine Corps personnel and equipment transportation to and from operating destinations, and tactical air sustainment while in-theater.				
c. OEF CBS 4.2 - Sealift	\$0	\$2,615	-\$587	\$2,028
<b><u>OEF Narrative Justification:</u></b> The funding supports sealift support to SOCOM.				
d. OEF CBS 4.4 - Port Handling/Inland Transportation	\$3,373	\$30,953	-\$30,953	\$0
<b><u>OND Narrative Justification:</u></b> This includes port handling costs and transportation of personnel, equipment, and material by land.				
e. OEF CBS 4.5- Other Transportation	\$2,900	\$30,161	-\$30,088	\$73
<b><u>OEF Narrative Justification:</u></b> This includes transportation not included as airlift, sealift, ready reserve forces, or port handling/inland transportation. Shipping material to Forward Deployed Naval Force (FDNF) craft, and the Fifth Fleet Area of Operations (AOR). Also includes airfield usage in Sigonella and Souda Bay based on actual landing weights. CNE-C6F shares expenses with the host nations that own the airfields and the majority of aircraft traffic is performing contingency operation in support of OEF.				
f. OND CBS 4.5- Other Transportation	\$2	\$0	\$0	\$0
<b><u>OND Narrative Justification:</u></b> This includes transportation not included as airlift, sealift, ready reserve forces, or port handling/inland transportation.				
g. OEF CBS 4.6- Second Destination Transportation	\$10,150	\$230	\$11,246	\$11,476
<b><u>OEF Narrative Justification:</u></b> The funding supports second destination transportation within the CENTCOM AOR.				
k. OEF CBS 4.7- MRAP Transportation	\$0	\$4,061	-\$1,061	\$3,000
<b><u>OEF Narrative Justification:</u></b> The funding supports airlift transportation of MRAPs to/from Afghanistan.				
<b>Total</b>	<b>\$1,149,704</b>	<b>\$1,668,359</b>	<b>-\$456,063</b>	<b>\$1,212,296</b>

**Detail by Subactivity Group 1C7C Equipment Maintenance**

**I. Description of Operations Financed:** The Support Equipment program supports approximately 989,000 individual items of support equipment. The Metrology and Calibration program maintains aviation core technical capability at 69 intermediate (I Level) and 21 depot (D Level) servicing activities worldwide. The program provides uniform units of measurements necessary to support over 425,000 aviation test and measurement systems to meet OPNAV and Commander Fleet Forces Command goals for calibration. Contract maintenance support or Life of Type services provides contractor maintenance services in direct support of a small population of EP-3 special mission aircraft. The E-6 integrated logistics support (ILS) program provides logistics support for the 16 aircraft flying 13,000 flight hours a year in support of national tasking. Digital Camera Receiving Stations – Digital Photographic Laboratories (DCRS – DPL) program finances the overhaul and rework of digital receiving stations and digital photo labs for all aircraft carriers and large deck amphibious ships. DCRS interfaces with transmitting systems integrated into TACAIR and rotary wing aircraft to support intelligence and reconnaissance missions. In addition, the program supports these systems at the ashore training commands responsible for training and supporting fleet technicians. The program includes processing, imaging, and interpretation equipment maintenance. External Fuel Tank maintenance program provides for the support of external fuel tanks during carrier operations. These fuel tanks provide the aircraft with the ability to carry more fuel during missions.

**Explanation of Change between FY 2013 and FY 2014:** FY 2014 changes are due to increased costs for the A/A42R-1 Aerial Refueling Store (ARS) corrosion repair, and increased costs for calibration standards repair and calibration.

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>A. Subactivity Group: 1C7C Equipment Maintenance</b>				
1. <b>Cost Breakdown Structure (CBS) 3.0</b>				
a. OEF CBS 3.5.2 - Intermediate Level Maintenance	\$0	\$1,677	-\$1,677	\$0
<b>OEF Narrative Justification:</b> This provides calibration of Aviation Test, Monitoring and Diagnostic Equipment (TMDE)/Reference Calibration Standards (CALSTDs) used during I-level weapon system maintenance repair of CALSTDs.				
b. OEF CBS 3.5.3 - Depot Level Maintenance	\$7,238	\$6,277	\$3,926	\$10,203
<b>OEF Narrative Justification:</b> This provides funding to reconstitute Support Equipment (SE) that has been in theater in support of OEF to pre-war condition. Gear requires depot level repair to maintain mandated ready employability posture. Provides Fleet Support Representatives (FSR) services of technical and logistics sustainment support of SPA Advanced Sensor Systems. Funding required to pay for 12 A/A42R-1 Aerial Refueling Store (ARS) corrosion repairs. The ARS is necessary for all launch, recovery and mission tanking, as well as being a force multiplier/enabler allowing carrier-based aircraft to extend range to target and increase loiter time over the target area. Funding required to pay for 2,613 calibration standards repairs. This funding provides depot-level onsite calibration of TMDE/CALSTDs used during O-Level and I-Level weapon system maintenance, and repair of forward deployed CALSTDs. Funding required to reconstitute support equipment in support of OCO operations				
b. OND CBS 3.5.3 - Depot Level Maintenance	\$56	\$0	\$0	\$0
<b>OND Narrative Justification:</b> This provides funding to reconstitute Support Equipment (SE) that has been in theater in support of OND to pre-war condition.

1. <b>Cost Breakdown Structure (CBS) 3.0</b>				
a. OEF CBS 3.7 Other Services and Miscellaneous Contracts	\$5,465	\$0	\$0	\$0
<b>OEF Narrative Justification:</b> This funding supports HARMONIEWeb, a virtual collaboration environment located on the internet and built for the exchange of unclassified information across the civil-military boundary associated with Stability, Security, Transition and Reconstruction (SSTR) operations. The initiative has improved the military's ability to exchange information with non-traditional partners, particularly in the critical stages of an operation. The system provides multilingual chat, full portal capability, virtual mapping with custom overlays, task tracking, and full virtual meeting capabilities to allow communication with those without access to the DOD network infrastructure. Security Assistance Forces (ISAF), Afghanistan Joint Command requested HARMONIE WEB support tailored to the ISAF Joint Command mission. It provides an enhanced language translation internet environment for non-classified communication throughout Afghanistan for government and non-government organizations partnering with DoD.

- I. Description of Operations Financed:** USPACOM promotes security and peaceful development in the Asia-Pacific region by deterring aggression, advancing regional security cooperation and responding to crises. The Joint Intelligence Operations Center provides all source intelligence to the war fighters, planners and policy makers in USPACOM Area of Responsibility (AOR). U.S. Joint Forces Command (USJFCOM) assigns nearly all conventional forces in the continental U.S., providing trained and capable forces to commanders in the field. Utilizing the Joint Enabling Capability mission, it identifies joint lessons learned and joint operational capabilities that are used to inform decision makers, support joint training, education and experimentation venues.

**Explanation of Change between FY 2013 and FY 2014:** The delta between FY 2013 and FY 2014 supports operation, training, maintenance, and transition support to COMFIFTHFLT (CTF 52/CTF56) of the Mk 18 Mod 2 EOD Robots, operation and support of the JIEDDO Water-borne IED (WBIED) initiative, and the operation and support of the EOD SeaFox Neutralizer initiative. Increase mitigates shortfalls for Navy Non-Lethal programs as a result of overseas operations.

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>A. Subactivity Group 1D3D In-service Weapons System Support</b>				
1. <b><u>Cost Breakdown Structure (CBS) 3.0</u></b>				
a. OEF CBS 3.2- Operations OPTEMPO	\$0	\$8,159	\$1,293	\$9,452
<b><u>OEF Narrative Justification:</u></b> The funds support the EOD T-Hawk UAS for TF Paladin in OEF. Funding will support repairs, Field Service Representatives (FSRs) and the pre-deployment training of EOD forces. EOD T-Hawk is a portable UAS for Joint Service EOD teams in OEF to provide tactical reconnaissance, surveillance, and target acquisition (TRSTA). It improves situational awareness of an incident site, rapidly reaches a target site, regardless of terrain and without personnel exposure to identify suspect items and trigger mechanisms supporting JIEDDO T3 initiatives. Operating and support functions supported by this funding include operational personnel; boat and UUV maintenance, repair, and operations. Funding supports JIEDDO WBIED initiative to provide operation, training, maintenance, and transition support, including in theater tactics development and demonstration, boat maintenance and repair.				
b. OEF CBS 3.3- Other Supplies and Equipment	\$108,248	\$86,496	\$5,031	\$91,527
<b><u>OEF Narrative Justification:</u></b> The Joint Service Explosive Ordnance Disposal/Counter Radio-Controlled IED Electronic Warfare (EOD/CREW) program provides the forces of all military services with EOD technical information/Decision Support System and In-Service Engineering support required to accomplish their mission. Also, provides for the Improvised Explosive Device (IED) collection and exploitation capability and rapid dissemination of EOD information to counter the IED threat. Funding supports In service Operations and Support of Counter IED (CREW) systems including spares, repair parts and load sets, Supply Support & Inventory Control, Engineering Support, Maintenance Engineering, Configuration Management, and Technical Data Package Maintenance. Funding is required to support the maintenance and repairs for MK 1 and MK 2 EOD Robots deployed ISO OEF-A as well as repairing equipment and tools used exhaustively in pre-deployment training.				
c. OND CBS 3.3- Other Supplies and Equipment	\$21,675	\$0	\$0	\$0
<b><u>OND Narrative Justification:</u></b> The Joint Service Explosive Ordnance Disposal/Counter Radio-Controlled IED Electronic Warfare (EOD/CREW) program provides the forces of all military services with EOD technical information/Decision Support System and In-Service Engineering support required to accomplish their mission. Also, provides for the Improvised Explosive Device (IED) collection and exploitation capability and rapid dissemination of EOD information to counter the IED threat.				
d. OEF CBS 3.5.2 - Intermediate Level Maintenance	\$0	\$0	\$26,993	\$26,993
<b><u>OEF Narrative Justification:</u></b> This provides maintenance and sustainment support to four Level II and one Level III-Forward Weapons Technical Intelligence labs in support of CENTCOM JUONS 0410 and 0398. The above facilities support technical and forensic exploitation of IEDs in the Afghanistan Theater of Operation (ATO). Provides maintenance and sustainment funding to support and maintain a National Intelligence Exploitation Facility (NIEF) in support of "Thermal Station" Level II Weapons Technical Intelligence equipment as described in CENTCOM JUONS 0404 and CENTCOM RFF 1118. Funding is required to support the maintenance and repairs for MK 1 and MK 2 EOD Robots as well as repairing equipment and tools used exhaustively in pre-deployment training. OPTEMPO for deployed EOD operational forces has greatly increased and will continue to grow. Additional funding is required to adequately maintain and repair these systems, equipment and tools. This funding also provides the capability to track, identify and address obsolescence, wear, sub component failure and system readiness issues.

- I. Description of Operations Financed:** Air-Launched Missile Rework provides maintenance at Naval Weapons Stations (NWS) and Navy owned or commercial depots – Designated Overhaul Points (DOP). Maintenance performed at the NWS consists of testing for reliability and proper functioning of the missile after its expected serviceable-in-service-time (SIST) has expired or when a failure occurs during Fleet use. Minor cosmetic maintenance is also performed as required. Failures noted during NWS testing are isolated to major components such as guidance sections, control sections and rocket motors, and the failed component is replaced and sent to a DOP. In-depth overhaul of failed components is performed at the DOP and consists of fault isolation and disassembly down to the most basic components then repaired as necessary to restore the component to its original design capability criteria. During the Program Objectives Memorandum, an initiative was approved to segregate the missile inventory into active and reserve inventories. Maintenance is performed only on the active inventory. The active inventory is limited to the number of each type/model/series of missile necessary to meet approved force structure and operational requirements. Missiles requiring NWS maintenance and testing are determined through serialized tracking of the number of candidates in the active inventory that will be generated in a given fiscal year due to (SIST) expirations. New programs from Special Weapons added to this account provides for renovation and maintenance of Data Link Pods, Stand-Off Missiles. Renovation performed on Data Link Pods and missiles consists of component replacement and rework of assemblies, subassemblies, components and parts. Missiles requiring renovation are determined by the number of certification candidates that will be generated in a given fiscal year based on replacement schedules for limited life components and scheduled testing/inspection requirements mandated by SIST and documented reliability trends. Systems supported include AWW-13, DATA LINK PODS, Harpoon, SLAM-ER, HARM, AARGM, Sidewinder AIM-9M and AIM-9X missiles. Unmanned Aircraft Systems (UAS) maintenance, formerly known as Unmanned Arial Vehicle (UAV), is performed primarily at Naval Air Warfare Center Aircraft Division (NAWC AD), Patuxent River and commercial OEM depots. System support requirements include PBL/CLS, repair of crash damaged components, repair of repairables (ROR), scheduled maintenance, go/no-go testing, and flight programming. UAS maintenance and support requirements are based on required flight hours, sortie availability rates and mission requirements. Main system components include air vehicles; command and control systems; and launch and recovery systems. Systems supported include Scan Eagle, Shadow, Firescout , BAMS-D, Cargo, and STUAS. Navy Mission Planning Systems (NavMPS) provides software and hardware maintenance, and user training performed primarily at Naval Air Warfare Center Weapons Division (NAWC WD) for all NavMPS which include Tactical Automated Mission Planning System (TAMPS), Joint Mission Planning System (J MPS) and Navy Portable Flight Planning Systems (NPFPS). On site support is provided which includes restoring a degraded system to full operational capability and conducting on-the-job training. TOPSCENE is a mission planning requirement that provides the digital terrain database resident in J MPS and contributes to satisfying the mission rehearsal requirement in the J MPS ORD. Transferred resources from 1A2A (Fleet Air Training) to 1D4D (Weapons Maintenance) to closely align with principle TOPSCENE users, Program Office, and Resource Sponsor objectives and requirements in FY 2010 and outyears.

**Explanation of Change between FY 2013 and FY 2014:** Decrease reflects reduced requirements for MQ-8/Firescout and for Scan Eagle.

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>A. Subactivity Group 1D4D Weapons Maintenance</b>				
1. <b>Cost Breakdown Structure (CBS) 3.0</b>				
a. OEF CBS 3.5.1 - Organizational Level Maintenance	\$564	\$605	\$56	\$661
<b>OEF Narrative Justification:</b> This funding is required to provide critical operations and maintenance support to TOPSCENE mission rehearsal target databases. This will provide warfighters with fused intelligence 3-D views of mission areas, objectives, and targets to allow warfighters to better plan and decide upon courses of action and to predict potential mission outcomes.				
b. OEF CBS 3.5.3 - Depot Level Maintenance	\$0	\$585	\$6,781	\$7,366
<b>OND Narrative Justification:</b> This funding is required to fund Computer Tasking Order (CTO) 11-16 to ensure information assurance compliance for the Joint Mission Planning System (JMPS) support to OCO operations.				
c. OEF CBS 3.7 - Other Services and Miscellaneous Contracts	\$283,814	\$301,897	-\$88,497	\$213,400
<b>OEF Narrative Justification:</b> This funding is required for Broad Area Maritime Surveillance - Demonstration (BAMS-D) deployment support. Funds pay for operations and maintenance support for BAMS-D, which is currently deployed to CENTCOM/NAVCENT as part of the Intelligence, Surveillance, and Reconnaissance (ISR) task force. Life-saving initiatives dependent on ISR (e.g., early detection, patterns of movement, etc.) must be funded; otherwise, maritime, ground, and air combat forces will not receive ISR capability. Funding is required for ISR Services for CRUDES and for Afloat Forward Staging Base (AFSB) (Scan Eagle). Funds are essential to continue critical ISR services supporting CENTCOM/NAVCENT. Funds ensure that ISR services are provided to afloat commanders with crucial tactical ISR capability requirements, and reduce the risk to U.S. and Coalition forces as well as international merchant traffic. Funding is required for Naval Special Warfare (NSW) Scan Eagle. Funds are essential to continue critical ISR capability for Naval Special Warfare Forces deployed to Afghanistan. Funds ensure that ISR capability is provided to unit ground commanders with crucial tactical ISR capability requirements. Funding is in direct support of SOCCENT operations in Afghanistan. These systems are vital to operating force's ability to support both the Afghanistan Local Police (ALP) and Village Stability Programs (VSP) which are aimed at building an enduring, self-reliant Afghani population able to resist insurgent threat, incursions, and influence. Funding is required for Fire Scout ISR Task Force - RC North - Kunduz Afghanistan. Funds will support the deployment of 25 personnel operating Fire Scout and Tactical Control Systems (TCS) in support of U.S. Army and Coalition forces in Regional Command North, OEF. The majority of these funds will be used to sustain an expeditionary VTUAV contractor-led detachment. The VTUAV system will be maintained under a Contractor Logistics Services (CLS) agreement. This detachment provides in excess of 600 hours of full motion video to U.S. and coalition forces. Funding is required for Cargo UAS. This system will augment manned aviation and ground assets in extreme situations, where the weather, terrain, and anti-threat poses an unsuitable level of risk. Funds will provide logistics support to Forward Operating Bases (FOBs) in a manner that counters the IED threat to traditional ground transportation vehicles. It will also augment manned aviation assets, thus taking trucks off the roads and substantially reducing the IED threat to lives stationed overseas. Funding is required for Fire Scout ISR Task Force. Funds will support the sustainment of a non-SOF deployment and will support training of personnel, contractor services (subject matter experts), and sustainment (Repair of Repairables). For HOA operations, the detachment provides the host platform commander and tactical assets, real time ISR support for such missions as counter piracy, choke point transits, and illicit trade. Without this funding, the ship would not have a Fire Scout component to the aviation detachment.

- I.** Description of Operations Financed: Funding is required to support and maintain the infrastructure for the Joint Warfare Analysis Center (JWAC) to accomplish its Command mission and charter. This includes Automated Information Systems hardware, software and maintenance; and the operation of support systems for searching, storing, and retrieving national intelligence imagery and information. Also included is the operational planning support to integrate products and responses into Combatant Commanders (COCOM) operational planning; and COCOM support teams to forward deploy to a COCOM/Joint Force Commander's headquarters in support of contingency planning with associated deployable gear. Funding also supports the Navy Systems Management Activity (NSMA) Classified Programs. Accordingly, the details specific to these programs are held at a higher classification. JWAC has forward deployed civilians (total of 9) in theater at all times. The personnel in theater have reachback capability to dedicated analyst within JWAC. Analysis is focused along three lines of operations: effects assessments, network targeting, and infrastructure support. No personnel are requested for the projected FY 2012 JWAC level of support for OND.

**Detail by Subactivity Group BSM1 Sustainment, Restoration and Modernization**

- I.** **Description of Operations Financed:** Facility Sustainment, Restoration and Modernization (FSRM) and Demolition includes funding for shore activities that support ship, aviation, combat operations and weapons support operating forces. FSRM funding provides maintenance and repair for all buildings, structures, grounds and utility systems to permit assigned forces and tenants to perform their missions. The major elements of the program include recurring day-to-day scheduled maintenance and emergency service work needed to preserve facilities; major and minor repairs needed to put existing facilities in adequate condition; and alteration of existing facilities. Funding this request is necessary based on the increased wear and tear at facilities or additional force protection resulting from OCO requirements. Starting in FY 2007, the Navy became executive agent for Joint Task Force - Horn of Africa (JTF-HOA), assuming control of all base management functions in Djibouti from the Marine Corps. Starting in FY10, the Navy became the executive agent for ISA Air Base.

- I. Description of Operations Financed:** Operation Enduring Freedom (OEF) includes the Department of the Navy's efforts for conducting stability and support operations throughout CENTCOM AOR; the cessation of terrorist activities; and military related reconstruction operations. Support costs include activation of Reserve personnel and units, increased fuel consumption and spare parts, additional maintenance to support higher usage of equipment, deployment of medical capabilities (hospital ships and deployable fleet hospitals), extended communications and intelligence support, and related transportation costs. Additionally, costs include the purchase of investment items lost, damaged, or in need of replacement resulting from increase "wear and tear" from higher operating tempos.

b. OEF CBS 2.2- Clothing and Other Personnel Equipment and Supplies	\$0	\$581	-\$331	\$250
<b>OEF Narrative Justification:</b> The decrease in funding supports reduction in life cycle management of current individual protective equipment (IPE), mission oriented protective posture (MOPP) gear, and fit testing capability.				
3. <b>Cost Breakdown Structure (CBS) 3.0</b>				
a. OEF CBS 3.1- Training	\$2,553	\$6,960	-\$6,960	\$0
<b>OEF Narrative Justification:</b> The decrease in funding supports reduction in safety training costs including deployment required weapons qualification training, contractor services associated with small arms range operations, anti-terrorism programs and exercises, and Emergency Preparedness, Response, and Recovery exercises.				
b. OEF CBS 3.3 -Other Supplies and Equipment	\$0	\$397	-\$397	\$0
<b>OEF Narrative Justification:</b> The decrease in funding supports reduction in acquisition of supplies and equipment for military drawdown.				
c. OEF CBS 3.4- Facilities/Base Support	\$246,821	\$134,115	-\$24,868	\$109,247
<b>OEF Narrative Justification:</b> The decrease in funding supports reduction in base operating support costs no longer required due to military drawdown.				
<b>Total</b>	<b>\$250,744</b>	<b>\$143,442</b>	<b>-\$32,502</b>	<b>\$110,940</b>

- I. Description of Operations Financed:** The Fleet Hospital Program is comprised of scalable, modular, rapidly erectable Expeditionary Medical Facilities (EMFs) that provide comprehensive medical support to U.S. and allied forces in the event of combat or contingency operations. These medical capability packages play a critical role in the Service's evolving war fighting strategies of forward deployed theater operations. Funding supports capability-based EMFs when and where tasked to stand up a medical facility in the OEF AOR.

**II. Financial Summary (\$ in Thousand)**

OEF	CBS Title	FY2012	FY 2013	Delta	FY 2014

	OND Totals	\$0	\$0	\$0	\$0
	SAG Total	\$13,481	\$31,395	-\$12,935	\$18,460

**Explanation of Change between FY 2013 and FY 2014:** The decrease in FY 2014 is due to one less EMF being supported in the CENTCOM area of operations than in FY 2013.

#### A. Subactivity Group 2C1H Expeditionary Health Service Systems

## **1. Cost Breakdown Structure (CBS) 2.0**

- a. OEF CBS 2.3- Medical Support/Health Services \$63 \$18 \$16 \$34

**OE&F Narrative Justification:** Temporary duty in support of direct Contingency Operations for Site Visits to Expeditionary Medical Assets located in Afghanistan (Kandahar Afghanistan Role III (KAF) and Forward Surgical Teams (FST's)). Delta increase is to support oversight of Navy medical equities forward positioned within the Afghanistan Area of Operations (AOR).

## **2. Cost Breakdown Structure (CBS) 3.0**

- a. OEF CBS 3.3- Other Supplies and Equipment \$12,102 \$31,377 -\$12,951 \$18,426

**OEF Narrative Justification:** Supplies and Equipment is in direct support to Expeditionary Medical Assets located in Afghanistan (KAF and FST's) and Bahrain (Expeditionary Resuscitative Surgical Services (ERSS)). This includes costs for supplies and equipment, and equipment replacement not associated with operating tempo.

### **3. Cost Breakdown Structure (CBS) 4.0**

- a. OEF CBS 4.5- Other transportation \$1,316 \$0 \$0 \$0

**OEF Narrative Justification:** Other transportation required for rental vehicles at EMF Kandahar

**Total** \$13,481 \$31,395 -\$12,935 \$18,460

**Operation and Maintenance, Navy**  
**Budget Activity 03**  
**Activity Group 3B1K**  
**Detail by Subactivity Group 3B1K Specialized Skills Training**

- I. Description of Operations Financed:** Funding budgeted supports both Operation Enduring Freedom (OEF) and Operation New Dawn (OND) Contingency Operations. Specialized Skill Training resources are used to maintain a trained force of personnel able to man and support surface, sub-surface, and aviation operating forces and their installed complex weapons systems. Enlisted personnel receive broad career-field and Naval Enlisted Classification (NEC) ratings upon completion of initial and advanced training programs. Costs for Specialized Skill Training include travel, supplies, material, and contractor training and costs. The cost of Temporary Duty Under Instruction (TEMDUINS), the per diem associated with less than twenty weeks training required en route from one duty station to another, is also funded in Specialized Skill Training. No TEMDUINS funds are requested under OCO for FY2014. The Counter Drug Program receives funds from OSD during the year of execution.

**II. Financial Summary (\$ in Thousand)**

OEF	CBS Title	FY2012	FY 2013	Delta	FY 2014
		Total	Total		Total
1.0	Personnel	\$0	\$0	\$0	\$0
2.0	Personnel Support	\$1,030	\$4,095	-\$4,095	\$0
3.0	Operating Support	\$43,601	\$46,808	\$3,461	\$50,269
4.0	Transportation	\$0	\$0	\$0	\$0
	OEF Totals	\$44,631	\$50,903	-\$634	\$50,269
<b>OND/Post-OND</b>					
1.0	Personnel	\$0	\$0	\$0	\$0
2.0	Personnel Support	\$1	\$0	\$0	\$0
3.0	Operating Support	\$0	\$0	\$0	\$0
4.0	Transportation	\$0	\$0	\$0	\$0
	OND Totals	\$1	\$0	\$0	\$0
	<b>SAG Total</b>	<b>\$44,632</b>	<b>\$50,903</b>	<b>-\$634</b>	<b>\$50,269</b>

**Explanation of changes between FY 2013 and FY 2014:** All TEMDUINS requests are funded from baseline OMN 3B1K funds beginning in FY 2014. This decrease is reflected in temporary duty. The increase in the operating support represents increased training requirements at the Center for Seabees and Facilities Engineering (CSFE). Changes are due to increased convenings of the CB RESET courses, implementation of Management Assist Visits (MAV), increased convening of Human Performance Review Requirements (HPPRS)/Job Duty Task Analysis (JDTA), and the remaining CB RESET pilot efforts.

**A. Subactivity Group 3B1K Specialized Skills Training**

1. **Cost Breakdown Structure (CBS) 2.0**

a. OEF CBS 2.1 - Temporary Duty (TAD/TDY)

\$1,030      \$4,095      -\$4,095      \$0

**OEF Narrative Justification:** Temporary Duty Under Instruction (TEMDUINS) pays the per diem associated with less than twenty weeks' training required en route from one duty station to another. FY 2014 TEMDUINS requirements are funded in the OMN 3B1K baseline.

b. OND CBS 2.1 - Temporary Duty (TAD/TDY)

\$1      \$0      \$0      \$0

**OND Narrative Justification:** Temporary Duty Under Instruction (TEMDUINS) pays the per diem associated with less than twenty weeks' training required en route from one duty station to another.

2. **Cost Breakdown Structure (CBS) 3.0**

a. OEF CBS 3.1 - Training

\$43,601      \$46,808      \$3,461      \$50,269

**OEF Narrative Justification:** Resources are required for training delivery in support of OCO programs. Throughput to support the deficit manning of the reserve battalions as well as increased enlisted, active, and reserve accessions are required to meet end-strength for various Navy initiatives in support of OCO and world-wide contingency and expeditionary operations. Resources in the form of facilities, equipment, instructors, support personnel, etc. are all necessary to meet training requirements. FY2014 training requirements increase at CSFE to support increased convenings of the CB RESET courses. These are requirements for supplies, training equipment, and contract instructors.

- I. Description of Operations Financed:** Training support encompasses various programs which provide Navy-wide support to training activities and equipment capabilities to assist overseas contingency operations (OCO). Contractors and in-house personnel maintain simulators and other training equipment which has incurred a higher usage rate due to OCO related activity. This funding supports Command, Control, Communications, Computers, Intelligence, Surveillance, and Reconnaissance (C4ISR) Specialized Skill Training through a Mobile Training Team (MTT).

**II. Financial Summary (\$ in Thousand)**

OEF	CBS Title	FY2012	FY 2013	Delta	FY 2014

	<b>SAG Total</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>	<b>\$5,400</b>

**Explanation of changes between FY 2013 and FY 2014:** The FY 2014 increase is due to C4ISR Specialized Skills Training through Integrated Performance Support System (IPSS).

**A. Subactivity Group 3B4K Training Support**

1. **Cost Breakdown Structure (CBS) 3.0**

a. OEF CBS 3.6- C4I	\$0	\$0	\$0	\$5,400
---------------------	-----	-----	-----	---------

**OEF Narrative Justification:** Sailors and Marines require additional training of critical C4ISR systems to establish required proficiency before reporting for duty to support OEF. Specialized skill training is provided through learning packages accompanied by a mentor/instructor resource within an MTT. Training will be available in the CENTCOM area of operations. The training will eliminate the need for commanders to extend turnover periods to conduct on-the-job training between oncoming and outgoing personnel.

4.0	Transportation	\$0	\$0	\$0	\$0	\$0
	OND Totals	\$0	\$0	\$0	\$0	\$0
	<b>SAG Total</b>	<b>\$0</b>	<b>\$487</b>	<b>\$29</b>	<b>\$516</b>	

**Explanation of Change between FY 2013 and FY 2014:** Changes between FY 2013 and FY 2014 reflect decreases to temporary duty offset by funding required to replace still and video camera equipment in use in Afghanistan and the surrounding operational area. Funding includes one-time increased costs of replacement portable video transmission units.

		FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>A. Subactivity Group 4A2M External Relations</b>					
1. <b>Cost Breakdown Structure (CBS) 2.0</b>					
a. OEF CBS 2.1 temporary Duty (TAD/TDY)		\$0	\$467	-\$467	\$0
<b>OEF Narrative Justification:</b> Travel funds for travel to OCO related assignments in support of the Navy's Public Affairs Office. Costs also support of the Strategic Communications Effectiveness Analysis Program which enable CHINFO to provide more detailed analysis and summary of current events.					
2. <b>Cost Breakdown Structure (CBS) 3.0</b>					
a. OEF CBS 3.3 Other Supplies and Materials		\$0	\$0	\$516	\$516
<b>OEF Narrative Justification:</b> Funds required for HOA operations across many economically undeveloped countries to provide operations to promote stability and build host-nation capacity. Costs were moved from CBS 3.7 to CBS 3.3 in FY 2014. Funds are also required to replace still and video camera equipment. Normal life cycle for this equipment in harsh/corrosive environment (embarked at sea/deployed ashore in desert conditions) is two years.					
a. OEF CBS 3.7 Other Services and Miscellaneous Contracts		\$0	\$20	-\$20	\$0
<b>OEF Narrative Justification:</b> Funds for HOA operations across many economically undeveloped countries to provide operations to promote stability and build host-nation capacity. Small projects in the areas of education, health and civil affairs demonstrate commitment of the U.S. and coalition partners to promotion of stable civil institutions and governance. Typical COMREL projects entail minor supply and equipment purchases such as educational and recreation supplies and equipment. Costs were moved from CBS 3.7 to CBS 3.3 in FY 2014.

**I. Description of Operations Financed:** The Navy Manpower Analysis Center (NAVMAC) develops manpower requirements documents for individual ships, aircraft squadrons and shore activities. The Enlisted Personnel Management Center (EPMAC) provides centralized management support for the distribution of active duty enlisted personnel. The Navy Marine Corps Mobilization Processing System (NMCPMS) supports Overseas Contingency Operations by providing automatic workflow processing/ tracking for Contingency Operational Augmentation requests. Funding also supports the incremental costs for the Navy Standard Integrated Personnel System (NSIPS), which is the Navy's single, field-entry, electronic pay and personnel systems for all active-duty and reserve sailors and is available world-wide, ashore and afloat. Also funded are requirements of the Navy Corrections Programs and enhances the Navy's ability to manage and operate corrections facilities.

<b>Total</b>	<b>\$6,000</b>	<b>\$6,022</b>	<b>-\$915</b>	<b>\$5,107</b>

**OEF Narrative Justification:** Navy Marine Corps Mobilization Processing System (NMCMPS) provides end to end command visibility and control of integrated mobilization and augmentation processes for Navy and Marine Corps personnel supporting all DoN contingency requirements. Program funding pays for contract labor for system operation and maintenance with limited enhancement. OCO funding has supported augmented contractor level of effort and system enhancement to respond to Joint requirements. NSIPS supports OCO by processing mobilizations and demobilizations of Navy personnel, and supporting Individual Augmentation (IA) personnel. Commander Naval Reserve Forces Command (N3/4) uses NSIPS to identify the member's Civilian Employer Information, to assist in identifying required skills needed for OCO operations, and to resolve mobilization problems that may delay personnel reporting to mobilization sites.

- I. Description of Operations Financed:** Other Personnel Support provides for various Human Resource Management Support systems, legal services, the Navy claims program, the Board of Inspection and Survey, and Armed Forces Radio and Television Services. For Overseas Contingency Operations, this area funds funeral and internment expenses for Navy and Marine Corps active duty personnel, family member visits to those seriously ill/injured and next of kin costs associated with family member travel to funerals of Navy and Marine Corps personnel. Funding also supports the suicide prevention program and the operation of the Defense Casualty Information Processing Center.

**Explanation of Change between FY 2013 and FY 2014:** Changes between FY 2013 and FY 2014 reflect Navy's reduced share of the Defense Casualty Information Processing System (DCIPS).

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>A. Subactivity Group 4A5M Other Personnel Support</b>				
1. <b>Cost Breakdown Structure (CBS) 2.0</b>				
a. OEF CBS 2.1 - Temporary Duty (TAD/TDY)				
	\$515	\$356	\$60	\$416
<b>OEF Narrative Justification:</b> Travel is necessary for dependent and family members' travel to and from funeral/memorial services and to visit wounded soldier at their bedside. Also funding for the required command appointment of a Suicide Prevention Coordinators (SPCs) who then travel to train all front line supervisors. TDRL: Temporary Disability Retired List (TDRL) enables Sailors with disabilities, as determined by the Sec. of Navy's Physical Evaluation Board (PEB), to receive medical coverage for family members and self, until medical conditions stabilize, up to a five (5) year period. Title 10 USC 1210 requires physical exams be given every 18 months, up to 3 exams per member at 18,36, and 54th month interval), and are entitled to travel/transportation allowances.				
b. OND CBS 2.1 - Temporary Duty (TAD/TDY)	\$39	\$0	\$0	\$0
<b>OND Narrative Justification:</b> Travel is necessary for dependent and family members' travel to and from funeral/memorial services and to visit wounded soldier at their bedside. Also funding for the required command appointment of a Suicide Prevention Coordinators (SPCs) who then travel to train all front line supervisors. TDRL: Temporary Disability Retired List (TDRL) enables Sailors with disabilities, as determined by the Sec. of Navy's Physical Evaluation Board (PEB), to receive medical coverage for family members and self, until medical conditions stabilize, up to a five (5) year period. Title 10 USC 1210 requires physical exams be given every 18 months, up to 3 exams per member at 18,36, and 54th month interval), and are entitled to travel/transportation allowances.				
c. OEF CBS 2.5 - Other Personnel Support	\$1,328	\$887	-\$115	\$772
<b>OEF Narrative Justification:</b> This funding supports professional services expenses for funeral and interment expenses for Navy and Marine Corps active duty personnel. Also supports the Intervention and Outreach Effectiveness Program, with results serving as a Navy-wide assessment of stress and suicide prevention awareness, and needed information technology and telecommunication equipment in the field.				
d. OND CBS 2.5 - Other Personnel Support	\$7	\$0	\$0	\$0
<b>OND Narrative Justification:</b> This funding supports professional services expenses for funeral and interment expenses for Navy and Marine Corps active duty personnel. Also supports the Intervention and Outreach Effectiveness Program, with results serving as a Navy-wide assessment of stress and suicide prevention awareness, and needed information technology and telecommunication equipment in the field.				
2. <b>Cost Breakdown Structure (CBS) 3.0</b>				
a. OEF CBS 3.1 - Training	\$0	\$75	-\$75	\$0
<b>OEF Narrative Justification:</b> For FY13, the Navy provides at least two training conferences to support all non-medical care managers in the field. This training allows the non-medical care managers to remain current with ever changing regulations, mandates and best practices within the field. This funds DoD-sanctioned Suicide Prevention Coordinators for Front Line Supervisors (FLS).				
c. OEF CBS 3.7 - Other Services and Miscellaneous Contracts	\$0	\$2,196	-\$1,973	\$223
<b>OEF Narrative Justification:</b> Resources are required to support personnel in order to provide effective mission critical functions relating to OCO programs. These funds supports Navy's portion of the maintenance costs for the Defense Casualty Information Processing System (DCIPS) which tracks all of DoD deaths and is the source for all death related documentation for DoD. The reduced amount for FY14 funds Naval Personnel Command's share of the total maintenance cost.

- I.** **Description of Operations Financed:** The Servicewide Communications program provides funding for communication systems, which support both fleet and shore establishments of the Navy. These systems include Electronic Command and Control systems, which provide command, control, readiness and intelligence information in direct support to Combatant Commanders. All leased communications costs, the operation of communications stations worldwide, and the management of both are also included in this subactivity group. Funding for Naval Network Warfare Command (NETWARCOM) and Navy Cyber Forces (NCF) supports all aspects of the Command and Control Protect (C2P) functions of information security operations.

**Explanation of Change between FY 2013 and FY 2014:** Increase from FY 2013 to FY 2014 is due to Telephone switch operation and maintenance at Isa Air Base, Bahrain for 1,500 new voice and network users requiring access to DSN, commercial dial tone, SIPRNET, NIPRNET, CENTRIXS and JWICS. Also, increase is due to request for Navy Cyberspace Operations Range (NCOR).

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>A. Subactivity Group 4A6M Servicewide Communications</b>				
1. <b><u>Cost Breakdown Structure (CBS) 1.0</u></b>				
a. OEF CBS 1.2 - Civilian Pay	\$1,392	\$0	\$0	\$0
<b>OEF Narrative Justification:</b>	Includes the cost of overtime and premium pay to support theater operations.			
2. <b><u>Cost Breakdown Structure (CBS) 2.0</u></b>				
b. OEF CBS 3.6- C4I	\$28,285	\$0	\$2,545	\$2,545
<b>OEF Narrative Justification:</b>	FY 2014: Navy Cyberspace Operations Range (NCOR) - Formerly Joint Cyberspace Operations Range (JCOR) Continued funding for one Senior Technical Engineer contractor, one ODC line for overtime and travel, one ODC line for a Distant Support Technical Writer, and one ODC line to support system upgrade, patches, etc. Contractor support is provided by vendor EADS North America in support of the Navy Cyberspace Operations Range project. The contractor is an onsite Senior Technical Engineer that provides NCOR the requisite knowledge and support as well as the vendor's on-site representative for EADS proprietary portion of NCOR. Telephone switch operation and maintenance, and trunking of telephone switch and inside/outside cable plant O&M. USCENTCOM defined requirements for establishment of capabilities at Isa Air Base, Bahrain for 1,500 new voice and network users requiring access to DSN, commercial dial tone, SIPRNET, NIPRNET, CENTRIXS and JWICS. Navy-Marine Corps Spectrum Center (NMSC) supports the operationally essential National Broadband Plan (NBP). NMSC provides critical spectrum management support to US Naval forces and Fleet Marine Forces globally. Specific Naval capabilities that are threatened and have already been protected by NMSC direct support to the USN NBP efforts include: AN/SPY-1 AEGIS weapons systems; AN/MRC-142 and AN/SRC-57 Digital Wideband Transmission system; Air Combat Training System; Aeronautical Mobile Telemetry systems; Precision Guided Munitions; Unmanned Aerial Systems (STUAS, Raven and Wasp); TTNT operations on E-2C, UCAS and UCLASS; and Electronic Warfare and Electronic Attack operations.

**Detail by Subactivity Group 4B1N Servicewide Transportation**

- I. Description of Operations Financed:** The Service-wide Transportation (SWT) program provides funding for the majority of the Navy's worldwide cargo shipments. This includes First Destination Transportation (FDT), Second Destination Transportation (SDT), and continental United States terminal services in conjunction with cargo movements. FDT costs are associated with the movement of material, after purchase, on a Free-On Board basis, from the contractor's facilities to the first point of use or storage. The SWT program also provides financing for the worldwide Second Destination shipment of regular and emergency readiness material including ammunition, chemicals, medicine, subsistence, mail, repair parts, and high value repairable items. The SWT program finances the purchase of transportation services predominately from DOD working capital fund transportation activities; the Air Mobility Command (AMC), Military Sealift Command (MSC), and the Surface Deployment and Distribution Command (SDDC).

**II. Financial Summary (\$ in Thousand)**

OEF	CBS Title	FY2012	FY 2013	Delta	FY 2014

- I. Description of Operations Financed:** This sub-activity group provides funding for the acquisition, planning, engineering, and design of engineering programs. This includes the sustainment and development of physical security equipment and mishap prevention and hazard abatement programs. Also, funding for the Anti-Terrorism/Force Protection (ATFP) and Chemical, Biological, Nuclear and high-yield Explosive (CBRNE) planning and engineering is included. Funding additionally supports the Navy Crane Center and the Naval Facilities Engineering Service Centers, which provide engineering support to all naval commands regarding energy, utilities, environmental, and shore facilities management.

- I. Description of Operations Financed:** This subactivity group provides for the support of various logistic and technical programs. Funding is for logistics support for ship systems, space systems, material transportation, food service systems, fuel and petroleum support, special support operations and salaries, administrative expenses, and travel for personnel involved in program management. Requirement cover Isa Air Base (IAB), and ongoing Overseas Contingency Operations (OCO).

Isa Air Base (IAB): This effort supports U.S. Central Command (CENTCOM) direction to plan for operations at Isa Air Base (IAB), Bahrain. IAB will operate as an expeditionary base with no permanent billets assigned to perform logistics functions. OCO funding is requested through NAVCENT to provide for postal, HAZMAT, and some transportation services at IAB starting in FY 2010. In addition, Global Logistics Husbanding Support, ATAC, and Regional Transportation services were added in FY 2012. Base supply functions, managed or performed by FISC Sigonella (FISCSI) include Global Logistics Support (GLS), Transportation Services, HAZMAT Reutilization, Postal Services, and Fuel Support.

Ongoing Overseas Contingency Operations (OCO): COMFISCS to continue to provide logistics and acquisition services to forward deployed ships and expeditionary forces.

	<b>SAG Total</b>	<b>\$14,541</b>	<b>\$2,026</b>	<b>\$6,544</b>	<b>\$8,570</b>

**Explanation of Change between FY 2013 and FY 2014:** Changes in FY 2014 are due to increased personnel providing government oversight, increased requirements for aerial refueling at Isa Air Base, and increased GLS personnel costs.

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>A. Subactivity Group 4B3N Acquisition and Program Management</b>				
1. <b><u>Cost Breakdown Structure (CBS) 1.0</u></b>				
a. OEF CBS 1.2- Civilian Pay	\$1,659	\$0	\$202	\$202
<b><u>OEF Narrative Justification:</u></b> This includes the costs of overtime and premium pay to support theater operations.				
b. OND CBS 1.2- Civilian Pay	\$278	\$0	\$0	\$0
<b><u>OND Narrative Justification:</u></b> This includes the cost of overtime and premium pay to support theater operations and civilian deployments to Iraq.				
2. <b><u>Cost Breakdown Structure (CBS) 2.0</u></b>				
a. OEF CBS 2.1- Temporary Duty (TAD/TDY)	\$35	\$0	\$203	\$203
<b><u>OEF Narrative Justification:</u></b> This includes the costs of travel, per diem, and lodging for military and civilian personnel. Provide contracting oversight visits of contracting field operations. Funds will support travel required by FLC Sigonella Program Managers & Command Management and FLC Yokosuka/FLC Sigonella Contracting Specialists to ensure logistics, fuels, acquisitions programs supporting forward deployed ships and expeditionary forces within CENTCOM AOR are accomplished as required and in compliance. Additionally, command management provides oversight to ensure troop morale and focus on the mission, especially with strategic ramp up of mine countermeasure programs.				
b. OEF CBS 2.5- Other Personnel Support	\$0	\$0	\$2,899	\$2,899
<b><u>OEF Narrative Justification:</u></b> This includes other personnel support associated with travel of personnel supporting logistics and acquisitions. NAVSUP GLS will provide acquisition, logistics, transportation, hazmat, mail, integrated logistics support for OEF program growth requirements.				
3. <b><u>Cost Breakdown Structure (CBS) 3.0</u></b>				
a. OEF CBS 3.3- Supplies and Equipment	\$0	\$224	\$274	\$498
<b><u>OEF Narrative Justification:</u></b> The funding is required for equipment and supplies supporting fuels, transportation, postal, hazmat and global logistics support programs at IAB. Funds also required for supplies for reachback/management requirement within fuels, transportation, postal, hazmat and global logistics support programs supporting forward deployed ships and expeditionary forces.				
b. OEF CBS 3.4 - Facilities/Base Support	\$0	\$12	\$2,806	\$2,818
<b><u>OEF Narrative Justification:</u></b> This funds IAB contract support for alongside aircraft refueling requirements of the Naval Air Forces.				
c. OEF CBS 3.5.1 - Organizational Level Maintenance	\$0	\$0	\$223	\$223
<b><u>OEF Narrative Justification:</u></b> Computer Aided Ammunition Sentencing Tool (CAAST) is an interactive tool within the OIS suite designed for use in the determination and documentation of ammunition condition and status. CAAST is used by forward deployed units both afloat and ashore in the determination of condition and status of ammunition. It provides a consolidated single source for all criteria used in the classification and assignment of Ammunition Condition Codes and Defect Codes. The tool also provides required packaging data to include all required specific packaging drawings and specifications.				

	FY2012 Total	FY 2013 Total	Delta	FY 2014 Total
d. OEF CBS 3.6 - C4I	\$0	\$0	\$23	\$23

**OEF Narrative Justification:** This funding provides for communications support associated logistics and acquisitions

e. OEF CBS 3.7 Other Services and Miscellaneous Contracts	\$12,569	\$1,008	-\$854	\$154
---	----------	---------	--------	-------

**OEF Narrative Justification:** This funds supplies and equipment in support of ongoing OCO at FISCSI in Contracting, Postal, Logistics Support, HAZMAT, and Transportation Products and Services. Provides deployment of the Ordnance Information System (OIS) to partially connect components to deploying units/commands. Provides database transition and on-site support to USMC units. Provides a common front end that will allow all services visibility of ordnance items stored by naval personnel and will permit other service's (Air Force/Army) personnel to use OIS to submit requisitions to their service-specific ordnance information system. FY 2014 funds additional Postal contract support in Bahrain to assist maintenance of official mail movement within CENTCOM AOR supporting OCO and incremental FLC Sigonella Dubai Contracting Office ICASS fees. Additional funds required for reachback operational and administrative logistics, transportation and hazmat contractor support for ongoing OCO requirements to forward deployed ships and expeditionary forces.

#### 4. Cost Breakdown Structure (CBS) 4.0

b. OEF CBS 4.4- Port Handing/Inland Transportation	\$0	\$782	\$768	\$1,550
--	-----	-------	-------	---------

**OEF Narrative Justification:** Provides for 6 logistics support trucks to move material to/from ISA Base; contract modification to include mail deliveries; secure vehicle to move official mail; and vehicle leases. FY14 funds increased incremental cost of Bahrain mail transportation contract moving mail for forward deployed ships to IAB, secured vehicle leases to transport classified, official mail from the consolidated mail facility to IAB, four tractor trailer that are required to move material from/to Bahrain AVUNIT/NSA to ISA Base, and vehicle lease which transports Bahrain logistics response teams/beach detachments supporting forward deployed ships.

- I. Description of Operations Financed:** The Space and Electronic Warfare Systems sub-activity group provides technical and life-cycle support for Ocean Surveillance and other electronic programs. Meteorological support includes site preparation for installation of new systems and contracted engineering support associated with new equipment/systems. Engineering and technical support is provided for electronic test and repair, maintenance engineering, cover and deception, naval information programs, portable electronic support measures, the tactical electromagnetic program and electromagnetic compatibility programs. Logistics and technical support is funded for Navy Tactical Command Support Systems (NTCSS), Inspection and Survey Spare Parts Improvement, Safety, Marine Air Traffic Control Squadrons and Precise Time and Time Interval Maintenance Support. This sub-activity group also provides technical and life-cycle support for the Joint Tactical Information Distribution System (JTIDS), Multifunctional Information Distribution System (MIDS), Command Control Processor, LINK 11 and LINK 16.

2. <b>Cost Breakdown Structure (CBS) 2.0</b>				
a. OEF CBS 2.1- Temporary Duty (TAD/TDY)	\$783	\$350	-\$217	\$133
<b>OEF Narrative Justification:</b> This includes the costs of travel, per diem, and lodging for NCIS personnel that result from participation in or support to the contingency operation.				
c. OEF CBS 2.2- Clothing and Other Personnel Equipment and Supplies	\$0	\$75	\$625	\$700
<b>OND Narrative Justification:</b> This includes the cost of individual and organizational clothing and equipment not already issued to military personnel and civilian personnel deploying to, participating in, or supporting a contingency operation. Purchase of combat related equipment and clothing which is not normally required for NCIS Special Agents in regular duty assignments.				
d. OEF CBS 2.5- Other Personnel Support	\$2,232	\$0	\$0	\$0
<b>OEF Narrative Justification:</b> This includes other personnel support costs not included above such as permanent change of station, end of term of service, or special actions associated with household goods or privately-owned vehicle storage. NCIS deployments are supported by the Contingency Response Field in Glynco, Ga. Funds the transfer of these agents into and out of the CRFO.				
e. OND CBS 2.5- Other Personnel Support	\$387	\$0	\$0	\$0
<b>OND Narrative Justification:</b> This includes other personnel support costs not included above such as permanent change of station, end of term of service, or special actions associated with household goods or privately-owned vehicle storage. NCIS deployments are supported by the Contingency Response Field Office in Glynco, GA. Funds the transfer of these agents into and out of the CRFO.

<b>3. Cost Breakdown Structure (CBS) 3.0</b>				
a. OEF CBS 3.1- Training	\$621	\$100	\$96	\$196
<b>OEF Narrative Justification:</b> This includes the costs associated with predeployment training of units and personnel to participate in or support an operation as well as the costs associated with training troops and personnel during the contingency operation. Navy request consists of costs generated by incremental predeployment training, such as Federal Law Enforcement Training Center programs.				
b. OEF CBS 3.3- Other Supplies and Equipment	\$1,523	\$0	\$0	\$0
<b>OEF Narrative Justification:</b> This includes acquisition (via lease, rental, or purchase) of supplies and equipment required to equip and sustain the forces during all phases of the contingency operation such as special protective gear for equipment or containers. Navy request includes deployable information technologies in support of Naval Special Warfare and NECC. Tactical equipment required to support deployments as well as investments in various Bio-Metric devices to improve investigative results. Tactical equipment required to support deployments as well as investments in various Bio-Metric devices to improve investigative results.				
b. OND CBS 3.3- Other Supplies and Equipment	\$1,148	\$0	\$0	\$0
<b>OND Narrative Justification:</b> This includes acquisition (via lease, rental, or purchase) of supplies and equipment required to equip and sustain the forces during all phases of the contingency operation such as special protective gear for equipment or containers. Navy request includes deployable information technologies in support of Naval Special Warfare and NECC. Tactical equipment required to support deployments as well as investments in various Bio-Metric devices to improve investigative results. Tactical equipment required to support deployments as well as investments in various Bio-Metric devices to improve investigative results.				
d. OEF CBS 3.6 - C4I	\$0	\$14,556	-\$12,698	\$1,858
<b>OEF Narrative Justification:</b> This includes costs of procuring, leasing, or renting miscellaneous supplies or services used during the contingency operation. Navy request includes: secure villas; leased vehicles; imagery collection management and support services for classified requirements; informational spots and communications for the Naval Special Warfare (NSW) and Naval Expeditionary Combat Command (NECC). Contractor support for languages, Bio-Metrics and Psychological Services. Counterterrorism collection, indications and warnings contract support.				
e. OEF CBS 3.7 Other Services and Miscellaneous Contracts	\$10,379	\$0	\$3,750	\$3,750
<b>OEF Narrative Justification:</b> This includes costs of procuring, leasing, or renting miscellaneous supplies or services used during the contingency operation. Navy request includes: secure villas; leased vehicles; imagery collection management and support services for classified requirements; informational spots and communications for the Naval Special Warfare (NSW) and Naval Expeditionary Combat Command (NECC). Contractor support for languages, Bio-Metrics and Psychological Services.

**Detail by Subactivity Group 2C3H Coast Guard Support**

- I. Description of Operations Financed:** This sub activity group includes funds United States Coast Guard operational support. The Coast Guard will continue to provide the Department of Defense (DOD) operational support for Overseas Contingency Operations (OCO). All DOD combatant commanders' mission assignments requiring direct Coast Guard forces and support for OCO and Strategic Ports of Embarkation and Debarkation (SPOE/SPOD) security remain in effect, but are anticipated to decrease from FY13 levels. Specific Coast Guard activities in support of DOD requirements include the operation and maintenance of six 110 ft Patrol Boats, and Law Enforcement Detachments (LEDETS), deployment of one Port Security Unit (PSU) detachment to Guantanamo Bay, Cuba to support maritime/counter-terrorism security operations, and Coast Guard Reservists providing maritime security at military Strategic Ports of Embarkation and Debarkation (SPOE/SPOD).

**II. Financial Summary (\$ in Thousand)**

**Explanation of Change between FY 2013 and FY 2014:** Funds for Coast Guard Support are transferred from Operation and Maintenance, Navy and appropriated to the Department of Homeland Security each fiscal year. Supplemental funding is required for the incremental costs of war. Prior support has been key in avoiding substantial "cash flowing" of war costs from the baseline readiness accounts. Failure to support the full-year request will have detrimental effects on Coast Guard readiness and ability to conduct other statutory missions.

	FY 2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>A. Subactivity Group 2C3H Coast Guard Support</b>				
1. <b><u>Cost Breakdown Structure (CBS) 1.0</u></b>				
a. OEF CBS 1.1- Personnel Pay and Allowances	\$69,020	\$70,607	\$4,797	\$75,404
<b><u>OEF Narrative Justification:</u></b> This category funds all incremental pay and allowances of Active USCG and mobilized USCG Reserve personnel participating in or supporting this contingency operation. Includes special pay (Imminent Danger Pay or Hostile Fire Pay, Foreign Duty Pay), Family Separation Allowance, Hardship Duty Pay and any other entitlement above normal monthly payroll costs, including those called to Active duty to backfill for Active duty personnel directly supporting the contingency operation. Includes all Reserve Component incremental pre-deployment training, allowances, travel, and per diem for specially required training prior to activation.				
2. <b><u>Cost Breakdown Structure (CBS) 2.0</u></b>				
a. OEF CBS 2.1- Temporary Duty (TAD/TDY)	\$17,202	\$17,493	-\$3,438	\$14,055
<b><u>OEF Narrative Justification:</u></b> Includes the cost of travel, per diem and lodging for military members that result from participation in these contingency operations. Examples include travel and lodging during predeployment training for six 110 ft Patrol Boat crews and extensive security and boat crew qualifications training for PSUs and security forces responsible for military outloads at Special Ports of Embarkation/Debarkation. Decrease from FY13 level stems from reduction in required TDY training and qualifications for PSUs supporting OCO.				
b. OEF CBS 2.2- Clothing and Other Personnel	\$1,752	\$1,782	\$13	\$1,795
<b><u>OEF Narrative Justification:</u></b> Includes recapitalizing body armor, LE Support gear and protective equipment needed due to extensive use in harsh environments and the high tempo of operations. Additional gear is needed for predeployment training and for new issues as members report to their assignments. Includes necessary equipment for extensive PSU deployments in support of OCO.				
c. OEF CBS 2.3- Medical Support/Health Services	\$4,744	\$4,825	-\$437	\$4,388
<b><u>OEF Narrative Justification:</u></b> Includes the medical and dental costs associated with mobilization and demobilization of reservists. Approximately 7 percent of demobilizing reservists require being placed on a medical hold while receiving needed treatments.				
d. OEF CBS 2.4- Reserve Component Activation/Deactivation	\$2,054	\$2,089	\$916	\$3,005
<b><u>OEF Narrative Justification:</u></b> This category funds Reserve Component Activation (mobilization) and Deactivation (demobilization) of units or individual Reservists, including transportation from home station to active duty station. Training to bring Reserve Components up to active force readiness standards are considered activation costs. This excludes costs of pay, allowances, active duty TDY/TAD, and transportation to and from the Area of Operation (AOR), training, and other costs that are reported elsewhere.				
e. OEF CBS 2.5- Other Personnel Support	\$11,231	\$11,422	-\$7,353	\$4,069
<b><u>OEF Narrative Justification:</u></b> Funds other personnel support and unusual costs such as permanent change of station (PCS), end of term of service (ETS), or special actions associated with household goods or privately-owned vehicle (POV) storage for personnel associated with this contingency operation. Includes funds for the Coast Guard portion of the SGLI increment as well as funds for Reserve Educational Benefits under Section 1607 of Title 10 U.S.C. The significant decrease in funding from FY13 is the result of a reduction in resources needed to fund non-recurring costs.				

	FY 2012 Total	FY 2013 Total	Delta	FY 2014 Total
<b>3. Cost Breakdown Structure (CBS) 3.0</b>				
a. OEF CBS 3.1- Training	\$9,213	\$9,370	\$780	\$10,150
<b>OEF Narrative Justification:</b> Includes costs associated with OCO predeployment training of Active Duty and Reserve Coast Guard personnel at the Special Missions Training Center (SMT). Includes in-theater costs associated with training Coast Guardsmen and personnel during the contingency operation as well as antiterrorism training. Includes costs associated with firearms proficiency training.				
b. OEF CBS 3.2- Operations OPTEMPO	\$47,632	\$41,372	\$2,080	\$43,452
<b>OEF Narrative Justification:</b> Incremental operational costs for the Coast Guard to operate and support contingency operations. Includes 6 110 ft Patrol Boats operating at 2500-3200 hours above programmed hours in Northern Arabian Gulf and MEC/HEC/NSCs deployed for OCO mission hours. This category funds the incremental Operating Tempo (OPTEMPO) costs above peacetime levels required to operate Coast Guard units that conduct or support the contingency operation. Includes costs to maintain 2 Law Enforcement Detachments (LEDETs) in theater at all times and 1 PSU deployed to support OCO missions for SOUTHCOM in lieu of CENTCOM.				
c. OEF CBS 3.3- Other Supplies and Equipment	\$5,547	\$5,642	\$783	\$6,425
<b>OEF Narrative Justification:</b> This category funds other supplies and equipment, including the acquisition (via lease, rental, or purchase) of supplies and equipment required to equip and sustain Coast Guard forces during all phases of the contingency operation such as special protective gear for equipment or containers. Includes M14T Med Cal weapon for deployed boats and cutters, M240B MG, and replacement 9MM personal defense weapons for deployed personnel.				
d. OEF CBS 3.4- Facilities/Base Support	\$10,411	\$9,036	\$404	\$9,440
<b>OEF Narrative Justification:</b> This category funds facilities/base support including the establishment, maintenance, and operation of billeting, camps, harbor facilities, staging areas, etc., similar to base operating support and real property maintenance. These costs include leases, rents, and utilities to operate bases, camps, relief centers, harbor facilities, and other operating and support facilities established to support the contingency operation. This category includes fortification and barriers and other physical security costs as well as the costs associated with services to protect forces at the facility. Also includes other base/center operating expenses such as food preparation and serving services, and storage and distribution warehousing.				
e. OEF CBS 3.5.2 - Intermediate Level Maintenance	\$19,834	\$20,172	-\$6,460	\$13,712
<b>OEF Narrative Justification:</b> This category funds reconstitution costs, including the cost to clean, inspect, maintain, replace, and restore equipment to the required condition at the conclusion of the contingency operation or unit deployment. Covers equipment organic to the participating unit and war reserve stocks prior to replacement into storage. Excludes the cost to transport equipment being repaired / restored. Includes costs associated with additional intermediate maintenance required on domestic patrol boats due to additional operational tempo backfilling for deployed assets. Significant decrease from FY13 funding stems from anticipated reduction in reconstitution of Coast Guard equipment and small boats that support OCO.				
f. OEF CBS 3.5.3 - Depot Level Maintenance	\$37,227	\$37,859	-\$15,194	\$22,665
<b>OEF Narrative Justification:</b> This category funds depot level maintenance costs associated with 6 110 ft Patrol Boats, and the depot level maintenance for the preparation of and hours associated with Medium or High endurance cutter operations in support of OCO missions. This amount excludes the cost to transport equipment being repaired / restored. Includes costs associated with additional depot level maintenance required on domestic patrol boats due to additional operational tempo backfilling for deployed assets. Decrease from FY13 funding is a reflection of a decrease in anticipated major maintenance availabilities for 110 ft Patrol Boats supporting operations in the Arabian Gulf.				

	FY 2012 Total	FY 2013 Total	Delta	FY 2014 Total
g. OEF CBS 3.6- C4I	\$7,488	\$7,615	-\$2,392	\$5,223

**OEF Narrative Justification:** This category funds Command, Control, Communications, Computers and Intelligence (C4I) costs, such as the cost of designing, engineering, installing, and maintaining C4I systems required to support the contingency operations such as: purchase and lease of communications equipment, lease of commercial satellites and long-haul lines; and collection, analysis, and dissemination of information or intelligence information.

4. **Cost Breakdown Structure (CBS) 4.0**

a. OEF CBS 4.1- Airlift	\$11,399	\$11,593	-\$1,743	\$9,850
-------------------------	----------	----------	----------	---------

**OEF Narrative Justification:** Includes the cost of airlift PSU, LEDETs, cutter crew, and support staff into and out of the OCO theater for scheduled rotations and transfers. Funding also includes transportation for visiting deployed CG assets, and 125 C-130 flight hours for Coast Guard logistical support.

b. OEF CBS 4.2- Sealift	\$3,524	\$3,584	-\$184	\$3,400
-------------------------	---------	---------	--------	---------

**OEF Narrative Justification:** Includes the sealift costs associated with the transport equipment to and from OCO. Examples include CONEX box shipments to carry Port Security Boats and equipment. Estimate based upon previous shipment costs.

Total	\$258,278	\$254,461	-\$27,428	\$227,033

**(Dollars in Thousands)**

- I. **Description of Operations Financed:** Operation Enduring Freedom (OEF) includes the Marine Corps' continuing support to track down terrorists and provide stability in Afghanistan. These objectives also include destroying terrorist training camps and infrastructure, capturing Al-Qaeda leaders, stopping terrorist activities, and preventing the re-emergence of international terrorist organizations. Support costs include operations for Marine Air-Ground Task Force (MAGTF), Marine Security Forces at Naval installations and forces aboard Naval vessels, activation of reserve personnel and units, Individual Augmentees (IA), fuel consumption and spare parts, additional maintenance supporting higher equipment usage, deployment of extended communications and intelligence support, and related transportation costs.
  
- II. **Force Structure Summary:** The FY 2014 request supports 4,200 Marines deployed in Afghanistan and 2,850 Marine Corps Reserve members in support of OEF operations.

**UNITED STATES MARINE CORPS**  
**Contingency Operations: Operation Enduring Freedom/Operation New Dawn**  
**Operation and Maintenance, Marine Corps**  
**Budget Activity 01**  
**Activity Group 1A**  
**1A1A - Operating Forces**

- I. Description of Operations Financed:** The Operating Forces compose the core element of the Marine Corps, the Marine Air Ground Task Force (MAGTF). They form the forward presence, crisis response, and fighting power available to Combatant Commanders. Sub-activity Group 1A1A also provides for the operating forces that make up the Marine Security Forces at Naval installations, and forces aboard Naval vessels. These funds finance training and routine operations; maintenance and repair of organic ground equipment; routine supplies; travel, per diem and emergency leave; communications; replenishment and replacement of both unit and individual equipment.

**II. Financial Summary (\$ in Thousand)**

		FY2012 Actual	FY2013 Total	Delta	FY2014 Total

- III. Explanation of changes between FY 2013 and FY 2014:** The FY14 OCO budget request provides resources for an average troop level of 4,200 Marines deployed in Afghanistan and 2,850 reserve Marines in support of Operation Enduring Freedom (OEF). FY13 budget estimates were based on 13,600 Marines deployed in theater. The decreases from FY13 to FY14 are commensurate with the drawdown of Marines from Afghanistan with regards to supplies and materials, temporary additional duty, personal protective equipment, body armor, and other costs that are generally associated to number of Marines deployed. In FY14, the increases are costs associated with intermediate and organizational level maintenance (I/O Maintenance) required for equipment reset actions.

	FY2012 Actual	FY2013 Total	Delta	FY2014 Total
<b>A. Subactivity Group 1A1A Operating Forces</b>				
1. <b><u>Cost Breakdown Structure (CBS) 1.0</u></b>				
a. OEF CBS 1.2 - Civilian Pay	\$2,983	\$2,629	\$465	\$3,094
<b>OEF Narrative Justification:</b>	FY14 funding is required by U.S. Marine Corps Forces Central Command (MARCENT) to fund premium pay for the civilian workforce employed at MARCENT Headquarters, who directly support contingency operations in Bahrain and Tampa, FL. Funding supports civilian premium pay for permanent MARCENT staff employees who fulfill a vital staff role in contingency operations throughout the CENTCOM Area of Responsibility (AOR). Given the frequent division of the staff between Tampa and Bahrain, these civilians provide key continuity and support of MARCENT operations in a dynamic and fluid theater. Failure to fund civilian personnel costs will force MARCENT to reduce the role of civilian participation during all phases of contingency support and will significantly degrade MARCENT staff support to the combatant commander in theater.			
2. <b><u>Cost Breakdown Structure (CBS) 2.0</u></b>				
a. OEF CBS 2.1 - Temporary Duty (TAD/TDY)	\$86,635	\$74,936	-\$34,925	\$40,011
<b>OEF Narrative Justification:</b>	Funding provides for IA travel to support OEF, MARCENT Headquarters staff travel to the forward headquarters in Bahrain to conduct command and control responsibilities in U.S. Central Command AOR, travel of the MARCENT Coordination Elements in Afghanistan, Kuwait and Qatar, and all other MARCENT travel in support of OEF. Funding supports approximately 2,850 Reserve Marines who will mobilize/demobilize in support of three rotations that occur in FY14. Lastly, funding provides for the deployment of support teams who facilitate operational support to deploying units and maintain positive control of Pre-deployment Training Program (PTP) equipment and material. These personnel provide support for all phases of the deployment to include Pre-activation Planning and Conferences, Activation and Reserve Training Center activities, movement to the Intermediate Location (ILOC), Redeployment Location (R-LOC), and movement to Reserve Center for administrative activities and deactivation.			
Decrease in FY14 funding is due to a reduction in the number of estimated Reserve Marines expected to mobilize/demobilize. TAD requirements for MARCENT and Marine Forces Pacific (MARPAC) staff are expected to decrease in FY14 as a result of a decline in travel requirements related to operational planning conferences, IA travel requirements, and pre-deployment training requirements.				
b. OND CBS 2.1 - Temporary Duty (TAD/TDY)	\$339	\$0	\$0	\$0
<b>OND Narrative Justification:</b>	Funding supports IA TAD to Iraq for direct mission support. Funds TAD costs associated with individual personnel deploying to support OND as a Military Training Team member or staff officer. Funding supports MARCENT Headquarters Staff's participation (TAD) in HQMC-level, combatant commander and theater command conferences in support of OND.			
c. OEF CBS 2.2 - Clothing and Other Personnel Equipment & Supplies	\$232,129	\$171,430	-\$139,926	\$31,504
<b>OEF Narrative Justification:</b>	The FY14 decrease in funding reflects a decline in operational needs with regard to Class II supplies required by MARCENT. Funding provides for the purchase of individual and organizational equipment and supplies (Class II), such as Flame Resistant Organizational Gear (FROG), Mountain Cold Weather Gear, Improved Load Bearing Equipment and other Class II type items which are critical to conducting combat operations in support of OEF. Additionally, funding provides for FROG gear in support of 2 rotations of 4,200 deployed Marines, the next generation USMC chest rig system, and sustainment funding in support of the individual water purification systems distributed to deployed Marines.			
d. OEF CBS 2.3 - Medical Support/Health Services	\$18,411	\$23,629	-\$8,292	\$15,337
<b>OEF Narrative Justification:</b>	The decrease in FY14 funding reflects a decline in sustainment of Class VIII medical supplies and equipment in support of OEF. Funding is required for incremental costs associated with purchasing medical and dental supplies to support combat elements. These medical supplies and equipment are not provided by U.S. Forces Afghanistan (USFOR-A). Additionally, funding supports provisions for medical services to military (Active and Reserve) and civilians (DoD or contractor) in clinics, hospitals, hospital ships, and other medical treatment facilities. Includes pre-deployment medical examinations, immunizations, medical materials (Class VIII supplies; e.g. blood, fluids and specialized medical repair parts), medical supplies, patient evacuation, and other non-pay and allowance expenses.			

	FY2012 Actual	FY2013 Total	Delta	FY2014 Total
e. OEF CBS 2.4 - Reserve Component Activation and Deactivation	\$62,164	\$81,888	-\$44,088	\$37,800

**OEF Narrative Justification:** FY14 funding decreases due to a reduction in the number of estimated Reserve Marines expected to mobilize/demobilize in FY14. Funding supports the Marine Corps Reserve Activation Travel Section (MCRATS), which is responsible for the funding and administration of activated USMC Reserve Personnel. Currently, MCRATS validates and manages the obligations and expenditures for travel. Funding is required for a steady state of 2,850 Reserve Marines who will mobilize/demobilize in support of OEF. This funding supports the logistical requirements required for mobilizing units during the phases that include activation and Reserve Training Center activities, Intermediate Location (ILOC) Activities, Redeployment Location (R-LOC) Activities, Reserve Center administrative activities and deactivation. Transportation, fuel, consumables, materials and services requirements during this four to five month period must be supported and funded.

f. OEF CBS 2.5 - Other Personnel Support	\$951	\$508	-\$22	\$486
--	-------	-------	-------	-------

**OEF Narrative Justification:** Funding supports incremental costs associated with providing temporary storage of personal effects for single personnel deploying in support of OEF.

g. OEF CBS 2.7 - Body Armor	\$17,911	\$73,700	-\$62,900	\$10,800
-----------------------------	----------	----------	-----------	----------

**OEF Narrative Justification:** The decrease in FY14 funding is due to previously procured assets and the decrease in reduction of Marines deployed. The FY14 request provides sustainment and replacement of body armor items destroyed during combat. Specifically the FY14 request provides funding to replace plate carriers (PC), improved modular tactical vests (IMTV), small arms protective insert (SAPI) plates, and replacement of full spectrum battle equipment (FSBE) items for reconnaissance battalions. Additionally, this funding provides for anticipated replacements purchase of protective undergarments (POG). Funds also cover 10% loss of 13,000 helmets, helmet covers, night vision goggles and the required repair kits.

### 3. Cost Breakdown Structure (CBS) 3.0

a. OEF CBS 3.1 - Training	\$118,049	\$83,152	-\$35,574	\$47,578
---------------------------	-----------	----------	-----------	----------

**OEF Narrative Justification:** This request supports USMC Special Purpose Marine Air Ground Task Force (MAGTF) operations in support of OEF-Horn of Africa (HOA). SPMAGTF-Africa will act in support of Commander Joint Task Force Horn Of Africa (CJTF-HOA) and Commander USAFRICOM. Remaining funding requested supports unit level training, maintenance requirements, and sustainment costs of equipment utilized during deployment. Specifically, funding is required to support the Advisory Training Group (ATG) tasked with training Marine Corps Transition Teams to advise, mentor, and train foreign military, police, and border units in operational techniques and procedures to combat terrorism and counter insurgency during OEF. Lastly, funding supports the Training and Experimentation Group (TEG), which is tasked with training and administering warfare simulations systems; coordinating science, experimentation, and technology requirements and requests; and managing, coordinating and assigning cross training and training exchanges.

Decrease in FY14 funding is due to a technical realignment of -\$14.8M for consolidated commercial bandwidth funding into CBS 3.6 (C4I). Additional decreases reflect drawdown of Marines in Afghanistan, therefore reducing unit level training for pre-deployment.

b. OEF CBS 3.2 - Operations OPTEMPO	\$213,149	\$828,331	-\$552,653	\$275,678
-------------------------------------	-----------	-----------	------------	-----------

**OEF Narrative Justification:** Operational funding is required by MARCENT to purchase spare and consumable parts such as repair components, assemblies, repairable and non-repairable items for equipment and batteries (Class IX), petroleum, and oils & lubricants (Class III). These requirements are outside of the materials provided in theater by USFOR-A. Funds are required to replenish and/or replace gear (parts, materials, critical low density secondary repairable, and other consumable items) and equipment made unserviceable or destroyed as a result of use during deployments. These costs also capture resources required to maintain material and principle end items. Additionally, these funds provide general and preventive maintenance at the intermediate and organizational level to sustain division-level end items.

The decrease in FY14 request is due to the drawdown of Marines and reduced operational tempo in Afghanistan. Class III, IV, and IX supply requirements have all decreased accordingly because of reduced operations. Less equipment is deployed/destroyed in theater, reducing equipment maintenance requirements at home stations.

	FY2012 Actual	FY2013 Total	Delta	FY2014 Total
c. OEF CBS 3.3 - Other Supplies and Equipment	\$248,462	\$143,207	-\$98,765	\$44,442

**OEF Narrative Justification:** Funds required for non-standard mission-essential items (items not available through the Marine Corps Supply System) that must be locally procured through contracts. These items have been battle-tested and are deemed critical by infantry battalion commanders returning from OEF. Examples include, but are not limited to Standard of Procedures/data books, field sanitation kits, portable power sources, and equipment bags. This request also supports miscellaneous equipment, supplies, and consumables in support of OEF pre-deployment training and post deployment training.

The decrease in FY14 request is due to the drawdown of Marines and reduced operational tempo in Afghanistan. Also, the Theater Executive Agency (US Army) funding responsibility for requirements garnered through the regional contracting center has decreased. The reduction of requirements reflects an optimization of Combined/Joint Operations Area (CJOA) funding sources. Additionally, FY13 included a one time purchase of Arctic Shelter and Modular General Purpose Tent Systems. (-\$30M) Lastly, consumables required for Marine forces operating units preparing for pre-deployment training have decreased based on average troop levels for FY14.

d. OEF CBS 3.4 - Facilities/Base Support	\$57,313	\$57,000	-\$57,000	\$0
--	----------	----------	-----------	-----

**OEF Narrative Justification:** Funding required by MARCENT for facilities and base operating support (BOS) in support of OEF-A and other contingency operations directed by USCENTCOM. USFOR-A maintains the responsibility as Executive Agent (EA) for funding BOS functions in support of U.S. forces in Afghanistan, however, Marine forces execute funding for requirements in excess of the established EA responsibilities. It is anticipated that due to Marine Forces drawing down from OEF, funding will not be required for these services in FY14 and may be leveraged through other means as needed. FY12 & 13 funding provides Marine forces common life support functions at forward operating bases, sites and cooperative security locations (CSLs). These funds pay for Marine units share of Logistic Civilian Augmentation Program (LOGCAP) contracted services, utilities, living containers, communications infrastructure, dining facility operations, and MWR activities.

e. OEF CBS 3.5.1 - Organizational Level Maintenance	\$78,466	\$8,944	\$92,056	\$101,000
---	----------	---------	----------	-----------

**OEF Narrative Justification:** Increase in FY14 funding is required to support USMC field level maintenance requirements with regard to USMC equipment reset as a result of a decline in OEF operations. As units continue to redeploy from OEF-A, equipment maintenance funding will be required to support reset requirements. Units are required to reset equipment not part of Marine Corps Logistics Command (MCLC) total reset liability and includes equipment returning from OEF as part of a unit move that is not transferred via MCLC. Units will be required to requisition all repair parts for reset equipment as well as collateral materials (CM) and unit responsible items (UURI). The increase also reflects a realignment of \$67M for equipment maintenance funding from the baseline budget, which is associated with the intermediate and organizational level repair, secondary repairables, and Corrosion Control programs for contingency funding associated with temporary end strength.

	FY2012 Actual	FY2013 Total	Delta	FY2014 Total
f. OEF CBS 3.5.2 - Intermediate Level Maintenance	\$45,560	\$28,072	-\$2,356	\$25,716

**OEF Narrative Justification:** FY14 funding is required to support field level maintenance requirements with regard to equipment reset as a result of a decline in OEF operations. As units continue to redeploy from OEF-A, equipment maintenance funding will be required to support reset requirements.

g. OEF CBS 3.5.4 - Contractor Logistics Support	\$37,344	\$45,645	\$38,242	\$83,887
---	----------	----------	----------	----------

**OEF Narrative Justification:** Increase in funding over FY13 levels is largely due to operational level logistics support to MARCENT as required to conduct the retrograde and redeployment (R2) program in support of Reset and Reconstitution (R4). This funding will enhance/augment identified MCLC functional areas by providing overarching integrated support in the areas of logistical supply operations, logistics programmatic functions, and program support functions in support of R4.

The FY14 increases include funding to support the USMC Marine Expeditionary Unit (MEU) designated as the theater reserve in the U.S Central Command Area of Responsible (AOR). MEUs designated as the theater reserve act as a quick reaction force to support contingencies that may arise. The MEU Augmentation Program (MAP) provides the armored combat equipment capability sets necessary to equip a MEU prepositioned in the AOR as the theater reserve. The MAP is located at Camp Arifjan in Kuwait and its purpose is to ensure maintenance of the MEU equipment assets not embarked aboard amphibious shipping, which are generally theater specific and will provide the MEU with the capability needed to support contingencies and/or exercises. Prepositioning assets in the AOR provides an economy of force that bridges the gap between CONUS and the AOR thereby reducing the operational logistics burden if the assets had been CONUS based. Funding also supports DLA system buys for preventive/corrective maintenance repair parts and replenishment/replacement items for the tactical ground equipment in the MAP.

h. OEF CBS 3.6 - C4I	\$199,406	\$64,406	\$37,084	\$101,490
----------------------	-----------	----------	----------	-----------

**OEF Narrative Justification:** The predominance of the FY14 increase in funding is attributable to funding required by MARCENT for the purchase and lease of communications equipment, field service representatives (FSRs), communication equipment maintenance parts and contracts, and satellite communication charges in support of OEF. Expanded communication locations, enhanced C4 commercialization efforts, and a substantial increase in FSR support due to troop redeployment (ratio of 3 FSRs at 8hr shifts for every 2 redeployed Marines at 12 hr shifts due to working hour constraints for FSRs) will demand increased funding. Failure to fund this requirement will severely limit MARCENT's ability maintain, upgrade and enhance a communications infrastructure in Afghanistan to support combat operations. The technology on the battlefield today demands 24 hr operations, continuous upgrades and maintenance that, left unfunded, will severely limit the commander's ability to employ Marines safely and effectively.

Additionally, increase in FY14 funding is due to a technical realignment, +\$14.8M, of consolidated commercial bandwidth funding. In FY13 this requirement was requested under CBS 3.1 (Training). Funding supports commercial bandwidth requirements in support of pre-deployment training and operational requirements.

i. OND CBS 3.6 - C4I	\$50	\$0	\$0	\$0
----------------------	------	-----	-----	-----

**OND Narrative Justification:** Funding required by MARCENT to support MARCENT Coordination Element - OND operations in Iraq. This will pay for limited communication equipment required to provide effective oversight of Marines in Iraq such as Individual Augments and training team members, as well as enables effective staff coordination with the MARCENT staff and Commanding General.

	FY2012 Actual	FY2013 Total	Delta	FY2014 Total
j. OEF CBS 3.7 - Other Services and Miscellaneous Contracts	\$112,726	\$154,482	-\$39,012	\$115,470

**OEF Narrative Justification:** The decrease in FY14 is due to the drawdown of Marines and reduced operational tempo in Afghanistan. FY14 requirements identified by MARCENT support contract services in direct support of combat operations in OEF-A and other contingency operations. FY14 request includes funds for contracts that provide direct support to Counter Improvised Explosive Device (C-IED) missions, Joint Worldwide Intelligence Communications System (JWICS) requirements, and other service contracts requested include support for Regional Command, Southwest (RC-SW). These contracts are all in direct support of combat operations occurring in OEF-A. Other miscellaneous requirements included are funds to support non-tactical vehicle leases for Marines conducting contingency operations, field service representatives to maintain equipment (non-C4I), and emerging requirements in Afghanistan not covered by USFOR-A.

The FY14 request also includes funding to sustain the Law Enforcement Professional (LEP) program. The LEP program supports units deploying to the CENTCOM area of responsibility (AOR). LEP professionals are assigned to the regimental and higher staffs and are designated as Marine Corps Forces Special Operations Command (MARSOC) Special Operations Task Forces (SOTF) and are assigned to the battalion and regimental levels to act as an advisor to the battalion commander on all aspects related to the application of civilian law enforcement Tactics, Techniques, and Procedures (TTPS). Prior to LEPs actually deploying, LEPs are a primary resource for the commander when training Marines on cop on the beat (COTB)/community policing principles. They may also be used as an additional resource for the unit to assist with/reinforce tactical questioning, site exploitation, profiling, detainee handling, and other training being provided by other USMC agencies or sources. Once deployed, the LEP role will expand to include more operational type duties in support of the unit while continuing to mentor Marines in law enforcement skills covered during pre-deployment training.

k. OND CBS 3.7 - Other Services and Miscellaneous Contracts	\$55	\$0	\$0	\$0
---	------	-----	-----	-----

**OND Narrative Justification:** Funding required for contract services in direct support of Operation New Dawn (OND).

l. OEF CBS 3.8 - Counter IED Operations	\$20,358	\$49,663	-\$21,285	\$28,378
---	----------	----------	-----------	----------

**OEF Narrative Justification:** FY14 funding decreases due to a decline in the number of Improvised Detector Dogs (IDD) dogs trained to 444 (203 less than FY13 levels). Funding provides training for 403 IDD Marine dog handlers (223 less than FY13 levels), 7 Marine Kennel Supervisors (13 less than FY13 levels) during initial and integration training; enhanced refresher training for deploying battalions; includes IDD logistics and exercise support, travel transportation costs, and employment kits; and additional Misc/PM Costs (IDD Support Personnel, Vet Support).

Additionally, funding for Military Working Dog (MWD) program supports personnel to provide oversight of the MWD program to include assisting and evaluating training of deploying handlers, dogs, etc; advanced Explosive Detector Dog trainer training; advanced Specialized Search Dog training in IED detection; Combat Tracker Dog team training for the tracking of missing friendly force personnel and enemy combatants; MWD teams (IED detector dogs) to attend MWD Team Deployment Training prior to their deployment to an operational environment; and the procurement of dog food and replacement/new MWD equipment for conducting training and use during their deployment in OEF. Funding sustains 60 Military Police (MP) MWDs per MEF (180 total) to provide on-and-off leash standoff detection of explosives and explosive precursor components, tracking of friendly and enemy personnel, drug detection, and patrolling/scouting capabilities; provides program management and sustainment, to include logistical support to unique training events outside the units' responsibility, HME scent kits, and unique supply support.

#### 4. Cost Breakdown Structure (CBS) 4.0

a. OEF CBS 4.5 - Other Transportation	\$5,912	\$29,636	-\$117	\$29,519
---------------------------------------	---------	----------	--------	----------

**OEF Narrative Justification:** FY14 funding supports the Transportation Of Things/Transportation Of Personnel (TOT/TOP), includes all shipping of items, regardless of size or weight and movement of Marines for pre-deployment exercises such as Mojave Viper, National Training Center, and individual unit exercises in preparation for deployment in support of OEF. Specifically this funding request supports Marine Corps units that participate in Lava Viper and Enhanced Mojave Viper by providing TOT/TOP support to battalion sized combined arms training events. Funding provides for the deployment/redeployment of units from home stations to training events and vice versa.

Total	\$1,558,373	\$1,921,258	-\$929,068	\$992,190

Operation and Maintenance, Marine Corps  
Exhibit OP-32 Overseas Contingency Operations  
Subactivity Group 1A1A

**UNITED STATES MARINE CORPS**  
**Contingency Operations: Operation Enduring Freedom/Operation New Dawn**  
**Operation and Maintenance, Marine Corps**  
**Budget Activity 01**  
**Activity Group 1A**  
**1A2A - Field Logistics**

**I. Description of Operations Financed:** The Field Logistics sub-activity group provides the resources necessary for overall weapon systems management and logistical support required to meet the operational needs of the Marine Corps. This sub-activity group includes lifecycle management and sustainment, technical support of weapon systems acquisition, quality assurance overview, and implementation of service-wide provisioning. Field Logistics also supports research, design, and development of Marine Corps personal protective equipment.

**II. Financial Summary (\$ in Thousand)**

OEF	CBS Title	FY2012 Actual	FY2013 Total	Delta	FY2014 Total
1.0	Personnel	\$3,824	\$0	\$4,400	\$4,400
2.0	Personnel Support	\$250	\$0	\$0	\$0
3.0	Operating Support	\$1,132,457	\$1,094,028	-\$659,980	\$555,174

**Explanation of changes between FY 2013 and FY 2014:** The FY14 OCO budget request provides resources for an average troop level of 4,200 Marines deployed in Afghanistan and 2,850 reserve Marines in support of Operation Enduring Freedom (OEF). The decreases from FY13 to FY14 are commensurate with the drawdown of Marines and reduced operational tempo in Afghanistan with regards to equipment maintenance, contractor support, and Mine Resistant Ambush Protection Vehicle (MRAP) maintenance requirements.

	FY2012 Actual	FY2013 Total	Delta	FY2014 Total
<b>A. Subactivity Group 1A2A Field Logistics</b>				
1. <b><u>Cost Breakdown Structure (CBS) 1.0</u></b>				
a. OEF CBS 1.2 - Civilian Pay	\$3,824	\$0	\$4,400	\$4,400
<b><u>OEF Narrative Justification:</u></b> Civilian employees will be required to work in excess of normal scheduled hours due to the acceleration of reset and accountability of all principal end items. Marine Corps Logistics Command (MCLC) centrally manages several efforts such as the in-theater repair and rotation of stocks that are primary elements of operations to support contingencies. MCLC deploys liaisons to each of the Marine Expeditionary Forces (MEF) in support of OCO and due to the time zone difference between CONUS and overseas supported operations, overtime is required to fulfill customer requirements. Customer requirements include emergency and planned call meetings, logistics planning, formulating strategies for deficient stock, rotation of equipment necessary for replenishment and sustainment, providing technical assistance, and trouble shooting.				
2. <b><u>Cost Breakdown Structure (CBS) 2.0</u></b>	\$250	\$0	\$0	\$0
a. OEF CBS 2.1 - Temporary Duty (TAD/TDY)				
<b><u>OEF Narrative Justification:</u></b> This was a one time cost in FY12 for units to redeploy from OEF and equipment inspection teams to travel to inspect and conduct site visits of equipment assets remaining in theater. During these visits, personnel would examine equipment accountability procedures and processes, review inventories and supply and maintenance records, analyze equipment management in theater, and provide a comprehensive type evaluation, training, and mentoring capability. Benefits of conducting these visits include improved readiness and discipline and accuracy in equipment accountability.				
3. <b><u>Cost Breakdown Structure (CBS) 3.0</u></b>	\$0	\$1,062	-\$485	\$577
a. OEF CBS 3.1 - Training				
<b><u>OEF Narrative Justification:</u></b> Funding is required to support Expeditionary Logistics War Game (ExLog War Game) which provides a dual purpose capability of testing emerging technologies and capabilities against parameters consistent with the current operating environment. This will validate the provision of more effective capabilities to the warfighter in theater. Secondly, the war game is used to concurrently train Logistics Command element staffs in preparation for deployment to OEF. These capabilities enable an integrated supply and distribution capability while deployed with the Army to ensure greater supply response and material availability. The decline in FY14 funding is due to a one time increase that occurred in FY13 to support training in sensitive suites of gear being deployed in support of HUMINT operations in OEF.				
b. OEF CBS 3.2 - Operations OPTEMPO	\$153,418	\$110,871	-\$62,971	\$47,900
<b><u>OEF Narrative Justification:</u></b> The FY14 funding requested in this CBS provides for the operations, maintenance, sustainment, Field Service Representatives (FSRs), and trainers for 269 Ground-Based Operational Surveillance Systems (G-BOSS). FSR is fielded at a ratio of 1 per every 3 G-BOSS systems with trainers maintaining a ratio of 1 per 6 systems. Funding continues at current levels of support activities for the G-BOSS program with no increase in capability or capacity.				
FY14 funding decreases are commensurate with reduced operational tempo in theater and the associated equipment needed to support deployed Marines. The FY14 request for CREW Systems is realigned to CBS 3.8 (Joint Counter IED Operations).				
c. OEF CBS 3.3 - Other Supplies and Equipment	\$11,962	\$0	\$0	\$0
<b><u>OEF Narrative Justification:</u></b> Funding provides for miscellaneous equipment, supplies, and consumables in support of logistics for OEF.				
d. OEF CBS 3.4 - Facilities/Base Support	\$23,780	\$4,000	-\$4,000	\$0
<b><u>OEF Narrative Justification:</u></b> Funding provides the MEF with a deployable four shelter system capable of testing, repairing, and calibrating Test Instruments used during maintenance actions to restore combat essential and mission critical equipment. It supports 30 measurement areas both electronic and mechanical. FY14 funding is not requested to support this requirement, as this was a one time incremental purchase in FY13. These instruments will remain operational through FY14 deployment cycles.				

	FY2012 Actual	FY2013 Total	Delta	FY2014 Total
e. OEF CBS 3.5.1 - Organizational Level Maintenance	\$28,746	\$2,260	-\$2,260	\$0
<b>OEF Narrative Justification:</b> Funding is required for the Defense Messaging System (DMS) Area Control Centers to support the deployed DMS operational capability by providing secure certificate management. Further, engineering support is required for Tactical DMS to upgrade and maintain the hardware/software suites per the Defense Information Systems Agency (DISA) policies and regulations. FY14 funding is not required for this requirement due to refresh/upgrade efforts accomplished through the FY13 budget request. FY12 funding provides resources for the Reset, Reconstitution, Readiness, and Resources (R4) Project, which serves as an integrator for ground equipment reset to plan, monitor, coordinate, analyze, and adjust USMC ground equipment actions across the operational and strategic levels of logistics.				
f. OEF CBS 3.5.3 - Depot Level Maintenance	\$0	\$0	\$121,126	\$121,126
<b>OEF Narrative Justification:</b> FY12 funding for the Mine Resistant Ambush Protection Vehicles (MRAPs) was provided as a year of execution transfer to USMC from the Joint MRAP program office. Beginning in FY13, the Services included MRAP costs in their service budget requests. FY14 funding provides for MRAP reset efforts.				
g. OEF CBS 3.5.4 - Contractor Logistics Support	\$43,419	\$34,897	\$16,700	\$51,597
<b>OEF Narrative Justification:</b> The increase in FY14 funding provides additional resources for equipment reset efforts. FY14 reset funding provides CLS related to the storage and distribution of Marine Forces equipment reset efforts to ensure sustained and uninterrupted operations (+\$12.6M). The remaining growth in this CBS provides FSR support to USMC Route Reconnaissance and Clearance programs, Biometric Automated Toolset System (BATS), Sensitive Compartmented Information Communications (SCI COMMS), and Logistics Information Systems (LIS).				
h. OEF CBS 3.5.6 - MRAP Vehicles Equipment Maintenance	\$455,478	\$480,813	-\$420,811	\$60,002
<b>OEF Narrative Justification:</b> FY12 funding for the Mine Resistant Ambush Protection Vehicles (MRAPs) was provided as a year of execution transfer to USMC from the Joint MRAP program office. Beginning in FY13, the Services included MRAP costs in their service budget requests. The decrease is a result of reduced vehicle equipment maintenance requirements in theater due to a decline in operational tempo. The depot level maintenance for MRAP is included in 1A2A CBS 3.5.3 and 1A3A CBS 3.5.3.				
i. OEF CBS 3.6 - C4I	\$280,598	\$331,778	-\$132,559	\$199,219

**OEF Narrative Justification:** Funding for this CBS provides supports for the following C4I systems: Iridium Enhanced Mobile Satellite Service for secure voice/data connectivity; automated logistics decision tools for MAGTF operations; ICE2 supply & maintenance support; sustainment of Blue Force Tracker; sustainment of Theater Battle Management Core System for Air Command & Control; Support Wide Area Network satellite communications terminal; Secure Mobile Anti-Jam Reliable Tactical Terminal; MIP programs providing imagery and topographic intelligence, geospatial analysis, Intelligence Analysis System Family of Systems for three Radio Battalions and Marine Corps Forces Special Operations; sustainment of ISR; and sustainment of CAV II Web-based system that supports inventory management.

FY14 provides an increase to airborne Intelligence, Surveillance, and Reconnaissance (ISR) Services over FY13 levels (+\$4M, \$162M total) to provide: 1) ISR via an ISR services contract , 2) pre-deployment training, and 3) airborne ISR contract services to three MEUs. The ISR services contract supplements organic UAS/ISR capability within the MAGTF. Requested funding will provide airborne ISR coverage to ensure each battalion deployed to OEF has continuous day/night support and provides route security for the logistics convoys.

The decrease in the FY14 request is primarily attributable to a one time increase included in the FY13 budget request, which supported accelerated deployment of the Marine Corps Global Combat Support System - Marine Corps (GCSS-MC) (-\$42M). Remaining decrease is commensurate with reduced operational tempo in theater and the associated equipment need to support deployed Marines.

	FY2012 Actual	FY2013 Total	Delta	FY2014 Total
j. OEF CBS 3.7 - Other Services and Miscellaneous Contracts	\$85,210	\$82,014	-\$42,975	\$39,039

**OEF Narrative Justification:** This CBS category provides services in the following programs: Defense Logistics Agency services; Naval Logistics Integration Common Sourcing and Expediting of High Priority Material; the Anti-Armor Weapon System Heavy (AAWS-H) which provides precision targeting; Serialized Small Arms Program managing/monitoring of all infantry weapon shipments and receipts; Consolidated Storage Program (CSP); sustainment of forensic capability with the Joint Expeditionary Forensic Facility (JEFF) program; funds for operation and sustainment mandated Marine Corps Class II consolidation initiative; and provides for Short/Medium Range Radar Modifications (SHORAD) which provides on-call technical support and on-site support to AN/TPS-59 and TPS-63B radar systems.

Decrease in FY14 funding is attributable to a one-time increase in the FY13 request for the sustainment of fielded Tactical Collaborative Work Suites (TWCS), and enterprise services at the tactical node to include platform hosting, collaboration, and information collection and storage. The decrease also reflects a reduction in contract services related to the drawdown of troops in theater.

k. OEF CBS 3.8 - Joint Counter IED Operations	\$49,846	\$46,333	-\$10,619	\$35,714
---	----------	----------	-----------	----------

**OEF Narrative Justification:** FY14 request of \$6.6M realigns this CBS from 3.2 to 3.8. This funding request provides the family of CREW systems (2.1 CREW Vehicle Receiver Jammer - mounted and 3.1 Thor III dismounted) and a critical defensive electronic attack capability to counter Radio-Controlled Improvised Explosive Devices (RCIED). The CREW systems are man-portable backpack (CREW 3.1 Thor III) and vehicle-mounted (CREW 2.1 CVRJ) active/reactive electronic countermeasure systems (ECM) designed to counter high and low powered RCIEDs. An additional \$1.1M provides FSRs to supplement ongoing maintenance efforts in theater.

The decrease of \$-18.3M in FY14 reflects a reduction in contract services funding for the family of backscatter programs. Backscatter funding provides the ability to repair equipment to defeat or counter the use of Improvised Explosive Devices: supports Contractor Logistics Support (CLS) and Field Service Representatives for the compact and ruggedized thermal imaging camera/night vision sight used in standoff and detection of suicide bombers; provides CLS support for Gyrocam camera used to identify Improvised Explosive Devices (IED) threats at over 1,000 meters, day or night; provides CLS services for Rapiscan S-1000; and CLS services for Z Backscatter imaging systems to scan vehicles for organic threat material (i.e., explosives).

Total	\$1,136,531	\$1,094,028	-\$534,454	\$559,574

Operation and Maintenance, Marine Corps  
Exhibit OP-32 Overseas Contingency Operations  
Subactivity Group 1A2A

**UNITED STATES MARINE CORPS**  
**Contingency Operations: Operation Enduring Freedom/Operation New Dawn**  
**Operation and Maintenance, Marine Corps**  
**Budget Activity 01**  
**Activity Group 1A**  
**1A3A - Depot Maintenance**

- I. Description of Operations Financed:** This sub-activity group funds the depot level maintenance (major repair/rebuild) of Marine Corps ground equipment during OCO in support of OEF. Repair/rebuild is accomplished based on availability of assets to maintain the materiel readiness of the equipment inventory necessary to support the needs of the Operating Forces during OCO. Items are screened/programmed for repair to ensure that a valid stock requirement exists and the repair or rebuild of the equipment is the most cost effective means of satisfying requirements. This program is closely coordinated with the Procurement, Marine Corps appropriation, OCO and Baseline requests to ensure that the combined repair/procurement program provides a balanced level of attainment of inventory objectives for major equipment. Thus, the specified items to be rebuilt, both principal end items and components, are determined by a process which utilizes cost-benefit considerations as a prime factor. Rebuild costs for each item are updated annually on the basis of current applicable cost factors at the performing activities.

4.0	Transportation	\$0	\$0	\$0	\$0
	<b>OND Totals</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>
	<b>SAG Total</b>	<b>\$262,800</b>	<b>\$222,824</b>	<b>\$347,176</b>	<b>\$570,000</b>

**Explanation of changes between FY 2013 and FY 2014:** The FY14 increase in funding is in direct support of equipment maintenance reset actions required on equipment returning from Afghanistan. As Marines and equipment continue to redeploy from OEF, funding will be required to support the reset requirements that will continue to exist due to over a decade of continuous combat operations. Currently, over 95,000 principal items are in theater, with roughly 42% of the gear being directly transferred from Iraq during the surge of 2009. The predominance of this equipment transferred includes high demand items such as communications equipment and vehicles, to include Mine Resistant Ambush Protection Vehicles (MRAPs) and medium tactical vehicles, all of which will require extensive depot maintenance actions prior to returning to homestation units. During the last decade, homestation units have experienced the affects of degraded unit readiness due to decreased equipment levels. It is imperative to have the resources available to reset these equipment sets and increase non-deployed units' readiness to a mission capable.

	FY2012 Actual	FY2013 Total	Delta	FY2014 Total
a. OEF CBS 3.5.3 - Depot Level Maintenance	\$262,800	\$222,824	\$347,176	\$570,000

**OEF Narrative Justification:** FY14 funding request supports the rebuild/repair of Marine Corps ground equipment retrograding from OEF as the drawdown from Afghanistan has accelerated. During this budget year, majority of the ground equipment from theater will return to the depots before returning to homestations. It also includes depot maintenance operations to finish the reset of MRAPs in CONUS. In addition, this includes the repair of all Principal End Items (PEI) in the inventory of deploying and redeploying Marine Corps forces assigned to OEF. PEIs being repaired and maintained under this program include critical and low density war fighting items such as: Automotive, Combat Vehicles, Electronic Items, Engineering Equipment, Missiles and Ordnance equipment.

**Budget Activity 01**  
**Activity Group 1B**  
**BSS1 - Base Support**

- I. Description of Operations Financed:** The Base Operating Support (BOS) sub-activity group funds base support for administrative services, installation manpower management, and base safety and legal services for OCO in CONUS and OCONUS installations. Specific services finance organic supply operations in support of the installations, including vehicle operation and maintenance. Community support services provide for support of living facilities, food services, recreation areas, special services programs and common use facilities. Base communication includes the operation and maintenance of critical infrastructure, including data communications, and the administrative costs associated with message reproduction and distribution as well as payments for long distance toll charges. The environmental category includes compliance, conservation, and pollution prevention, to include air, water, and soil pollution abatement; environmental restoration; natural, cultural, historic, land, forest, coastal zone management, and hazardous waste handling and disposal.

**II. Financial Summary (\$ in Thousand)**

OEF	CBS Title	FY2012 Actual	FY2013 Total	Delta	FY2014 Total
1.0	Personnel	\$2,286	\$1,650	-\$192	\$1,458

	<b>SAG Total</b>	<b>\$149,216</b>	<b>\$88,690</b>	<b>-\$18,964</b>	<b>\$69,726</b>

**Explanation of changes between FY 2013 and FY 2014:** The FY14 BOS OCO budget request provides resources for an average troop level of 4,200 Marines deployed in Afghanistan and 2,850 reserve Marines in support of OEF. The decreases from FY13 to FY14 are commensurate with the drawdown of Marines and reduced operational tempo in Afghanistan with regards to services provided by the installations to support pre-deployment training and pre/post deployment requirements.

A. Subactivity Group BSS1 Base Support	FY2012 Actual	FY2013 Total	Delta	FY2014 Total
1. Cost Breakdown Structure (CBS) 1.0	\$2,286	\$1,650	-\$192	\$1,458

**OEF Narrative Justification:** Funding is required to provide civilian overtime pay for Tactical Safety Specialists, Air Traffic Controllers, training personnel, visiting aircraft line freight loaders, and personnel demilling ordnance who are working extended hours due to deployments and increased training requirements in support of OEF. It also provides temporary civilian personnel to conduct training at the ranges with the addition of a second sweep team to clean the ranges of ordnance and residue, and processing the residue for sale through the Qualified Recycling Program, as well as an ordnance material handler.

The decrease in FY14 funding is due to a reduction in the hours required by civilian personnel to support training and installation maintenance as less units are deploying to Afghanistan.

2. Cost Breakdown Structure (CBS) 2.0

a. OEF CBS 2.1 - Temporary Duty (TDY)/Additional Duty (TAD)	\$1,362	\$1,707	-\$712	\$995
---	---------	---------	--------	-------

**OEF Narrative Justification:** Funding supports TAD costs for Individual Augmentees (IA) for pre-deployment training and travel to theater in support of OEF. Additionally, funding supports travel and other costs in support of Marines injured during combat operations. Decline in funding is due to fewer IA deployments, decreased participation in OEF planning conferences, and less theater site visits.

b. OND CBS 2.1 - Temporary Duty (TDY)/Additional Duty (TAD)	\$10	\$0	\$0	\$0
---	------	-----	-----	-----

**OND Narrative Justification:** Provides funding for travel costs related to Individual Augments (IAs) (advisors/advisory support staff) to support transitional elements of OND.

c. OEF CBS 2.2 - Clothing and Other Personnel Equipment and Supplies	\$0	\$70	-\$1	\$69
--	-----	------	------	------

**OEF Narrative Justification:** FY14 funding provides for patrol and tactical operations harnesses to support U.S Military Law Enforcement high-risk security K9 teams that are forward deployed. Level II ballistic harnesses will allow K-9 teams versatility by giving the handler the means to lower a K-9 into crevices too steep or dangerous for a military member to crawl into. Harnesses are equipped with a video camera to allow handlers and ground forces visual clarification of various duties a K-9 team may be tasked with for the mission assigned for the day, whether it is tracking suspects, locating bombs or searching for drugs.

d. OEF CBS 2.3 - Medical Support/Health Services	\$50	\$52	\$3,647	\$3,699
--	------	------	---------	---------

**OEF Narrative Justification:** Funding requested supports Civilian Air Ambulance Services. Services are required from a commercial air ambulance to provide advanced life support to training incident victims as a first response and relieve high op tempo operating forces from MEDEVAC duty so they can focus on pre-deployment training. Without the air MEDEVAC capability a major portion of combat readiness training would be shut down and unit live/non-live training would be limited to events within 30 minutes of the Naval Hospital, severely limiting training opportunities.

e. OEF CBS 2.4 - Reserve Component Activation/Deactivation	\$139	\$140	-\$140	\$0
--	-------	-------	--------	-----

**OEFA Narrative Justification:** Funding supports reservists attached to the 1st Marine Expeditionary Force (MEF). Funding required in FY13 was a one time cost incurred by I MEF for planning OEF unit rotations.

f. OEF CBS 2.5 - Other Personnel Support	\$64,792	\$38,020	-\$4,696	\$33,324
--	----------	----------	----------	----------

**OEF Narrative Justification:** Decrease in FY14 funding is related to a decrease in Morale, Welfare and Recreation (MWR) services provided aboard USMC installations. Specifically, funding declines due to a reduction in required resiliency trainers who support combat stress and suicide prevention efforts for Marines returning from deployment. This reduction is possible due to FY13 advancements made in the development of new combat and operational stress control (COSC) curriculum and related training programs. The funding requested in FY14 provides funding to support behavioral health prevention training and community treatment capabilities which will provide the following services: community preparedness and recovery; public health surveillance and epidemiological investigations; family relations development; skill development; resource & referral; remediation; force protection; victim services; non-medical counseling; and prevention services for at risk communities. This program aids Commanders' efforts to provide counseling and resolve problems before they impact personnel, family, and unit readiness. Programs include COSC; Suicide Prevention; Family Advocacy Program (General Counseling, New Parent Support, and Victim Advocacy); SAPR; and Substance Abuse Prevention.

	FY2012 Actual	FY2013 Total	Delta	FY2014 Total
<b>3. Cost Breakdown Structure (CBS) 3.0</b>				
a. OEF CBS 3.1 - Training	\$41,622	\$20,104	-\$3,267	\$16,837
<b>OEF Narrative Justification:</b> Decrease in FY14 funding is due to reduced requirement for contractor services for pre-deployment training events. FY14 funding supports pre-deployment OEF training events that are executed and designed to significantly enhance training through the employment of contracted role players to act as Afghan civilians on the battlefield (COBs), insurgents, and terrorists. Included in this request is funding to support on-site contractor services who provide mapping, analysis, and geospatial data services to operating force (OPFOR) units who train aboard Camp Lejeune. Additionally, custom map products are produced as requested to support military exercises and OPFOR training events. Funding provides for the publication of hard copy maps and web-based interactive map services for planning and pre-deployment operations.				
b. OEF CBS 3.2 - Operations OPTEMPO	\$16,268	\$13,246	-\$6,719	\$6,527
<b>OEF Narrative Justification:</b> The decrease in FY14 funding is commensurate to drawdown of Marines in Afghanistan and reduced training requirements as less Marines are required to attend training events on USMC installations. Funding is required for the maintenance of training ranges, EOD equipment, and flight line equipment in support of OEF operations. Funding request supports incremental range consumables, range safety technicians contract, satellite dining facilities at training ranges, and miscellaneous maintenance related to incremental operational costs. Utilization of these services/facilities continues to decline as fewer operational force units are preparing for deployments.				
c. OEF CBS 3.3 - Other Supplies and Equipment	\$406	\$2,271	-\$1,802	\$469
<b>OEF Narrative Justification:</b> Decrease in FY14 funding request is due to previous purchases made to support deployed Marines via recreational deployment items such as MWR Deployable Electronic Game Kits for deployed Marines. The funding requested in FY14 funds the Foreign Object Debris (FOD) finder system which monitors airport runways, taxiways and ramp/gate areas, and is used to detect, locate and retrieve FOD. The system can detect stationary debris of various sizes and materials (e.g. metal, plastic, organic) and alerts users to detections with both audible voice warning and visual alarm on the satellite image located on the user display. Lastly, funding supports the purchase of minor repair parts to support motorized handling vehicles (forklifts, trucks, trailers) brought onboard to move the damaged/repairable ground equipment returning from OEF and for movement of outgoing OEF ground equipment/stocked collateral gear.				
d. OEF CBS 3.4 - Facilities/Base Support	\$770	\$4,128	\$368	\$4,496
<b>OEF Narrative Justification:</b> Requested funding supports low level radio communications systems (LARCS) maintenance contract at Chocolate and Barry M. Goldwater bombing ranges. Ranges are used to train and prepare units for deployments. The increase in FY14 funding requested is in support of increased awareness and heightened base security levels as part of Anti-Terrorist Force Protection (ATFP) initiatives. Funds are requested for removal of vegetation, trees, tree branches and other debris overgrowing USMC installations perimeter fencing. Additionally, funding is required to support training aboard Marine Corps Air Ground Combat Center (MCAGCC) at 29 Palms, California by providing ammunition. Funding is required to support munitions storage facilities, which is required to specifically support the replacement and repair of equipment and procurement of operational consumables required to provide timely, safe and efficient munitions services to units requesting training.				
e. OEF CBS 3.6 - C4I	\$7,980	\$3,427	-\$1,644	\$1,783
<b>OEF Narrative Justification:</b> Funding provides information technology services to troops while deployed to OEF, as well as command and control communications for activation/mobilization of Marines in support of OEF. Requirement for SIPRNET services will decrease based on fewer deploying Marines.				
f. OEF CBS 3.7 - Other Services and Miscellaneous Contracts	\$3,579	\$3,811	-\$3,811	\$0
<b>OEF Narrative Justification:</b> The FY14 request for Civilian Air Ambulance Services has been realigned from CBS 3.7 to 2.3.				
<b>4. Cost Breakdown Structure (CBS) 4.0</b>				
a. OEF CBS 4.5 - Other Transportation	\$9,952	\$64	\$5	\$69
<b>OEF Narrative Justification:</b> Funding supports Marine Corps Air Station Camp Pendleton's (MCAS CP) Defense Logistics Agency (DLA) deployment contracts for packing and shipping of material and equipment for deploying units. Additionally, funding supports the shipment of repair parts for material handling equipment assigned to the Fleet Support Division. The Fleet Support Division provides direct support to units deploying to Afghanistan for repair parts and are purchased through the Contractor Operated Parts Store (COPARS).

	<b>SAG Total</b>	<b>\$201,563</b>	<b>\$215,212</b>	<b>-\$106,942</b>	<b>\$108,270</b>

**Explanation of changes between FY 2013 and FY 2014:** FY14 Training Support OCO request decreases are commensurate with drawdown of units and individual Marines deployed in Afghanistan. The throughput related to pre-deployment training requirements are reduced based on reduced troop levels. The FY14 budget request provides resources for an average troop strength of 4,200 Marines forward deployed and 2,850 reservists in support of OEF operations.

**A. Subactivity Group 3B4D Training Support**

**1. Cost Breakdown Structure (CBS) 3.0**

- a. OEF CBS 3.1 - Training Support

	FY2012 Actual	FY2013 Total	Delta	FY2014 Total
	\$201,563	\$215,212	-\$106,942	\$108,270

**OEF Narrative Justification:** The decrease in the FY14 funding request is due to a decline in the number of units and individual Marines expected to attend required pre-deployment training in support of OEF requirements; \$60M of the reduction can be attributed to the Enhanced Mojave Viper (EMV) Pre-deployment Training (PTP) as a result of reduced pre-deployment training requirements for OEF. Additionally, the FY13 funding request included one-time purchases in support of mobile training teams required to support Group 1 Unmanned Aircraft Systems (UAS) training requirements, funding to provide logistics C2 systems training, and funds to provide new electronic courseware development.

Other various programs supporting deployed advisors and individual/unit training requirements from contract services were reduced because unit/individual training requirements are decreasing in FY14.

**4A3G - Servicewide Transportation**

- I. Description of Operations Financed:** The Servicewide Transportation sub-activity group funds transportation of Marine Corps owned materiel and supplies by the most economical mode that will meet Department of Defense Uniform Materiel Movement and Issue Priority System in-transit time standards. All resources in this program are used to reimburse industrially funded or commercial transportation carriers for transportation services. This program finances all costs related to Second Destination Transportation (SDT) of cargo to the operating forces overseas and within CONUS, as well as prepositioning of Marine Corps owned materiel and equipment to overseas locations. Categories of transportation are: Military Sealift Command for ocean cargo; inland transportation by Commercial Carriers for movement between CONUS installations and ports; Air Mobility Command for air movement of priority cargo in support of the Operating Forces; and Surface Deployment Distribution Command for port handling of ocean cargo.

	<b>SAG Total</b>	<b>\$355,419</b>	<b>\$512,627</b>	<b>-\$147,072</b>	<b>\$365,555</b>

**Explanation of changes between FY 2013 and FY 2014:** The decrease in FY14 request is commensurate with the reduced operational tempo and drawdown to 4,200 Marines in Afghanistan and 2,850 reserve Marines in support of OEF. As the Marine Corps begins to transition from OEF, SDT costs will shift from supporting operational requirements in OEF, to primarily supporting equipment reset efforts and redeploying equipment out of Afghanistan.

**A. Subactivity Group 4A3G Servicewide Transportation****1. Cost Breakdown Structure (CBS) 4.0**

- a. OEF CBS 4.6 - Second Destination Transportation (SDT)

	FY2012 Actual	FY2013 Total	Delta	FY2014 Total
	\$308,992	\$481,627	-\$116,072	\$365,555

**OEF Narrative Justification:** The SDT program funds the transportation of USMC cargo worldwide. The FY14 request addresses contingency operations only to support the movement of cargo (non-unit moves) from CONUS-OEF, retrograde, and reset. SDT requirements for CONUS-OEF are based solely on operational tempo. This includes funding requested to support equipment positioned at Marine Corps Logistics Command (MCLC) for onward movement in FY14 from MCLC to homestation units. SDT will also fund approximately 23% of all equipment slated for shipment from CENTCOM to Defense Reutilization Management Office (DRMO). The decrease from FY13 to FY14 in SDT reflects reduced operational tempo in theater.

- b. OEF CBS 4.7 - MRAP Vehicles Transportation \$46,427 \$31,000 -\$31,000 \$0

**OEF Narrative Justification:** Funding required to support the shipment of Mine Resistant Ambush Protected (MRAP) vehicles.

Total	\$355,419	\$512,627	-\$147,072	\$365,555

	<b>SAG Total</b>	<b>\$65,865</b>	<b>\$11,701</b>	<b>-\$8,026</b>	<b>\$3,675</b>

**Explanation of changes between FY 2013 and FY 2014:** The decrease in FY14 request is a result of reduced operational tempo and drawdown to 4,200 Marines deployed in Afghanistan and 2,850 reserve Marines in support of OEF. Reduced requirements by Defense Finance and Accounting Service (DFAS) is a result of the force drawdown in theater.

	FY2012 Actual	FY2013 Total	Delta	FY2014 Total
1. <b><u>Cost Breakdown Structure (CBS) 2.0</u></b>				
a. OEF CBS 2.1 - Temporary Duty (TAD/TDY)	\$2,831	\$3,700	-\$1,150	\$2,550
<b>OEF Narrative Justification:</b>	Provides funding for TAD costs for next of kin/family member travel to bedside or burial site of Marines as a result of combat related injuries or casualties. In addition, funds provide TAD for force augmentation staff to Individual Ready Reserve muster locations for purposes of training deploying personnel, force management conferences, and joint meetings when Joint Manning Documents (JMD) are identified. The decrease from FY13 to FY14 is a result of reduced travel requirements in support of operations in theater.			
2. <b><u>Cost Breakdown Structure (CBS) 3.0</u></b>				
a. OEF CBS 3.6 - C4I	\$2,505	\$2,716	-\$2,716	\$0
<b>OEF Narrative Justification:</b>	Funding provides logistical C4I systems capability for the National Intelligence Program in order to support combat operations in Afghanistan. This funding has moved from 4A4G to 4A7G in FY14.			
b. OND CBS 3.6 - C4I	\$279	\$0	\$0	\$0
<b>OND Narrative Justification:</b>	Funding provides logistical C4I systems for the National Intelligence Program in order to support the remaining Marine Forces in Iraq in support of OND. This funding has moved from 4A4G to 4A7G in FY14.			
d. OEF CBS 3.7 - Other Services and Miscellaneous Contracts	\$59,971	\$5,285	-\$4,160	\$1,125
<b>OEF Narrative Justification:</b>	Of this total request, \$4M is provided to support the Motivation Mail program, and \$.8M is required to support the publication and printing of the Tactical Handbook for Unit Leaders (THULS). The THULS handbook is comprised of 255 cards and pages of information that serves to enhance a commander and platoon leaders combat effectiveness by providing a rewritable surface for recording data and situational information in standardized formats, supporting calls for air and artillery fire support, medi-vacs, and intelligence reports during combat operations. These ready reference pages identify what information is critical as well as the proper sequence and format for reporting, subsequently prodding the unit leader to record and transmit complete situational information.			
In addition, funding supports DFAS incremental costs above normal peacetime requirements in transaction processing of deployed Marine additional pay and entitlements. The decrease in FY14 is due to the drawdown of Marines, thereby decreasing the number of transactions that must be processed by DFAS personnel.

**Summary Information**  
**Contingency Operation(s): Operation Enduring Freedom/Operation New Dawn**  
**Operation and Maintenance, Navy Reserve**

- I. Description of Operations Financed:** Operation Enduring Freedom (OEF) includes the Department of the Navy's continuing support for efforts to track down terrorists and provide stability, primarily in Afghanistan and operations in the Horn of Africa (HoA). These objectives also include destroying terrorist training camps and infrastructure, capturing Al Qaeda leaders, stopping terrorist activities, and preventing the re-emergence of international terrorist organizations. Support costs include increased operations for Carrier Strike Groups, Expeditionary Strike Groups and associated aircraft operations, activation of reserve personnel and units, Individual Augmentees (IAs), increased fuel consumption and spare parts, additional maintenance supporting higher equipment usage, deployment of medical capabilities, extended communications and intelligence support, and related transportation costs.

Navy Reserve efforts supporting OND ended in FY 2012

- II. Force Structure Summary:** DoN reservists deploy in support of the Overseas Contingency Operations (OCO) serving as members of provincial reconstruction teams (PRTs), Special Operating Forces, Seabee units, Security forces, Marine forces, medical units, IAs and other units critical to success in OEF. Sailors are conducting maritime infrastructure protection, explosive ordnance disposal, combat construction engineering, cargo handling, combat logistics, maritime security, customs inspections, detainee operations, civil affairs, base operations and other forward presence activities. Approximately 3,999 Navy Reservists will be mobilized to support OEF for FY 2014 objectives. In collaboration with the U.S. Coast Guard, Navy reservists also conduct critical port operations, port and oil platform security, and maritime interception operations.

**Detail by Subactivity Group 1A1A Mission and Other Flight Operations**

- I. Description of Operations Financed:** Mission and Other Flight Operations includes all Navy and Marine Corps Reserve Tactical Air (TACAIR) and Anti-Submarine Warfare (ASW) forces, shore-based fleet air support, operational testing and evaluation, unit operational activities, maintenance services and support. Provides contracted aviation maintenance services, engineering and logistic support, travel and administrative support critical to maintaining operational readiness. Funding provides flying hours to maintain an adequate level of readiness enabling Navy and Marine Corps Reserve aviation forces to perform their primary mission as required in support of national objectives.

**II. Financial Summary (\$ in Thousand)**

OEF	CBS Title	FY 2012	FY 2013	Delta	FY 2014
		Actual	Total		Total
1.0	Personnel	\$0	\$0	\$0	\$0

	<b>SAG Total</b>	<b>\$38,349</b>	<b>\$24,834</b>	<b>-\$7,638</b>	<b>\$17,196</b>

**Explanation of Change between FY 2013 and FY 2014:** Reserve Force air operations in support of OEF is reduced by 840 flight hours. The cost for contract maintenance in support of the Marine Reserve's on-going exercise, MOJAVE VIPER, for urban warfare training concludes in FY13.

**A. Subactivity Group 1A1A Mission and Other Flight Operations**

**1. Cost Breakdown Structure (CBS) 2.0**

a. OEF CBS 2.1 - Temporary Duty (TAD/TDY)

\$4,612      \$7,798      -\$944      \$6,854

**OEF Narrative Justification:** Includes the costs of travel, per diem and lodging for military and civilian personnel that result from participation or in direct support of contingency operations. Examples include travel expenses incurred by aircrew, aviation maintenance and flight operations personnel.

b. OND CBS 2.1 - Temporary Duty (TAD/TDY)

\$3,797      \$0      \$0      \$0

**OND Narrative Justification:** Includes the costs of travel, per diem and lodging for military and civilian personnel that result from participation in or direct support of contingency operations. Examples include travel expenses incurred by aircrew, aviation maintenance and flight operations personnel.

c. OEF CBS 2.2 - Clothing and Other Personnel Equipment and Supplies

\$76      \$0      \$0      \$0

**OEF Narrative Justification:** Includes the costs of clothing and other personnel equipment and supplies that result from participation in or direct support of contingency operations.

d. OND CBS 2.2 - Clothing and Other Personnel Equipment and Supplies

\$105      \$0      \$0      \$0

**OND Narrative Justification:** Includes the costs of clothing and other personnel equipment and supplies that result from participation in or direct support of contingency operations.

**2. Cost Breakdown Structure (CBS) 3.0**

a. OEF CBS 3.2 - Operations OPTEMPO

\$19,576      \$13,954      -\$6,153      \$7,801

**OEF Narrative Justification:** Incremental cost of flying hours above baseline, plus materials and services used during operations to include petroleum, oils and lubricants (POL) and spare and consumable parts such as repair components, kits, assemblies, etc. Supports deployed Reserve Component C-130T and C-9B detachments providing airlift and logistic support and deployed Reserve Component HH-60H and EA-6B Prowler squadrons in direct support of OEF in FY2013. Marine Corps Reserve 4th Marine Aircraft Wing UH-1N, AH-1W and F/A-18 aircraft incremental costs for urban warfare training support to exercise Mojave Viper is also provided. Mojave Viper is deployment-specific training for units deploying into the OEF theater of operations, which concludes in FY13.

b. OND CBS 3.2 - Operations OPTEMPO

\$4,560      \$0      \$0      \$0

**OND Narrative Justification:** Incremental cost of flying hours above baseline, plus materials and services used during operations to include petroleum, oils and lubricants (POL) and spare and consumable parts such as repair components, kits, assemblies, etc. Supports deployed Reserve Component C-130T and C-9B detachments providing airlift and logistic support and deployed Reserve Component HH-60H and EA-6B Prowler squadrons in direct support of OEF-A in FY2013. Marine Corps Reserve 4th Marine Aircraft Wing UH-1N, AH-1W and F/A-18 aircraft incremental costs for urban warfare training support to exercise Mojave Viper is also provided.

3. **Cost Breakdown Structure (CBS) 4.0**

a. OEF CBS 4.1 - Airlift	\$2,173	\$3,082	-\$541	\$2,541
--------------------------	---------	---------	--------	---------

**OEF Narrative Justification:** Includes transportation of Navy personnel, equipment, and material by either commercial or military air assets. Examples include airlifts, shipments of detachment support equipment and movement of retrograde shipments.

b. OND CBS 4.1 - Airlift	\$3,450	\$0	\$0	\$0
--------------------------	---------	-----	-----	-----

**OND Narrative Justification:** Includes transportation of Navy personnel, equipment, and material by either commercial or military air assets. Examples include airlifts, shipments of detachment support equipment and movement of retrograde shipments.

- I. Description of Operations Financed:** Reserve Engineering Technical Services - This program provides on-site technical information, instruction and training (formal and on the job) to aviation maintenance personnel at the organizational and intermediate levels of maintenance for a network of 30 detachments dispersed worldwide. The purpose of the training is to elevate the technical knowledge and skills of Navy and Marine aviation maintenance technicians in the installation, maintenance, repair and operation of all types of aviation equipment and associated support equipment. Engineering Technical Services tasks are performed by Contractor Engineering Technical Service (CETS) and Navy Engineering Technical Service (NETS) personnel. All CETS and NETS traveling into CENTCOM are civilians.

**II. Financial Summary (\$ in Thousand)**

- I. Description of Operations Financed:** Airframe Rework: This program provides inspection, rework and emergent repairs of Reserve aircraft. Through periodic depot level maintenance activities, aircraft major structures and airframe systems are maintained in a safe flyable condition. Depot maintenance is currently being performed under both the Integrated Maintenance Concept (IMC) and the Standard Level Depot Maintenance (SDLM) programs. The IMC concept uses Planned Maintenance Intervals (PMI), performing more frequent depot maintenance, with smaller work packages, reducing out of service time. The goal of this program is to improve readiness while reducing operating and support costs. Currently, the C-130, C-20, C-37, C-40, C-9, FA-18 and HH-60 aircraft programs have been incorporated under IMC. The SDLM program uses an Aircraft Service Period Adjustment (ASPA) to adjust individual aircraft period end dates for selected aircraft when material condition warrants. Under ASPA inspection guidelines, only aircraft that cannot safely be extended for another 12-month tour are inducted in the depot for SDLM.

- I. Description of Operations Financed:** This sub-activity group provides resources for all aspects of ship operations required to continuously deploy combat ready warships and forces in support of national objectives. Support costs include activation of Reserve personnel and units, fuel consumption, equipment parts and maintenance, fleet and unit training, port services, extended communications and intelligence support, and related transportation costs. Additionally, costs include the purchase of investment items lost, damaged, or in need of replacement caused by "wear and tear" from increased operating tempo (OPTEMPO), organizational level repairs, supplies and equipage (S&E), utilities costs, and Temporary Assigned Duty (TAD) for shipboard and afloat staff personnel.

- I. Description of Operations Financed:** Operation Enduring Freedom includes the Department of the Navy Reserve's efforts in conducting stability and support operations throughout Afghanistan, Horn of Africa, Philippines, the Persian Gulf area including Gulf nations, Arabian Sea and Indian Ocean, Pakistan and other Asian republics that border the Afghan region. Ship depot maintenance funding provides for depot level repairs during both scheduled and emergent availability of Naval Reserve Force (NRF) ships. This program is designed to enable safe and reliable operation of the ships in fulfilling their assigned combat and combat support related missions. The ship depot maintenance program includes all depot maintenance ranging from scheduled availabilities to non-scheduled restricted and technical availabilities (RA/TA). RA/TA repairs include selected restricted availabilities, emergent repairs, continuous maintenance, and various other miscellaneous type repairs.

**Operation and Maintenance, Navy Reserve**  
**Budget Activity 01**  
**Activity Group 1C**  
**Detail by Subactivity Group 1C6C Combat Support Forces**

- I. Description of Operations Financed:** This subactivity group includes funding to support fleet commands and staffs, and operations of Navy Expeditionary Combat Command (NECC). This line item includes education opportunities to Reserve Forces sailors and their families/significant others on nationally available pre-deployment, deployment, and post-deployment and reintegration support services and resources that provide a myriad of support structures during phases of deployment. The Yellow Ribbon Program (YRP) is a DoD-wide effort to help National Guard and Reserve Service members and their families connect with local resources before, during, and after deployments, especially during the reintegration phase. Reserve Service members and their families attend Yellow Ribbon Events where they can access information on health care, education/training opportunities, financial, and legal benefits. Reserve members have a unique challenge relative to their active duty counterparts, since many will return to full-time civilian employment following their military duties. Additionally, without the support of an active duty installation, many encounter difficulty finding or getting access to the care that they need for any injuries, illnesses, or conditions incurred as a result of their deployment.

**II. Financial Summary (\$ in Thousand)**

OEF	CBS Title	FY 2012	FY 2013	Delta	FY 2014
		Total	Total		Total
1.0	Personnel	\$0	\$0	\$0	\$0

3.0	Operating Support	\$1,784	\$1,900	\$3,293	\$5,193
4.0	Transportation	\$1,002	\$0	\$1,920	\$1,920
	OEF Totals	\$5,827	\$8,244	\$4,966	\$13,210
<b>OND/Post-OND</b>					
1.0	Personnel	\$0	\$0	\$0	\$0
2.0	Personnel Support	\$0	\$0	\$0	\$0
3.0	Operating Support	\$0	\$0	\$0	\$0
4.0	Transportation	\$0	\$0	\$0	\$0
	OND Totals	\$0	\$0	\$0	\$0
	SAG Total	\$5,827	\$8,244	\$4,966	\$13,210

**Explanation of Change between FY 2013 and FY 2014:** Increase from FY13 to the FY14 is due to increased transportation costs in anticipation of a withdrawal from Afghanistan and for equipment repairs due to OPTEMPO. Additionally, there is a decrease from FY13 to FY14 due to a reduction of temporary duty supporting C5F operations offset by an increase to costs for refreshing and replacing supplies and equipment.

#### A. **Subactivity Group 1C6C Combat Support Forces**

## **1. Cost Breakdown Structure (CBS) 2.0**

a. OEF CBS 2.1 - Temporary Duty (TAD/TDY) \$0 \$2,600 -\$160 \$2,440

**OEF Narrative Justification:** The request includes travel, per diem, and lodging costs for military and civilian personnel in support of contingency operations in Afghanistan/Horn of Africa. Also, it funds aircrew, aviation maintenance, and flight operations personnel for travel to three deployment locations for turnover assessment and operational assistance. The request includes individual travel authorizations for Yellow Ribbon events. Examples of items covered are per diem, rental vehicles, billeting, and travel associated with pre- and post-deployment support for CENTCOM personnel. It funds training for EOD platoon Selected Reserve (SELRES) members, and ATFP mission in support of OEF area of operations.

**OEF Narrative Justification:** The request includes the cost of individual and organizational clothing and equipment for military personnel and civilian personnel deploying to, participating in, or supporting OEF operations. It funds personnel gear for Reserve Naval Mobile Construction Battalions (NMCB) scheduled to mobilize and deploy in support of NMCB Force Flow mission. Clothing examples include: chemical defense uniforms (CDUs); anti-flash hoods & gloves; fire fighting suits; inclement weather clothing (e.g. desert flight suits, non-standard desert utility uniforms, boots, gas masks and chemical protective clothing); life preservers, and tactical vests.

c. OEF CBS 2.4 - Reserve Component Activation/Deactivation \$2,653 \$2,697 \$40 \$2,737

**OEF Narrative Justification:** The request funds the Yellow Ribbon Reintegration Program directed by the FY08 Defense Authorization, providing sailors and their families/significant others education on nationally available pre-deployment, deployment, and post-deployment/reintegration support services and resources.

d. OEF CBS 2,7 - Body Armor \$0 \$1,047 -\$1,047 \$0

**OE** **Narrative Justification:** : The request includes the costs to procure new, repair, modify, upgrade or replace outer tactical vests, small arms protective inserts or related force protection equipment. FY14 decrease is due to the reduction in body armor requirements supporting C5F operations.

2. **Cost Breakdown Structure (CBS) 3.0**

a. OEF CBS 3.3 - Other Supplies and Equipment	\$1,468	\$1,900	\$2,693	\$4,593
---	---------	---------	---------	---------

**OEF Narrative Justification:** The request includes operating support costs of expenses for TOA, CESE and SABAR and MHE equipment repairs. These funds will sustain mission operations in the AOR, such as Materiel Handling Equipment, CESE (tactical and non-tactical) Support and maintenance. Funds pay for the inspection, repair, fueling and movement of equipment. Funding provides the tools and special equipment necessary to ensure all TOA items, CESE and MHE are mission ready, to include inspection and repair of system components, hydraulics, local fabrication and manufacturing of parts. Unit fielding and sustainment of tactical communication equipment (VHF/HF/SATCOM radios and Secure Iridium Telephones) and automation equipment that supports strategic operations status reporting and command and control requirements within the OEF AOR. Other supplies include special protective gear for equipment or containers, connex boxes, tents, facilities maintenance tools, accessories and equipment, and various types of tradesman tool kits as well as miscellaneous supplies for Yellow Ribbon events. Increase from FY13 to FY14 supports field supply to sustain individual combat equipment (ICE) and other unit equipment required to execute the mission as well as refresh and replacement requirements.

b. OEF CBS 3.4 - Base Operating Support	\$46	\$0	\$0	\$0
---	------	-----	-----	-----

**OEF Narrative Justification:** Base support costs for mobilized reservists in support of OEF.

c. OEF CBS 3.6 - C4I	\$20	\$0	\$0	\$0
----------------------	------	-----	-----	-----

**OEF Narrative Justification:** Provides for phased replacement of dive gear and EOD equipment used for ATFP missions. Maintains support services for reservists and families of reservists supporting OEF. Provides for security assessments, outsourcing surveys, waiver requests, exercises, and evaluations. Funds Airtime for SATCOM phones/DISA IRIDIUM. Secure VTC for NCI Reserve Readiness Support Sites (12).

d. OEF CBS 3.7 - Other Services and Miscellaneous Contracts	\$249	\$0	\$600	\$600
---	-------	-----	-------	-------

**OEF Narrative Justification:** The request includes consolidated Issue Facility (CIF) Contractor Support (10 FTE) to manage the PGI Issue/Receiving Warehouse in Gulfport, MS and Williamsburg, VA.

3. **Cost Breakdown Structure (CBS) 4.0**

a. OEF CBS 4.6 - Second Destination Transportation	\$1,002	\$0	\$1,920	\$1,920
--	---------	-----	---------	---------

**OEF Narrative Justification:** The request includes shipment of repair parts/documentation support equipment as well as transportation cost of equipment from point of entry (to US) to final destination (unit). Also, it includes shipping MHE/CESE forward to replace old equipment.

Total	<hr/> \$5,827	\$8,244	\$4,966	\$13,210

**Detail by Subactivity Group BSSR Base Operating Support (BOS)**

- I. Description of Operations Financed:** OEF includes the Department of the Navy's efforts for conducting stability and support operations throughout Afghanistan; the cessation of terrorist activities; and military related reconstruction operations. Support costs include activation of Reserve personnel and units, increased fuel consumption and spare parts, additional maintenance to support higher usage of equipment, deployment of medical capabilities (hospital ships and deployable fleet hospitals), extended communications and intelligence support, and related transportatic costs. Additionally, costs include the purchase of investment items lost, damaged, or in need of replacement resulting from increase "wear and tear" from higher operating tempos.

**II. Financial Summary (\$ in Thousand)**

- I. Description of Operations Financed:** Operation Enduring Freedom (OEF) includes the Marine Corps' continuing support for efforts to track down terrorist and provide stability in Afghanistan. These objectives also include destroying terrorist training camp and infrastructure, capturing Al Qaeda leaders, stopping terrorist activities, and preventing the re-emergence of international terrorist organizations. Support costs include increased operations for Marine Air-Ground Task Force (MAGTF), Marine Security Forces at Naval installations and Forces aboard Naval vessels, activation of reserve personnel and units, Individual Augmentees (IA), increased fuel consumption and spare parts, additional maintenance supporting higher equipment usage, deployment of extended communications and intelligence support and related transportation costs.
- II. Force Structure Summary:** The FY 2014 request supports 2,850 Marine Corps Reserve members in support of OEF operations.

**Operation and Maintenance, Marine Corps Reserve**  
**Budget Activity 01**  
**Activity Group 1A**  
**1A1A - Operating Forces**

- I. Description of Operations Financed:** This sub-activity group provides day-to-day funding for Marine Forces reserve training and operational support. Funding enables materiel readiness, purchase and replacement of expense type items authorized by unit training, allowances, local equipment repair, training centers, and materials for training and preparation for mobilization.

**II. Financial Summary (\$ in Thousand)**

OEF	CBS Title	FY2012 Actual	FY2013 Total	Delta	FY2014 Total
1.0	Personnel	\$0	\$0	\$0	\$0
2.0	Personnel Support	\$20,507	\$13,155	-\$6,654	\$6,501

	OEF Totals	\$31,209	\$22,657	-\$11,533	\$11,124
<b>OND/Post-OND Iraq Activities</b>					
1.0	Personnel	\$0	\$0	\$0	\$0
2.0	Personnel Support	\$0	\$0	\$0	\$0
3.0	Operating Support	\$0	\$0	\$0	\$0
4.0	Transportation	\$0	\$0	\$0	\$0
	OND Totals	\$0	\$0	\$0	\$0
	<b>SAG Total</b>	<b>\$31,209</b>	<b>\$22,657</b>	<b>-\$11,533</b>	<b>\$11,124</b>

**Explanation of changes between FY 2013 and FY 2014:** The FY14 budget request reflects the drawdown of Marines in Afghanistan, decreasing the number of anticipated reservists being activated. As less reserve Marines are activated to support OEF, funding required to equip the individual Marine and training costs are declining commensurately. The FY14 budget request supports an average troop strength of 2,850 reserve Marines in support of OEF.

**A. Subactivity Group 1A1A Operating Forces**

**1. Cost Breakdown Structure (CBS) 2.0**

- a. OEF CBS 2.2 - Clothing and Other Personal Equipment & Supplies

\$20,507	\$13,155	-\$6,654	\$6,501
----------	----------	----------	---------

**OEF Narrative Justification:** Per the Force Generation Model and force flow assumptions, approximately 2,850 Marine Corps reserve Marines will mobilize/demobilize in support of three rotations in FY14. Marines deploying with 4th Marine Division (MARDIV), 4th Marine Logistics Group (MLG), 4th Marine Air Wing (MAW), and Marine Forces Reserve (MarForRes) command element units will require to be outfitted with Store Account Code (SAC) 1 items, Individual Combat Clothing and Equipment (ICCE). MarForRes will need to replenish and replace essential equipment. By maintaining these items at the Critical Asset Rapid Distribution Facility (CARDF), MarForRes is able to issue ICCE/ SAC1 equipment within deadlines by shipping the equipment to these deploying units. Individual equipment includes magazine pouches, grenade pouches, gloves, sleeping systems, canteens, and other individually issued gear. Built into this funding estimate is 10% replacement/replenishment of certain pieces of gear that have been known to be lost/destroyed during a deployment.

**2. Cost Breakdown Structure (CBS) 3.0**

- a. OEF CBS 3.1 - Training

\$10,702	\$9,245	-\$4,622	\$4,623
----------	---------	----------	---------

**OEF Narrative Justification:** MarForRes will mobilize, train, and deploy units and personnel to support three OEF rotations in FY14. MarForRes will be required to conduct pre-mobilization training in order to ready specific units for activation and mobilization. Based on the Force Generation Model and force flow assumptions, approximately 2,850 Marines will deactivate and mobilize in FY14. These funds will pay for travel, bill of material costs, transportation of things, equipment maintenance, replenishment and replacement and special training contracts expressly used to support pre-mobilization training requirements.

- b. OEF CBS 3.3.2 - Supplies and Equipment

\$0	\$257	-\$257	\$0
-----	-------	--------	-----

**OEF Narrative Justification:** Funding provides for the Arctic Shelter System and Modular General Purpose Tent Systems which will replace current systems in support of reserve Marines deployed in support of OEF. This is a one-time FY13 purchase required to outfit reserve units with the latest Arctic Shelter and Tent Systems.

	<b>SAG Total</b>	<b>\$4,807</b>	<b>\$2,820</b>	<b>-\$1,410</b>	<b>\$1,410</b>

**Explanation of changes between FY 2013 and FY 2014:** The FY14 request provides resources for mobilizations of 2,850 reserve Marines, a reduction from the FY13 level of 4,100, in support of Operation Enduring Freedom (OEF).

A. Subactivity Group BSS1 Base Support

1. Cost Breakdown Structure (CBS) 2.0

- a. OEF CBS 2.4.1 - Yellow Ribbon

	FY2012 Actual	FY2013 Total	Delta	FY2014 Total
	\$4,807	\$2,820	-\$1,410	\$1,410

**OEFF Narrative Justification:** Yellow Ribbon Reintegration Program (YRRP) is mandated by section 582 of Public Law 120-181 (NDAA FY-08), and OSD Directive Type Memorandum (DTM) 08-029. It provides information and education to service and family members on the challenges presented by the mobilization and deployment cycle, and mitigating resources to meet those challenges. FY14 funding provides for YRRP event venues, consumable materials, and other support costs. Funding request supports more than 2,000 Selected Marine Corps Reserve, Individual Mobilization Augmentee, and Individual Ready Reserve Marines attending YRRP qualifying events.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																		
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																		
<b>Description:</b>		Description: The mission of the AH-1Z attack helicopter is to provide rotary wing close air support, anti-armor, armed escort, armed/visual reconnaissance, anti-helicopter and point air defense and fire support coordination during day/night conditions. The mission of the UH-1Y utility helicopter is to provide command and control and combat assault support during day/night and reduced weather conditions. The UH-1Y/AH-1Z procurement strategy is to convert 37 AH-1W helicopters into AH-1Zs, build 152 new AH-1Zs, remanufacture ten (10) H-1N helicopters into UH-1Ys, and build 150 new UH-1Y models. The UH-1Y and AH-1Z share an 85 percent common footprint, which include portions of maintenance planning, technical data, supply support, support equipment, facilities, and resources required at the intermediate and depot level maintenance activities for both structural and avionics items of repair.																
Major modifications include a new 4-bladed rotor system with semiautomatic blade fold of the new composite rotor blades, performance-matched transmissions, a new 4-bladed tail rotor and drive system, upgraded landing gear, and pylon structural modifications. Both aircraft will also incorporate common, modernized, and fully integrated cockpits/avionics that will reduce operator work load and improve situational awareness and safety. The UH-1Y/AH-1Z aircraft will have increased maneuverability, speed, and payload capability. Additionally, the AH-1Z will upgrade the current AH-1W Night Targeting System (NTS) Forward Looking Infrared (FLIR) system to a 3rd generation, staring, focal plane array FLIR that will significantly extend autonomous weapons engagement ranges.

\*Item Nomenclature represents Item Number, DODIC, and Item Name for the P40A and P5; Name for the P18 and P23; Modification Number and Modification Title for the P3A; Item Number and Item Name for the P10.

Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.

**Justification:**

Basis for FY 2014 Budget Request: Funds are requested in FY 2014 to procure 26 AH-1Z/UH-1Y helicopters.

FY 2010 was the first procurement year of the AH-1Z Build New aircraft, requiring additional manufacturing leadtime due to new cabin structure.

FY 2014 Airframe rate increases predominantly due to prime contractor compliance with Pension Protection Act and reduced projected business base.

All GFE electronics previously harvested from UH-1N and AH-1W aircraft at no-cost must be procured new, at cost, for all future lots beginning in FY 2013 Lot 10 due to unavailability of legacy aircraft. Budgeted values for lots procured through FY 2012 reflect a cost avoidance from harvested components. The specific GFE components no longer harvested include: CD-45/ALE-47(V) Chaff/Flare Programmer, ICS Boxes, MT-6711 TACAN Mount, RT-1798 TACAN Receiver, APR39 System, CP-1975/AAR-47(V)2 Central Processor, SU-211/AAR-47(V)2 Optical Sensor, AS-2728 Antennas AT-741B/A Antennas, EGIs, CV-20 Digital Converters. GFE Electronics increase in FY 2014 due to Mission Computer being provided GFE instead of CFE. GFE Electronics increase beginning in FY 2014 due to Mission Computer being provided as GFE; previously included in Airframe/CFE.

All new engines are factored into the budget formulation for FY 2014 through the FYDP. Refurbished H-60 engines are purchased as availability permits; however, the supply is nearly exhausted.

FY 2014 Armament and Other GFE changes due to net zero realignment of components between cost codes.

FY 2014 Support Cost increase due to deferred depot stand-up in compliance with Title 10 organic depot capability requirement. Depot stand-up was originally planned for FY 2012 prior to funding reduction for Support Cost.

FY 2014 Peculiar Training Equipment increase due to an added AH-1Z trainer.

**P-5 Remarks:**

**Footnotes:**

(1) FY 2014 Airframe rate increases largely due to prime contractor compliance with Pension Protection Act and reduced projected business base.

(2) All GFE electronics previously harvested from UH-1N and AH-1W aircraft at no-cost must be procured new, at cost, for all future lots beginning in FY 2013 Lot 10 due to unavailability of legacy aircraft. Budgeted values for lots procured through FY 2012 reflect a cost avoidance from harvested components. The specific GFE components no longer harvested include: CD-45/ALE-47(V) Chaff/Flare Programmer, ICS Boxes, MT-6711 TACAN Mount, RT-1798 TACAN Receiver, APR39 System, CP-1975/AAR-47(V)2 Central Processor, SU-211/AAR-47(V)2 Optical Sensor, AS-2728 Antennas AT-741B/A Antennas, EGIs, CV-20 Digital Converters. GFE Electronics increase in FY 2014 due to Mission Computer being provided GFE instead of CFE. GFE Electronics increase beginning in FY 2014 due to Mission Computer being provided as GFE; previously included in Airframe/CFE.

(3) All new engines are factored into the budget formulation for FY 2014 through the FYDP. Refurbished H-60 engines are purchased as availability permits; however, the supply is nearly exhausted. Increased engine unit cost between FY2011 and FY2012 due to FY2011 aircraft using refurbished engines and FY2012 using new engines.

(4) All Ancillary crew-served weapons previously harvested from UH-1Ns at no-cost must be procured new, at cost, for all future lots beginning in FY 2014 Lot 11 due to unavailability of legacy aircraft. Budgeted values for lots procured through FY 2013 reflect a cost avoidance from harvested components.

(5) FY 2014 Support Cost increase due to deferred depot stand-up in compliance with Title 10 organic depot capability requirement. Depot stand-up was originally planned for FY 2012 prior to funding reduction for Support Cost.

(6) FY 2014 Support Cost increase due to deferred depot stand-up in compliance with Title 10 organic depot capability requirement. Depot stand-up was originally planned for FY 2012 prior to funding reduction for Support Cost.

(7) FY 2014 Support Cost increase due to deferred depot stand-up in compliance with Title 10 organic depot capability requirement. Depot stand-up was originally planned for FY 2012 prior to funding reduction for Support Cost.

1	Bell Helicopter Textron, Inc (9) - Hurst, TX	24.00	26.00	32.00	12	2	24	26	12	2	24	26
2	General Electric, Co. - Lynn, MA	24.00	36.00	52.00	4	3	13	16	4	3	13	16

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

**Footnotes:**

(9) Production Rates reflected apply to the combined production of the UH-1Y and AH-1Z with the exception of the UH-1Y Max. Due to tooling limitations, UH-1Y Max is 19/year.

(12) FY 2009 UH-1Y Airframes were executed as option buys on the Lot 6 contract.

(13) FY 2010 UH-1Y Supp/OCO Airframe was awarded on the Lot 8 (FY 2011) contract.

<b>P-5 Remarks:</b>																			
<b>Footnotes:</b>																			
(14) 13a- FY 2014-2018 Airframe rate increases predominantly due to prime contractor compliance with Pension Protection Act and reduced projected business base. 13b- FY 2010 was the first procurement year of the AH-1Z Build New aircraft, requiring additional manufacturing leadtime due to new cabin structure.																			
(15) All GFE electronics previously harvested from UH-1N and AH-1W aircraft at no-cost must be procured new, at cost, for all future lots beginning in FY 2013 Lot 10 due to unavailability of legacy aircraft. Budgeted values for lots procured through FY 2012 reflect a cost avoidance from harvested components. The specific GFE components no longer harvested include: CD-45/ALE-47(V) Chaff/Flare Programmer, ICS Boxes, MT-6711 TACAN Mount, RT-1798 TACAN Receiver, APR39 System, CP-1975/AAR-47(V)2 Central Processor, SU-211/AAR-47(V)2 Optical Sensor, AS-2728 Antennas AT-741B/A Antennas, EGIs, CV-20 Digital Converters. GFE Electronics increase in FY 2014 due to Mission Computer being provided GFE instead of CFE. GFE Electronics increase beginning in FY 2014 due to Mission Computer being provided as GFE; previously included in Airframe/CFE.																			
(16) All new engines are factored into the budget formulation for FY 2014 through the FYDP. Refurbished H-60 engines are purchased as availability permits; however, the supply is nearly exhausted.																			
(17) FY 2014 Armament and Other GFE changes due to net zero realignment of components between cost codes.																			
(18) FY 2014 Armament and Other GFE changes due to net zero realignment of components between cost codes.																			
(19) FY 2014 Support Cost increase due to deferred depot stand-up in compliance with Title 10 organic depot capability requirement. Depot stand-up was originally planned for FY 2012 prior to funding reduction for Support Cost.																			
(20) FY 2014 Peculiar Training Equipment increase due to added AH-1Z Trainer.																			
(21) FY 2014 Support Cost increase due to deferred depot stand-up in compliance with Title 10 organic depot capability requirement. Depot stand-up was originally planned for FY 2012 prior to funding reduction for Support Cost.																			
(22) FY 2014 Support Cost increase due to deferred depot stand-up in compliance with Title 10 organic depot capability requirement. Depot stand-up was originally planned for FY 2012 prior to funding reduction for Support Cost.

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

**Footnotes:**

(23) Production Rates reflected apply to the combined production of the UH-1Y and AH-1Z with the exception of the UH-1Y Max. Due to tooling limitations, UH-1Y Max is 19/year.

(29) FY 2009 AH-1Z OCO Airframes were awarded on the Lot 7 (FY 2010) contract.

(30) FY 2010 was the first procurement year of the AH-1Z Build New aircraft, requiring additional manufacturing leadtime due to new cabin structure.

(31) FY 2010 OCO AH-1Z Airframes executed as option buy on the Lot 7 contract, FY 2010 Supp Airframe awarded on the Lot 8 (FY 2011) contract.

(32) AH-1Z Remanufacture and AH-1Z Build New contracted under separate CLINs. Each CLIN has a separate 12-month delivery schedule.

(33) AH-1Z Remanufacture and AH-1Z Build New contracted under separate CLINs. Each CLIN has a separate 12-month delivery schedule.

<sup>#</sup> FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012

<sup>##</sup> This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013

**Description:**

The MQ-8 Vertical Take-Off and Landing Tactical Unmanned Aerial Vehicle (VTUAV, popular name "Fire Scout") provides real-time and non-real-time Intelligence, Surveillance and Reconnaissance (ISR) data to tactical users without the use of manned aircraft or reliance on limited joint theater or national assets. The baseline MQ-8 can accomplish missions including over-the-horizon tactical reconnaissance, classification, targeting and laser designation and battle management (including voice relay). The MQ-8 launches and recovers vertically, and can operate from air capable ships, as well as area land bases. Interoperability is achieved through the use of the Tactical Control System (TCS) software in the Ground Control Station (GCS) and through the use of the Tactical Common Data Link (TCDL). The data from the MQ-8 will be provided through standard DoD Command, Control, Communications, Computers and Intelligence Surveillance, and Reconnaissance system architectures and protocols.

The MQ-8 system is comprised of air vehicles, electro-optical/infra-red/laser designator-range finder, Automated Identification System payloads, GCS (with TCS and TCDL integrated for interoperability), a UAV Common Automatic Recovery System (UCARS) for automatic take-off and landings, and associated spares and support equipment. The MQ-8 system will support Surface Warfare, Mine Countermeasures Warfare, and Anti-Submarine Warfare mission modules while operating onboard Littoral Combat Ship (LCS). The MQ-8 is currently deployed on FFG ships and may be deployed on alternate class of ships to support the Special Operations Forces (SOF) mission. In support of the SOF mission, aircraft were moved forward in the budget starting in FY 2012 and additional ship control stations will be procured for outfitting of the FFG/DDG and alternate class of ships such as the Joint High Speed Vessel. MQ-8 will perform land-based operations in support of the ISR Task Force and Army units. A limited number of land-based ground control stations support shore based operations, such as predeployment or acceptance functional check flights. These land based ground control stations will also support depot level maintenance/post-maintenance activities. Mission training devices will be procured for predeployment and proficiency training, additional material will be procured for this effort. Non-Recurring efforts to include Diminishing Manufacturing Sources and Material Shortages (DMSMS), evaluation and studies on aircraft and GCS obsolescence and replacement, and Engineering Change Proposals (ECPs) focused on performance enhancements identified in the Quick Reaction Assessment (QRA). In addition, specialty payloads and communications equipment will be procured in support of SOF ISR, ISR Task Force, shipboard requirements. Weapons Stores Management Systems are included in the aircraft cost starting in FY 2013 that support on-going RDCs.

There will be 34 MQ-8C Endurance Upgrade aircraft procured between FY12-FY18 to support an AFRICOM JEONS RDC. The 1 OCO aircraft replaces an aircraft lost during contingency operations in Afghanistan. The increase over PB13 results from the Navy canceled Medium Range Maritime UAS program prior to Milestone A and the need to sustain the SOF 3 orbit requirement. Initial spares and repairs are needed to support the RDC operational tempo of 27,000 flight hours per year. All aircraft procured in FY12-FY18 are MQ-8C. The MQ-8 Endurance Upgrade capability will start transitioning to a Navy program of record in FY14 to support Littoral Combat Ship requirements. The Navy is evaluating the VTUAV procurement quantity requirement in light of the Endurance Upgrade capabilities and will lay in the updated procurement profile during future budgets.

\*Item Nomenclature represents Item Number, DODIC, and Item Name for the P40A and P5; Name for the P18 and P23; Modification Number and Modification Title for the P3A; Item Number and Item Name for the P10.

Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.

**Justification:**

FY 2014 fully funds 1 MQ-8C aircraft, ship ancillary equipment, training equipment, and associated support. Aircraft configuration includes the Stores Management System, Automated Identification System, and Full Motion Video broadcast system. FY 2014 OCO fully funds the addition of 1 MQ-8C aircraft to the production lot.

**P-5 Remarks:**

FY12-FY18 aircraft production is MQ-8C Endurance Upgrade airframes. FY12-14 includes additional ship control stations and installations to outfit FFG, DDG, and/or other alternate ship classes to support the SOF mission. Ancillary Equipment includes GCS, UCARs, Grid, special payloads, and shipboard TCDL systems; quantity and cost vary by shipboard/SOF need date and requirement. NRE supports expected obsolescence issues and estimated cost to correct. FY15-FY18 Airframe/CFE costs include Radar and increased contractor labor due to variations in air vehicle quantity. Peculiar training equipment in FY15 supports throughput requirements to train air vehicle and mission payload operators and provides maintenance training equipment. The Navy is evaluating the possibility of breaking out the Bell 407 commercial airframe as GFE in future procurements.

The FY14 OCO Airframe/CFE unit cost differs from the Baseline Airframe/CFE unit cost because the OCO procurement pays for aircraft material and touch labor associated with adding 1 aircraft to the production lot. Overarching contractor Systems Engineering and Program Management (SEPM) costs associated with the FY 2014 production lot are allocated to the Baseline aircraft procurement.

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

**Footnotes:**

(2) The OCO aircraft delivers 3 months after the Baseline aircraft delivery.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
<b>DESCRIPTION:</b>												
This line item funds modifications to T/AV-8B aircraft. The AV-8B is a single engine, single crew member aircraft capable of vertical/short take-off and landing operations. The AV-8B meets the Marine Corps requirements for a light attack aircraft to provide responsive offensive air power that can operate from ships and austere forward bases in direct support of ground forces. The overall goal of the modifications budgeted in FY 2014 is to continue incorporation of Obsolescence Replacement/Readiness Management Plan systems; electrical and structural changes; upgrade air-to-air weapon system employment and integration components; inventory sustainment and upgrade efforts to offset obsolescence and attrition; incorporation of Litening Pod upgrades; and incorporation of AV-8B F402-RR-408 engine safety and operational changes. The FY12 Overseas Contingency Operations (OCO) funding continues Expeditionary Litening Pod procurements. The FY13 OCO funding completes G4 Expeditionary Litening Pod procurements and begins Expeditionary Litening Pod upgrades and software/firmware validation. The FY14 OCO request continues Expeditionary Litening Pod upgrades and software/firmware validation. This request also procures the Airborne Variable Message Format Terminal and completes the associated Engineering Change Proposals and logistics elements.												
The AV-8B active inventory (February 2013) consists of 4 major configurations:												
16 Two-Seat T/AV-8B Aircraft												
1 Day Attack Aircraft												
1 Day Attack Upgrade Aircraft												
34 Night Attack Aircraft												
82 RADAR Remanufacture Aircraft												
Retrofit quantities of each Engineering Change Proposal (ECP) vary by aircraft configuration type & inventory when the change was introduced into production. Retrofit quantities of each ECP also vary depending on whether the ECP applies to the airframe or an individual Weapons Replaceable Assembly.												
NOTE:

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> <b>DESCRIPTION/JUSTIFICATION:</b> The system will integrate and procure an external targeting pod that includes an infrared and low-light television targeting device capable of detecting, classifying, auto-tracking, and designating air-to-surface targets. The system will support first-pass autonomous delivery of conventional, precision guided and accurate munitions to include Laser Maverick, Guided Bomb Unit (GBU)-12, GBU-16, and Joint Direct Attack Munitions. The system will provide targeting capabilities for the AV-8B Fleet of Night Attack and Radar aircraft through the end of its service life. Since inception of the LITENING program, various upgrades have been achieved, such as the introduction of the LITENING II Targeting Pod which gave the AV-8B (Night and Radar) the capability to perform precision targeting; and the integration of LITENING capability on the AV-8B Station 4/Centerline to support the movement of the LITENING targeting pod to the AV-8B centerline station allowing both carriage of both left and right hand configured pods, which increased AV-8B ordnance capacity by 200%. Reduced sensor masking and elimination of asymmetry problems associated with targeting pod carriage on a wing station will yield better aircraft handling, increased bring-back capability, and significantly increased combat effectiveness in support of Overseas Contingency Operations (OCO). In 2008, the AV-8B Program Office was designated as the single management authority in order to procure, integrate, and manage the LITENING Pod program on all United States Marine Corps (USMC) (AV-8B/F/A-18/EA-6B) platforms in order to maintain commonality within the USMC Tactical Air (TACAIR) for LITENING capabilities. Under this structure, the G4 LITENING pod is being procured and integrated on the AV-8B, F/A-18, and EA-6B platforms via aircraft Operational Flight Programs (OFPs), to include AV-8B H6.1, F/A-18 23X, 25X, and EA-6B Block 6. This funding also procures further G4 Pods and associated Datalink IIs toward the USMC required quantity of 239. The FY12 OCO funding continues LITENING G4/Datalink II procurements as well as completes the Common OFP, and procures associated support equipment and logistics data. The G4 upgrade vastly improves combat capabilities through increased coverage, expanded Improvised Explosive Devise detection capability, and expanding range of video downlink to support ground units equipped with Remote Operated Video Enhanced Receiver (ROVER) and Video Scout ground stations. Theater Joint Tactical Air Requests are specifically requesting LITENING Datalink capabilities for Intelligence, Surveillance, and Reconnaissance. The upgrade doubles the Forward Looking Infrared resolution, and adds Laser Target Image Processing for enhanced detection and targeting capability; increasing the survivability and effectiveness of ground forces. This funding will ensure completion of that required upgrades for all three USMC TACAIR Expeditionary platforms that are currently supporting Operation Enduring Freedom and OCO combat operations, and all Commandant of the Marine Corps directed pre-deployment training requirements. FY13 OCO in the amount of \$42.2M completes the procurement of LITENING G4 Pods, begins upgrading Block 1 to G4 configured pods, and will fund required LITENING Pod software upgrade validation and integration. FY14 OCO in the amount of \$45.5M will continue upgrading Block 1 to G4 configured Pods, and will continue to fund required LITENING Pod software upgrade validation and integration.

<b>Exhibit P-3A, Individual Modification:</b> PB Amended 2014 Navy		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1506N: Aircraft Procurement, Navy / BA 05: Modification of Aircraft / BSA 1: Modification Of Aircraft	<b>P-1 Line Item Nomenclature:</b> 0514 - AV-8 Series	<b>Modification Nomenclature (Modification Number - Modification Title):</b> 1 - AV-8B LITENING POD (OSIP 023-00)
<b>Models of Systems Affected:</b> AV-8B Night Attack & Radar/Reman	<b>Type Modification:</b> Upgrade	<b>Related RDT&amp;E PEs:</b>
FY14 OCO: Current MAGTF future force laydown plans shows ACE MAGTF elements will not change in OEF through FY14. A MAGTF ACE will remain deployed in OEF in order to support Special Operating Forces beyond FY14 (current plans through FY16). The upgrade to the G4 Pod incorporates enhanced resolution that is operationally required for direct support of combat operations and improved collateral damage estimates. The enhanced resolution expedites target handoff, target positive identification and ultimately reduces fratricide. A priced contract vehicle will be available in 1Q FY14, enabling the Contractor to deliver within FY14. Funds are also critical within FY14 for non-recurring engineering efforts to perform regression test of updated G4 firmware on the AV-8B, F/A-18, and EA-6B platforms to maintain commonality within USMC TACAIR and with the USAF for LITENING capabilities. These firmware updates increase reliability of the pod and enable more time on wing to support OEF missions. Firmware will be tested and fielded within FY14, providing benefit to the USMC platforms as they support OEF.		
<b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b> The LITENING Targeting Pod is a non-developmental item and has been in full production for several years. It was a winner of a targeting Forward Looking Infrared competition for the Air Force Reserve and the Air National Guard and put in service on their F-16s 2nd Qtr FY00. The design, integration, and testing of the Targeting Pod for the AV-8B was done on the Radar and/or Night Attack during 3rd Qtr FY00. The integration utilized existing aircraft software, a weapons station adapter, and Targeting Pod interface software. Additional full LITENING integration to utilize targeting information from the LITENING Pod to create aircraft targeting solutions was introduced under the H2.0 OFP. Video Datalink with the ability to transmit LITENING Pod video (to ROVER III ground stations utilized by Forward Air Controllers) was introduced as ROVER upgrades. The ability to carry the LITENING Pod on AV-8B wing stations 2, 5, and 6 and multi-target cueing was introduced in the H4.0 OFP, and carriage was expanded to the AV-8B centerline station 4 in the H5.0 OFP. OCO funding continues procurement of G4 LITENING Pod and associated Datalink II for USMC expeditionary platforms (AV-8B, F/A-18, and EA-6B) and also funds Litenig Pod OFPs development and integration on all USMC LITENING Pod capable platforms, as well as associated training equipment. This integration of the Common LITENING Pod OFP will be achieved via aircraft platform software Common Operational Flight Programs (OFPs). FY12 Overseas Contingency Operations (OCO) funding continues G4 procurement and procures LITENING Pod peculiar support equipment to enable the loading of Pods onto deployed aircraft, as well as will complete fielding of the Common LITENING Pod OFP. Complete the G4 LITENING Pod procurement, will begin the upgrade of Block 1 configured LITENING Pods to G4 configuration, and will validate required LITENING Pod software/firmware upgrades. FY14 requested OCO will continue the Block 1 to G4 configuration upgrade, and will continue to validate required LITENING Pod software/firmware upgrades.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> <b>DESCRIPTION/JUSTIFICATION:</b> The AV-8B is a single engine aircraft with unique capabilities. The Vertical/Short Take-off Landing environment is very unforgiving and allows no tolerance for engine problems. In the past, the Pegasus F402 has suffered from a sub-optimal safety and reliability record. The Engine Life Management Program is a comprehensive program to increase safety of flight and operational readiness of the AV-8B F402-RR-408 Engine. Funding provided is to incorporate Engineering Change Proposals (ECP) to increase safety of flight and operational readiness of the F-402-RR-408 Engine.												
<b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b> The Engine Life Management Program was developed in October 2000. Operational, Safety and Improvement Program 02-04 supports the Harrier AV-8B Engine Life Management Program (ELMP) through Aircraft Procurement, Navy funding. Power Plant changes are required throughout the aircraft service life as the aircraft ages and operationally revealed deficiencies are discovered, researched, and solutions engineered. The Component Improvement Program, which is Research Development Test & Evaluation funded, provides for the development and demonstration of the engineered solutions to these deficiencies and Power Plant changes are initiated through the ECP process. The power plant program procures the necessary kits, installation, non-recurring engineering, peculiar support equipment, and technical data. The kits provided are for engine and propulsion related hardware to support the AV-8B F402-RR-408 engine such as Nozzle Guide Vanes, Pilot Lever Angle Units, Fuel Control Units, Generator Turbine Starters and accessory components, rotors and vanes for compressor sections, power turbines, combustion sections, exhaust ducts, engine monitor systems, and blade and vane coatings and foils to improve Foreign Object Damage tolerance. The purpose of the program is to increase safety of flight and operational readiness of the AV-8B F402-RR-408 Engine. The ELMP is comprised of several Engineering Project Description (EPD) investigations and Engine Endurance Tests. The EPD investigations and Endurance Tests provide data points for existing Fleet problems and predict future engineering issues of the F402-RR-408 propulsion system. ECPs resulting from Engineering Investigations and Endurance Test results will be researched. Their development will be formalized under the development program and incorporated into the F402-RR-408 via OSIP 02-04. Integrated Logistics Support funds logistics support efforts in coordination with the AV-8B international partners.												
Current Active Modifications: ECP - 3629 Revised Oil Breather Vent Pipe

<p><sup>#</sup> FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012</p> <p><sup>##</sup> This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013</p>												
<p><b>Description:</b></p> <p><b>DESCRIPTION/JUSTIFICATION:</b> ALE-47 is a form-fit enhanced functionality countermeasures dispenser system replacement for the obsolete ALE-39. The ALE-47 installs more reliable digital sequencers and dispenser magazines to improve aircraft readiness. The Warfare Management Computer (WMC) software will be modified to allow full ALE-47 functionality. FY09 &amp; FY12 Overseas Contingency Operations funds are provided for the procurement and installation of 125 ALE-47 wiring kits. These kits will provide the deployed fleet with increased readiness, reducing the risk associated with the limited electronic warfare capabilities that the current ALE-39 configuration provides. This effort provides for the update of the WMC Software and procurement of additional hardware to bring the present day system up to full ALE-47 functionality.</p> <p><b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b> Improves aircraft readiness by replacing failure prone analog sequencers and providing expanded countermeasures capability. Positions the AV-8B for future integration of advanced countermeasures expendables and programs.</p>

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
DESCRIPTION/JUSTIFICATION: Obsolescence Replacement provides for maintaining the readiness of the AV-8B weapons system until its projected end of service, which is now 2030 or until replaced by short take-off and vertical landing operations F-35B. This requires the airframe and integrated systems to exceed planned service life will require both systems modification and obsolescence solutions. Funds will be utilized to manage, process and incorporate Engineering Change Proposals (ECPs) and implement changes to sustain and improve AV-8B weapons system readiness including safety, mission availability, structural integrity, air-to-air weapon system employment, and component (avionics/systems) reliability, maintainability, and obsolescence conditions as they arise. This program may be required to provide emergent, timely remedial action for any aircraft system, component or structure. Due to Fleet aircraft Primary Aircraft Authorized inventory shortfalls, all depot level modification installations must be planned and programmed concurrent with Integrated Maintenance Plan scheduled depot overhaul events to minimize aircraft out-of-service periods, unless safety or aircraft availability require stand alone installations. FY14 Overseas Contingency Operations (OCO) request in the amount of \$12.150M will procure Airborne Variable Message Format (VMF) Terminal and associated ECPs, trainer updates, and logistic data.												
FY14 OCO: Current MAGTF future force laydown plans shows ACE MAGTF elements will not change in OEF through FY14. A MAGTF ACE will remain deployed in OEF in order to support Special Operating Forces beyond FY14 (current plans through FY16). The upgrade to Digital Close Air Support capability, using the AVT, is operationally required for use in theater in direct support of combat operations, by replacing the currently used ATHS-II, which uses the obsolete Marine Tactical Standard (MTS) protocol. Use of the Variable Message Format (VMF) protocol that will be enabled by the AVT will provide the AV-8B with a digitally interoperable solution for communication with the MAGTF, DOD and Joint Forces in OEF. As the AV-8B must currently rely on voice communication with other aircraft and ground units not utilizing MTS, VMF use as a replacement for MTS will reduce risk of fratricide and provide certainty of target selection. Utilization of the Variable Message Format (VMF) protocol via the AVT will enable the platform to execute digital close air support mission tasking in support of the AV-8B primary mission of Close Air Support.												
DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: Non-recurring engineering and integrated logistic support (ILS) work continues for ECPs, procurements and installations for new and ongoing obsolescence and readiness requirements. Key efforts include Center Tank, Frame 11, Frame 29, Frame 41, and Frame 43 modifications and Advanced Memory Unit, data/ILS updates for ECPs, to include Frame 12, Support equipment procurements unique to the use of

<b>Footnotes:</b>		
(7) ECP-CP-042 replaced by ECP-PMA257-2011-001 to procure a more simplified kit.		
(8) ECP-CP-042 replaced by ECP-PMA257-2011-001 to procure a more simplified kit. FY 2014-2013 Diff %-- 1.1.5) ECP-PMA257-2011-0001 Center Tank Structural Modification kit unit cost exceeded inflation rate by 4.88% due to a lower actual kit quantity requirement for FY14 than FY13. The lower FY14 quantity, based on scheduled AV-8B aircraft requiring the modification being less than FY13, results in setup cost for the Depot to manufacture the kit to be spread over fewer units. In addition, material costs and the Depot labor rates increased in FY14.		
(9) FY 2014-2013 Diff %-- 1.1.11) ECP-PMA257-2008-0005 Frame 41 Tail Plane Guide exceeded inflation rate by 3.02% due to a lower actual kit quantity requirement for FY14 than FY13. The lower FY14 quantity, based on scheduled AV-8B aircraft requiring the modification being less than FY13, results in setup cost for the Depot to manufacture the kit to be spread over fewer units. In addition, material costs and the Depot labor rates increased in FY14.		
(10) FY 2014-2013 Diff %-- 1.1.12) ECP PMA257-2008-0004 Frame 43 Bushings exceeded inflation rate by 2.84% due to a lower actual kit quantity requirement for FY14 than FY13. The lower FY14 quantity, based on scheduled AV-8B aircraft requiring the modification being less than FY13, results in set up cost for the Depot to manufacture the kit to be spread over fewer units. In addition, material costs and the Depot labor rates increased in FY14.		
(11) FY 2014-2013 Diff %-- 1.1.19) ECP-PMA257-2010-0002 Frame 29 Structure Modification exceed inflation rate by 3.12% due to a lower actual kit quantity requirement for FY14 than FY13. The lower FY14 quantity, based on scheduled AV-8B aircraft requiring the modification being less than FY13, results in set up cost for the Depot to manufacture the kit to be spread over fewer units. In addition, material costs and the Depot labor rates increased in FY14.		
(12) Increase in installation kits non-recurring 1.2.1) is due to emergent safety, obsolescence and aging aircraft requirements (Fatigue Tracking Program, Bullet Fairing Replacement, Advanced Memory Unit (AMU) relocation, Environmental Control System Cold Air Unit, Dual Temp Switch and Canopy Latch.		
(13) Quantities purchased for Single Card Programmer will not match number of aircraft due to outfitting each Warfare Management Computer with this upgrade, vice upgrading the airframe.

<p><sup>#</sup> FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012</p> <p><sup>##</sup> This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013</p>												
<p><b>Description:</b></p> <p><b>DESCRIPTION/JUSTIFICATION:</b> AV-8B inventory is insufficient to maintain Primary Aircraft Authorized (PAA), provide for an effective Integrated Maintenance Plan allow for crash damage repair and attrition, and accomplish timely reliability and capability upgrades through transition to F-35B. This funding restored obsolete configured AV-8B Harrier aircraft to fleet representative configuration through modifications, primarily, integrated by the prime contractor to compensate for attrition and the resultant PAA shortfall. Individual aircraft kits vary based on utilization and configuration at the time the aircraft was taken out of service. Rolls-Royce Pegasus-408B engines were provided from current fleet inventory. Modification engineering integration and incorporation of components and systems were performed by the contractor, augmented by government field activity Government Furnished Equipment component baselining and Ready For Issue certifications as required. Overseas Contingency Operations (OCO) supplemental funding was provided to accelerate upgrade of the first attrition recovery aircraft, a Day Attack configured aircraft, into a Night capable asset. Failure to address inventory shortfalls will progressively aggravate the effect of PAA deficiencies on mission availability and combat relevance to OCO, as well as operational safety. While this is not a total aircraft inventory solution, the additional aircraft help sustain AV-8B operational aircraft in squadrons supporting OCO.</p> <p><b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b> Aircraft complete - final data deliveries in progress.</p>

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																			
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																			
<b>Description:</b>																			
This line item funds modifications to all models of the F/A-18 aircraft. The F/A-18 Naval Strike Fighter is a twin-engine, mid-wing, multi-mission tactical aircraft. The F/A-18 is employed in both Navy and Marine Corps squadrons. Commencing with the FY 1988 procurement, both the single seat and two-seat F/A-18's include a night attack capability. The F/A-18 can be missionized through selected use of external equipment to accomplish specific fighter or attack missions. This commonality provides the Operational Commander more flexibility in employing his tactical aircraft in a dynamic scenario. The primary design mission for the F/A-18 is a strike fighter which includes the traditional fighter applications, such as fighter escort and fleet air defense, combined with the attack applications, such as interdiction and close air support. Since fighter capabilities are available in either mission, a robust self-defense capability is retained.

\*Item Nomenclature represents Item Number, DODIC, and Item Name for the P40A and P5; Name for the P18 and P23; Modification Number and Modification Title for the P3A; Item Number and Item Name for the P10.

Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.

**Justification:**

The overall goal of the modifications budgeted in FY 2014 is to implement commonality/capability and structural safety and reliability improvements.

FY12 funding includes Operational Contingency Operations (OCO) for the following efforts: \$10.3M for Advanced Targeting Forward Looking Infrared (ATFLIR) Marker; \$33.8M for ATLFIR Engineering Change Proposal (ECP) 0035 Daylight Operations; \$2.9M for ATFLIR-Remotely Operated Video Enhancement Receiver (ROVER) Data Links. FY13 funding includes \$41.2M OCO for ATFLIR Marker. FY14 funding includes OCO for the following efforts: \$23.603M for ATFLIR Marker; \$11.7M for ATLFIR ECP 0035 Daylight Operations.

The increase from FY13 to FY14 reflects additional wholeness efforts including:

Multi-Functional Information Distribution System Joint Tactical Radio System [Operational Safety and Improvement Program(OSIP 12-99)]

Radar retrofit kits and ECPs 6038 and 6279 (OSIP 02-07)

EA-18G Hardback (OSIP 11-10)

Infrared Search and Track Block I (OSIP 04-14)

Automated Information Systems (OSIP 18-14)

EFG Service Life Extension Program (OSIP 20-14)

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
Corrections to discrepancies found during testing and evaluation can sometimes be incorporated into production aircraft, effective with the physical configuration audit which establishes the product baseline of the aircraft. However, when this cannot be done due to time constraints, retrofit of the changes into already delivered aircraft requires funding through the Aircraft Modification Program. Additionally, aircraft discrepancies can be discovered during sustainment activities, engineering analysis, standard depot level evaluations, and/or during normal fleet operations. Not addressing these structural and system discrepancies will create maintenance and supply problems, and adversely impact safety of flight and operational readiness. This Operational, Safety and Improvement Program provides resources to correct such issues via Engineering Change Proposal (ECP) and other applicable procurement efforts by modifying, improving, and restoring aircraft structural safety and reliability to designed/required life limits. Modifications for the F/A-18 A/B/C/D aircraft include: flight controls, forward fuselage, aft fuselage, wing, critical structures, electrical, hydraulic, environmental control systems (ECS), launch and recovery, fuel, mechanical, secondary power, and other sustainment activities. Corrections to the following items/conditions are required:

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> The Digital Communications System (DCS) consists of an upgraded AN/ARC-210 Receiver Transmitter (RT) (with embedded digital message transfer capability and embedded Communications Security) installed in the F/A-18 and integrated with the F/A-18 weapons system (mission computer, controls and displays, and communication subsystem). The DCS utilizes preformatted messages to communicate with standard United States Marine Corps (USMC), United States Navy, and United States Air Force digital communications devices to facilitate Close Air Support, Deep Air Strike, and Tactical Air Control missions. DCS reduces voice communications requirements which tend to be slow, inaccurate, and susceptible to Meaconing, Interference, Jamming, and Intrusion. DCS will enhance mission effectiveness by decreasing pilot workload which allows the pilot more time to counter increased threat capabilities (Operational Requirements Document# 486-88-98). This Operational Safety Improvement Program (OSIP) will also be used to address parts obsolescence issues and to perform non-recurring work associated with Network Centric operations and Interoperability requirements.												
<b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b> The AN/ARC-210 RT is being upgraded to a DCS RT. The Initial Engineering Developmental Model was delivered (using Research Development Test & Evaluation, Navy resources) in FY1998 as scheduled. The F/A-18C/D requirements will be satisfied by retrofitting DCS into Lot X through Lot XXI. Functionality was provided in the Operational Flight Program 15C fleet release in FY2000. Initial procurement of installation kits was awarded May 1999. F/A-18C/D Lots X and XI require an Amplifier Control Intercommunication (ACI) and DCS radio. Additional ACI requirements for increased install provisions are currently funded under OSIP 12-99.

<p># FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012</p> <p>## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013</p>												
<p><b>Description:</b>            Incorporation of structural enhancements and changes is required to attain F/A-18 service life and maintain sufficient aircraft inventory to meet fleet operational requirements through FY 2023. Structural enhancements and changes include resolution of discrepancies identified as a result of Structural Test-16 and in-service experience. These enhancements and changes include: modifications to allow the entire airframe to extend flight hours; modifications to ensure structures currently limited to 78% of design life can achieve 100% life; modifications to ensure landing gear, catapult and attachment components can extend total landings. The unacceptable alternative to retrofitting would be the failure to reach full fatigue life for these aircraft and to not correct the structural defects discovered on fatigue test articles. In many cases, the mission capability of the aircraft would be adversely affected in addition to its reduced service life. As a result, aircraft may be prematurely removed from useful service. Center Barrel Replacement Plus (CBR+) is applicable to F/A-18A/B/C/Ds. Engineering Change Proposal (ECP) 904 Part 1 is the basic center barrel kit. ECP 904 Part 2 is required to extend Wing Root Fatigue Life Expended (FLE) and is not required for all aircraft. ECP 904 Part 3 is required to extend catapult and traps and does not have to be installed concurrently with Part 1 and 2. Part 4 is to extend flight hours associated with flight control surfaces, wings, vertical tails and the forward/aft fuselage and does not have to be installed concurrently with Part 1, 2, or 3.</p> <p><b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b>            Currently all Lot VI through XVII aircraft have 78% life limits without the Structural Life Management Plan modifications to bring them to 100% airframe life. McDonnell Douglas Corporation and Northrop Grumman Corporation developed ECP536 retrofit repair to modify these aircraft so they could restore the airframe to full life. ECP 536 was approved and Validation was completed May 2001. The Fleet Readiness Center North Island developed ECP 904NI (CBR+) which was approved on 27 April 2000, ECP 904NI supersedes ECP 536. Validation started October 2000 and was completed in August 2001. Verification started August 2001 and was completed June 2002. ECP 536 moved from Operational, Safety and Improvement Program (OSIP) 11-99 to OSIP 11-84 in FY2002.</p> <p>Prior to FY14, the OSIP reflected four generic ECPs for SLEP efforts. Beginning in FY14, the budget reflects the more specific SLEP ECPs that were identified during non-recurring engineering efforts.</p>

<b>Installation:</b> F/A-18 Aircraft Structural Life Management Plan (SLMP) (OSIP 11-99) CBR+				<b>Method of Implementation:</b> Not Installed - Prior Year Installation costs								<b>Installation Quantity:</b> 126															
<b>Footnotes:</b>																											
(12) A) Kit pricing is quantity sensitive. FMS procurements in some years affect unit price. B) Kit installs are delayed due to procurement of Canadian and Australian kits. In addition, prior year procurements were planned based on ability to install 40 kits per year. Actual capacity to install is only 26 kits per year. C) FY12 ECP 904 Pt 1 cost includes funding for loose parts, resulting in an increased unit price. Amounts in FY13 and later do not include loose parts and therefore have a lower unit price.																											
(13) A) Kit pricing is quantity sensitive. FMS procurements in some years affect unit price. B) Kit installs are delayed due to procurement of Canadian and Australian kits. In addition, prior year procurements were planned based on ability to install 40 kits per year. Actual capacity to install is only 26 kits per year.																											
(14) Kit pricing is quantity sensitive. FMS procurements in some years affect unit price.																											
(15) SLEP Non-Recurring Engineering (NRE) efforts with Boeing (\$30M) were delayed from FY12 to FY13, resulting in decreased NRE costs in FY12 and increased costs in FY13. Funding increases in FY14 due to ramp up of SLEP efforts.																											
(16) Fuel Cell Refurb and RIM B-kits are installed in conjunction with CBR installs, but have different leadtimes. Therefore, they do not have an associated install cost.																											
(17) Nacelle RIM B-kits are installed in conjunction with CBR installs, but have different leadtimes. Therefore, they do not have an associated install cost. Total quantity increased by 18 to reflect correct requirements.

<b>Exhibit P-3A, Individual Modification:</b> PB Amended 2014 Navy		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1506N: Aircraft Procurement, Navy / BA 05: Modification of Aircraft / BSA 1: Modification Of Aircraft	<b>P-1 Line Item Nomenclature:</b> 0525 - F-18 Series	<b>Modification Nomenclature (Modification Number - Modification Title):</b> 3 - F/A-18 Aircraft Structural Life Management Plan (SLMP) (OSIP 11-99) CBR+
<b>Models of Systems Affected:</b> F/A-18 A/B/C/D	<b>Type Modification:</b> SAFETY / LIFE EXTENSION	<b>Related RDT&amp;E PEs:</b>
(18) Prior year install cost includes \$10.357M for Parts 2 and 3 in prior years. Quantity of 126 installs are complete and no schedule is required.		
(19) Install Equipment N/R represents Production Line Shutdown Costs of three separate events during the FYDP. Costs in FY12/13 represent AFC-316 new Nacelle Production Line Shut Down at the vendor. Costs in FY13-15 represent CBR Line Shutdown at the vendor. Costs in FY16-19 represent Center Barrel Production Line Shutdown at two depots (FRCSE & FRCSW).		
(20) The increase in ILS from FY12 to FY13 is due to increased workload required to develop and process the additional ECPs and Airframe Changes resulting from the SLEP engineering.		
(21) The increase in Other Support from FY12 to FY13 is due to increased workload required to develop and process the additional ECPs and Airframe Changes resulting from the SLEP engineering.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
The system is a Tactical Data Link Communications to provide a secure communications and navigation system. Multifunctional Information Distribution System Low Volume Terminal (MIDS-LVT) is a Pre-planned Product Improvement to the Joint Tactical Information System (JTIDS) and is being installed in United States Navy/United States Marine Corps F/A-18C/D/E/F and EA-18G aircraft, since the aircraft cannot accommodate the larger JTIDS Class 2 Terminals due to size and weight constraints. MIDS LVT is an International Cooperative Program development with France, Germany, Italy, and Spain. A Program Memorandum of Understanding and Supplement 1 are in effect. The system is interoperable with JTIDS Class 2 Terminals utilized by North Atlantic Treaty Organization allies as well as the other Services. F/A-18 will be interoperable with all Link 16 equipped platforms in United States and Allied Nations. This Operational, Safety and Improvement Program (OSIP) will also be used to perform efforts to address parts obsolescence and to examine potential MIDS-related capability upgrades associated with Network Centric Operations and interoperability requirements. Operational Requirements Document (ORD) # 337-06-93. The MIDS Joint Tactical Radio System (JTRS) is an Engineering Change Proposal (ECP) upgrade to the MIDS-LVT developed under (ORD#642-61-04). MIDS JTRS offers the functionality of Link 16, Tactical Air Navigation, and digital voice in a Software-Controlled Architecture JTRS-compliant format, and provides the option of future expandability to host the Advanced Tactical Data Link. MIDS JTRS will be retrofit in Lots 26-31 F/A-18E/F and EA-18G aircraft. This OSIP also includes funding for the purchase of MIDS upgrade kits for Cryptographic Modernization and Frequency Remapping capability.												
<b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b>												
This OSIP was originally planned for incorporation of MIDS into F/A-18C/D (Lots 12-21) and F/A-18E/F (Lots 22-31), but is now applicable to all F/A-18C/D/E/F and EA-18G aircraft. A MIDS installation kit Critical Design Review was held at Boeing in September 1996. MIDS Terminal initial Engineering and Manufacturing Development (EMD) delivery for F/A-18 occurred in February 1998. Installation into the first three (3) EMD aircraft began in March 1998 and ended in September 1998. In May 1999, Boeing was awarded the ECP contracts required to provision the F/A-18E/F for the MIDS LVT while still in production. These provisions include: an Interference Blanking Unit; an Amplifier Control Intercommunication Unit; a MIDS Compatible Combined Interrogator / Transponder upgrade; and a MIDS Compatible Transponder upgrade. This list of equipment was also required to be retrofit into F/A-18C/D and is included as the "Avionics Upgrade" in the table below. These provisions are required by other F/A-18 programs and can be installed independently of MIDS LVT. Operational Evaluation was completed in June 2003, with a recommendation of operationally effective and operationally not suitable. A Verification Correction of Deficiencies (VCD) was completed on 15 August 2003. The VCD report delivered on 4 September 2003 recommended full fleet release. Full Rate Production approval was granted on 25 September 2003. Integration testing of MIDS JTRS capabilities began in FY2007. FY2007 was a MIDS JTRS Low Rate Initial Production buy per the approved acquisition strategy and will enable Initial Operational Capability in FY2009.

<p># FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012</p> <p>## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013</p>												
<p><b>Description:</b>  This Operational Safety Improvement Program (OSIP) upgrades United States Marine Corps (USMC) F/A-18A/B/C/Ds avionics including both hardware and software capabilities. This requirement is critical to meet the Marine Corps requirements for the Tactical Aircraft Integration Plan. The Avionics Upgrade includes avionics subsystems already incorporated or being incorporated into USMC and/or Foreign Military Sales F/A-18 aircraft. The Basic Engineering Change Proposal (ECP) 583 incorporates the following subsystems: AN/ARC-210(V) with HAVEQUICK II and SINCGARS; Digital Communication Systems Receiver/Transmitter (RT-1824(C)); Combined Interrogator/Transponder AN/APX-111 (V); Night Vision Display System; Mission Computer CP-2360 (XN-8); Radar (AN/APG-73); Stores Management Set (SMS, AN/AYQ-9); Advanced Medium-Range Air-to-Air Missile Capability (radar modification, launchers, weapons pylons and control stick); Digital Display Indicator Upgrade; Mission Data Loader (AN/ASQ-215); Targeting Forward-Looking Infrared (FLIR) provisions (AAS-38B). ECP 583R1 adds a digital wingtip modification, allowing use of the AIM-9X air-to-air missile. ECP 583R2 adds the following capabilities to A+ aircraft: Multi-functional Information Distribution System (MIDS LVT); Color Displays; Joint Helmet Mounted Cueing System (JHMCS); ALE-47; Tactical Aircraft Moving Map Capability (TAMMAC); and Auxiliary Memory Unit (AMU). ECP 583 R3 was cancelled. ECP583R4 will incorporate the United States Navy Aircrew Common Ejection Seat (NACES) for utilization with the JHMCS system on A+ aircraft. ECP583R6 will incorporate the NACES for utilization with the JHMCS system on C+ aircraft. ECP 1153 adds the following capabilities to C+ aircraft: MIDS LVT; Color Displays; JHMCS; ALE-47; TAMMAC; and AMU. ECP 583-TBD for B+ will incorporate the NACES, MIDS LVT; Color Displays; JHMCS; ALE-47; TAMMAC; and AMU on the B+ aircraft. This OSIP also provided limited integration of the LITENING Enhanced Range FLIR on 24 USMC F/A-18Ds. This allowed the USMC to utilize existing LITENING pods, currently in the AV-8B inventory, on USMC F/A-18Ds to provide the Air Ground Task Force capability and flexibility in the execution of operations in the combat spectrum.</p>												
<p><b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b>  The number of aircraft to be retrofitted in the program of record has changed; the USMC has deferred retrofitting some early lot F/A-18C/Ds vice only F/A-18A/Bs due to greater remaining life on those aircraft. ECP 583 was approved 25 March 1999. ECP 583R1 was approved in August 2001. ECP 583R2 was approved in 2004. ECP 583R3 was cancelled and ECP 583R4 was approved in 2006. A New Start notification was sent to Congress in FY2003 to initiate the LITENING integration and procurement of the FY2004 Installation Kits. Due to lower than expected pricing, 24 aircraft are able to be modified with the originally identified funding.</p>

(33) Costs for obsolescence kits vary because obsolescence issues are not an ongoing effort for a single item and are not subject to inflation driven increases. The requirement for obsolescence kits was determined by evaluating historic LoTB costs for analogous systems. These costs were projected to support future obsolescence issues in the affected components.		
(34) Installation of 2 validation/verification kits procured in prior years delayed from FY13 to FY14 due to longer than anticipated NRE and resultant delay in delivery of kits. Quantity of 4 C+ kits installed in FY15 and 14 C+ kits installed in FY16, with no procurement cost are a result of HQMC decision to harvest parts from retiring A++ aircraft. The procurement of harvested kits changed from FY12 to FY15 and FY16 to align with the retirement of the A++ aircraft.		
(35) Prior year install cost includes \$22.51M for quantity of 61 ECP 583 and Litening kits procured in prior years. These installs are complete and no schedule is required.		
(36) Install Equipment N/R increases in FY14 for flight test of the C+ configuration.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> The Joint Helmet-Mounted Cueing System (JHMCS) is a multi-service system that provides United States Air Force (USAF), United States Navy (USN), and United States Marine Corps aircraft the capability to cue and verify on-board weapons and weapons sensors to a specific azimuth/elevation determined by the pilot's head position and to confirm sensor line-of-sight. The intent is to reduce tasks required of aircrews, verify seeker/sensor position, and enhance weapons employment opportunities. The JHMCS incorporates an ejection-compatible helmet-mounted display system, with capability to cue and verify cueing of high off-axis sensors and weapons, on USAF and USN single seat and two seat fighter aircraft. JHMCS Night Vision Cueing and Display will provide the ability to cue and display weapons and sensors at night through the initial fielding of a narrow field of view Night Vision Device that integrates the JHMCS cueing and display symbology. The capability will be upgraded to a wide field of view system when available.												
"Installation Equipment" quantities have been planned by the Joint Program Office to maximize the quantity fielded across all service platforms as expeditiously as possible, while balancing contractor production capacity. In order to meet this objective, in some cases the "Installation Equipment" is procured a year prior to the "Installation Kit" procurement. However, due to a year difference in production lead-times both the "Installation Kits" and "Installation Equipment" will be delivered at essentially the same time. This allows for the quickest introduction to the fleet of this critical war fighting capability and balances the needs of all services with production capacity. SJU-17B Navy Aircrew Common Ejection Seat (NACES) and Tactical Aircraft Moving Map Capability Digital Map Computer are required for retrofit installation of JHMCS.												
<b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b> F/A-18E/F JHMCS completed Developmental Testing in August 2001. Operational Evaluation was completed in April 2002. F/A-18E/F retrofit kit procurement began in FY 2004 and installed in FY 2005 starting with Lot 23 aircraft. JHMCS procurement for F/A-18C/D was approved at a milestone decision in January 2004. AFT Seat development completed in FY 2006. The first F/A-18C/D JHMCS retrofit kits were procured in FY 2005 and installed in FY 2006.

<b>Footnotes:</b> (37) FY2012 contract and delivery dates have been updated to reflect actuals. FY2012 contract award was delayed due to a re-proposal of the effort. The production lead time has been adjusted to 14 months to account for realistic delivery schedules based on contractor historical performance.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> The Advanced Targeting Forward Looking Infrared (ATFLIR) (Operational Requirements Document# 700-88-06) will provide the F/A-18A+/C/D/E/F with an enhanced capability to detect, track and attack air and ground targets. Laser guided and global positioning system standoff weapon systems with greater standoff ranges require improved performance over second generation targeting pods. The ATFLIR currently utilizes the third generation of Foward-Looking Infrared technology and provides a quantum leap in operational effectiveness to fully support the standoff precision strike mission. This Operational, Safety and Improvement Program is used to perform efforts to address parts obsolescence and to examine and incorporate potential ATFLIR-related capability upgrades associated with Network Centric Operations, interoperability requirements, upgraded targeting capability requirements, and Full Rate Production Operational Test Program Sets (Engineering Change Proposal 6375).												
FY14 OCO request funds the following efforts:  ATFLIR Infrared (IR) Marker Retrofit: Funds complete IR Marker retrofit of all ATFLIR Pods as required by the ATFLIR ORD and support CAS operations, including kit procurement and support. Adding this capability to all ATFLIR pods will support the requirement to support Forward Air Controllers identifying targets during night CAS, ISR, and force protection missions. ATFLIR IR Marker FY14 OCO request was submitted with an expected delivery of the kits and performance of the associated support to occur in FY14.  ATFLIR ECP-0035 Daylight Operations: Funds purchase of kits as well as incorporation, integration, and installation of Sensor-Enhancement ECP in all deployable ATFLIR pods and associated ILS support. During daytime operations, F/A-18 crews frequently use the EO Sensor in lieu of the FLIR to take advantage of the greater magnification and resolution of the EO Sensor in sunlight condition. ATFLIR ECP-0035 FY14 OCO request was submitted with an expected delivery of the kits and performance of the associated support to occur in FY14.  DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: ATFLIR development began in FY1997. Operational Evaluation (OPEVAL) testing was completed in June 2003 and the OPEVAL report was issued 4 September 2003. Full Rate Production approval was given in October 2003. Navigational forward looking Infra-Red capability was removed from the system in December 2003.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> The AIM-9X Joint Operation Document (JORD), Operational Requirements Document (ORD) # USN-CAF (USAF 001-93)-IIA, requires a highly expanded off-boresight targeting capability that presently cannot be achieved with the current AIM-9M analog interface signal set. The JORD also requires the missile to communicate with the aircraft through a digital interface. The F/A-18 currently has a tailored MIL-STD-1760 interface on stations 2 through 8. Modifications to the outer wing panel and LAU-7 launcher can provide full digital capability to the wingtip and can support full AIM-9X capability. The current launcher support equipment (AWM-100) must also be modified to support/test this digital wingtip capability.												
<b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b> The AIM-9X missile is currently in Follow-On Test and Evaluation.

<b>Description:</b> F/A-18C/D/E/F and EA-18G training funds will be used to meet current Fleet Readiness Squadron (FRS) and Fleet Training and Readiness requirements by purchasing new components and software to prevent obsolescence of the various trainers as F/A-18C/D/E/F and EA-18G aircraft are modified for capability enhancement and service life extension. Funding will also be used to update courseware and Computer Based Training as new capabilities are introduced to the fleet, and will enable the fleet to institute an aggressive post-FRS training environment to bring F/A-18C/D/E/F and EA-18G trainers into High Level Architecture/Navy Aviation Simulator Master Plan compliance and incorporate the Next Generation Threat System.												
<b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b> Trainers were procured with APN-1 funding and are modified with ECPs as required.

<b>Footnotes:</b> (40) OSIP increases each year in FY14, FY15 and FY16 due to the roll-in of regular upgrades to E/F and G courseware and training devices, to include aircrew (Tactical Operational Flight Trainers and Low Cost Trainers) and maintenance (Integrated Visual Environments and Maintenance Trainer Sets). These upgrades were previously funded with APN-1. Aircrew devices are upgraded on a yearly cycle and the maintenance devices on a two to three year cycle. FY14 increase is due to Electro-Optical/Infra-Red (EO/IR) system upgrades to E/F and G aircrew trainers. FY15 increase is due to integration of H12 phase 2 into the E/F and G aircrew trainers. FY16 increase is due to integration of H14 phase 1 into the E/F and G aircrew trainers and H12 into the E/F and G maintenance trainers.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
Corrections to discrepancies discovered during testing and development can sometimes be incorporated into production aircraft, effective with the physical configuration audit which establishes the product baseline of the aircraft. However, when this cannot be done due to time constraints, retrofit of the changes into already delivered aircraft requires funding through the Aircraft Modification Program. Corrections to the following items/conditions are required to meet Commander, Naval Air Force directed transitions as promulgated in the current Master Aviation Plan. This Operational, Safety and Improvement Program (OSIP) will correct operational discrepancies discovered during testing and evaluations, sustainment activities, engineering analysis, standard depot level evaluations, and during normal fleet operations. This OSIP provides resources to correct such issues via Engineering Change Proposal (ECP) and other applicable procurement efforts by modifying, improving, and restoring aircraft structural safety and reliability to designed-required life limits. Modifications are to include: Air Frame Structural Upgrades, such as Flight Controls Surfaces, Forward Fuselage, AFT Fuselage, Inner/Outer Wing, Critical Structures; and Aircraft Subsystem Upgrades, such as Electrical, Hydraulic, Environmental Control Systems (ECS), Fuel, Launch & Recovery, Critical Structures, Mechanical, Secondary Power, Fire Suppression Systems and other sustainment activities.												
Current Active Modifications:												
ECP-6106R1 / Exhaust Overtemp Final Fix/Bard Stacks												
ECP-6104 / MLG Door Bushing Migration												
ECP-6194 / MLG Trunnion Bearing Loose Retention Nut												
ECP-6193R1/R2 / (LEX ) Lwr Surface/Structure Cracks Redesign Y286 / Y294												
ECP-6188 / Y436 Inlet Former												
ECP-6203 / FT50 Keel Beam Lower Cap												
ECP-XX12 / FT50 Teardown Bulkhead Cracking												
ECP-6326 / FT50 Fuel Barrier Web at Y510

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
This Operational, Safety and Improvement Program (OSIP) is required to retrofit upgrades and improvements to various avionics systems that have been or are being incorporated into fleet aircraft, to provide updates to Automated Maintenance Environment (AME) and the Integrated Electronic Technical Manuals (IETMs), and to provide Mission Planning updates. Specifically for Mission Planning, the F/A-18 Unique Planning Component (UPC) for the Joint Mission Planning system (JMPS) must implement frequent software changes in conjunction with production aircraft modifications. The JMPS UPC changes required in conjunction with System Configuration Set (SCS) changes must include software regression tests to ensure proper operation and integration with other aircraft systems in JMPS components, and the core mission planning equipment and software procured elsewhere within the Navy budget. Upgrades include a retrofit of Solid State Recorder (SSR) into F/A-18A+/C/D and F/A-18 E/F aircraft and United States Marine Corps F/A-18A+/C/D aircraft. This OSIP also includes a requirement to retrofit the Deployable Flight Incident Recorder System (DIFRS) to address the issue of the current COSPAS Search and Rescue Satellite Aided Tracking satellite becoming obsolete. Upgrades also include a retrofit installation of the Type 2 Advanced Mission Computer into Lots 23-24 as a replacement for the AYK-14 computer. Upgrade includes a retrofit installation of the Type 4 Advanced Mission Computer into Block 2 E/F and EA-18G aircraft. Upgrade also includes retrofit installation of various display hardware improvements to enable increased aircrew situational awareness. To support updates to Operational Flight Program (OFP) for on-going aircraft modernization and modification efforts necessitate periodic software releases. The procurement of SCS is not a stand alone cost but integration for the overall improvement to the end item to allow the integration of new capabilities and or performances to be complete. The SCS builds anticipated are used to support retrofit hardware configuration changes and the accompanying software change and associated testing driven by the Aircraft Procurement, Navy-5 funded OSIP's. SCS builds will include 20X, 21X, 23X, 25X, 27X, 29X, 31X, H4, H5, H6, H7, H8, H9, H10, H12, H14 and H16. SCS build integration will comprise of OFP, Support Equipment Test Program Sets Updates, Precision Approach and Landing System assessment, Operational analysis and functional retrofit implementation of aircrew and maintenance training systems, OFP Memory Loader Verifier Set Personal Computer Memory Card International Association cards, update SCS to allow single point loading of software from the Advanced Memory Unit or Digital Memory Device and associated software licenses and data rights and publication updates. This OSIP will implement the upgraded architecture in support of Navy Aviation 2030 Plan as well as the Department of Defense mandated Selective Availability Anti-Spoofing Module security architecture. The Miniaturized Airborne Global Positioning System (GPS) Receiver retrofit implements an advanced GPS that increases platform navigation accuracy and smart weapon targeting solutions. This OSIP will implement Civilian Instrument Landing System (ILS) to provide onboard precision approach capability in the event of adverse weather conditions.

A Mission Planning system supporting F/A-18A-F is currently fielded. A J MPS was developed and fielded for F/A-18A-F in the first quarter of Fiscal Year 2005 with 19C and H2E+. The SSR retrofit was approved as a Congressional new start in August 2004. Validation/Verification for the SSR was completed in the second and third quarter fiscal year March 2005, with retrofit on two squadrons completed in the fourth quarter of fiscal year 2005. SCSs are scheduled for release to the fleet on an annual basis or as needed to fulfill emerging fleet requirements.		
Automated Information Systems efforts are realigned into OSIP 18-14 beginning in FY14. These efforts include AME, Weaponeering, Interim flight clearances, Naval Aviation Technical Information Product and Naval Air Training and Operating Procedures Standardization, and IETMs.

<b>Footnotes:</b>		
(44) Type 2 AMC A-kits were procured under BLI 05770 and are being installed under BLI 05250. Type 2 AMC B-kits have been removed from aircraft and replaced with Type 3 AMC kits, so there is no cost for B-kits. The B-kits are O-level installs so there is no associated install cost or schedule for B-kits.		
(45) Increase in unit price is due to reduced quantities.		
(46) Increase in unit price is due to reduced quantities.		
(47) Funding increases in FY14 and FY15 due to ramp up of 27X effort.		
(48) Funding increases in FY14 due to ramp up of MP/UPC software efforts.		
(49) Funding increases in FY14 and FY15 due to ramp up of 27X effort.		
(50) ILS increases in FY13 due to start up of Civilian ILS program.		
(51) Other Support increases in FY13 due to start up of Civilian ILS program.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
The LITENING AT Pod (AN-AAQ-28) possesses qualities essential to the Marine Corps' F/A-18A+/D's in the execution of operations within the combat spectrum providing the Marine Air Ground Task Force with crucial capabilities in the expeditionary land based environment. LITENING AT Pod capabilities include: Laser /Infrared (IR) marker functionality, image data link functionality, cooperative Laser guided illumination, Laser Spot Tracker, and limited weapons damage assessment capability. Northrop Grumman's Litening pod has demonstrated improved reliability and maintainability during combat operation.												
Congressional New Start Notification letters dated 24 July 2003 identified the need for limited integration of the LITENING Enhanced Range Forward Looking IR on the F/A-18D. This interim enhanced capability provided United States Marine Corps Air Ground Task Forces greater precision close-in-air support capability and overall mission flexibility in the execution of theater operations in the combat environment. For F/A-18A+, another set of Congressional New Start Notification letters was submitted 29 October 2004 for integration of the Litening Forward Looking IR pods on land-based F/A-18A-Cs to increase their effectiveness in the Global War on Terrorism.												
<b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b>												
LITENING is a Commercial off the Shelf Non-Developmental Item. This Operational, Safety and Improvement Program funds hardware for modifications to include Personal Computer Memory Card International Association cards, station four adapters, wiring kits, loaders, etc. as well as desired software enhancements to take advantage of new capabilities.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
The F/A-18E/F and EA-18G program has developed and integrated the AN/APG-79 Active Electronically Scanned Array (AESA) Radio Detection and Ranging (RADAR) system for installation in Lot 26 and subsequent Block II, Super Hornet and Growler aircraft. The integration of the AN/APG-79 AESA RADAR system into the F/A-18E /F and EA18G greatly improves the weapon system's threat detection range, high resolution Synthetic Aperture RADAR ground mapping and targeting capability, aircraft survivability and situational awareness. This Operational, Safety and Improvement Program (OSIP) also includes non-recurring for reliability and operational safety improvements into the AN/APG-65 and AN/APG-73 Radars. The APG-79 is a significantly more reliable radar system. Various Engineering Change Proposals (ECPs) are currently in work to correct deficiencies, improve overall system reliability and make safety improvements. Some ECP's identified are ECP-6038 which incorporates APG-79 into Lot 26 and subsequent aircraft, ECP-6279 AN/APG-79 (AESA) Radar Producibility Modification, ECP-6297 Radar Bias Converter (RBC) Start-Up Circuit Correction, and ECP-6298 RE102 Electromagnetic Interference Correction.												
<b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b>												
Forward fit of the AN/APG-79 AESA RADAR system began with 8 units in Lot 27, 12 units in Lot 28 and 22 units in Lot 29. Beginning in Lot 30, all F/A-18 E/F and EA-18G aircraft will be forward fit with the AN/APG-79 AESA RADAR. This OSIP includes the retrofit of the AN/APG-79 AESA system into 133 Lot 26-29 F/A-18E/F aircraft previously outfitted with AN/APG-73. Obsolescence is included for the AN/APG-79 AESA to address non-recurring activities driven by vanishing suppliers and limited military demand for commercial parts/components. The procurement of kits commenced in FY 2008 with the first installation occurring in FY 2009. The installation of kits will be accomplished by a Fleet Support Team traveling to two locations [Naval Air Station (NAS) Oceana and NAS Lemoore] and executing the retrofit or aircraft by squadron. This OSIP also includes funds to support ECP 508 that converts some AN/APG-65 radars to AN/APG-73 and non-recurring for reliability and operational safety improvements / obsolescence into the AN/APG-65 and AN/APG-73-RADAR's. FY 2009 Congressional funding (\$7.6M) received for Expand 4/5 funding for software integration and to procure 3 Hardware Kits. FY 2009 OCO funding (\$10M) received for Target Location Error Integration / Electronic Protection Integration.												
Increase in FY14 funding reflects additional funding for wholeness efforts including: procurements of Radomes (ECP 6038), retrofit Radars (APG-79B), Modules (ECP 6279), and obsolescence efforts.

<b>Footnotes:</b>		
(55) Lower unit cost in FY12 due to leveraging large multiyear procurement (MYP). FY13 unit costs increase assuming little concurrency with MYP. FY14 unit costs increase further due to no concurrency with MYP.		
(56) RADARs are O-level installs and have no related install cost/schedule.		
(57) A) ECP 6279 installs are O-level installs and have no related install cost/schedule. B) Lower unit cost in FY13 due to some concurrency with MYP as well as higher quantity compared with FY12. Higher unit cost in FY14 due to no concurrency with MYP.		
(58) High initial unit cost in FY15 due to lower quantity.		
(59) Costs for obsolescence kits vary because obsolescence issues are not an ongoing effort for a single item and are not subject to inflation driven increases. The requirement for obsolescence kits was determined by evaluating historic LoTB costs for analogous systems. These costs were projected to support future obsolescence issues in the affected components. Obsolescence efforts have been underfunded for the past few years, causing the program to reallocate current-year budget to cover emergent obsolescence mitigation efforts per Resource Sponsor direction. The increase from FY13 to FY14 is necessary to recover from several years of shortfalls.		
(60) Costs for obsolescence kits vary because obsolescence issues are not an ongoing effort for a single item and are not subject to inflation driven increases. The requirement for obsolescence kits was determined by evaluating historic LoTB costs for analogous systems. These costs were projected to support future obsolescence issues in the affected components. Obsolescence efforts have been

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> Purchase additional ALR-67(V)3 Radar Warning Receiver (RWR) systems to be used to retrofit F/A-18C/D platforms. These systems will replace existing ALR-67(V)2 systems. This will significantly increase aircrew survivability in the legacy F/A-18. The repetitive obsolescence issues of the V(2) system is a consistent issue in the F/A-18 community. The RWR ALR-67(V)3 is the threat recognition providing Situational Awareness for the aircrew and is vital to their own safety as well as providing the opportunity to support the ground troops. This retrofit reduces the risk of lost aircraft and aircrew in a hostile environment, improves close air support, and reduces the risk of Blue on Blue Fratricide. The Operational, Safety and Improvement Program also performs required safety of flight modifications, address obsolescence issues, sustainment, and incorporates system improvements for all Electronic Warfare unique requirements. ALQ-214(V)4/5 kit procurement is required for integration testing to determine ALR-67(V)3 and ALQ-214(V)5 compatibility.												
DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: V(3) Development and Integration efforts started in FY10 and delivery and installs of A-kits to begin in FY14. Initial Operational Capability is planned for second quarter of FY14.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
Operational, Safety and Improvement Program (OSIP) 001-10 will implement a common configuration and capability across all F/A-18E/F Block 2 aircraft. Improving platform performance in all mission areas including Surface Warfare (SuW), Air-to-Air, Strike, Suppression of Enemy Air Defenses (SEAD)/Defensive Electronic Counter Measurements (DECD) and interoperability which will result in a reduction of a number of aircraft and weapons to execute SuW and Strike missions in most stressing scenarios, decrease in time on target to execute SuW, SEAD/DECD missions in Major Combat Operations scenarios and will improve survivability due to decreased time on target.												
The F/A-18 program has developed and integrated multiple systems to be installed in Lot 26 and subsequent Block 2 aircraft. The integration of the systems: Distributed Targeting System (DTS), Digital Memory Unit, Advanced Navigation, Upgraded Solid State Recorder, Digital Cueing Systems and G4 Processor, and Interoperability modifications due to Multifunctional Information Distribution System Low Volume Terminal and Digital Communication System (DCS) radio Military-Standard will greatly improve the weapon systems threat capability. This OSIP will implement the required architecture in support of Navigation Plan 2030. The Accurate Navigation (ANAV) retrofit implements an advanced Inertial Navigation System/Global Positioning System that increases platform navigation accuracy and smart weapon targeting solutions.												
<b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b>												
Digital Memory Device (DMD), ANAV, and Digital Countermeasure Receiver (DCR) are fully developed and delivered with Lot 30 and above in FY 2008. Distributed Targeting System, PR09 funded issue, began Operational Testing in FY 2012 with Initial Operational Capability in FY 2013. Engineering Change Proposals (ECPs) included: ANAV xxx1, DMD: ECP xxx2, Distributed Targeting Processor/Mass Storage Unit (DTP/MSU): ECP 6253/6253R1, DCR: ECP xxx4, Upgraded Solid State Recorder (USSR): ECP 6318 and Interoperability: ECP: xxx7

<b>Footnotes:</b> (61) Quantity of 33 DTS kits procured in FY12 have a two year leadtime due to val/ver efforts. DTS kits procured after FY12 have a 6 month administrative leadtime and 6 month production leadtime. (62) Installation Kits N/R funding increase in FY15 reflects engineering efforts beginning for DMD replacement kits. (63) ANAV install kits (A-kits), previously identified as A2 and A3 kits, are now being incorporated into the install equipment (B-kit). As a result, the A2 and A3 install kit lines have been removed. (64) Increase in FY18 is due to NRE efforts for Distributed Targeting Processor-Network. (65) ILS funding increases in FY13 due to ramp up of ANAV, DMD and DTS efforts. (66) Other Support funding increases in FY13 due to ramp up of ANAV, DMD and DTS efforts. Other Support decreases in FY18 due to completion of ANAV and USSR efforts.

<p># FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012</p> <p>## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013</p>												
<p><b>Description:</b>  With EA-18G aircraft achieving Initial Operational Capability in FY2009, an Operational, Safety and Improvement Program (OSIP) to perform required safety of flight modifications, address obsolescence issues, and incorporate system improvements was established. Funds are required to retrofit Weapons Replaceable Assemblies and Shop Replaceable Assemblies (SRAs) and achieve Depot Standup SRA capability. Funding will support the retrofit of the ALQ-99 Tactical Jamming System. The Joint Tactical Terminal-Receiver (JTT-R) is being developed to replace the Multi-Mission Advanced Tactical Terminal (MATT) to address MATT obsolescence and capability deficiencies. OSIP funding will be used to retrofit the aircraft with JTT-R at the completion of the development program. Funding will also support maintenance of a common configuration and Airborne Electronic Attack I-level standup. This OSIP also supports the procurement and fielding of Operational Test Program Sets as support equipment in FY15 and FY16 for I-level maintenance stand up.</p> <p><b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b>  JTT-R Non-Recurring Engineering in FY08-13. Aircraft production A-kit buys in FY10-13 [58 aircraft (A/C)] with installs in FY11-14 (58 A/C) using Aircraft Procurement, Navy-1. Retrofit A-kit buys in FY14-16 (54 A/C) with installations in FY15-17. Retrofit B-kit procurements in FY13-FY17 with O-level installs beginning in FY15 in alignment with H-10 fleet release.</p> <p>Increase in FY14 funding is due to addition of EA-G Hardback procurement, as well as increased IBS Receiver Replacement (JTTR) procurement.</p>

<sup>#</sup> FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012

<sup>##</sup> This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013

**Description:**

This OSIP incorporates safety and life-limiting propulsion and power corrective actions to resolve safety and readiness concerns. Corrections to design deficiencies found during post production test and evaluation and discovered during fleet operations that have resulted in safety and reliability degradation must be corrected. The requirement to upgrade or modify the Engine, System Secondary Power System, Electrical System, and Fuel Systems is critical in maintaining sustainable fleet reliability, safety, and performance and is necessary to meet mission requirements. Modifications include Generator Convertor Units (GCUs), GCU Peculiar Support Equipment, Electrical Power and Secondary Power systems for service life extension.

**DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:**

Non-recurring Engineering (NRE) is being performed using Aircraft Procurement, Navy-1 funding, and will be complete in FY14. NRE for retrofits begins in FY13.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> The Infrared Search and Track (IRST) (Operational Requirements Document# 700-88-06) will provide the F/A-18E/F (Lot 26 and up) with an Alternative Fire Control System in a High Electronic Attack/Radar Denied Environment. IRST is an Evolutionary Program using a two Block approach. This Operational, Safety and Improvement Program is used to procure Block I IRST Systems [Low Rate Initial Production (LRIP) I, LRIP II and Full Rate Production (FRP)] as well as Block II Engineering Change Proposal (ECP), Modifications and Incorporation including Retrofit and Forward Fit. Block II Modifications include changes to Infrared Receiver (IRR) and Processor and any subsystem that support IRR and Processor.												
<b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b> IRST development began in FY2008. IRST Block I Milestone B occurred on 17 June 2011 and the Acquisition Decision Memorandum was signed 12 July 2011. Block II (ECP) Award is scheduled for 3rd Quarter FY 2014. Block I LRIP I Award is scheduled for 3rd Quarter FY 2014. Initial Operational Capability is scheduled for 4th Quarter FY 2016.

<b>Installation:</b> Infrared Search and Track (IRST) (04-14)		<b>Method of Implementation:</b> Organic - IRST B-kits (Block I)	<b>Installation Quantity:</b> 53				
<b>Installation:</b> Infrared Search and Track (IRST) (04-14)		<b>Method of Implementation:</b> Organic - IRST B-kits (Block II)	<b>Installation Quantity:</b> 117				
<b>Installation:</b> Infrared Search and Track (IRST) (04-14)		<b>Method of Implementation:</b> Organic - IRST B-Kits (Block I to Block II)	<b>Installation Quantity:</b> 53				
<b>Footnotes:</b>							
(69) IRST kits are O-level install items and have no related install cost/schedule.							
(70) Quantity of 53 "Block I to Block II" kits procured beginning in FY18 will convert Block I kits to Block II kits.							
(71) Installation Equipment N/R funding increases in FY15 due to ramp-up of IRST program.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> This Operational, Safety and Improvement Program (OSIP) will cover associated Automated Maintenance Environment (AME), software licenses, data rights, and technical publication updates including F/A-18 A-D, E/F and EA-18G Integrated Electronic Technical Manuals (IETMs). FA-18 and EA-18G Weapon Engineering, Interim flight clearances, Naval Aviation Technical Information Product (NATIP) and Naval Air Training and Operating Procedures Standardization (NATOPS) (WINN) permanent flight clearance products: This OSIP is required to provide updated/modified data for F/A-18 and EA-18G aircrew (user's manuals, pocket guides, safety-of-flight envelopes and tactical /non-tactical system employment envelopes) associated with approved aircraft engineering changes and other actions that update/enhance aircraft operational capabilities. WINN tactical employment data developed and distributed via NATIP are mandated by Office of the Chief of Naval Operations Instructions (OPNAVINST) 3510.15. WINN non-tactical employment data developed and distributed via NATOPS are mandated by OPNAVINST 3710. This OSIP will also provide continued Information Assurance (IA) compliance for F/A-18 A-F and EA-18G systems by updating certification and accreditation (C&A) documentation, Information Assurance Vulnerability Alerts implementation, and future IA mandates in order to maintain the Authority to Operate for all F/A-18 A-F and EA-18G systems that require C&A approval.												
<b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b> F/A-18A-D, E/F and G NATIP: Class and unclass product development expected to be complete by end FY14 (A-D & E/F) EA-18G end FY15/16, Updates to published class/unclass chapters are increasing as additional chapters are fielded. F/A-18 and EA-18G NATOPS: Development is complete and updates ongoing. The C&A status of AME Top Tier and F-18 AME (FAME) 1.0 is as follows: AME United States Navy Top Tier has been granted an Authority to Operate (ATO) until March 2015. FAME 1.0 United States Marine Corps has been granted an ATO until April 2013. FAME 1.0 United States Navy has been granted an ATO until May 2013.												
AIS efforts are realigned from OSIP 23-04 to OSIP 18-14 beginning in FY14.

<p># FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012</p> <p>## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013</p>												
<p><b>Description:</b>            Incorporation of structural and sub-systems enhancements and changes are required to extend the service life of the F/A-18E/F and EA-18G aircraft to achieve Chief of Naval Operations inventory requirements. Enhancements and changes include discrepancies identified as a result of Service Life Assessment Program (SLAP) analysis and in-service experience. These enhancements and changes include: modifications to allow the entire airframe and aircraft sub-systems to extend flight hours, and modifications to ensure landing gear, catapult and attachment components can extend total takeoffs and landings. The unacceptable alternative to retrofitting would be to not correct the structural defects discovered on fatigue test articles and to remove aircraft from service upon reaching their current service life limit.</p> <p><b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b>            Subsystem SLAP analysis delivers dispositions in FY13 and transitions to Service Life Extension Program (SLEP) in FY14. Subsystem SLEP will develop those component dispositions into engineering change proposals (ECPs) to extend the service life of the Super Hornet Subsystems. Non-Recurring Engineering (NRE) to develop ECPs to extend subsystems life will begin in FY14.</p> <p>Structures SLAP delivers the analysis to extend the life of the structures at various stages allowing the transition to SLEP to begin prior to SLAP completing. NRE to develop ECPs to extend mainly Block 1 Super Hornets will begin in FY16. NRE to develop ECPs to extend Block 2 Super Hornets begins in FY17.</p> <p>Kits are delivered in September and installs begin in October for all ECPs.</p>

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> This line item funds modifications to the EP-3E aircraft. The EP-3E is a land based, long range aircraft with electronic intercept devices for detection and tracking of enemy Radio Detection and Ranging and communications.												
In Operational, Safety and Improvement Program (OSIP) 11-01, the Spiral 1 kit improved operational capability and aircrew productivity by expanding the Electronic Support Measures frequency coverage, applying state-of-the-art signal exploitation/processing/display techniques, expanding Direction Finding frequency coverage, off-board classified communication, and expanding special signal processing capability. Spiral 2 kit improved information fusion/decision-making capabilities was deferred. Spiral 3 procurement provides Low Band Communication System Upgrades, Information Operations capability, Environmental Control System modifications, Quick Reaction Capabilities and the replacement of aging and obsolescence aircraft antenna arrays. OSIP 14-05 responds to the current, immediate demand for information operations capabilities on the EP-3E in Overseas Contingency Operations (OCO).												
Research and Development is funded with National Security Agency (NSA) Military Intelligence Program (MIP) funds. This OSIP provides the procurement tail for Research, Development, Test and Evaluation (RDT&E) funds from the Navy's Advanced Signal Recognition line (Program Element 0305206N). The NSA RDT&E line for the Navy Airborne Sensor System Improvements funds sensor improvements with application for the EP-3E. MIP RDT&E funds are responsible for the development and acquisition of EP-3E sensors, data links, data relays and ground stations to achieve and maintain interoperability with Defense-wide airborne reconnaissance assets. Active Primary Aircraft Authorization inventory is 12 with a Backup Aircraft Authorization inventory of 4 for a total of 16 aircraft. Funds budgeted in FY2012-FY2018 are to continue EP-3E Joint Airborne Signal Intelligence Architecture Modification Common Configuration Program. The EP-3E has an average age of 38.5 years. The EP-3E service life will be managed through Special Structural Inspection - Kits, Outer Wing Replacement and other aircraft sustainment activities in the P3 Series Modification program (Budget Line Item 0538, OSIP 05-05).

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
The EP-3E Joint Airborne Signal Intelligence Architecture Modification Common Configuration (JCC) Program is an upgrade to the capabilities of the Sensor System Improvement Program (SSIP) configuration of the EP-3E. This Operational, Safety and Improvement Program (OSIP) responds to Operational Requirements Document (ORD) #571-78-01 and the CAPSTONE ORD #CAF-002-88. JCC is designed as an evolutionary acquisition program consisting of spiral upgrades. JCC Spirals include an updated EP-3E infrastructure, improved auto-Electronic Support Measures (ESM) with the Story Finder system, incorporated Joint Signal Processor, incorporated SSIP corrections, incorporated low band capability which improves special collection capability, Information Operations and incorporated Quick Reaction Capabilities (QRC). Data Fusion capability is currently deferred.												
In OSIP 11-01, the Spiral 1 ForceNet kit improved operational capability and aircrew productivity by expanding the ESM frequency coverage, applying state-of-the-art signal exploitation/processing/display techniques, expanding Direction Finding frequency coverage, off-board classified communication, and expanding special signal processing capability. Spiral 3 procurement began in FY11 with Low Band Communication System Upgrades, IO capability, Environmental Control System modification, QRC and the replacement of aging and obsolescence aircraft antenna arrays. QRC funds address mission avionics system obsolescence and emerging requirements. This OSIP includes JCC Obsolescence funding to replace subsystem obsolescence to ensure EP-3E viability until aircraft recapitalization. JCC Obsolescence and ILS are aligned to meet Electronic Intelligence, Communications Intelligence, Communications, Mission Management and Special Signals obsolescence requirements in order to support EP mod transition to Multi-INT Family of Systems (FoS).												
<b>DEVELOPMENT STATUS / MAJOR DEVELOPMENT MILESTONES:</b>												
JCC Spiral 1 Low Rate Initial Production (LRIP) decision was approved as planned on 06 June 2005 and Full Rate Production decision and contract awarded 4th Quarter of FY06												
JCC Spiral 2 was deferred												
JCC Spiral 3 LRIP decision was approved on 25 February 2011

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
This program responds to the current, immediate demand for information operations capabilities on the EP-3E in the Overseas Contingency Operations (OCO) and has been funded via the Emergency Supplemental Appropriation for Defense.												
This EP-3E Information Operations program will procure the necessary modifications for EP-3E aircraft to selectively conduct offensive intelligence operations. This requirement was originally identified by Commander U.S. Fifth Fleet (US Navy) N3//11715332OCT02 for Operation Enduring Freedom. The requirement was further identified by Commander Naval Forces - Iraq (021101ZNOV04) and endorsed by United States Central Command (CCJ3-P//091619ZNOV4), United States Naval Forces, Central Command(CENTCOM)(111332ZNOV04) and Commander, U.S. Fleet Forces Command(122012ZNOV04).												
The FY2014 EP-3 Escort Production and Red Falcon efforts procure and rapidly integrate Escort production and Red Falcon systems required to conduct COCOM directly missions in support of OCOs. Specific operational details can be provided in a classified forum.												
<b>NOTES:</b>												
1) FY12 OCO CDL B Kits include 2 Val/Ver Kits												
2) 2 Val/Ver Kits are not included in CDL Installs												
3) FY14 Vortex Installs funded with FY13 OCO

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
Funding was added in FY09-FY10 to procure Office of the Secretary of Defense directed EP-3E capabilities to ensure mission relevance and capabilities recapitalization. Quick Reaction Capability funds address mission avionics system obsolescence and emerging requirements.												
<b>DEVELOPMENT STATUS / MAJOR DEVELOPMENT MILESTONES:</b>												
The EP-3E sustainment Engineer Change Order procurement began in FY09 and will ensure mission system viability until program recapitalization.												
<b>NOTES:</b>												
1) FY13 and Out has been incorporated into 11-01's Operational Safety Improvement Program												
2) Obsolescence quantities include various mission equipment quantities

## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																				
<b>Description:</b>																				
The Special Projects program modifies and/or replaces obsolete special mission equipment and integrates Quick Reaction Capability (QRC) on P-3 and P-8 aircraft. Procurements vary in each fiscal year and include common Navy systems for increased capability, reduced operator workload and common logistics, as well as procurement of special mission equipment as directed by the Chief of Naval Operations. Active Primary Aircraft Authorized inventory is 4 with additional 2 Backup Aircraft Authorization aircraft in the Special Mission inventory.

Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.

**Justification:**

FY2012 \$11.2M Overseas Contingency Operations (OCO) is for P496 (V4.0) Production systems and Traffic Collision Avoidance System Integration. FY2013 \$2.714M OCO Request is for Special Collection Equipment. FY2014 \$3.375M OCO Request is for P496 (V5.0) Production Systems, C2 Exploit, Analyze and Control and the Special Collection Equipment.

FY2014 commences integration of QRC capabilities on the P-8 aircraft. FY2014 reduction is due to higher navy priorities.

FY 2015 - FY 2018 increase is due to adjustments to sustain the Special Projects capabilities.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
This line item funds common Electronic Countermeasures equipment (B kits) for multiple aircraft. The overall goal of the modification budget is to provide a reprogrammable radar and missile warning system, provide attacking missile declaration and sector direction finding, laser detection, and self protection capability devices to applicable user aircraft.												
72-88 AAR-47: FY09 Overseas Contingency Operations (OCO) supplemental and FY10 OCO supplemental will fund procurement of 950 AAR-47 B(V)2 retrofit kits. FY-12 and FY14 OCO provides funding for a Class I Engineering Change Proposal (ECP) to provide Computer Processor upgrade, improvements to B(V)2 processing for improved performance in Probability of Detection and False Alarm Rate, and address obsolescence issues in the AAR-47.												
14-90 AN/APR-39(V)2: FY10 supplemental funding will complete the Class I ECP and cover deferred tasks, which includes (8) first-article shipsets for testing, APR-39 / AAR-47 software refinement, follow on test and evaluation to validate solutions and platform test and integration to support all current Radar Warning Receiver and Assault platforms using Aircraft Survivability Equipment.												
06-00 ALE-39 to 47 Retrofit: FY09/FY10 OCO funds were also provided to procure AN/ALE-47 breech plates for CH-46, MV-22 and F/A-18 C/D lots 18-21 to provide more reliable countermeasures dispensing and ensure accurate onboard inventory reporting. FY-10 OCO funding is provided for additional dispensers/pods to increase mission duration and survivability for CH-53D/E. The FY10 OCO funds will provide for the procurement of additional production CH-53 Dual Dispenser Pods and the Non-Recurring Engineering/installation to increase the expendables capacity from 120 to 240. FY10 OCO funding is also provided to procure new AN/ALE-47 Test Sets (ALM-290) for F/A-18C/D, MV-22, HH-60 and P-3 to replace original version ALM-286 Test Sets that cannot declare ALE-47 as full mission capable due to the limitations of older system design.												
07-03 IDECM: The Integrated Defensive Electronic Countermeasure (IDECM) Radio Frequency Countermeasure consists of an Onboard Electronic Countermeasure Set (ALQ-214), an Electronic Frequency Converter (EFC), an Improved Multi Platform Launch Controller and Fiber Optic Towed Decoy (FOTD) that improves the survivability of aircraft against modern Radio Frequency threats. This Operational, Safety and Improvement Program (OSIP) procures the ALQ-214 and the EFC.

<b>MDAP/MAIS Code(s):</b> 103,418,419																																						
05-08 DIRCM: This OSIP will provide currently available technology improvements to survivability to United States Marine Corps aircraft operating in support of Operation Iraqi Freedom and Operation Enduring Freedom. FY2009 through FY2011 OCO funding will be used to procure A-Kits and B-kits, along with program support. FY 2014 OCO supports procurement, upgrades, test and fielding of Department of Navy Large Aircraft Infrared Countermeasure/ATW systems.																																						
11-11 UC-35D ASE "A" kits is an Southwest Asia Marine Expeditionary Force Commanders lack light Operational Support Aircraft lift assets capable of operating in threat Surface To Air Missile environments of Southwest Asia (i.e. Iraq, Afghanistan).																																						
04-12 Common On-Board Jammer: IDECM Block 4 is an ECP to the ALQ-214 intended to render it suitable for operation on the F/A-18C/D aircraft, while retaining all IDECM suite functionality when installed on F/A-18E/F aircraft. The EFC enables dataflow via the fiber optic cable to the Fiber Optic Towed Decoy (FOTD) and is part of the IB-4 configuration when installed on the F/A-18E/F aircraft. This OSIP procures the ALQ-214 and the EFC.																																						
17-12 Correction of Discrepancies: This OSIP will provide the required correction to multiple sub components that are obsolete.																																						
06-14 Joint Allied Threat and Awareness System (JATAS/AN/AAR-59): JATAS provides missile, laser, and hostile fire warning capability that can improve aircrew situational awareness and cue a Directed Infrared Countermeasure (DIRCM) and/or flares to counter evolving infrared (IR) guided missile threats. It will be installed on the MV-22B (lead platform), AH-1Z, UH-1Y, and MH-60R/S aircraft. Funding for this OSIP will start in FY14.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
DESCRIPTION/JUSTIFICATION: The AN/AAR-47 warns of approaching missiles by detecting radiation associated with rocket motors and automatically initiates flare ejection. Detection algorithms are used to discriminate against non-approaching radiation sources. The AN/AAR-47 was a passive missile approach warning system consisting of four sensor assemblies housed in two or more sensor domes, a central processor unit and a control indicator. The AN/AAR-47 provides attacking missile declaration and sector direction finding as will be interfaced directly to the ALE-39/47 countermeasures dispenser. Without the AAR-47, helicopters and fixed wing aircraft have no capability to detect an infrared missile attack. Supplemental funds were received in FY 07 to provide AAR-47B(V)2 Probability of Detection Improvement Engineering Change Proposal (ECP) Retrofit Program. Current deployed system has performance limitations in certain Overseas Contingency Operations (OCO) operating environments; the ECP supports United States Marine Corps (USMC) Universal Urgent Need Statement (UUNS) #03606UC. FY 09 and FY10 OCO supplemental funded a Class I ECP and improved Missile Warning capabilities in support of UUNS #03606UC for United States Navy (USN)/USMC Assault Aircraft. Fielded Missile Warning System has performance limitations in certain OCO operational environments. USN/USMC assault aircraft will continue to be susceptible to the Man-portable Air Defense threat in certain operating environments.												
DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: Milestone II was passed in 1982. Operational Evaluation (on the CH-53E) was passed in October 1986. Milestone III was passed in May 1987 for full production with extension of application to all other platforms. Production of 709 systems and preparation of a Level III data package followed, with deliveries completed in early 1992. Under full and open competition, a contract for up to 1200 systems was awarded to Hercules (now Alliant) in December 1991. Actual orders were for Lockheed Martin in September 1995. Deliveries began in January 1997 and were completed in July 1999. There are two upgrade programs: The Computer Processor (CP) Microprocessor upgrade program FY97-FY99 replaced the 8086 Micro Processor (MP) board with an MP 80486 Board with new software to enhance threat declaration and to better control false alarms. The second Upgrade; AAR-47(V)2 Sensor upgrade, contained two phases; Phase one upgraded the Ultra Violet sensors with a solid state spectral filter assembly with embedded Laser warning capability. Phase two incorporated a Class I Sensor ECP (Dynamic Blanking) which upgraded the AAR-47(V)2 Sensors to the AAR-47A(V)2 sensor design. Due to the current operational environment a third Sensor Class I ECP is required which improves probability of detection in the current theaters of operation. The FY07 Supplemental funded the procurement of 5 First Article Test units for USMC/USN/United States Air Force Operational Assessment and the accelerated development of a Class I ECP for AAR-47B(V)2 for

multiple Type/Model/Series and delivery of 300 PDX upgrade kits consisting of four sensors and one CP unit. This is an O-level replacement with the existing sensors being sent to the contractor, upgraded and then sent back to the fleet. The AAR-47B(V)2 reached Initial Operational Capability status in October 2008. Congressional Add funds provided in FY08 funded the Operational Flight Software for the Hostile Fire Indication (HFI) Capability. FY08 supplemental funds are a payback for utilization of AAR-47 baseline budget for OCO requirements. FY09 and FY10 OCO supplemental funds procured 950 AAR-47 B(V)2 retrofit kits. Congressional Add funds provided in FY09 and FY10 funded the AAR47 Operator Interface and the continued HFI Capability effort. FY12 and FY14 OCO provides funding for a Class I ECP to provide CP upgrade, Smart dispense and improvements to B(V)2 processing for improved performance in Probability of Detection and False Alarm Rate, and address obsolescence issues in the AAR-47.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> DESCRIPTION / JUSTIFICATION: The AN/APR-39A/B/C/D(V)2 Radar Signal Detecting Set is designed for use on United States (US) Marine Corps, US Navy, US Air Force, and US Army Assault Support aircraft to provide onboard situational awareness and warning of radar threats. The AN/APR-39A/B/C/D(V)2 also provides control and display of the AAQ-24, AAR-59, and AAR-47 Missile Warning System and Chaff dispense commands to the ALE-47 Counter Measure Dispensing System. The APR-39A/B/C/D(V)2 consists of five antennas, one Cockpit Control unit, one Display Indicator, two, three, or four receivers, and one processor. FY10 Supplemental Funding supported a Class I Engineering Change Proposal (ECP) Computer Processor (CP) sustainment upgrade program. FY12 thru FY15 funding will support a Class I ECP, APR-39D(V)2, that corrects part I major deficiencies against the Radar Warning Receiver (RWR) noted in AH-1W, MV-22 and KC-130T Operational Evaluation (OpEval) reports. The current RWR provides inaccurate Direction Of Arrival information, time delayed detection and identification of threat emitters causing loss of situational awareness to combat aircrews. 12 (twelve) validation/verification systems will be procured to support platform integration and suitability testing on the MV-22B aircraft System Integration Lab and Verification of Correction of Deficiency Flights. Upgraded Kits will be procured in FY15.  DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: The AN/APR-39A/B(V)2 is in the Aircraft Procurement, Navy (APN)-1 Post Production and sustainment phase (MSIII3Q/96). The US Navy is the lead service of this joint service program. The US Army awarded the production contract 3Q/96, and continues to administer the contract. US Navy delivery of production systems commenced June 1999. Procurement of an /APR-39A/B(V)2 for the additional requiring platforms will be by extension of application with the required follow-on test and evaluation conducted on each platform. The AN/APR-39B(V)2 is glass cockpit compatible for H-1 upgrades. FY08 Overseas Contingency Operations (OCO) supplemental funded the development of the Computer Processor Unit (CPU) ECP upgrade B(V)X program. This included incorporation of the Army APR-39A(V)X CPU and Memory Circuit Card Assemblies. FY10 supplemental funding completed the class I ECP and cover deferred tasks, which includes (8) first-article ship sets for testing, APR-39 / AAR-47 software refinement, Follow On Test & Evaluation to validate solutions and platform test and integration to support all current RWR and Assault platforms using Assault Survivability Equipment. The MV-22, AH-1Z, UH-1Y, CH-53K and MH-60S platforms have planned APN-1 procurement of APR-39 systems in FY2010 and beyond. FY09 supplemental funded the combined Operator Interface effort with the AAR-47. FY10 OCO funded the Class I ECP CP upgrade to the APR-39C(V)2. FY12 - FY15 funds will fund the Class I ECP for the APR-39D(V)2 to correct part I major deficiencies noted during OpEval testing of the APR-39 system.)

Increase in D(V)2 ECP effort in FY13 is due to NRE costs of negotiated contract with OEM for correction of major deficiencies.  Increase in Other Support Costs in FY13, FY14, and FY15 is due to test of the D(V)2 ECP effort.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
DESCRIPTION/JUSTIFICATION: The replacement of the AN/ALE-39 Dispenser System with the AN/ALE-47 will correct serious safety problems and greatly improve aircraft survivability. As a joint program, Under Secretary of Defense (Acquisition Technology & Logistics) memo of November 1986 directed United States (U.S.) Navy and U.S. Army to participate in the U.S. Air Force (USAF) Engineering Manufacturing Development phase. Requirements were established by USAF Statement of Operational Requirements Document number 341.88-II-D of 8 July 92. Operational, Safety and Improvement Program 006-00 was initially established for the retrofit of multiple Type/Model/Series, but operational requirements in support of Overseas Contingency Operations (OCO) resulted in accelerated installs and additional aircraft being identified for retrofit incorporation with FY-04/05 OCO Supplemental funds. FY-07/08 OCO Supplemental funds added a PowerPC processor upgrade and additional dispenser pods for increased capacity and forward firing capability on assault platforms. FY-09 - 16 provides funding for retrofit installation of AN/ALE-47 on F/A-18/C/D aircraft lots 12-17. FY-09 OCO funds were also provided to procure AN/ALE-47 breech plates for CH-46, MV-22 and F/A-18 C/D lots 18-21 to provide more reliable countermeasures dispensing and ensure accurate onboard inventory reporting. FY-10 OCO funding was provided for additional dispensers/pods to increase mission duration and survivability for CH-53D/E, the procurement of additional production Dual Dispenser Pods and the Non-Recurring Engineering/ installation to increase the expendables capacity from 120 to 240.												
DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: The AN/ALE-47 system is in production and being installed in multiple U.S. Navy, U.S. Marine Corp and USAF aircraft. Milestone III decision awarded March 1993. Production system components are being procured under Air Force contract FA8540-06-D-0002 awarded November 2006. The urgent requirement contract for the dual dispenser pod prototype was awarded February 2009. The contract for the AH-1W dual dispenser pods was awarded February 2009. An Undefined Contract Action for CH-53D/E dual dispenser pod production was awarded July 2009, August 2009 and December 2009, with the definitization awarded June 2010. PowerPC Processor Upgrade contract was awarded March 2010. The F/A-18C/D retrofit kits were increased to accommodate production capability/aircraft availability.

<b>Exhibit P-3A, Individual Modification:</b> PB Amended 2014 Navy		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1506N: Aircraft Procurement, Navy / BA 05: Modification of Aircraft / BSA 1: Modification Of Aircraft	<b>P-1 Line Item Nomenclature:</b> 0576 - Common ECM Equipment	<b>Modification Nomenclature</b> <i>(Modification Number - Modification Title):</i> 3 - .ALE-39 TO ALE-47 RETROFIT (OSIP 006-00)
<b>Models of Systems Affected:</b> CH-53E, EA-6B, AH-1W, CH-46E, UH-1N, MH-53E, F/A-18C/D, AV8B, MV-22, KC-130FRT, HH60, P-3, SH-60B	<b>Type Modification:</b> MISSION CAPABILITY	<b>Related RDT&amp;E PEs:</b>
<b>Footnotes:</b> (2) Kit installs were funded by individual platforms. (3) Kit installs were funded by individual platforms. (4) Delays in Technical Directive development and flight test aircraft availability prolonged both the procurement and planned installations. Unanticipated sundown of the CH-53D required modifications to the procurement contract, which delayed equipment deliveries. Due to limited availability of organic aircraft mod teams, installs needed to be performed by contract labor. Difficulties in securing a contract vehicle for these installations, as well as aircraft availability, further delayed schedule. FY10 OCO funds the kits and installation costs to be awarded in FY10 for installs occurring FY11, FY12. The FY10 kits are (151) CH-53E shipset installs from the (302) A-kits (151 left side A-kits, 151 right side A-kits). (5) Kit purchases include A Kits; AV8 Kits, EA6B Kits, CH-53 and N/R (Val/Ver) Kits. The increase in unit costs for the F/A-18 A-kits is due to various miscellaneous parts and cable assemblies not being manufactured by FRCSW any longer, but being procured through contract. Delays in approval of Technical Directive and aircraft availability caused delays in the install schedule. (6) Of the total kits purchased in PY, supporting AH-1W, CH-46E, UH-1N platforms, only 1,026 installs were funded by this program; the remaining kit installs were funded by individual platforms. All installs PY, see PY Install cost element for funded amount. (7) The increase in unit costs for the F/A-18 B-kits is due to re-negotiation of the Air Force's procurement contract for programmers and sequencers. The previous contract was negotiated from FY06-FY11 and the unit pricing came in higher when the FY12 contract was negotiated. (8) The increase in total costs for the ALM-290 test sets is due to the increased labor rates for manufacturing and increased pricing for miscellaneous components that are nearing obsolescence being procured through contract.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
DESCRIPTION/JUSTIFICATION: Integrated Defensive Electronic Countermeasure (IDECM) Radio Frequency Countermeasure (RFCM) consists of an Onboard Electronic Countermeasure Set, an Electronic Frequency Converter (EFC), an Improved Multi Platform Launch Controller and Fiber Optic Towed Decoy (FOTD) that improves the survivability of aircraft against modern Radio Frequency threats. The IDECM RFCM Operational Requirements Document numbers are 494-88-98, 624-78-03 and 730-88-07. Current IDECM RFCM configurations are: Block 1 (IB-1) consisting of the ALQ-165 and ALE-50 (AAED); IDECM Block 2 (IB-2) consisting of the ALQ-214 and the ALE-50 (Advanced Airborne Expendable Decoy); IDECM Block 3 (IB-3) consisting of ALQ-214, the ALE-55 (FOTD), and the EFC. The EFC enables dataflow via the fiber optic cable to the decoy. This Operational Safety Improvement Program (OSIP) is for the onboard portion of the IDECM Blocks 2 and 3 configuration.												
DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: IDECM Block 2 received MS III approval in January 2004. Full Rate Production contracts 1-8 were awarded in FY04-FY11 respectively. FY11 completes a total of 85 ALQ-214s procured via OSIP 007-03. A total of 190 ALQ-214s are planned for procurement via the Common On-Board Jammer OSIP 04-12. FY09 and FY10 Congressional Add provided funds for ALQ-214 phased depot stand-up focused on system/verification testing and repair of Weapon Repairable Assemblies and Shop Repairable Assemblies.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
DESCRIPTION/JUSTIFICATION: The Department of the Navy, Large Aircraft Infrared Countermeasures (DoN LAIRCM) System (B-kit) consists of 5 Components: Missile Warning Sensor (MWS) (5 ea), Processor (1 ea), Guardian Laser Transmitter Assembly (2 ea), Controller Interface Unit (1 ea), and Viper Laser (2 ea). A-kits are platform form specific and include mounting assemblies, cabling and wiring, and an Embedded Global Positioning System / Inertial Navigation System. Urgent Universal Need Statement #03606UC dated 17 November 2006 mandates development and fielding of improved Aircraft Survivability Equipment (ASE) against Infrared Surface-to-Air Missile threats for United States Navy (USN) / United States Marine Corps (USMC) rotary wing aircraft in support of Overseas Contingency Operations. Supplemental funding from FY 2005 - FY 2010 supported analysis, test and procurement of DoN LAIRCM A-kits and B-kits for CH-53Es and CH-46Es. Current USMC operations require Integrated Defensive Electronic Countermeasure capability against the Man-Portable Air Defense Systems, and early recognition of incoming rocket propelled grenades and smaller caliber hostile fire. Ongoing Engineering Change Proposals include software and hardware upgrades to add Advanced Threat Warning (ATW), including Laser Warning, Hostile Fire Indicator and Smart Dispense capabilities. FY 2011 through FY 2015 supports procurement, upgrades, testing and completing fielding of DoN LAIRCM/ATW systems.												
FY14: The FY14 budget will complete platform integration and testing of Advanced Threat Warning (ATW) ECP, Follow-on Testing for new aircraft, and ATW fielding. ATW incorporates Hostile Fire Indication (HFI) and Laser Warning on DoN LAIRCM-equipped aircraft currently supporting the Marine Air-Ground Task Force (MAGTF) in OEF and other USMC/USN operations. The MAGTF will remain deployed in OEF to support Special Operations Forces in FY14 and beyond. The ATW system will replace the current AAR-47 Missile Warning System (MWS) and the legacy DoN LAIRCM MWS system on CH-53E, KC-130J, and P-8A aircraft. ATW also provides DoN LAIRCM improved probability of detect (Pd), a lower False Alarm Rate (FAR), Near-Instantaneous detection beyond max effective range, threat bearing and geo-location, single-shot detection, and accurate threat ID (category).												
DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: The DoN LAIRCM program Milestone C / Full Rate Production decision was approved 2nd QTR FY10. DoN LAIRCM provides a cost effective solution to the Infrared (IR) threat with limited ability to distinguish non-threat from threat energy in high clutter environments. FY 2005 Supplemental funds enabled an analysis of a current Generation I MWS with current countermeasure dispense techniques as compared to Generation II MWS. Directed IR Countermeasures (DIRCM) system CH-53 Technology Assessment Program (TAP) used FY 2007

<b>Models of Systems Affected:</b> CH-53E, CH-46E , C-20, C-40, KC130J, P-8, CH-53K, MH-53E	<b>Type Modification:</b> MISSION CAPABILITY	<b>Related RDT&amp;E PEs:</b>
Supplemental funds to develop and purchase initial A-kit and B-kit test articles. The Analysis of Alternatives (AOA) for the Assault DIRCM program was completed in July 2007. The DoN LAIRCM program has demonstrated the improved capability and mitigated deficiencies using the next generation system incorporating improved MWS with advanced DIRCM solution. Since achieving Initial Operating Capability in May 2009, the system has proven to be a cost effective solution to the in-theater infrared threat. This Operational Safety Improvement Program provides technology improvements to ASE for USN and USMC aircraft. Although originally intended as an interim solution (CH-53E/D and CH-46E only), the DoN LAIRCM program has continued to expand. Since 2010, the CH-53K, C-20, C-40, KC-130J and MH-53E Program Offices have submitted requirements for LAIRCM capabilities. The associated Program Offices (i.e., PMA-261, PMA-207, etc.) are / will be utilizing APN-1/2/4 and Aircraft Procurement, Navy-5 funding to integrate and procure DoN LAIRCM systems.		
Other support Costs increased in FY13 to support platform integration, Operational Test, and Fielding of ATW.

## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
<b>DESCRIPTION/JUSTIFICATION:</b> Southwest Asia Marine Expeditionary Force Commanders lack light Operational Support Aircraft (OSA) lift assets capable of operating in threat Surface To Air Missile (SAM) environments of Southwest Asia (i.e. Iraq, Afghanistan). As a consequence, limited high value medium lift logistic assets (KC-130s) capable of operating in threat SAM environments, are being tasked to perform light OSA personnel and material movement requirements. To fill this OSA requirement, the UC-35D is being modified with an Aircraft Survivability Equipment (ASE) system to provide relief to tactical assets that are better utilized in direct support to the warfighter. This requirement was validated in the Marine Requirement Oversight Council Decision Memorandum UC-35D ASE Urgent Universal Needs Statement 05081UA (7-22-2005) and endorsed by Headquarters Marine Corp Deputy Commander for Aviation in letter APP-34/3900, dated Jul 3, 2007. Three of seven Marine UC-35D aircraft have already been modified with an ASE system. This Operational Safety Improvement Program upgrades the remaining UC-35D aircraft with the same ASE A-Kit configuration

<p># FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012</p> <p>## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013</p>												
<p><b>Description:</b></p> <p><b>DESCRIPTION/JUSTIFICATION:</b> Integrated Defensive Electronic Countermeasure (IDECM) Block (IB) 4 is an Engineering Change Proposal (ECP) to the ALQ-214 intended to render it suitable for operation on the F/A-18C/D aircraft, while retaining all IDECM suite functionality when installed on F/A-18E/F aircraft. This ECP will result in a Common On-Board Jammer (OBJ) system that must meet the requirements of the OBJ Block 2 Operational Requirements Document #624-78-03 and be compatible with the ALE-55 Fiber Optic Towed Decoy (FOTD). The Electronic Frequency Converter enables dataflow via the fiber optic cable to the FOTD and is part of the IB-4 configuration when installed on the F/A-18E/F aircraft. This Operational Safety Improvement Program (OSIP) is for the onboard portion of the IB-4 configuration.</p> <p><b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b> The ALQ-214 received Milestone III approval in January 2004 and is still in Full Rate Production (FRP). FRP Lots 1-8 are covered by OSIP 07-03. FRP 9 is the first ALQ-214 production lot in the IB-4 configuration and was awarded 3rd quarter FY 2012. FRP 10 will be the second production transition contract which is planned in FY 2013. Production line transition to the IB-4 configuration will be complete in FY 2014. Annual production contract awards are expected to continue through FY 2019. Additional ALQ-214 systems are being procured in FY14-FY16 to reflect the service life extension of the F/A-18C/D aircraft and procurement of additional F/A-18E/F aircraft. A total of 190 IB-4 ALQ-214s are planned for procurement.</p>

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
DESCRIPTION/JUSTIFICATION: This Operational Safety Improvement Program (OSIP) is for the correction of discrepancies and to effect changes to ALR-67(V) 2 system and Electronic Countermeasure equipment in aircraft that have been delivered for fleet operations. This system requires various upgrade initiative and logistic support to keep the F/A-18 a capable aircraft with a robust defensive system that improves its survivability. This OSIP will provide funding for the upgrade of the ALR-67(V)2 computer, Low Band Antenna, Special Receiver and Quadrant Receiver weapons replaceable assemblies.												
DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: The contractor will develop Preliminary Design Review for Program Control Unit 1 drawing package and prototype Circuit Card Assembly's, perform Critical Design Review. Contractor to conduct system testing, evaluations, environmental and qualification testing. The contractor to modify Shop Replaceable Assembly's with Diminished Manufacturing Sources issues and develop Acceptance Test Plan's and Engineering Change Proposal, verify testing and evaluations of new designs. The United States (U.S.) Navy Fleet Support Team will provide system engineering qualification on aircraft, support equipment, develop Technical Directive and any additional Integrated Logistics Support support requirements. Software support activity U.S. Navy and contractor to develop software integrations.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
DESCRIPTION/JUSTIFICATION: The Joint and Allied Threat Awareness System (JATAS) is required to provide assault aircraft with a reliable surface-to-air Infrared missile/Hostile Fire Indication (HFI) threat detection system. This capability must provide accurate and timely warning in all flight regimes, ambient light conditions, clutter backgrounds and weather conditions. It must be capable of providing countermeasure cueing to flares and/or a Directional Infrared Countermeasures. JATAS will enable assault Aircraft Survivability Equipment to detect and provide countermeasure cueing to current and emerging threats. Lead Department of the Navy platform for this capability is the MV-22. The JATAS system (B-Kit) consists of a processor and sensors; 6 sensors on the MV-22 platform and 5 sensors on all other platforms.												
DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: A JATAS Capabilities Development Document (CDD) was approved in a Joint Requirements Oversight Council Memorandum dated 18 February 2011. Per the CDD, the JATAS will be an advanced Missile Warning System (MWS) designed to replace the legacy AN/AAR-47(V) MWS and increase the survivability of Marine Corps and Navy tilt-rotor and rotary wing aircraft against infrared threats. Additionally, the system will provide aircrew with warnings of laser-enabled weapon systems such as range finders, illuminators, and beam riders. The JATAS will interface with existing AN/ALE-47 Countermeasures Dispensing System, existing AN/APR-39 Radar Warning Receiver, existing Department of the Navy Large Aircraft Infrared Countermeasure system, and other compatible Directed Infrared Countermeasures systems as part of an integrated electronic countermeasures response to attacking infrared missiles. Additionally, the JATAS will be upgradeable to provide HFI of small arms, rockets and other unguided threats and provide situational awareness in Visually Degraded Environments. Per the CDD, JATAS will be developed in two increments. Increment I (Phase I) includes the missile and laser warning capabilities and cueing of countermeasure systems. Increment I (Phase II) will add HFI capability against Type I and III threats during the Engineering and Manufacturing Development phase of this program. Increment II, when future technology advancements and funding permit, will develop HFI capability against Type II threats. The JATAS Engineering and Manufacturing Development (EMD) phase will be executed via a fixed price incentive firm (FPIF) contract over an approximate 48-month period of performance, with one FPIF option for the low-rate initial production lot and firm-fixed price options for the first seven full-rate production lots. A JATAS Technology Development phase contract was awarded in FY2009 and the Milestone B decision and EMD contract was awarded in 4th Quarter FY2011. JATAS Initial Operational Capability is planned for FY2015.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																	
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																	
<b>Description:</b>																	
This line item funds common avionics equipment for multiple aircraft. With the exception of Operational Safety and Improvement Programs 14-97 [KC-130T Ground Proximity Warning System (GPWS)], and 17-98 (Helo GPWS), the individual aircraft platforms fund the "A" kits and installation in the appropriate aircraft line.																	
The specific modifications budgeted and programmed are: (1) The Navigation Satellite Timing and Ranging Global Positioning System (GPS) program is designed to provide a highly accurate position and time to users worldwide in all weather conditions. The GPS will interface with communication, navigation, and weapon systems equipment (standard attitude heading reference systems, inertial navigation systems, on-board computers, etc.) in selected applications. GPS is a Department of Defense mandated requirement for all aircraft operating in the National Air Space System after the year 2000. (2) The AN/ARC-210 Electronic Protection (EP) Combination Radio provides dual Very/Ultra High Frequency capability for carrier based Tactical Aircraft; Very High Frequency (VHF AM) for close air support and maritime channels; VHF AM for air traffic control; and EP capabilities. The AN/ARC-210 can be controlled by either a remote control unit or via MIL-STD-1553 multiplex data bus. (3) The Ground Proximity Warning Systems (GPWS) provide visual and aural warnings to the pilot when the aircraft is in a condition that could result in a controlled flight into terrain accident. (4) Communication Navigation Surveillance/Air Traffic Management (CNS/ATM) provides civil upgrades to communications, navigation, and surveillance systems enabling shift from Air Traffic Control to Air Traffic Management in increasingly congested airspace and frequency spectrum. (5) The Tactical Air Moving Map Capability (TAMMAC), the common solution for United States Naval Aviation, provides a common tactical aircraft moving map and data loading capability and replaces current obsolete Fleet equipment. (6) The Advanced Mission Computer and Display (AMC&D) capabilities including common modules and common Core System Software, will replace existing obsolete AV8B Mission Systems Computer and aging/obsolete AN/AYK-14(V) Mission Computer and Contractor Furnished Equipment Displays. (7) Attitude Gyro Upgrade replaces obsolete gyros in naval aviation aircraft with a more reliable and maintainable gyro. (8) Aircrew Wireless Internal Communications System is a safety generated program that provides a wireless Internal Communication System (ICS) capability to prevent aircrew/passenger entanglement with ICS long cords in the event of mishap and allows unimpeded movement throughout the aircraft. (9) Avionics Component Improvement Program (AvCIP) provides resources to address avionics component critical readiness degraders, performance reliability deficiencies, obsolescence threatening loss of sustainability and top Fleet operational or support cost drivers. (10) Commercial Of the Shelf (COTS) Safety Systems program procures off the shelf safety enhancements to Naval aircraft to enhance aircrew and aircraft survivability. (11) Blue Force Situational Awareness (BFSA) actively or passively identify and track United States, allied, or coalition forces for the purpose of providing enhanced battle space situational awareness and reducing fratricide. (12) Military Flight Operations Quality Assurance (MFOQA) provides the war fighter with timely and quantitative information regarding aircrew and system performance for improving safety, operational efficiency, and readiness.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> The Navigation Satellite Timing and Ranging (NAVSTAR) Global Positioning System (GPS) is designed to provide highly accurate position and time to users worldwide in all weather conditions. GPS will be integrated with communication, navigation, and weapon systems equipment (attitude heading reference systems, inertial navigation systems, mission computers, etc.). The program procures and modifies GPS equipment such as receivers, antennas, amplifiers, and protection technologies as required for naval aviation platforms. Navigation Warfare (NAVWAR) protection technologies protect a platform's GPS capability from GPS jamming and unintentional interference. Hardware configurations vary with each Type/Model/Series aircraft. The GPS Operational Requirement Document (ORD) 003-78 dated 22 January 90 was based on an Air Force General Operating Requirement dated 28 January 1978. The Navy ORD for Enhanced GPS User Equipment for NAVWAR and GPS Modernization was approved on 7 June 2000.												
<b>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:</b> The NAVSTAR GPS program completed Phase II (Full Scale Engineering Development) and completed Milestone IIIA (Approval for Limited Production) in June 1986. Milestone IIIB (Approval for Full Production) was completed in January 1992. The NAVWAR full rate production approval was received in June 2002. Research, Development, Test and Evaluation, Navy is funded under program element #0604777N.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
The AN/ARC-210 is a combination Ultra High Frequency (UHF)/Very High Frequency (VHF), Amplitude Modulation (AM)/Frequency Modulation (FM) jam-resistant radio that was developed to allow for Electronic Protection (EP) interoperability with the Air Force, Army and North Atlantic Treaty Organization. The radio provides communications capabilities such as dual V/UHF capability; VHF AM for close air support and maritime channels; VHF AM for air traffic control and civil interoperability; and EP capabilities using the Air Force developed waveforms (UHF-AM HAVEQUICK I and II), and the Army developed waveform (VHF-FM SINCGARS). The AN/ARC-210 can be controlled by either a remote control unit or via a MIL-STD-1553 multiplex data bus. The EP parameters and single channel preset information can be loaded via a CYZ-10 Data Transfer Device. The fill information can consist of word-of-the-day for HAVEQUICK; the KGV-10 transec variable, hopssets and frequency lock-out tables for SINCGARS. Engineering Change Proposal (ECP) 12 incorporated embedded Demand Assigned Multiple Access Satellite Communications, embedded Communication Security (COMSEC), embedded Variable Message Format, Link 4A, and is compatible with the memory loader verifier. Operational Requirements Document # 333-06-93 dated 4/20/93 validated this modification. FY09 and out funding is required for non-recurring engineering and test efforts to determine COMSEC retrofit solution in response to National Security Agency policies and mandates.												
DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: The AN/ARC-210 Common Operational, Safety and Improvement Program (OSIP) procures and modifies ARC-210 and ancillary equipment and provides common logistics requirements to multiple aircraft. Individual platform OSIPs may provide their own non-recurring engineering, integration, A-kit manufacturing, and unique aircraft logistic requirements. Full rate Production Decision was approved in May 1994. Incorporation of hardware modifications will be accomplished via an ECP.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> Ground Proximity Warning Systems (GPWS) and Terrain Awareness Warning Systems (TAWS) use on-board sensors, digital terrain databases, and/or external signals to determine dangerous proximity to or closure toward terrain and provide cues and warnings to the aircrew. GPWS/TAWS systems are configurable to multiple platforms. Commercial and Government GPWS/TAWS implementations have shown a demonstrated dramatic reduction in controlled flight into terrain incidents. Operational Requirements Document # 850-88-12 dtd 20 January 12 validates this requirement.												
DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: GPWS Category-I Operational Evaluation (P-3C) was successfully completed October 1993. Milestone III was successfully completed September 1996. Modifying existing GPWS software (95% reuse, 5% tailored to specific platform) for follow-on platforms. Software will be delivered for integration into platforms avionics suite.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
Communication Navigation Surveillance/Air Traffic Management (CNS/ATM) provides new and enhanced hardware and software solutions to comply with national and worldwide civil and military airspace requirements. Solutions include communication, navigation, surveillance and supporting technologies that facilitate air traffic management, and other civil and military operational capabilities. Impacts of non-compliance with airspace standards will include operational delays, circuitously rerouting, or access denial to controlled airspace.												
Prioritization of platform type and quantity is based on mission and anticipated operation in affected airspace. Examples of required functionality include Mode S datalink, 8.33 kHz Very High Frequency communications, Required Navigation Performance (RNP RNAV), Required Vertical Separation Minimum (RVSM), Automatic Dependent Surveillance - Broadcast (ADS-B), Mission Planning integration, Protected Instrument Landing System, cockpit processing and display capability.												
DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: Capability Initial Operational Capabilities: P-3C 8.33 FY12, Mode S FY07, RNP RNAV FY08, RVSM N/A; E-P3 8.33 FY10, Mode S FY09, RNP RNAV FY10, RVSM N/A; C-2A 8.33 FY09, Mode S FY09, RNP RNAV FY10, RVSM N/A, ADS-B FY16; E-2C 8.33 FY10, Mode S FY10, RNP RNAV FY10, RVSM N/A; EA-6B 8.33 FY09, Mode S FY10, RNP RNAV N/A, RVSM N/A; K/C-130J 8.33 FY10, Mode S FY10, RNP RNAV N/A, RVSM FY09; VH-60N 8.33 FY12, Mode S N/A, RNP RNAV FY19; RVSM N/A, ADS-B FY19; MH-53E 8.33 N/A, Mode S ELS FY16, RNAV FY16, RVSM N/A, ADS-B FY16; MH-60R/S 8.33 FY10, Mode S FY10, RNP RNAV FY17, RVSM N/A, ADS-B FY17; F-18E/F/G 8.33 FY10, Mode S FY09, RNP RNAV FY16, RVSM FY09, ADS-B FY18; MV-22B 8.33 FY12, Mode S FY10, RNP RNAV FY17, RVSM N/A, ADS-B FY17; AH-1Z/UH-1Y 8.33 FY10, Mode S FY12, RNP RNAV FY18, RVSM N/A, ADS-B FY18; AV-8B 8.33 FY09, RNP RNAV FY16, RVSM FY11; F-18C/D 8.33 FY10, Mode S FY13, RNP RNAV FY16, RVSM FY14; F-18A+ 8.33 FY10, Mode S FY13, RNP RNAV FY16, RVSM FY14; C-130T 8.33 FY11, Mode S FY11, RNP RNAV FY15, RVSM N/A, ADS-B FY15; T-45 8.33 N/A, Mode S N/A, RNP RNAV FY16, RVSM N/A, CH-46E 8.33 N/A, Mode S N/A, RNP RNAV N/A, RVSM N/A

<b>Installation:</b> Communication - Navigation - Surveillance / Air Traffic Management (CNS/ATM) Systems (OSIP 21-01)	<b>Method of Implementation:</b> Not Installed - Training	<b>Installation Quantity:</b> 24

**Footnotes:**

(6) Cost per quantity variation is due to variation in platforms, platform quantities, associated equipment per platform, and cost per equipment. \*\* B-Kits quantities differ from A-Kits where B-Kits consists of a card or module that will be integrated without A-Kit requirement. \*\* Installation Kit/Installation Equipment quantities reflect number of units procured, installation quantity reflects number of aircraft. \*\* Certifications are based on analysis and doesn't necessarily reflect integration. \*\* E-2C GNS-530 COTS item; no production lead time. \*\* Installing 5 prior year E-2 Kits in FY12 due to FY11 HAC Mark \*\* Production Lead Time is acceptable and does not impact induction of aircraft due to length of aircraft modification. \*\* PMA-209 to fund 1 install for KC-130J. PMA 207 to install 1 A/B Kit in FY17 and 3 in to Complete. \*\* In FY14, the B-kit ship set quantities for the F/A-18 A+ reflect the APX-111 Mode S upgrades. No A-kit required or install required for the APX-111 [v. -20]

(7) Install equipment increase in the Bkit NR from FY13 to FY14 is the following additional platforms; MH-53, C2, MH-60R, AH-1Z, AV-8B and KC130T. The following platforms are continuing of F/A 18.

(8) The following additional platforms have ECO requirements in FY14 C2, H53, H-60 and H-1.

(9) The following additional platforms have Data requirements in FY14 C2, H53, H-60 and AV-8B ECO was increased by \$80K due to additional requirements in FY14.

(10) The following additional platforms have ILS requirement in FY14, C-2, H-53, H-60 and H-1.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
Advanced Mission Computer and Displays (AMC&D) program modifies/replaces existing obsolete and performance limited AN/AYK-14(V) Mission Computers and Contractor Furnished Equipment and Displays in naval aviation platforms. The program system consists of an Advanced Mission Computer (AMC) technologies which includes areas such as Mission Processing and Display Processing, Display Heads (DH), High-Speed Data Bus interfaces with Fiber Channel Network Switches (FCNS), Core system software, and multi-functional 8x10 Multipurpose Color Displays (MPCD). AMC&D system will have modular components integrated on an Open Systems Architecture so that it can be tailored and configured for multiple applications implementing common core system software and hardware modules. The capabilities address new performance requirements and technologies while minimizing the investment cost so that it can be tailored and configured for each application, and can address new performance requirements and technologies with minimum cost. AMC&D will provide improved mission computers and displays to handle increased requirement for flight, mission, and imagery data. Due to obsolescence problems with the current Multipurpose Color Display (MPCD), the AMC&D program is leveraging the 5x5 DH to provide a form, fit, function and interface replacement (no install funding required). The program conducts analysis on parts obsolescence and its associated resolutions which will be required to maintain current AMC&D configuration and to determine life of type procurements as required for platform installations. AMC&D Mission Need Statement - M061-88-94 of 2 December 1994. AMC&D Operational Requirements Document Ser. No. 549-88-00 Approved 21 March 2000. MPCD production buys began in FY02 (no installation required) and AMC&D Low Rate Initial Production production buys began in FY01 with Full Rate Production buys beginning in FY04. The F/A-18E/F Retrofit Program (began in FY06) goal is to achieve a 2-block configuration. Block 1 aircraft include Lots 23-25 and Block 2 includes Lots 26 and above. Block 1 will consist of replacing the AN/AYK-14 computers in Lots 23-24 and replacing the AMC with a newer configuration AMC in Lot 25. The computers are obtained as part of a reuse program from Block 2 portion of the upgrade and all Lots will require an A-kit. Lots 26 and 27 of Block 2 are provisioned to accept all Weapons Replaceable Assemblies (WRAs) for Block 2. The FY06 procurement for Lots 26 consisted of FCNS, displays and digital video mapping card. The FY06 procurement for Lot 27 consisted of displays, Digital Video Map Computer, and upgrade to a card in the AMC. To maintain the common block configuration, new AMCs are procured for both Lots in the out years. The AMCs removed from Lots 26 and 27 will be part of the reuse to the Block 1 configuration. The AMCs procured for Lot 28 and 29 do not require installation costs since they are a form fit function replacement for as-delivered AMCs. The systems removed from Lots 28 and 29 will be part of the reuse process. The FY08, 09 and 10 procurements include B-kits to provide digital output for the 8x10 AMPD High Resolution Recorder Interface to address a Commander, Operational Test and Evaluation Force finding of poor ready room playback quality of the current analog video signal.

FY13 & FY14 activity covers government management and oversight of Shop Replaceable Assemblies (SRAs) integration and installation into previously procured WRAs, and installation/coordination of WRA back into the aircraft (no aircraft install costs, O-level installs will be done by AV-8B). These SRA upgrades increase capability and longevity of the existing aircraft. Without these upgrades, the aircraft will no longer be operational, and will no longer be capable of flying by 2015. These upgrades will increase the life of aircraft through 2027.		
DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: AMC and 5x5 display Critical Design Review - 2nd Qtr FY01. FCNS CDR - 4th Qtr FY01, 8x10 CDR - 2nd Qtr FY02. # FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> Tactical Aircraft Moving Map Capability (TAMMAC) provides the aircrew an easily assimilated graphical presentation of the aircraft's position and the relative positions of targets, threats, terrain features, planned mission flight path, no fly zones, safe bases and other objects. The program presents the aircraft's current situation on a map using new or existing cockpit displays. In addition to providing a moving map capability, the program provides a memory resource for the overall aircraft mission system and incorporates an improved data transfer and recording capability. This memory resource includes a data loader function of sufficient memory capacity and speed to load/update all required map theater and mission specific databases as well as the ability to record mission and maintenance data. TAMMAC will also provide a Terrain Awareness Warning System capability. The principle benefits anticipated, increased mission effectiveness and survivability, arise from improved situation awareness, reduced crew workload and enhanced capability for precision navigation, targeting, terrain avoidance, and mission re-planning. The TAMMAC program will procure and modify TAMMAC hardware and software technology as well as support the re-use of existing hardware when appropriate for all naval aviation aircraft.												
DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: Milestone III approved April 01.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> Attitude Gyro Upgrade replaces obsolete 1960s technology gyros in naval aviation aircraft with a more reliable and maintainable gyro. The program provides state-of-the-art Commercial-off-the-Shelf products to improve readiness and reduce fleet operational and support costs in the flight hour program for all naval aviation aircraft.												
DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: Production Decision for Rate Gyros was completed in 4Q FY06. Production Decision for Displacement Gyros was completed in 3Q FY11. Microelectromechanical systems Rate & Displacement Gyros have completed retrofit into HH-60J a/c. Rate Gyro retrofits are ongoing for HH-60H, SH-60B/F, and MH-60R/S aircraft. Rate Gyros are planned for installation on CH-53E & MH-53E aircraft starting in 4Q FY11. Displacement Gyros are planned for installation on CH-53E, MH-53E, EP-3E and P-3C aircraft starting in 3Q FY12.

<b>Description:</b> Aircrew Wireless Internal Communications System (AWICS) is a safety generated program that provides a wireless Internal Communication System (ICS) capability to prevent aircrew/passenger entanglement with ICS long cords in the event of mishap and allows unimpeded movement throughout the aircraft. The priority for fielding is determined by the aircraft that are most susceptible to a water ditching and likely long cord entanglement scenario. Long cord entanglement and subsequent drowning is a documented cause of death in previous mishap investigations. The program will procure new and/or modify existing equipment for Naval Aviation aircraft as necessary to facilitate the elimination of the long cord danger while maintaining the aircraft's existing ICS capability.

<b>Models of Systems Affected:</b> All A/C as directed by OPNAV	<b>Type Modification:</b> Common Avionics Modification	<b>Related RDT&amp;E PEs:</b>
<b>Installation:</b> Aircrew Wireless Internal Communications System (AWICS) (OSIP 09-04)	<b>Method of Implementation:</b> Organic - AWICS Equip	<b>Installation Quantity:</b> 2066
<p><b>Footnotes:</b></p> <p>(14) MH-53E - FY10 - Moved MH-53E (5) A-Kits and Installs to CH-46E (B-Kits provided by Platform Program Office). **FY10 - Moved CH-53D (5) A-Kits and Installs to CH-46E (B-Kits Provided by Platform Program Office). **FY11 - (1) MV-22B A-Kit procured and install funded by Platform Program Office. **FY07 - (2) MV-22 A-Kit procured and install funded by Platform Program Office. (5) Kits from FY11 for UH-1Y being installed in FY12 were returned to Central Kitting Activity. Will not be installed.</p> <p>(15) In FY07, HH-1N - 1 B-Kit taken from inventory, no need to purchase kit. ** CH-46E- FY10 - Platform Program Office provided 12 B-Kits. ** H-53 &amp; MH-53 fielding of Windtalker Encryption Devices (WEDS) is 1 shipset for 2 aircraft ** Total includes unencrypted units that are being replaced with encryptable (225) and also includes WEDS (522) . No A-Kit required. Total B-kits minus unencrypted and WEDS is 1319. 45 B-kits higher than A-Kits and Installs due to 31 CH-53E B-Kits were sun-downed and 14 CH-53E units from FY07 still on the shelf at CKA. The difference in the kit procurement and installs is because the WEDS do not require A-kit or installs. The cost the AWIC components/other support increased to reflect the change required to support encryption. Budget reflects the change from unencrypted to encrypted this is more sophisticated system and more components for the kits.</p> <p>(16) The cost the AWIC components/other support increased to reflect the change required to support encryption. Budget reflects the change from unencrypted to encrypted this is more sophisticated system and more components for the kits.</p>

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012 ## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> Avionics Component Improvement Program (AvCIP) provides resources to address critical readiness, reliability deficiencies, obsolescence, demonstrations, loss of sustainability, and top Fleet repair cost drivers in naval avionics systems. In the year prior to execution, candidate projects from all Type/Model/Series are collected, reviewed, competed and selected based upon proposal solution maturity and executability, mission criticality and urgency, degree of readiness impact or Fleet maintenance or repair cost burden, return on investment, and Fleet advocacy. AvCIP is a better business practice to address cost-wise readiness in support of Naval Aviation Enterprise efficiency objectives. AvCIP is funded by both Research, Development Test & Evaluation, Navy and Aircraft Procurement, Navy (APN) accounts to cover Non-Recurring Engineering (NRE) for design/development or re-design/modification, demonstrations, integration testing, prototype/lab asset development, qualification testing and engineering and logistics documentation and support services. APN funds will cover NRE to insert modern technology to address poor performance or obsolescence, and support project procurements, as required. Follow-on procurement tails will be coordinated with Program Offices and their Operational, Safety and Improvement Programs, as required.  DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: AvCIP project selection criteria includes proposed solution maturity and executability. Target project length to start of fielding of the solution is 12-18 months. Procurements below are representative of initial project lab asset purchases for qualification and productionization validation. Units may be transferred to Fleet platforms as operational assets. Future year specific development profiles/milestones will be dependent upon projects competed and selected. Multiple projects may be selected each year.

<b>Description:</b> Blue Force Situational Awareness employs techniques to actively or passively identify and track United States, allied, or coalition forces for the purpose of providing the decision-maker enhanced battlespace situational awareness and reducing fratricide. The program, led by the Army with joint participation, upgrades legacy Force XXI Battle Command Brigade and Below Blue Force Tracking systems to the configuration required to meet the Joint Battle Command -Platform (JBC-P) Capability Development Document and to add JBC-P capability to other aircraft as directed by Office of the Chief of Naval Operations, providing Joint, interoperable, secure, beyond line of sight, near real time, battle command networking and blue force situational awareness in the cockpit and the command centers.												
Current MAGTF future force laydown plans shows ACE MAGTF elements will not change in OEF through FY14. A MAGTF ACE will remain deployed in OEF in order to support Special Operating Forces beyond FY14 (current plans through FY16). BFSA is a Combatant Commander requirement for all aircraft operating in OEF. The completed Universal Need Statements (UNS) identifies operational enhancement opportunities and deficiencies in capabilities. BFSA provides battlefield situational awareness and enables command and control which will facilitate ROEs and mitigates fratricide of Blue Forces in OEF. The following requirement documents establish and validate the need for BFSA equipment and system installations: JBC-P CDD and JROC Decision Memorandum 098-08 dated 6 May 2008; USMC Universal Needs Statement # 092418 dated December 2010; USMC Universal Needs Statement # 06153UB dated May 2006; USMC Universal Needs Statement #04138UC dated 12 November 2003. All requirement documents discuss the needs for an in theater (OEF) requirement for two way BFSA capability and requirement to equip USMC aircraft with FBCB2/BFT while exploring an integrated solution for emerging aircraft such as the MV-22, CH-53K, UH-1Y, and AH-1Z.

<p># FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012</p> <p>## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013</p>												
<p><b>Description:</b> Military Flight Operations Quality Assurance (MFOQA) improves safety, readiness and asset conservation by assessing aircrew and aircraft performance; improving maintenance, operations, safety and training across all Naval Aviation platforms as identified and prioritized by Office of the Chief of Naval Operations. Efforts will include site activations, license procurements and procuring hardware, as required, to capture aircraft parametric data and data downloading capability and to allow for the processing &amp; analysis required by the MFOQA program. Efforts will also include hardware &amp; software upgrades to the various Squadrons' ground/work stations to enable MFOQA implementation. The MFOQA program is directed by an Office of the Secretary of Defense mandate October 2005 and a Secretary of the Navy mandate February 06.</p>												
<p>DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: Analysis of Alternatives approved September 05; Capability Development Document approved January 06</p> <p>Milestone B 1st Qtr FY07, Milestone C 1st Qtr FY14, Initial Operational Capability C 1st Qtr FY14</p> <p>Modifying baseline MFOQA software (90% reuse, 10% tailored to specific platform) for each follow-on platform. Software will be integrated on existing MFOQA servers.</p>

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																				
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																				
<b>Description:</b>																				
This line item funds modification efforts for the System of Systems (SOS) that support the Marine Air Ground Task Force Electronic Warfare (MAGTF EW) mission. These SOS are designed to support improved capabilities to address emerging threats and close gaps in MAGTF EW sufficiency and integration in the EW arena. These capabilities are designed for carriage on an expansive variety of organic air and ground MAGTF assets and include: Software Reprogrammable Payload (SRP), Collaborative Electronic Attack (EA)/EW Battle Management, EW Services Architecture (formerly Collaborative On-Line Reconnaissance Provider of Operational Responsive Attack Link (CORPORAL)), and Intrepid Tiger series.																				
MAGTF EW will support procurement of new technologies and equipment as needed to combat emerging electronic warfare (EW) technologies and systems.

Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.																				
<b>Justification:</b>																				
Technology has evolved the modern battlespace requiring the Marine Corps to consider the Electro-Magnetic Spectrum (EMS) as a warfighting environment that must be fully integrated into the Commander's scheme of maneuver and concept of fires. The growing pervasiveness of this technology requires new concepts regarding the application of Electronic Warfare (EW) by the Marine Air-Ground Task Force (MAGTF) Commander.																				
Advancements in technology allow airborne and ground based EW assets to collaboratively interact as users of and providers to the EMS. Manned and Unmanned Aircraft Systems (UAS) integrated with radio battalion ground assets provide extended reach SIGINT capability, electronic warfare support, and direct support electronic attack. Electronic Warfare is regarded as one of the six functions of Marine Aviation and a core function of the Radio Battalion. Some cyber operations can be enabled by electronic warfare operations, an example being EW-delivered computer network attacks. EW is military action involving the use of electromagnetic and directed energy to control the electromagnetic spectrum or to attack the enemy. Electronic warfare consists of three divisions: electronic attack, electronic protection, and electronic warfare support.																				
The Concept of Operations for MAGTF EW facilitates the integration of airborne and ground EW capabilities to provide the MAGTF Commander a coordinated capability to control the EMS at the time and place of his choosing.

## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> Efforts include the outfitting of 12 EA-6B aircraft with Internet Relay Chat (IRC). IRC is an essential tool used by the Electronic Warfare Combatant Commander (EWCC) as a means of requesting and coordinating EW support. This upgrade will provide Beyond Line of Sight (BLOS) capability for data and voice communications. Results of this increased capability will include increased situational awareness and will ensure spectral dominance across the battle space. IRC will give users the ability to correlate both on-board and off-board threat information/sensor data and enable coordinated jamming operations.												
DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: Project evolved in response to a Marine Corps Universal Urgent Need Statement (UUNS) to address unsatisfied requirements for MATT/IDM connectivity suite. Project provides Internet Relay Chat via SIPRNet chat room and whisper chat in the cockpit of the EA-6B to enable beyond line of site (BLOS) communications with Operations Duty Officers, Combined Air Operations Center (CAOC), and forward controllers. Second and third quarter FY12 includes aircraft installation/integration design, design prototypes for wiring and structures, development of ECP, and initial hardware procurement actions.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> Procures Software Reprogrammable Payload (SRP) Spiral 1 and Spiral 2 capability multi-function kits for Marine Corps fixed-wing, rotor-wing, and Unmanned Aerial Vehicle aircraft as directed by Weapons Requirement Branch and Headquarters Marine Corps. Costs include hardware, software production, associated communications gear, and the installation necessary to transition this capability with science and technology onto Marine Air Ground Task Force (MAGTF) platforms. The integration of SRP capability onto MAGTF platforms provides advanced communication and data relay for fleet assets and supports the MAGTF Electronic Warfare system of systems concept for future United States Marine Corps Electronic Surveillance, Electronic Attack, and Electronic Protect performance.												
DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES: SRP is a single common spectrum control device that is currently under development by the Naval Research Laboratory. SRP is being developed in support of the Marine Ground Task Force (MAGTF) Electronic Warfare (EW) 2020 vision of a distributed, networked approach to EW that is designed to increase both capability and capacity. SRP is designed to be integrated on multiple MAGTF fixed-wing, rotary-wing and Unmanned Air System aircraft and will provide a flexible and real-time reconfigurable payload that is designed to support multiple simultaneous missions.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
Effort for Intrepid Tiger (IT) II capability is designed to expand electro-magnetic spectrum control, spectrum management, and Electronic Warfare (EW) effectiveness against current targets and to provide adaptability to counter future targets as they emerge. Key to this capability is network accessibility that includes EW Services Architecture (formerly CORPORAL) derived infrastructure for integration on multiple aviation platforms including any Marine Air Ground Task Force (MAGTF) tactical fixed-wing, rotary-wing, and/or Unmanned Air System platforms.												
The design includes Open Architecture compliant and easily expandable hardware and software. Technique Generator Upgrades: Upgrades will enable new techniques to provide additional capability that counters existing and anticipated threat systems while maintaining an open architecture to allow future counter threat upgrades. Antenna Upgrades: Upgrades will expand transmit and receive frequency coverage to that of current and anticipated threat systems dynamically operating in a broad spectrum. Network and EW Services Upgrade: Will enable a non-co-located operator access to pod functions and information exchanges via radio signals to enhance operational and tactical flexibility. Interface Upgrades: Will enable ground and air based users to configure and monitor pod status, operation and effectiveness. Other Supporting Upgrades: Includes hardware and software components that enable functions of power, cooling, status, control and connectivity as through processors, sensors, radios, RF components and support equipment critical to overall pod and system operation to include techniques, mission planning, operational execution, post-flight analysis and shipping containers.												
FY14 Overseas Contingency Operations (OCO): Current MAGTF future force laydown plans shows ACE MAGTF elements will not change in OEF through FY14. A MAGTF ACE will remain deployed in OEF in order to support Special Operating Forces beyond FY14. The AN/ALQ-231 Intrepid Tiger II (IT-II) is a precision Electronic Warfare (EW) pod designed to provide an Electronic Attack (EA) capability against communication targets in OEF as requested in multiple JUONs submitted by CENTCOM. (CENTCOM JUON CC-0055/ 0107/ 0121/ 0140/ 0144 and 0147). IT-II will provide both an increase in EA capability and EA capacity across DoD in order to meet current OEF EW needs to the warfighter. It provides a distributed, adaptive and scalable capability for AV-8B and F/A-18 aircraft in direct support of ground forces engaged in combat today. Insufficient numbers of the IT-II capability in theater will result in unacceptable capacity risk to forces based upon inability to prosecute communications-based targets. Requested IT-II pods will support multiple TMS's, supporting conventional and Special Operations activities in OEF.												
INSTALLATION EQUIPMENT: Overseas Contingency Operations (OCO) funds will provide for the construction of 21 ALQ-231 Intrepid Tiger II pods.

<b>Exhibit P-3A, Individual Modification:</b> PB Amended 2014 Navy		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1506N: Aircraft Procurement, Navy / BA 05: Modification of Aircraft / BSA 1: Modification Of Aircraft	<b>P-1 Line Item Nomenclature:</b> 0587 - MAGTF EW for Aviation	<b>Modification Nomenclature (Modification Number - Modification Title):</b> 3 - INTREPID TIGER II SERIES (ALQ-231) (OSIP 010-13)
<b>Models of Systems Affected:</b> MULTIPLE PLATFORMS	<b>Type Modification:</b> RELIABILITY / MISSION CAPABILITY	<b>Related RDT&amp;E PEs:</b> 0604376M

**SUPPORT EQUIPMENT:** OCO Funds will provide for introduction of new/modified organizational, intermediate and depot level support equipment. Changes to existing support equipment will be needed to improve reliability/maintainability/availability, address obsolescence issues, and correct deficiencies found in testing or in the field.

**ENGINEERING CHANGES:** This ALQ-231 Program covers system modifications required to improve reliability/maintainability/availability, enhance mission capability, interface/integrate with evolving electromagnetic spectrum control, spectrum management, and EW systems, resolve obsolescence issues, and correct deficiencies found in testing or in the field.

This effort previously funded under PE 0204154N BLI 0513 AEA Systems, moved to PE 0206143M BLI 0587 to align effort with Resource Sponsor. FY13 funding was initially requested as OCO, but was transferred to baseline funding during the President's Budget by the Resource Sponsor.

**DEVELOPMENT STATUS/MAJOR DEVELOPMENT MILESTONES:** The AN/ALQ-231(V)1 Intrepid Tiger II (IT II) EW pod was developed in response to multiple Joint Urgent Operational Needs Statements. The Block 0 pod performs communications jamming and is integrated on the AV-8B Harrier aircraft. IT II Block 0 completed a Quick reaction Assessment in February 2012 and began an Early Operational Capability (EOC) deployment in the 3Q of FY12. On 29 February 2012 IT II Block 1 was approved by Assistant Secretary of Navy, Research, Development and Acquisition as a Rapid Deployment Capability (RDC). The Block 1 pod provides multiple upgrades over the Block 0 variant to include correction of deficiencies, the addition of a survey capability, and integration on a second platform, the F/A-18C/D. The RDC requires that IT II Block 1 transition to a Program of Record in calendar year 2013. Block 1 EOC deployments on both United States Marine Corps AV-8B and F/A-18C/D squadrons is expected to occur in the 2013 - 2014 timeframe. IT II is designed to be integrated on MAGTF fixed-wing, rotary-wing, and UAS aircraft. IT II is the first deployable hardware and Electronic Warfare Services Architecture in support of the MAGTF EW 2020 vision of a distributed, networked approach to EW that is designed to increase both capability and capacity.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																			
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																			
<b>Description:</b> The initial spares requirement funds all repairables and consumables allowances to support the quantity and type/model/series of aircraft in new procurement, during Interim Contractor Support and to support. The initial spares category includes interim spares for recently introduced equipment without adequate demand history using prescribed weapons utilization rates, as well as all aircraft engines and module spares. All spares requirements are developed using accredited sparing models. Funding requirements for major avionics are calculated on an item-by-item basis where possible.																			
The Vendor Direct spares element of the budget is comprised of the Aviation Outfitting Account, which sources spares from DWC/NWCF subsequent to Material Support Date, as well as a limited number of Headquarters Replenishment Accounts for spares procured at Naval Air Systems Command headquarters to support Executive Mission helicopters, interservice support requirements, and miscellaneous aircraft systems.

<p><sup>#</sup> FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012</p> <p><sup>##</sup> This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013</p> <p><b>Description:</b>            This P-1 line is for light and medium duty tactical equipment used primarily by the Naval Expeditionary Combat Command (NECC), Maritime Prepositioning Force (MPF), Naval Beach Group (NBG), and other special operating units. This line also includes Force Protection requirements and DoN Energy Initiative funding for Tactical Vehicles.</p> <p>Light duty tactical vehicles (HMMWVs) are used by NECC, MPF, NBG, and special operating units for the movement of personnel and equipment. Medium tactical trucks are required for rapid deployment of containerized table of allowance material and have air transport, water fording, and enhanced combat mobility capability. Medium tactical cargo trucks are used for material/equipment movement and delivery. Medium tactical dump trucks are used to support combat construction of airfields, landing zones, road battle damage repair, and rapid runway repair.</p> <p>This program includes funds for the procurement of HMMWVs to guard and protect the TRIDENT II (D5) missile while the missile is in storage, being handled, or in a movement convoy to and from the waterfront at the Strategic Weapons Facility, Atlantic (SWFLANT) in Kings Bay, GA and the Strategic Weapons Facility, Pacific (SWFPAC) in Bangor, WA. Equipment is used in support of SSP's mission of securing the Limited Area and provides for security vehicles to replace existing (aging) vehicles used in roving patrols of the Limited Area and to support TRIDENT II (D5) missile movement convoys.</p>

**Justification:**

The funds requested in FY 2014 will provide for recapitalization requirements to support fielding a fleet of equipment within useful life expectancy.

Funds requested in Force Protection are for outfitting requirements for vehicle crew protection imposed by the use of IEDs. The crew protection requirements include vehicle armor solution.

Included in this request is FY 2014 Overseas Contingency Operations (OCO) funding for Operation Enduring Freedom -Afghanistan (OEF-A) in the amount of \$17.968M for the procurement and installation of Spiral Kits for Cougar Egress upgrades for hatch, exhaust and seat systems.

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																					
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																					
<b>Description:</b>																					
AGM-114 Hellfire is a family of laser guided missiles employed against point and moving targets by both rotary and fixed wing aircraft. The family of Hellfire missiles includes, but is not limited to, AGM-114B/K/K2A/M/N/N-5/P/P+/R variants. These variants include shaped charge warheads (B/K/K2A) for use against armored targets and blast fragmentation warheads (M/N) for use against urban structures. The AGM-114N is a Thermobaric blast fragmentation warhead that maintains the capability provided by the AGM-114M while adding a unique capability against confined compartmented spaces, a typical target type observed in current combat operations. Other variants include the K2A which has a blast frag sleeve for use against soft-skinned tactical vehicles, the N5 which provides a trajectory shaping capability to increase endgame lethality against vertical structures, the P/P+ variants which include high altitude launch trajectories for use from fixed wing aircraft, and the R which services all Hellfire targets with a single warhead. Conversions from one variant to another are done on an as needed basis.																					
Prior year funding includes Hellfire, Viper Strike and Griffin.

<b>Exhibit P-40, Budget Item Justification Sheet: PB Amended 2014 Navy</b>		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1507N: Weapons Procurement, Navy / BA 02: Other Missiles / BSA 2: Tactical Missiles		<b>P-1 Line Item Nomenclature:</b> 2254 - Hellfire
<b>ID Code</b> (A=Service Ready, B=Not Service Ready) : B	<b>Program Elements for Code B Items:</b>	<b>Other Related Program Elements:</b>
<b>MDAP/MAIS Code(s):</b>		
*Item Nomenclature represents Item Number, DODIC, and Item Name for the P40A and P5; Name for the P18 and P23; Modification Number and Modification Title for the P3A; Item Number and Item Name for the P10.		
Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.		
<b>Justification:</b> All unit costs have been adjusted to reflect tri-service procurement and cost estimated by US Army, JAMS (lead service). FY12 Unit costs were based on a service combined quantity buy of 5155 missiles, of which 343 all-up-round (AUR) missiles are Navy missiles. FY13 Unit costs were based on a service combined quantity buy of 3229 missiles, of which 948 AUR missiles are Navy missiles. FY14 Unit costs were based on a service combined quantity buy of 2107 missiles, of which 288 all-up-round (AUR) missiles are Navy missiles. The Hellfire FY11 contract has been definitized and pricing has been changed for all years to reflect the most current unit pricing of the missile.  The US Army and US Air Force will be procuring the Romeo (R) variant which contains additional capabilities such as: a new warhead with an integrated blast-frag sleeve, a height-of-burst fuze, and a cockpit-selectable delay fuze capability. The Navy is awaiting resolution of the Developmental Testing and Operational Testing Engineering Change Proposal prior to initiating full-scale procurement for the R variant.  FY12 baseline funding will procure 284 Hellfire AUR and Air Training missiles. FY13 baseline funding will procure 919 Hellfire AUR and Air Training missiles. FY14 baseline funding will procure 363 Hellfire AUR and Air Training missiles.  Reason funds are required for Overseas Contingency Operations (OCO): In FY12 the Navy expended 175 Hellfire missiles in Iraq and Afghanistan. The versatility of the Hellfire missile helps make it a key weapon in Overseas Contingency Operations (OCO). Because of the AH-1/H-60 Armed Heli Requirements, this weapon is essential to Sea Shield and Sea Strike. Training equipment includes a mix of inert, ATM-114Q, and training guided missiles, M36E3, which are required to support critical training for combat aircrews prior to deployments to various theaters of operation. The DoN will continue to procure existing Hellfire variants in support of requirements. Current inventories are being depleted by combat expenditures in support of OCO and associated training. FY12 OCO funding of \$14M procured 206 missiles (107 AURs/99 Training) and associated support cost; FY13 OCO funding of \$17M will procure 179 AUR missiles and associated support cost. FY14 OCO funding of \$27M will procure 270 missiles (270 AURs) and associated support cost. These OCO dollars are meant to replenish munitions expended in combat operations in theater.  Working through the Joint Attack Munitions Service (PM JAMS) as the Army's Lead Service agent, the Navy intends to convert any price advantage created through contract negotiations, other service procurement, and/or foreign military sales to increase the Navy procurement of Hellfire missiles.  SOPGM funding for FY12 and out, which includes Griffin, moved to Budget Line Item (BLI) 226400, SOPGM. SOPGM historical data in FY10 and FY11 is captured in this BLI.

**Footnotes:**

(1) FY2012 unit costs are based on actual contract definitized data as of September 2012. FY2013 and FY2014 unit costs are based on negotiated contract option year pricing tables and projected Tri-Service and FMS missile procurement quantities; FY2014 unit costs are also contingent upon the program receiving FY2014 OCO funding.

(2) Product Improvement Program (PIP) FY15 funding supports Precision Guided Munitions (PGM) seeker and rocket motor warhead and integration improvements.

(3) PES is proportional to Weapon Procurement Quantities. FY13 PES includes Lockheed Contractor Procurement Support of \$4.14M.

‡ Delivery rows marked with the ♦ symbol indicate that they are funded through a separate Line Item. See the respective components' exhibits for details, including the full delivery schedule.  
 "A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

**Footnotes:**

<sup>(5)</sup> MSR is for Tri-Service Procurement of the Army, Navy and Air Force

<sup>(14)</sup> There is a break in deliveries between FY10 and FY11 procurements but the production line does not shut down. The contractor slowed production deliveries due to a subcontractor facility chemical explosion in the 3rd quarter of FY12. The Government is working to keep the production schedule healthy. FY10 deliveries will be delayed due to reduced production to prevent a shut-down due to limited quantities of missile motors.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																															
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																															
<b>Description:</b>		Stand Off Precision Guided Munition (SOPGM) weapons, Viper Strike and Griffin, are threshold weapons for the KC-130J Intelligence, Surveillance and Reconnaissance (ISR) Weapon Mission Kit USMC requirement. Both weapons are portions of the required roll-on/roll-off capability inherent in the ISR Weapon Mission Kit.																													
The Viper Strike is a glide weapon with Global Positioning System/Inertial Navigation System (GPS/INS) navigation to the target vicinity and a semi-active laser (SAL) seeker used for terminal guidance to target impact.																															
The Griffin is rocket propelled and similarly uses GPS/INS to navigate to the target vicinity and a SAL seeker for terminal guidance. Griffin will be used on KC130J and Cyclone class Patrol Coastal (PC) ships.

<b>Exhibit P-40, Budget Item Justification Sheet:</b> PB Amended 2014 Navy		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1507N: Weapons Procurement, Navy / BA 02: Other Missiles / BSA 2: Tactical Missiles		<b>P-1 Line Item Nomenclature:</b> 2264 - Stand Off Precision Guided Munitions (SOPGM)
<b>ID Code</b> (A=Service Ready, B=Not Service Ready) : A	<b>Program Elements for Code B Items:</b>	<b>Other Related Program Elements:</b>
<b>MDAP/MAIS Code(s):</b>		
Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.		
<b>Justification:</b> Baseline Justification: Griffin Missile Base funding is required to support Griffin Missile System Rapid Deployment Capability (RDC) programs for the Patrol Coastal (PC) and Littoral Combat Ships (LCS). The RDCs provide an anti-surface missile capability to improve the ships ability to defend against enemy small boat attacks.  The Department chose to invoke Buy to Budget Authority for the FY12 all up round contract. Supporting exhibits reflect the actual FY12 Qty of 159 Naval Air Systems Command (NAVAIR) and 67 Naval Sea Systems Command (NAVSEA) for a total of 226. To match the supporting exhibits, the P-40 should have a FY12 Qty of 226.  FY 2012 Base funding procures 67 Griffin missiles. FY 2014 Base funding procures 50 Griffin Missiles.  OCO Justification: In FY12, the Navy expended 14 Griffin missiles in Afghanistan. The Department of the Navy does not have sufficient Griffin weapons inventory to support the USMC KC-130J ISR Weapon Mission Kit Urgent Universal Need Statement for OCO.  FY 2012 OCO funding procures 159 Griffin missiles. FY 2013 OCO funding procures 50 Griffin Missiles. FY 2014 OCO funding procures 9 Griffin Missiles.

**Footnotes:**

(1) Bravo Variant cost in FY14 is higher than the previous Alpha Variant unit costs because the Bravo Variant includes launch and flight motors and because fewer missiles are being bought between NAVSEA, NAVAIR, and Special Operations Command (SOCOM) in FY14. The Department chose to invoke Buy to Budget Authority for the FY12 all up round contract. Supporting exhibits reflect the actual FY12 Qty of 159 (NAVAIR) and 67 (NAVSEA) for a total of 226. To match the supporting exhibits, the P-40 should have a FY12 Qty of 226.

<b>Exhibit P-40A, Budget Item Justification For Aggregated Items:</b> PB Amended 2014 Navy	<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1507N: Weapons Procurement, Navy / BA 02: Other Missiles / BSA 2: Tactical Missiles	<b>P-1 Line Item Nomenclature:</b> 2264 - Stand Off Precision Guided Munitions (SOPGM)
<p>(2) The OCO buys are for the Alpha Variant without the launch and flight motors. Unit price increase for FY14 OCO from \$117,905 to \$145,237 due to reduction in quantities from 150 to 9. FY14 Griffin order quantities of 1-50 units incur a fixed unit cost of \$145,237 per round; for order quantities greater than 50 units, the unit cost is inversely proportional to the order quantity. FY 14 unit costs have increased significantly due to the order quantity reduction below the breakpoint quantity of 50. SOCOM, NAVSEA and NAVAIR quantities buys are combined to meet 300 MSR.</p>

<b>Description:</b>		The AGM-65 Maverick is a tactical, air-to-surface, guided missile designed for close-air support, interdiction and defense suppression missions. It also provides stand-off capability and high strike probability against a wide range of tactical targets, including high-speed moving targets, armor, air defenses, ships, transportation equipment and fuel storage facilities. The AGM-65E2 is a Joint Effort by the Navy and Air Force to modernize this capability with an enhanced laser seeker and new software that reduces the risk of collateral damage. The AGM-65E2 is a modification to the Maverick's Guidance and Control Section to incorporate modern components which are a suitable replacement for the obsolete components of the existing AGM-65E.

**Justification:**

Between FY03 and FY12 the Navy has expended 549 Laser Maverick missiles in Afghanistan. FY14 OCO funding will procure 500 Laser Maverick modification kits to convert AGM-65F Infra-Red Mavericks in existing inventory to AGM-62E2 Mavericks.

As the only existing DoD Fixed Wing Air to Ground weapon suitable for engagement of fast-moving, maneuvering ground targets, the AGM-65E Laser Maverick has been heavily expended during GWOT/OCO despite having been out of production since 1994. This Maverick Modification Kit effort will address those capability gaps due to a limited and rapidly diminishing Laser Maverick inventory as well as the cancellation of the Fixed-Wing Joint Air to Ground Missile (JAGM) Program.

<p><b>Description:</b>  [<b>AUR Installation Kits</b>] The AGM-65 Maverick is a tactical, air-to-surface, guided missile designed for close-air support, interdiction and defense suppression missions which has been out of production for the USN since FY91 in anticipation of the arrival of future missile systems, such as the Joint Air-to-Ground Missile (JAGM), which have ultimately failed to come to fruition. The AGM-65E2 is a conversion effort which allows for procurement of a new Guidance Control Section (GCS) which can be mated to an existing USN Maverick Center Aft Section (motor and warhead section). This effort enables the DoN to rapidly and significantly increase the highly depleted Laser Maverick inventory using Center Aft Sections from divested missiles to create additional AGM-65E2 All-Up Rounds. The AGM-65 is the only weapon in the current DoN inventory suitable for engagement of fast-moving, maneuvering land/surface targets from fixed-wing, tactical aircraft (F/A-18 A-D, F/A-18 E/F, AV-8B).</p>

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																	
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																	
<b>Description:</b>																	
BLU-109 : The procurement of the BLU-109 is to maintain war reserve posture. The BLU-109 Penetrator is a 2,000 lb Bomb that is loaded with plastic bonded explosive (PBXN-109) to enhance its insensitive munitions performance.																	
BLU-110: The procurement is for expenditure replacement and to maintain war reserve. The BLU-110A/B is a 1,000 lb General Purpose Thermally Protected Bomb that is loaded with plastic bonded explosive (PBXN-109) to enhance its insensitive munitions performance.																	
BLU-111: The procurement is for expenditure replacement and to maintain war reserve. The BLU-111A/B is a 500 lb General Purpose Thermally Protected Bomb that is loaded with plastic bonded explosive (PBXN-109) to enhance its insensitive munitions performance.																	
FUZES: Provide Warhead initiation for LGBs (Laser Guided Bombs), DMLGBs (Dual Mode Laser Guided Bombs), JDAM (Joint Direct Attack Munitions), LJDAM (Laser Joint Direct Attack Munitions), General Purpose Bombs and BLU-109 Penetrator.																	
Direct Attack Moving Target Capability (DAMTC): The intent of this procurement is to address a capability requirement for DON fixed wing aircraft. This acquisition will ensure Navy and Marine Corps fixed wing aircraft have direct attack moving target capability. DAMTC will introduce the Adjustable Proximity Sensor (APS) capability in FY13, which provides a selectable weapon detonation altitude which enables a wider area coverage for weapon effect on target. (formerly known as Height of Burst Sensor (HOBS))																	
Extended Range Kit: Provides extended range standoff capability to address an identified capability requirement to precision guided weapons.																	
Guided Bomb Tailkits: Provides a guidance capability that converts unguided General Purpose bombs into accurate guided weapons capable of attacking a wide range of stationary, moving and maneuvering targets.																	
Bomb Subcomponents: The Bomb Subcomponents cost element procures Arming Wires, adapters, lugs, nose plugs and other components required for All Up Round (AUR) configurations.																	
Product Improvement Program (PIP): The PIP cost element funds efforts to support production and engineering services, manufacturing and installation to extend the useful military life of an item or to improve the item within the current performance envelope. Such improvements take advantage of technology insertion opportunities, improved design and other technical advances. The addition of these modifications provide improved safety, reduce environmental impact, improved reliability/maintainability/availability, decreased cost, and/or correction of deficiencies of general purpose bombs, bomb components, guidance kit components, fuze systems and sensors. The PIP also funds the incorporation of engineering design changes to address manufacturing, production and obsolescence issues to modify and improve weapon system reliability.

**Justification:**

FY12 provides funding to procure BLU-111, BLU-109, Direct Attack Moving Target Capability, Bomb Subcomponents and associated support.

FY13 provides funding to procure Direct Attack Moving Target Capability, Bomb Subcomponents and associated support.

FY13 includes \$18M of OCO funding to procure FMU-139 fuze (7,200 units).

FY14 provides funding to procure BLU-111, BLU-110, BLU-109, Bomb Subcomponents, Guided Bomb Tailkits, Hard Target Void Sensing Fuze and associated support.

FY14 includes \$11.4M of OCO funding to procure 123 units of Direct Attack Moving Target Capability (DAMTC)@ \$1.8M, 86 units of Laser Guided Bombs @ \$1.5M, 292 units of Guided Bomb Tail Kits @ \$7.0M, and 457 units of FMU-139 Fuze @ \$1.1M. This OCO funding is required for the replenishment of Guided Bombs and Fuzes that have been expended in direct support of combat operations. These operations were in support of Operation Enduring Freedom - Afghanistan.

**Footnotes:**

- (1) FY14 unit cost was updated for BLU-111, BLU-110, and BLU-109 based on Joint Munitions Command estimated pricing. The BLU-111, BLU-110, BLU-109 bombs are procured through the Single Manager for Conventional Ammunition process and contracted through the Joint Munitions Command. The 36 months production is a multi-phase approach which begins with the bombs being forged at General Dynamics Ordnance Tactical Systems and then shipped to the McAlester Army Ammunition Plant to be filled and packaged for shipment.
- (2) FY11 Q2192 BLU-110 procurement was decreased to meet an increase in NNOR requirements for FMU-143. The FY13 OCO unit cost for Q2032 FMU-139 Electrical Fuze will be updated for actuals during execution year.
- (3) FY12 Guided Bombs ILS increased to address emergent lens configuration modifications requirements.
- (4) FY12 Guided Bombs PES increased to address emergent lens configuration modifications requirements. Q2830 Guided Bombs PES support decreases from FY13 to FY14 due to the completion of the Operational Test & Evaluation and the program entering into full rate production.

**Footnotes:**

- <sup>(6)</sup> Production lead times for the BLU-111, BLU110, and BLU-109's have been extended to 36 months due to the incorporation of Insensitive Munitions (IM) configuration requirements and fluctuations in delivery schedules due to Multi-Service requirements.
- <sup>(7)</sup> Initial OCO funded allocation was intended to procure BSU-86's and BLU-109's. The OCO submission has been revised based on program requirement to procure solely BLU-109's.
- <sup>(8)</sup> Contract deliveries begin 12 months after contract award. No break in production.
- <sup>(9)</sup> Delivery schedule delays incurred due to Lot Acceptance Test failures.
- <sup>(10)</sup> This entry was inadvertently left off of previously submitted P5As.
- <sup>(11)</sup> Production characteristics for HTVSF not finalized. Price estimate provided.

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

<p><sup>#</sup> FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012</p> <p><sup>##</sup> This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013</p> <p><b>Description:</b>            Procurements are to establish an inventory of rocket components in accordance with the Non-Nuclear Ordnance Requirement and to maintain those inventory levels as training and combat usage occurs. 2.75-inch and 5.00-inch rockets are employed by both rotary and fixed wing platforms across several mission areas. Current employment typically includes the Close Air Support and Military Operations in Urban Terrain missions.</p> <p>The miscellaneous items (Q5871) provide for procurement of various rocket components not to exceed a total cost of 500K per year per component.</p> <p>Product improvements address deficiencies in the safety, reliability, producibility and address the aircraft interface issues of the production of Airborne Rocket Systems. Specific projects include reliability improvements, insensitive munitions improvements to the rocket motors, safety improvements to warheads, and improving the interface between the rocket launcher and the host platform.</p> <p><b>ADVANCED PRECISION KILL WEAPON SYSTEM (APKWS):</b> APKWS was an Army SD&amp;D program to develop a low cost Semi Active Laser (SAL) precision guidance section for existing 2.75-inch unguided rockets. APKWS II will provide an inexpensive, small, lightweight, precision-guided weapon that is effective against soft and lightly armored targets which enhances crew survivability with increased standoff range. Through addition of a mid-body guidance section, APKWS II offers precision, maximum stored kills per aircraft sortie, minimum collateral damage potential, and increased effectiveness over legacy unguided rockets. The guidance package can be assembled with existing unguided rocket components (warhead and rocket motor) and can be fired from 2.75-inch rocket launchers. The SD&amp;D program was completed in 3Q FY10. APKWS II received MS C approval in April 2010. Full Rate Procurement Decision approved 3Q FY12.</p> <p>Initial operational capability was declared in March 2012 in Afghanistan supporting Operation Enduring Freedom.</p> <p>The 2.75-inch M282 Multi Purpose Penetrator (MPP) warhead will provide USMC aircrew and ground commanders greatly enhanced weaponeering options to engage targets protected by urban and cave environments. This warhead provides a low-cost penetrator warhead in urgent need in the current fight in Afghanistan and Iraq and will directly improve aviation fire support to the Marine Air-Ground Task Force now and in the future.</p>

<b>MDAP/MAIS Code(s):</b> The MK152 10lb warheads with the MK435 fuzes is an improvement over the M151 10lb warhead in Insensitive Munitions (IM) reactions. The IM improvements increase safety and will allow for fewer restrictions on shipboard operations. These warheads are required for shipboard operations with APKWS II.  Funding for the 2.75 Inch Rocket Launchers include the LAU-61 G/A Digital Rocket Launcher (DRL) and LAU-68 F/A.

*Item Nomenclature represents Item Number, DODIC, and Item Name for the P40A and P5; Name for the P18 and P23; Modification Number and Modification Title for the P3A; Item Number and Item Name for the P10.																							
Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.																							
<b>Justification:</b> FY12 Baseline funding will be used to procure: MK 66 (Mod 4) Rocket Motors, WTU-1/B Inert Warheads, MK-149 Warheads, M282 (MPP) Warheads, MK152 Warheads, and APKWS II Guidance and Control (G&C) Sections. FY12 Baseline funding will also fund Production Engineering Support (PES) and Integrated Logistics Support (ILS) for the procured items.																							
FY13 Baseline funding will be used to procure: MK 66 (Mod 4) Rocket Motors, WTU-1/B Inert Warheads, MK-149 Warheads, M282 (MPP) Warheads, MK152 Warheads, APKWS II Guidance and Control (G&C) Sections, MK-71 Rocket Motors, Smokey Sams, MK-66 (Mod 6) Rocket Motors, MK-146 HE Warheads, WTU-11/B Inert Warheads, LAU-68 F/A Rocket Launchers, and required Containers. FY13 Baseline funding will also fund Production Engineering Support (PES) and Integrated Logistics Support (ILS) for the procured items.																							
FY14 Baseline funding will be used to procure: MK 66 (Mod 4) Rocket Motors, WTU-1/B Inert Warheads, MK-149 Warheads, M282 (MPP) Warheads, MK152 Warheads, APKWS II Guidance and Control (G&C) Sections, MK-71 Rocket Motors, Smokey Sams, MK-66 (Mod 6) Rocket Motors, MK-146 HE Warheads, WTU-11/B Inert Warheads, LAU-61 G/A Rocket Launchers, and required containers. FY14 Baseline funding will also fund Production Engineering Support (PES) and Integrated Logistics Support (ILS) for the procured items.																							
Procurement of two (2) different rocket launchers in PB14 is required to support unique combat capabilities associated with the mission requirements of 2 separate helicopter platforms.																							
The LAU-61 G/A, a 19-tube digital rocket launcher, is being qualified to support execution of the FAC/FIAC mission from Navy MH-60R/S helicopter variants. The launcher permits employment of unguided 2.75-inch rockets and Advanced Precision Kill Weapon System II (APKWS II) rockets with capability to support future guided rockets.																							
The LAU-68 F/A, a 7-tube rocket launcher, is currently only qualified to fly on U.S. Marine Corps AH-1W and UH-1Y helicopter variants and enables engagement of land and littoral threats in support of maneuvering ground forces. Launcher capability permits the employment of APKWS II rockets only.																							
FY12 OCO funding will be used to procure: MK 66 Rocket Motor (Mod 4), WTU-1/B inert Warhead, M282 (MPP), MK152 Warhead and APKWS Guidance and Control (G&C) Section.

† Delivery rows marked with the ♦ symbol indicate that they are funded through a separate Line Item. See the respective components' exhibits for details, including the full delivery schedule.

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

**Footnotes:**

(9) MSR will be met with purchases from the Army

(14) Break in delivery is due to late contract award, there is no break in production

(15) First 2 deliveries are to be used for Lot Acceptance Testing (LAT)

(16) 2 Lot Acceptance Testing units are used for live fire tests every other month prior to the acceptance of 160 units.

(17) 2 Lot Acceptance Testing units are used for live fire tests every other month prior to the acceptance of 160 units.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																				
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																				
<b>Description:</b>																				
This line funds procurement of 20MM/25MM ammunition used with various aircraft gun systems and includes integrated logistics, product engineering support and product improvement programs. The ammunition procurements fall into two categories: Target Practice (TP) and High Explosive Incendiary (HEI). The TP rounds are used for training and also include Target Practice - Tracer (TP-T) rounds. The HEI rounds are used for warfighting and also include Semi Armor Piercing High Explosive Incendiary (SAPHEI) rounds. 20MM rounds are procured in both linkless and linked configurations. The linkless (or bulk) rounds are used in the M61A1/A2 Gun Systems in the F/A-18 aircraft and the M197 Linkless Feed Gun System on the AH-1Z aircraft. The linked rounds are used in the M197 gun on AH-1W aircraft and MH60 aircraft for the FFFW. 25MM rounds are procured in the linkless configuration and are used in the GAU-12 Gun System in the AV-8B aircraft GAU-22 in the F-35B/C aircraft. 30MM rounds are procured in the linked configuration and are used in the MK-44 Gun System on the KC-130J aircraft. All 20MM/25MM/30MM ammunition is procured by the Joint Munitions Command, Rock Island, Illinois and Naval Surface Warfare Center, Indian Head Detachment, Picatinny, New Jersey. Due to Base Realignment and Closure (BRAC) inert rounds are procured through Naval Surface Warfare Center, Indian Head, Maryland, instead of Crane, Indiana.																				
<b>Item Schedule</b>			<b>Prior Years</b>			<b>FY 2012</b>			<b>FY 2013</b>			<b>FY 2014 Base</b>			<b>FY 2014 OCO</b>		<b>FY 2014 Total</b>

<b>Exhibit P-40, Budget Item Justification Sheet:</b> PB Amended 2014 Navy		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1508N: Procurement of Ammo, Navy & MC / BA 01: Proc Ammo, Navy / BSA 1: Navy Ammunition		<b>P-1 Line Item Nomenclature:</b> 0155 - Machine Gun Ammunition
<b>ID Code</b> (A=Service Ready, B=Not Service Ready) : A	<b>Program Elements for Code B Items:</b>	<b>Other Related Program Elements:</b>
<b>MDAP/MAIS Code(s):</b>		
Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.		
<b>Justification:</b> FY 12 provided funding to procure 20MM Linkless TP, PGU-27; 20MM Linkless HEI, PGU-28; 20MM Linked TP PGU-27; 20MM Linked, HEI, PGU-28; 20MM Linkless TP-T; 25MM Linkless TP; 25MM Linkless, HEI; Inert rounds. FY 13 provides funding to procure 20MM Linkless TP, PGU-27; 20MM Linkless HEI PGU-28; 20MM Linked TP, PGU-27; 20MM Linked, HEI, PGU-28; 20MM Linkless TP-T; 25MM Linkless TP; 25MM Linkless, HEI; Inert rounds; 30MM Linked TP; 30MM Linked HEI. FY 14 provides funding to procure 20MM Linkless TP, PGU-27; 20MM Linkless HEI PGU-28; 20MM Linked TP, PGU-27; 20MM Linked, HEI, PGU-28; 20MM Linkless TP-T; 25MM Linkless TP; 25MM Linkless, HEI; Inert rounds; 30MM Linked TP; 30MM Linked HEI.  FY 12 OCO provided funding to procure 20MM Linkless TP, PGU-27; 20MM Linked TP, PGU-27; 25MM Linkless, HEI. FY 13 OCO provides funding to procure 20MM Linkless TP, PGU-27; 20MM Linkless HEI, PGU-28; 25MM Linkless TP; 25MM Linkless HEI. FY 14 OCO provides funding to procure 20MM Linkless HEI PGU-28. This OCO funding is required for the replenishment of ammunition that has been expended in direct support of combat operations as well as OCO related/theater unique training events. These operations/events were in support of Operation Enduring Freedom - Afghanistan.  A decrease in funding from FY 13 to FY 14 is the result of less ammunition buys, consequently reducing production engineering.

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

**Footnotes:**

(5) Overlap in FY2011 and FY2012 deliveries is due to a late contract award in FY2011.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																	
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																	
<b>Description:</b>																	
The Airborne Expendable Countermeasures (AECM) line provides funding for procurement of countermeasure self-protection devices for all DoN and Marine Corps tactical, rotary and other fixed-wing aircraft. The AECM Program is divided into the following threat related groupings: (a) air-launched chaff, (b) Radio Frequency (RF) Active Jammers, (c) Infra-Red (IR) decoys, (d) associated impulse cartridges, (e) F-35 Countermeasures, and (f) support costs.																	
Chaff Countermeasures: The RR-129/A is the operational round used on all Navy platforms. Procurement of RR-144A training rounds is in support of all airframes except the USMC KC-130J/T. The RR-144A is a dedicated training round that does not interfere with Federal Aviation Administration (FAA) tracking radars. The RR-170A is the operational round procured in support of the KC-130J/T and UC-35D.																	
Active Jammers: The Advanced Airborne Expendable Decoy (AAED), part of the ALE-50 program, is being replaced by the ALE-55 Fiber Optic Towed Decoy (FOTD). The FOTD, when integrated with the rest of the																	
F/A-18E/F EW suite (i.e., ALQ-214, ALR-67(V)3, ALE-47 and ALE-50), the associated cockpit controls, displays and other avionics significantly improves the survivability of the host aircraft in a Radio Frequency (RF) threat environment. The FOTD is part of the Integrated Defensive Electronic Countermeasure (IDECM) Radio Frequency Countermeasure (RFCM) Block 3 (IB-3) program. ALE-55 Milestone (MS) III was conducted July 2011. Initial operational capability (IOC) was achieved July 2011. AAED and FOTD were developed utilizing RDT&E,N PE 0604270N, Project Unit 2175. The GEN-X active RF decoy is dispensed from the ALE-47 system and protects all Navy and Marine Corps fixed wing aircraft from modern surface-to-air and air-to-air threats.																	
IR Decoys: The MJU-49/32/38 are currently used by all aircraft except the KC130J/T to provide self protection from surface to air/air to air Infra-Red missiles. The MJU-61 and MJU-64 are used on the KC-130 aircraft to provide self protection from surface to air/air to air Infra-Red missiles. The SM-875 is a dedicated, low cost-training device. The MJU-57 provides a kinematic Infra-Red Countermeasure. Procurement of advanced spectral countermeasures (MJU-66) will begin in FY 2013 in support of KC-130J/T and UC-35D. The MJU-67 provides an enhanced spectral signature which will improve decoy effectiveness.																	
Impulse Cartridges: Used to propel the self-protection devices away from the aircraft. The CCU-136A/A is used by all airframes except the KC-130J and UC-35. The CCU-145A is used on KC-130J and UC-35 square expendables.																	
F-35 Countermeasures: This grouping includes all unique countermeasures that provide self protection for the Joint Strike Fighter (JSF) aircraft, specifically ALE-70, MJU-68, MJU-69 and CCU-168.																	
Support costs: Provide for required Production Engineering, Product Improvement, Quality Assurance, Acceptance Test and Evaluation, and Integrated Logistic Support by NAVAIR engineering/cognizant field activities.

Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.																				
<b>Justification:</b> FY14 provides funding to procure Active Jammers, IR Decoys, Impulse Cartridges, Chaff Countermeasures, F-35 Countermeasures, and associated support.																				
FY13 provides funding to procure Active Jammers, IR Decoys, Impulse Cartridges, Chaff Countermeasures and associated support.																				
FY12 provides funding to procure Active Jammers, Infrared (IR) Decoys, Impulse Cartridges, Chaff Countermeasures and associated support.																				
FY14 OCO funding will be used to procure several various countermeasures items. This OCO funding is required for the replenishment of countermeasures self-protection devices that have been expended in direct support of combat operations. These operations are in support of Overseas Contingency Operations within Afghanistan, Horn of Africa and Strait of Hormuz.																				
Overseas Contingency Operations (OCO): All OCO funding is being used to procure countermeasure items as follows (dollars in thousands):

<b>Footnotes:</b>																			
(1) (a) Unit costs for hardware in FY13 have been revised from PB-13 and reflect either escalated actual unit cost in FY12 or actual pricing in contract options. The new quantities generated by these revised unit costs still result in inventory levels that are below those of the Non-nuclear Ordnance Requirement (NNOR). (b) Deliveries funded by different fiscal year appropriations occasionally overlap (P21 Delivery Schedule) to ensure inventory goals are met without exceeding maximum production rates.																			
(2) ALE-55: Production quantities and costs were adjusted to reflect the actual negotiated contract unit cost as of December 2012. Quantities will be adjusted accordingly as supported by the budget until the inventory objective is achieved. FY12 and FY13 (FRP 2/3) was a combined contractual procurement of 569 units in order to obtain a lower unit cost based on revised contractor pricing achieving economies of scale of two fiscal years vice a single fiscal year. FY14 (FRP 4) is a stand alone contractual procurement of 277 units resulting in higher unit cost.																			
(3) FY 2014 Technical support (Active Jammer) was added to reflect Prime Contractor support for ALE-55 Fiber Optic Tow Decoy (FOTD) end item. Changes made to delineate between Government and Prime Contractor support.																			
(4) Lower unit cost in FY13 for MJU-32's reflect step ladder pricing for increased quantities based on contract award May 2012.																			
(5) FY13 has been adjusted for current execution plan. In FY13 only, MJU-49 quantity was reduced to meet POM14 Non Nuclear Ordnance Requirement (NNOR) inventory objective. Decrease in combat requirement quantities approved by War Council on 28 JAN 2013.																			
(6) RR-129 line item added in accordance with new start notification letter submitted in May 2012.																			
(7) (a) F-35 FY14 baseline budget transfer from F-35 APN-1 (BLIs 014700 and 015200) to DoN PANMC. (b) The F-35 grouping has been re-designated "F-35 Countermeasures" and new nomenclatures have been assigned to cost elements under this grouping. (c) F-35 Prior Years - Total Cost increase due to 2012 Internal Reprogramming processed for \$15.640M APN-1 transfer to PANMC funded by JSFPO with prior year (FY11) appropriation.																			
(8) ALE-70 unit costs have been updated to reflect the actual contract negotiated costs as of 23 May 2013.																			
(9) FY13 increases for 6.2 (ILS IR Decoys) due to MJU-32 failures at Kilgore Flares requiring processing of Class II ECP's to resolve quality and safety issues. (DCMA is tracking Kilgore as a high risk company for safety and quality).																			
(10) FY13 increases for 7.2 (PES IR Decoys) due to MJU-32 failures at Kilgore Flares requiring significant increases in production engineering to resolve quality and safety issues. (DCMA is tracking Kilgore as a high risk company for safety and quality).

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																	
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																	
<b>Description:</b>																	
<b>PROGRAM DESCRIPTION/JUSTIFICATION:</b>																	
The OSGA program consists of 40 medium caliber types of gun ammunition (20MM, 25MM, 30MM, 40MM). This supports Navy ships, and active and reserve ashore warfare forces including Naval Expeditionary Combat Command (NECC), mobile security forces (MSF), fleet combat readiness groups, inshore undersea warfare groups and several other type of operational units. Program includes support for emergent anti-terrorism/force protection and homeland defense requirements.																	
<b>AG100/AG200 - PROCUREMENT</b>																	
The funds are required to procure components, load and assemble complete rounds and conduct acceptance tests. Costs associated with Transportation Account Code (TAC) are for first destination of delivery of production items. Unit costs and quantities will be adjusted during year of execution.																	
<b>AG830 - PRODUCTION ENGINEERING</b>																	
Funds requested provide engineering support for items procured in same fiscal year. Support efforts include analysis of producibility and production operations; preparation, test and technical evaluation of engineering changes to correct deficiencies in the production item; preparation, test and technical evaluation of waivers and deviations; value engineering; review and evaluation of production design data and documentation; production configuration control; and other related engineering functions which are integral to an item's manufacture.																	
<b>AG850 - PRODUCT IMPROVEMENT</b>																	
The requested funds provide engineering services and related effort by the producing contractor or manufacturing installation to extend the useful military life of an item or to improve the item within the current performance envelope. Typically, such improvements take advantage of technology refresh of the materials, progress in the state-of-the-art, improved design and other technical advances to provide improved safety, reduced environmental impact, improved reliability/maintainability/availability, decreased cost, and/or correction of deficiencies exclusive of contractual specifications.																	
<b>AG894 - GAUGE REQUIREMENTS</b>																	
These funds are required to procure the gauges and test equipment necessary to check critical dimensions/parameters of ammunition items and their parts. This is to assure proper mating of parts and subassemblies, assure correct interfacing between the ammunition and guns, and proper ammunition performance.																	
<b>AG895 - NON-STANDARD ITEMS</b>																	
The non-standard line is to support procurement of ammunition training aids and initial procurements of required non type classified munition items.

AGNSW - PROCUREMENT The funds are required to procure components, load and assemble complete rounds and conduct acceptance tests. Costs associated with Transportation Account Code (TAC) are for first destination of delivery of production items for Naval Special Warfare Navy common items. Unit costs and quantities will be adjusted during year of execution.																													
NS830 - PRODUCTION ENGINEERING Funds requested provide engineering support for items procured in same fiscal year. Support efforts include analysis of producibility and production operations; preparation, test and technical evaluation of engineering changes to correct deficiencies in the production item; preparation, test and technical evaluation of waivers and deviations; value engineering; review and evaluation of production design data and documentation; production configuration control; and other related engineering functions which are integral to an item's manufacture. All ammo procured with these funds is procured through the Single Manager Conventional Ammunition (SMCA) and the most recent SMCA standard/non-standard price list has been used in pricing the ammo.

**Footnotes:**

- (1) FY2014 AB51 unit cost increase attributed to non-binding pricing information received during market research conducted in April 2012.
- (2) FY2013 unit cost assumes AA90 will be part of a combined medium caliber ammunition procurement via the SMCA.
- (3) sjlkfdjslkjd
- (4) FY2014 AA61 unit cost increase attributed to first article test cost associated with new production contract.
- (5) Additional production engineering required in FY2014 to support the award of new competitive contracts (20MM, 25MM, and 30MM).

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012													
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013													
<b>Description:</b>													
PROGRAM DESCRIPTION/JUSTIFICATION:													
This program provides ammunition in support of active Navy ships and for active and reserve ashore warfare forces.													
AH100 - PROCUREMENT													
Procure components, load and assemble complete rounds and conduct acceptance tests. Costs associated with Transportation Account Code (TAC) are for first destination of delivery of production items. Unit costs and quantities will be adjusted during year of execution.													
AH830 - PRODUCTION ENGINEERING													
Provide engineering support for items procured in same fiscal year. Support efforts include analysis of producibility and production operations; preparation, test and technical evaluation of engineering changes to correct deficiencies in the production item; preparation, test and technical evaluation of waivers and deviations; value engineering; review and evaluation of production design data and documentation; production configuration control; and other related engineering function which are integral to an item's manufacture.													
AH895 - NON-STANDARD ITEMS													
The non-standard line is to support procurement of ammunition training aids and initial procurements of required non type classified munition items.													
AH350 - MATCH AMMUNITION													
Special Ammunition required to support Navy approved marksmanship competition matches.													
AHG86 - OVERSEAS CONTINGENCY OPERATIONS (OCO) SUPPLEMENTAL													
Ammunition being procured with OCO funding.													
AH893 - RENOVATION COMPONENTS													
The items purchased with funds identified for renovation components will be used to upgrade unserviceable rounds to ready-for-issue condition. The rounds to be renovated will be those with the lowest asset readiness positions.													
AHNSW - PROCUREMENT

\*Item Nomenclature represents Item Number, DODIC, and Item Name for the P40A and P5; Name for the P18 and P23; Modification Number and Modification Title for the P3A; Item Number and Item Name for the P10.

Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.

**Justification:**

House Report 112-331 cited the wrong P1# for -5,780K reduction. Reduction taken against Line Item 1000 Small Arms Ammunition. Funds were restored during execution year (FY12).

**EXPLANATIONS OF MAJOR CHANGES FROM PB13 TO PB14 (FY14):**

5.3(A059) CTG, 5.56MM M855 - Decreased buy. Due to change in requirements funds were applied to A557 and A576 procurements.

PB13 SUBMIT: .40/UNIT COST

17600000/QTY

\$7.040/TOTAL COST

PB14 SUBMIT: .41/UNIT COST

(4) FY2014 A059 unit cost increase attributed to lower quantities and First Article Acceptance Testing associated with new vendor.																			
(5) FY2014 G878 unit cost attributed to lower procurement quantity.																			
(6) G940 FY12 - \$31.35 (SMCA procurement/pricing) FY14 - \$45 (USMC procurement) - new contract pricing for FY13. Contract awarded in FY12. Rationale: The Navy transitioned from procuring grenades from the Army due to longer production deliveries, and high engineering support costs.																			
(7) G945 FY11 - \$39.60 (SMCA procurement/pricing) FY13 - \$49.60 (USA price based on POM-13 pricing). USMC price of \$45 will be executed in FY13 and beyond.																			
(8) FY2014 A011 unit cost attributed to lower procurement quantity.																			
(9) FY2014 A091 unit cost attributed to lower procurement quantity.																			
(10) FY2014 AA53 unit cost increase attributed to lower quantities and First Article Acceptance Testing associated with new vendor.																			
(11) FY2014 unit cost attributed to larger procurement quantity.

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
This program provides pyrotechnics and demolition materials for all active naval vessels, construction battalions, mobile diving and salvage units, cargo handling and port groups, naval security groups, and explosive ordnance disposal groups/mobile units/detachments/teams. This program also provides materials to support the ship shock test program.												
Pyrotechnics are required to support the surface, air, ground, and underwater Navy requirements. These items consist of illumination, signaling, identification, and location devices using flare or smoke as the primary signaling agent.												
Pyrotechnics are used for training, combat exercises, submarine rescue and personnel search and rescue operations. Demolitions consist of explosive devices and accessories and are required for fleet units to perform training functions and operations/requirements. Fleet requirements are based upon CNO approved allowance lists for special needs on a case by case basis and worldwide fleet expenditure.												
<b>AJ100 - PROCUREMENT</b>												
Procure components, load and assemble complete rounds and conduct acceptance tests. Costs associated with Transportation Account Code (TAC) are for first destination of delivery of production items. Unit costs and quantities will be adjusted during the year of execution.												
<b>AJ830 - PRODUCTION ENGINEERING</b>												
Provide engineering support for items procured in same fiscal year. Support efforts include analysis of producibility and production operations; preparation, test and technical evaluation of engineering changes to correct deficiencies in the production item; preparation, test and technical evaluation of waivers and deviations; value engineering; review and evaluation of production design data and documentation; production configuration control; and other related engineering function which are integral to an item's manufacture.												
<b>AJ850 - PRODUCT IMPROVEMENT</b>												
Provides engineering services and related efforts by the producing contractor or manufacturing installation to extend the useful military life of an item or to improve the item within the current performance envelope. Typically, such improvements take advantage of technology refresh of the materials, progress in the state-of-the-art, improved design and other technical advances to provide improved safety, reduced environmental impact, improved reliability/maintainability/availability, decreased cost, and/or correction of deficiencies exclusive of contractual specifications.

Exhibit P-40, Budget Item Justification Sheet: PB Amended 2014 Navy								Date: May 2013										
Appropriation / Budget Activity / Budget Sub Activity:				P-1 Line Item Nomenclature:														
1508N: Procurement of Ammo, Navy & MC / BA 01: Proc Ammo, Navy / BSA 1: Navy Ammunition				0340 - Pyrotechnic and Demolition														
ID Code (A=Service Ready, B=Not Service Ready) : A			Program Elements for Code B Items:				Other Related Program Elements:											
<b>MDAP/MAIS Code(s):</b>																		
AJ893- RENOVATION COMPONENTS The items purchased with funds identified for renovation components will be used to upgrade unserviceable rounds to ready-for-issue condition. The rounds to be renovated will be those with the lowest asset readiness positions.																		
AJ894- GAUGE REQUIREMENTS Procure the gauges and test equipments necessary to check critical dimensions/parameters of ammunition items and their parts. This is to assure proper mating of parts and sub-assemblies, assure correct interfacing between the ammunition and guns, and proper ammunition performance.																		
AJ895- NON-STANDARD ITEMS The non-standard line is to support procurement of ammunition training aids and initial procurements of required non-type classified munition items.																		
AJG86 - OVERSEAS CONTINGENCY OPERATIONS (OCO) SUPPLEMENTAL Ammunition being procured with OCO funding.																		
AJNSW - PROCUREMENT Procure components, load and assemble complete rounds and conduct acceptance tests. Costs associated with Transportation Account Code (TAC) are for first destination of delivery of production items for Naval Special Warfare service common items. Unit costs and quantities will be adjusted during the year of execution.																		
NS830 - PRODUCTION ENGINEERING Provide engineering support for items procured in same fiscal year. Support efforts include analysis of producibility and production operations; preparation, test and technical evaluation of engineering changes to correct deficiencies in the production item; preparation, test and technical evaluation of waivers and deviations; value engineering; review and evaluation of production design data and documentation; production configuration control; and other related engineering function which are integral to an item's manufacture.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																			
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																			
<b>Description:</b>																			
Marine Location Markers include both air-launched and hand-launched pyrotechnic devices. The aircraft launched units visually assist in the location of sonobouys during anti-submarine operations. The hand launched units are used in a variety of situations to include Search And Rescue operations, Man Overboard drills and Target Marking. The MK-58 was designed for day or night use in any condition calling for long burning, smoke and flame reference-point marking on the ocean. It produces yellow flame and white smoke for 40-60 minutes which is visible for at least three miles under normal operating conditions.																			
The LUU-19 aircraft parachute flare is used for near infrared nighttime illumination of surface areas in search and attack operations. They are 36 inches long, 4.9 inches in diameter and weigh approximately 36 pounds and provide 7 minutes illumination at approximately 650 watts/steradian in the infrared region.

<b>Exhibit P-40, Budget Item Justification Sheet:</b> PB Amended 2014 Navy		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1508N: Procurement of Ammo, Navy & MC / BA 01: Proc Ammo, Navy / BSA 1: Navy Ammunition		<b>P-1 Line Item Nomenclature:</b> 0400 - Ammunition less than \$5 million
<b>ID Code</b> (A=Service Ready, B=Not Service Ready) : A	<b>Program Elements for Code B Items:</b>	<b>Other Related Program Elements:</b>
<b>MDAP/MAIS Code(s):</b>		
<b>Justification:</b> The FY 2012 baseline provides funding for MK-58 marine location marker and other support costs which include procurement of non-standard items, renovation components, and Product Improvement Program (PIP) efforts. The PIP efforts are required to improve the safety and reliability of marine location markers and parachute flares.  The FY 2013 baseline provides funding for MK-58 marine location marker, LUU-19 parachute flares procurement, and other support costs which include procurement of non-standard items, renovation components, and Product Improvement Program (PIP) efforts. The PIP efforts are required to improve the safety and reliability of marine location markers and parachute flares.  The FY 2014 baseline provides funding for MK-58 marine location marker, LUU-19 parachute flares procurement, and other support costs which include procurement of non-standard items, renovation components, and Product Improvement Program (PIP) efforts. The PIP efforts are required to improve the safety and reliability of marine location markers and parachute flares.  The FY 2012 Overseas Contingency Operations (OCO) funding (\$6M) provides approximately 4,000 LUU-19 aircraft parachute flares.  The FY 2013 OCO funding (\$6.3M) provides approximately 4,000 LUU-19 aircraft parachute flares and associated support costs.  The FY 2014 OCO (\$7.7M) funding provides approximately 4,800 LUU-19 aircraft parachute flares. This OCO funding is required for the replenishment of components that have been expended in direct support of combat operations. These operations were in support of Operation Enduring Freedom - Afghanistan.

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																			
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																			
<b>Description:</b>																			
The Small Arms Ammunition BLIN consists of a family of 9mm, 5.56mm, 7.62mm, 12 gauge, caliber .45 and .50 munitions. Small arms ammunition in general is described as a cartridge or a family of cartridges that their intended use is in various types of crew-served/mounted weapons, hand-held pistols, or shoulder fired rifles, ranging from .22 caliber to .50 calibers weapons. A small arms cartridge is an assembly consisting of a cartridge case, a primer, a quantity of propellant, and a bullet.

<b>MDAP/MAIS Code(s):</b>		
procured the 9mm Ball M882; \$0.036M funded ESIP cost for the Caliber .45 Ball M1911; \$6.829M procured the Caliber .50 4 API M8/1 API-T M20 Linked; \$1.000M procured Caliber .50 Blank M1A1 Linked; \$1.000M procured the 5.56mm Jacketed Frangible; \$2.404M procured the 5.56mm FX Blue Marking Linked; \$4.000M procured the Caliber .50 Reduced Range 4 Ball/1 Tracer Linked; \$3.830M procured the Caliber .50 Reduced Range Ball Linked; \$0.100M procured the 9mm Blank Single Round. All of these items are in the training and combat requirements that have been identified in the Total Munitions Requirement (TMR).		
FY 2012 Overseas Contingency Operations (OCO) Request \$20.580M: \$5.856M procured the 7.62mm 4 Ball M80/1 Tracer M62 Linked; \$0.088M procured the 9mm Ball M882; \$14.636M procured the Caliber .50 4 API M8/1 API-T M20 Linked; for replenishment of munitions that have been expended by Marine forces during preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures.		
FY 2013 Base Appropriation Request \$83.733M: \$0.250M procures the 12 Gauge No. 9 Shot; \$0.250M procures the 12 Gauge 1 Ounce Slug Commercial; \$32.835M procures the 5.56mm NATO Ball M855 10/Clip; \$4.794M procures the 7.62mm 4 Ball M80/1 Tracer M62 Linked; \$4.035M procures the 7.62mm Ball M80 Linked; \$0.300M procures the Caliber .30 Blank M1909; \$16.128M procures the Caliber .50 4 API M8/1 API-T M20 Linked; \$0.503M procures the 9mm Red Marking; \$0.785M procures the 9mm Blue Marking; \$0.101M procures the 5.56mm Jacketed Frangible; \$0.399M procures the 12 Gauge Door Breaching MK246 Mod 0; \$0.270M procures the 5.56mm Short Range Training Ammunition (SRTA) M862; \$1.127M procures the 5.56mm FX Blue Marking Linked; \$1.169M procures the 5.56mm FX Red Marking Linked; \$2.056M procures the 5.56mm FX Blue Marking; \$2.482M procures the 5.56mm FX Red Marking; \$10.955M procures the Caliber .50 Reduced Range 4 Ball/1 Tracer Linked; \$2.619M procures the Caliber .50 Reduced Range Ball Linked; \$0.132M procures the 9mm Blank Single Round; \$0.411M procures the 7.62mmx39 Ball Foreign Non-Standard Ammunition; \$2.132M procures the 7.62mmx54R Ball Foreign Non-Standard Ammunition. All of these items are in the training and combat requirements that have been identified in the Total Munitions Requirement (TMR).		
FY 2013 Overseas Contingency Operations (OCO) Request \$10.948M: \$3.596M procures the 5.56mm NATO Ball M855 10/Clip; \$3.466M procures the 7.62mm 4 Ball M80/1 Tracer M62 Linked; \$0.021M procures the 9mm Ball M882; \$3.865M procures the Caliber .50 4 API M8/1 API-T M20 Linked; for replenishment of munitions that have been expended by Marine forces during preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures.		
FY 2014 Base Appropriation Request \$26.297M: \$0.100M will procure the 7.62mm Blank M82 Single Round; \$0.100M will procure the 7.62mm Dummy; \$0.150M will procure the Caliber .45 Ball M1911 Match; \$0.523M will procure the Caliber .50 Ball M2/M33 Single Round; \$0.514M will procure the Caliber .50 4 API M8/1 API-T M20 Linked; \$0.211M will procure the 9mm Frangible MK254-0; \$0.100M will procure the 5.56mm Special Match Molybdenum Coated; \$1.020M will procure the 5.56mm FX Blue Marking Linked; \$1.033M will procure the 5.56mm FX Red Marking Linked; \$2.753M will procure the 5.56mm FX Blue Marking; \$2.058M will procure the 5.56mm FX Red Marking; \$14.415M will procure the Caliber .50 Reduced Range 4 Ball/1 Tracer Linked; \$2.822M will procure the Caliber .50 Reduced Range Ball Linked; \$0.147M will procure the 9mm Blank Single Round; \$0.351M will procure the 7.62mmx39 Ball Foreign Non-Standard Ammunition. All of these items are in the training and combat requirements that have been identified in the Total Munitions Requirement (TMR).		
FY 2014 Overseas Contingency Operations (OCO) Request \$13.461M: \$2.812M will procure the 5.56mm Blank M200 Single Round; \$0.139M will procure the 7.62mm Ball M80 Linked; \$2.716M will procure the 9mm Ball M882; \$0.087M will procure the Caliber .45 Ball M1911 Match; \$0.594M will procure the Caliber .50 Ball M2/M33 Single Round; \$5.147M will procure the Caliber .50 4 API M8/1 API-T M20 Linked; \$0.649M will procure the 5.56mm Special Match Molybdenum Coated; \$0.099M will procure the 5.56mm FX Red Marking; \$1.218M will procure the Caliber .50 Reduced Range 4 Ball/1 Tracer Linked; for replenishment of munitions that have been expended by Marine forces during preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures. FY14 funding supports Operation Enduring Freedom - Afghanistan (OEF-A).

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																				
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																				
<b>Description:</b>																				
The Linear Charge Family consists of demolition systems capable of defeating the enemy's counter mobility efforts. The Mine Clearing Linear Charge (MICLIC) provides a clear path, up to 15 yards wide by 109 yards long, for combat vehicles during minefield and barrier-breaching operations. They are effective against single-impulse, pressure-type, non-blast-hardened anti-tank mines and mechanically actuated anti-personnel mines. The Mk22, a 5-inch rocket motor, is used to propel the MICLIC over the minefield. The Anti-Personnel Obstacle Breaching System (APOBS) provides the Marine Corps with an improved, lightweight, man-portable capability to quickly breach anti-personnel minefields and wire obstacles. The APOBS requires less than two minutes to set up and deploy and is launched from a standoff of about 35 yards in front of the leading edge of the obstacle or minefield. The system is designed to clear a footpath through anti-personnel minefields and wire obstacles up to 45 yards long and 2 yards wide during combat operations. The APOBS is a self-contained, one-shot expendable system that is transported in two backpacks, each weighing approximately 60 pounds, and deployed by a two-man team. APOBS uses the Mk126 Mod 1 rocket motor to propel a line charge over the obstacle, after which the line charge will detonate following an eight-second delay, clearing the obstacle or anti-personnel minefield.

<b>MDAP/MAIS Code(s):</b>		
<b>Justification:</b> FY 2012 Base Appropriation Request: \$17.660M. \$0.649M is to procure and support the 5" rocket motor, \$1.202M is to procure the linear demo high explosive charge, \$15.809M is to support the anti-personnel obstacle breeching system (APOBS). All of these items are in the training and combat requirements that have been identified in the Total Munitions Requirement (TMR).  FY 2012 Overseas Contingency Operations (OCO) Request: \$11.522M is to procure the linear demo high explosive charge that has been expended by Marine forces during preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures.  FY 2013 Base Appropriation Request: \$11.635M is to procure the linear demo high explosive charge and \$13.010M is to support the anti-personnel obstacle breeching system (APOBS). All of these items are in the training and combat requirements that have been identified in the Total Munitions Requirement (TMR).  FY 2013 Overseas Contingency Operations (OCO) Request: \$9.940M. \$4.970M is to procure the linear demo high explosive charge and \$4.970M is to support the anti-personnel obstacle breeching system (APOBS) that have been expended by Marine forces during preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures.  FY 2014 Base Appropriation Request: \$5.000M is to support the linear demo high explosive charge and \$1.088M is to support the anti-personnel obstacle breeching system (APOBS). All these items are in the training and combat requirements that have been identified in the Total Munitions Requirement (TMR).  FY 2014 Overseas Contingency Operations (OCO) Request: \$3.310M is to support the anti-personnel obstacle breeching system (APOBS) that have been expended by Marine forces during preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures. FY14 funding supports Operation Enduring Freedom - Afghanistan (OEF-A).

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																			
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																			
<b>Description:</b>		The family of 40mm cartridges consists of low velocity single cartridges designed to be fired from the M203 and M32 grenade launchers, and high velocity linked cartridges designed to be fired from the MK19 grenade machine gun. Cartridges fired from the M203 and M32 grenade launchers include signaling and marking rounds, a CS round (o-chlorobenzamalon-nitrile), training and practice rounds, and a light armor piercing and anti-personnel dual purpose round. Cartridges fired from the MK19 grenade machine gun include a light armor piercing and anti-personnel dual purpose round and a day/night training round.

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																	
<b>Description:</b>		The family of 60mm mortar cartridges is designed to be fired from the M224 lightweight company mortar system. The family consists of high explosive, smoke, illumination, and training rounds. The 60mm family of cartridges is used to provide close-in indirect fire support of ground troops at ranges of approximately 70 to 3,500 meters.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																			
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																			
<b>Description:</b>		The family of 81mm mortar cartridges is designed to be fired from the M252 medium-weight mortar system. The family consists of high explosive, smoke, illumination, and training rounds. The 81mm family of mortars is used for long-range indirect fire support to light infantry, air assault, and airborne units, at ranges of approximately 100 to 6,000 meters.

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																				
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																				
<b>Description:</b>																				
The 120mm ammunition is fired from a M1A1 (Abrams) tank with a 120mm main armament smoothbore M256 Cannon. It consists of a family of Kinetic Energy (KE) rounds and a family of high explosive anti-tank (HEAT) rounds. Current tank gun ammunition is a single fixed round ("shell" and charge combined in a single piece) for quick loading. The propellant is in a combustible case, thus negating empty shell casings. The cartridge is functioned by receiving electronic data thru a databus from the M1A1 Tank fire control system setting the appropriate fuze mode and then fired by receiving an electrical pulse to the electric primer, igniting the propellant/combustible case and launching the projectile. 120mm ammunition also includes target practice rounds for use with the 120mm smooth bore M256 Cannon. It is designed to simulate the service round characteristics at reduced maximum ranges to allow the practice firings on short range proving grounds and training areas.																				
Expeditionary Fire Support System (EFSS) is a family of 120MM Rifled Mortar ammunition that includes the M1101 Cartridge, High Explosive, the M1105 Cartridge, Illumination, and the XM1103 Cartridge, White Phosphorus. The EFSS will provide all-weather, ground-based, close supporting, accurate, immediately responsive, and lethal indirect fire support for the Marine Air-Ground Task Force (MAGTF). EFSS will be the principal indirect fire support weapon for Marine Expeditionary Units and vertical assault elements of a Ship-To-Objective Maneuver (STOM) force. EFSS will be capable of successfully engaging a spectrum of potential point and area targets, including motorized, light armored, and dismounted personnel targets, command and control systems, and indirect fire systems.

<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1508N: Procurement of Ammo, Navy & MC / BA 02: Proc Ammo, MC / BSA 1: Marine Corps Ammunition													<b>P-1 Line Item Nomenclature:</b> 1121 - 120 MM, All Types							
ID Code (A=Service Ready, B=Not Service Ready) : A										Program Elements for Code B Items:				Other Related Program Elements:						
<b>MDAP/MAIS Code(s):</b>																				
Item Schedule		Prior Years				FY 2012			FY 2013			FY 2014 Base			FY 2014 OCO			FY 2014 Total		
Item Nomenclature*	Exhibits	ID CD	Unit Cost (\$)	Qty (Each)	Total Cost (\$ M)	Unit Cost (\$)	Qty (Each)	Total Cost (\$ M)	Unit Cost (\$)	Qty (Each)	Total Cost (\$ M)	Unit Cost (\$)	Qty (Each)	Total Cost (\$ M)	Unit Cost (\$)	Qty (Each)	Total Cost (\$ M)	Unit Cost (\$)	Qty (Each)	Total Cost (\$ M)
Total Gross/Weapon System Cost					198.354			20.538			24.162			13.361			10.266			23.627

\*Item Nomenclature represents Item Number, DODIC, and Item Name for the P40A and P5; Name for the P18 and P23; Modification Number and Modification Title for the P3A; Item Number and Item Name for the P10.

Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.

**Justification:**

FY 2012 Base Appropriation Request: \$9.311M. \$536K used to fund 120mm tank training ammunition Engineering Support requirement. \$8.775M used to fund procurement of 120mm tank training ammunition to support required training requirements.

FY 2012 Overseas Contingency Operations (OCO) Request: \$11.227M. \$6.800M used to procure 120mm tank ammunition for replenishment of munitions that have been expended by Marine forces during preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures. \$4.427M used to procure 120mm mortar ammunition for replenishment of munitions that have been expended by Marine forces during preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures.

FY 2013 Base Appropriation Request: \$12.557M will be used to procure 120mm mortar ammunition to support required training of Marines and the total munitions requirement (TMR) as identified by Deputy Commandant, Combat Development and Integration Command (DC,CD&I).

FY 2013 Overseas Contingency Operations (OCO) Request: \$11.605M will be used to procure 120mm mortar ammunition for replenishment of munitions that have been expended by Marine forces during preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures.

FY 2014 Base Appropriation Request: \$13.361M will be used to procure 120mm mortar and tank ammunition to support required training of Marines and the total munitions requirement (TMR) as identified by Deputy Commandant, Combat Development and Integration (DC,CD&I).

FY 2014 Overseas Contingency Operations (OCO) Request: \$10.266M will be used to procure 120mm mortar ammunition for replenishment of munitions that have been expended by Marine forces during preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures. FY14 funding supports Operation Enduring Freedom - Afghanistan (OEF-A).

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																	
<b>Description:</b>																	
The Grenade, All Types BLIN includes all Grenades, all Pyrotechnics, and all Land Mines. Grenade items, such as the Hand Fragmentation is used against personnel, fortified bunkers, unarmored targets, etc., 66mm Screening Smoke Grenades, MK 1 MOD 0 to provide obscuration for Tanks, Track vehicles, and Light Armored Vehicles. Also, Practice Fuze for the Practice Grenade are used for general-purposes to train in the use of the live fragmentation grenades. Incendiary Grenades provide the capability to produce flame and/or burn-melt an object/equipment, and is the primary source of intense heat, if required. Hand Riot CS Grenades are bursting type that dispenses riot control agent. These grenades are also used to simulate chemical agents during training exercises and are used for training in riot control countermeasures. Colored Smoke Grenades (5 Colors: Green, Yellow, Red, Violet, and White) provide smoke for ground-to-air or ground-to-ground signaling.																	
Pyrotechnic items for the most part, are hand held/employed explosive devices used to simulate actual expositions on the battlefield. They are used as signaling devices dependent on actual missions or training operations. Pyrotechnic items also provide Hand Held Illumination Parachutes and Cluster devices used for signaling ground troop emplacements and are occasionally used to signal aircraft. Several other Pyrotechnic devices are also used to simulate battlefield noises and effects, Artillery shells in flight, ground burst explosions, and to simulate target impact and/or target kill on armored vehicles. The Battlefield Effects Simulator (BES) used by Marines are OMEGA 36 cartridges; LA44 - Simulator Signal & Illumination White Star, LA45 - Simulator, Airburst, LA46 - Simulator, Hostile Fire, and LA47 - Simulator, AT Stinger. These types of devices also teach Marines detection and precautionary measures, effects on the battlefield using simulated booby traps, and effects of Improvised Explosive Devices (IEDs). Additionally, capsules filled with chemical agent, ortho-chlorobenzylidene malano-nitrile (CS), are used to simulate a chemical/biological attack. This irritant is used on the Marine to ensure that they can demonstrate the use of protection afforded by a properly fitted Chemical-Biological/Gas masks.																	
Land Mines described are all types, to include the Spider Area Denial Land Mine system, along with the Inert/Practice/Trainer Land Mines for simulating use and/or employment. The M18A1 Anti-Personal Mine (Claymore) is intended for use in a variety of ways, but for the most part, used as Anti-Personal and are hand emplaced. This is the only Land Mine currently procured by the USMC. Additionally, the Spider Area Denial Land Mine system, developed by the U. S. Army, is under consideration by the Marine Corps.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																	
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																	
<b>Description:</b>																	
The family of shoulder fired rockets provide lightweight, single shot, disposable weapons mainly employed against and optimized to defeat light armored vehicles and other hard targets at close combat ranges. They can be employed from an enclosure or the open battle field as assault weapons against bunkers, field fortifications, structures and other hard-point positions. Each shoulder fired rocket family has a training launcher and sub-caliber practice rocket that fully simulates firing. This includes items such as:																	
The Cartridge and Launcher, 84mm M136 AT(Anti-Tank)-4 is mainly employed against armored personnel carriers. However, it can be used against battle tanks when fired at the flanks or rear. It can also be employed as an assault weapon against bunkers, field fortifications, and other hard-point positions. Issued as one round of ammunition, the AT-4 tactical round is a self-contained, lightweight, disposable weapon.																	
The M72AS Trainer Rocket is a 21mm Sub-Caliber practice rocket that fully simulates the M72A7 Tactical Rocket. The Trainer Rocket is used with the M72AS Trainer Launcher which is the same tube as the Tactical Rocket but contains an insert for use with the smaller 21mm sub-caliber munition.																	
The M72A7 Tactical Rocket, High Explosive anti-armor weapon is a lightweight, single shot, disposable weapon optimized to defeat light armored vehicles and other hard targets at close combat ranges.																	
The M72 Fire From Enclosure (FFE) HAX1 and HAX2 Tactical Rockets are High Explosive, anti-armor and anti-structure lightweight, single shot, disposable weapons optimized to defeat light armored vehicles and other hard targets plus structures at close combat ranges. These two new shoulder fired weapon systems are upgrades to the current M72A7 system.																	
The Rocket, 83mm Common Practice (CP) Shoulder Mounted Assault Weapon (SMAW) Rocket and the Follow on to SMAW (FOTS) Practice Training round Rockets (FTPR) are designed as a practice round for SMAW rockets.																	
The Rocket, 83mm Fire from Enclosure (FFE), Follow on to SMAW, (FOTS) Multi Purpose Round Rocket (FWBR) is designed as a lightweight, single shot weapon. It is optimized to defeat structures, hard targets and light armor threats at close combat ranges. These two, FTPR and FWBR, new shoulder fired weapon systems are upgrades to the current Legacy SMAW rounds.

Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.

**Justification:**

FY 2012 Base Appropriation Request: \$125K procured and supported the HA21, 21mm training rocket, \$6.650M procured HA29 66mm shoulder fired rocket and \$3.988M procured the M72AS Light Weight Anti-Armor Weapon (LAW) Trainer for the training and combat requirement that was identified in the Total Munitions Requirement (TMR).

FY 2012 Overseas Contingency Operations (OCO) Request: \$18.871M procured 66mm shoulder fired rocket ammunition for replenishment of munitions that have been expended by Marine forces during preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures.

FY 2013 Base Appropriation Request: \$27.528M procures the HX07 83mm Common Practice (CP) Shoulder Mounted Assault Weapon (SMAW). These assets will replenish munitions that have been expended by Marine forces during training, preparation and rehearsals for combat engagements.

FY 2013 Overseas Contingency Operations (OCO) Request: \$3.051M procures 66mm shoulder fired rocket ammunition for replenishment of munitions that have been expended by Marine forces during training, preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures.

FY 2014 Base Appropriation Request: \$27.465M procures the HX07 83mm Common Practice (CP) Shoulder Mounted Assault Weapon (SMAW). These assets will replenish munitions that have been expended by Marine forces during training, preparation and rehearsals for combat engagements.

FY 2014 Overseas Contingency Operations (OCO) Request: \$37.459M procures the HX07 83mm Common Practice (CP) Shoulder Mounted Assault Weapon (SMAW). These assets will replenish munitions that have been expended by Marine forces during training, preparation and rehearsals for combat engagements utilizing established tactics, techniques and procedures. FY14 funding supports Operation Enduring Freedom - Afghanistan (OEF-A).

## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																				
<b>Description:</b>		The family of 155mm artillery is separate loading ammunition fired from M777 howitzers, and have four separate components: primer, propellant, projectile, and fuze. High explosive artillery ammunition is used against personnel, trucks, electronic surveillance and target acquisition devices, supply points, command and control and communications installations, and mechanized and armored forces. Precision-guided artillery provides accurate, first round fire-for-effect capability, and can achieve reduced collateral damage. Illumination cartridges are used to illuminate the battlefield with light either in visual or near Infrared Spectrum. Infrared Spectrum provides a decisive advantage while using Night Vision Devices. Smoke cartridges are used to provide obscuration on the battlefield and to mark locations. Obscuration rounds are used to build a smoke screen to provide cover for the maneuver unit from enemy observation. Spotting rounds mark locations on the battlefield. In addition to 155mm Artillery Projectiles, 75mm blank saluting rounds are used for ceremonial details for saluting distinguished and honored guests.

<b>MDAP/MAIS Code(s):</b>  FY 2012 Base Appropriation Request: \$22.747M. \$4.732M procured M795 155MM High Explosive to support training requirements. \$1.822M procured M110A2 155MM White Phosphorous Smoke to support training requirements. \$6.025M procured M231 Modular Artillery Charge System to support training requirements. \$9.948M procured M232 Modular Artillery Charge System to support training requirements. \$0.220M funded First Destination Transportation requirements.  FY 2012 Overseas Contingency Operations (OCO) Request: \$57.003M. \$1.304M purchased 155mm artillery ammunition for replenishment of munitions that have been expended by Marine forces during preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures. \$55.699M purchased 155mm artillery ammunition for replenishment of munitions that have been expended by Marine forces during preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures.  FY 2013 Base Appropriation Request: \$93.065M purchases 155mm artillery ammunition to support total munitions requirement as identified by Combat Development and Integration.  FY 2013 Overseas Contingency Operations (OCO) Request: \$54.886M purchases 155mm artillery ammunition for replenishment of munitions that have been expended by Marine forces during preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures.  FY 2014 Base Appropriation Request: N/A  FY 2014 Overseas Contingency Operations (OCO) Request: \$.970M used to purchase 155mm artillery ammunition for replenishment of munitions that have been expended by Marine forces during preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures. FY14 funding supports Operation Enduring Freedom - Afghanistan (OEF-A).

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																					
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																					
<b>Description:</b>		Demolition munitions charges provide high explosives for the purpose of destroying or altering man-made or natural objects or obstacles. Demolition munitions charges include block charges, shaped charges, flexible-linear charges, explosive sheet, cable, canine explosive scent items, chain cutters and military dynamite. They are used for general demolition, cutting, breaching, cratering, and destruction of abandoned equipment and ammunition.																			
<b>Item Schedule</b>			<b>Prior Years</b>			<b>FY 2012</b>			<b>FY 2013</b>			<b>FY 2014 Base</b>			<b>FY 2014 OCO</b>		<b>FY 2014 Total</b>

<p><sup>#</sup> FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012</p> <p><sup>##</sup> This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013</p> <p><b>Description:</b>            The Fuze, Point Detonating (PD) M739/M739A1 N340 is the latest improved version of the selective impact fuzes for use with bulk loaded high explosive or burster type projectiles. This fuze is fired from the M198 155mm Medium Towed Howitzer and the M777 Lightweight Towed Howitzer Weapon System. The fuze body is a one-piece design of solid aluminum and has a standard 2-inch threaded base to match the nose and fuze cavity of standard artillery projectiles.</p> <p>The Fuze, Electronic Time NA17 is used with projectiles carrying payloads that are expelled during projectile flight (airburst). This fuze is fired from the M198 155mm Medium Towed Howitzer and the M777 Lightweight Towed Howitzer Weapon System, and has the capability to be set inductively or manually.</p> <p>Fuze, Precision Guidance Kit (PGK) NA28 is used with 155mm projectiles carrying HE (High Explosive) payloads. This fuze is fired from the M198 155mm Medium Towed Howitzer and the M777 Lightweight Towed Howitzer Weapon System.</p>

<b>Exhibit P-40, Budget Item Justification Sheet:</b> PB Amended 2014 Navy		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1508N: Procurement of Ammo, Navy & MC / BA 02: Proc Ammo, MC / BSA 1: Marine Corps Ammunition		<b>P-1 Line Item Nomenclature:</b> 1625 - Fuze, All Types
<b>ID Code</b> (A=Service Ready, B=Not Service Ready) : A	<b>Program Elements for Code B Items:</b>	<b>Other Related Program Elements:</b>
<b>MDAP/MAIS Code(s):</b>		
*Item Nomenclature represents Item Number, DODIC, and Item Name for the P40A and P5; Name for the P18 and P23; Modification Number and Modification Title for the P3A; Item Number and Item Name for the P10.		
Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.		
<b>Justification:</b> FY12 Base Appropriation Request: \$9.266M. \$4.573M procured the N340 Point Detonating (PD) Fuze, which is the latest improved version of the selective impact fuzes and \$4.693M procured the Fuze, Electronic Time which is used with projectiles carrying payloads that are expelled during projectile flight (airburst).  FY12 Overseas Contingency Operations Request (OCO): \$5.177M procured the N340 PD fuze for replenishment of munitions that have been expended by Marine forces during preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures.  FY13 Base Appropriation Request: \$5.297M procures the PD fuze.  FY13 Overseas Contingency Operations Request (OCO): \$30.945M. \$25.888M procures the Precision Guidance Kit and \$5.057M procures the PD fuze for replenishment of munitions that have been expended by Marine forces during preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures.  FY14 Base Appropriation Request: \$26.366M. \$3.350M will procure the PD fuze. \$23.016M will procure the Precision Guidance Kit. The unit cost decrease from FY13 to FY14 is the result of economic order pricing on Army contract to procure the PD fuze.  FY14 Overseas Contingency Operations Request (OCO): \$14.219M procures the PD fuze for replenishment of munitions that have been expended by Marine forces during preparation, rehearsals and combat engagements utilizing established tactics, techniques and procedures. FY14 funding supports Operation Enduring Freedom - Afghanistan (OEF-A).

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012													
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013													
<b>Description:</b>													
Javelin provides the US Army and USMC a man-portable, fire-and-forget, medium-range missile with enhanced situational awareness and precision direct-fire effects to defeat armored vehicles, fortifications and soft targets in full spectrum operations. Javelin has a high kill rate against a variety of targets at extended ranges under day/night, battlefield obscurants, adverse weather and multiple counter-measure conditions. The system's soft launch feature permits firing from a fighting position or an enclosure. Javelin uses a modular design to allow the system to evolve to meet changing threats and requirements via both software and hardware upgrades. The system consists of a reusable Command Launch Unit (CLU) with a built-in-test (BIT), and a modular missile encased in a disposable launch tube assembly. The system also includes training devices for tactical training and classroom training. Javelin's fire-and-forget technology allows the gunner to fire and immediately take cover, to move to another fighting position, or to reload. The Javelin provides enhanced lethality through the use of a tandem warhead which will defeat all known armor threats. It is effective against both stationary and moving targets. This system also provides defensive capability against attacking/hovering helicopters. The performance improvements in current production Javelin Block I CLUs are: increased target identification range, increased surveillance time with new battery and software management and external RS-170 interface for video output. The performance improvements in current production Javelin Block I missiles are: increased probability of hit/kill at 2500m, improved warhead lethality, and reduced time of flight. In current conflicts the CLU is being used as a stand-alone surveillance and target acquisition asset. The Army is the lead for this joint program with the USMC.

Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.

**Justification:**

FY2012 Overseas Contingency Operations (OCO) Request: \$2.527M

Guided Missiles - Javelin - Procurement of Pre-Deployment Training Program (PTP) expenditures for training conducted during Desert Talon, Mojave Viper, Weapons Training Instruction (WTI), Urban Warfare, Mountain Warfare Training Center (MWTC) and combined arms training for units preparing to deploy per expenditure reports provided by the Training and Education Command (TECOM). Combat expenditures based on past 12-months expenditure for one Regimental Combat Team (RCT) and doubled for surge forces. Failure to replenish PTP and combat expenditures would require additional withdrawals from war reserve stockpiles, further exacerbating the delay between expenditure reporting and replacement via the acquisition process.

FY2013 Overseas Contingency Operations (OCO) Request: \$29.158M

Guided Missiles - Javelin - Javelin OCO funding is needed to replace missiles consumed in operations in Iraq and Afghanistan and predeployment training program (PTP) estimate prepared in conjunction with Training and Education Command (TECOM). If Javelin missiles consumed in support of OCO efforts are not replenished, the USMC will have a diminished inventory, well below the required Total Munitions Requirement level. This reduced inventory will negatively impact the USMC's Man Portable Medium Anti Armor defeat capability. This reduced capability will put further stress on the Weapons Companies that employ Javelin, and put the Marines at greater risk for survivability. Keeping the missile inventory at proper levels will prevent Marine forces from having to limit the use of this weapon system against both state-on-state and irregular warfare.

FY2014 Base Appropriation Request: \$36.175M

Guided Missiles - Javelin - Increase from FY2013 to FY2014 for the procurement of missiles to replenish inventory falling out due to shelf life considerations. At present, the inventory levels for Javelin are below the current Total Munitions Requirement (TMR). During FY14-18; based on historical washout rates, approximately 60% of the inventory will either be consumed in training or will be removed due to shelf life concerns. Failure to procure missiles to replenish these aging assets will severely degrade operational readiness and reduce combat effectiveness of weapons companies across the USMC.

FY2014 Overseas Contingency Operations (OCO) Request: \$29.334M

Guided Missiles - Javelin - Procurement of Pre-Deployment Training Program (PTP) expenditures for training conducted during Desert Talon, Mojave Viper, Weapons Training Instruction (WTI), Urban Warfare, Mountain Warfare Training Center (MWTC) and combined arms training for units preparing to deploy per estimate provided by the Training and Education Command (TECOM); on 12-months expenditure for one Regimental Combat Team (RCT) and doubled for surge forces. Failure to replenish PTP and combat expenditures would require additional withdrawals from war reserve stockpiles, further exacerbating the delay between expenditure reporting and replacement via the acquisition process.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012													
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013													
<b>Description:</b> Follow on to Shoulder-Launched Multipurpose Assault Weapon (SMAW) (FOTS): The solution to the Follow on to Shoulder-Launched Multipurpose Assault Weapon (SMAW) (FOTS) capability requirement has been defined as the SMAW II system. It is a lightweight, short range, fire-and-forget assault weapon comprised of a launcher and integral sighting system that enables a Marine to neutralize a variety of ground targets. Marine Expeditionary Forces will employ the SMAW II across the spectrum of conflict, under all environmental conditions, to destroy a variety of ground targets. As defined in the FOTS Capability Development Document (CDD), the program consists of requirements for a new Launcher that will fire the SMAW Rockets within the existing inventory and fire the new FFE round. The SMAW II Launcher will be physically and functionally compatible with existing inventory of SMAW rocket variants (High Explosive Dual Purpose Anti-Armor, Novel Explosive and Common Practice (CP)) to replace the existing Mark 153 Mod 0 SMAW launcher.

**Justification:**

FY 2012/FY 2013 Base Appropriation Request: \$56.950M

Funding for the pre-production and LRIP production efforts of the SMAW II Launcher. This procurement fulfills a requirement outlined in the FOTS capabilities development document, dated July 2007. Unit price increase reflects loss of quantity discount.

FY 2014 Base Appropriation Request: \$0.000M

Reduction from FY 2013 to FY 2014 reflects technical delays in program, which moved full rate production to FY 2015.

FY2014 Overseas Contingency Operations (OCO) Request: \$0.105M

Funds will be used to procure replacement support equipment damaged in theater.

<b>Description:</b>																	
The Tube-Launched Optically-Tracked, Wire-Guided (TOW) missiles (BGM-71 Series) are combat proven missiles that provide heavy anti-armor/assault capability to the USMC Infantry, Tank, and Light Armored Vehicle Battalions. TOW continues to be used consistently in Operation Enduring Freedom (OEF) as the weapon of choice in precision combat engagements. Marines employ TOW missiles against buildings and field fortifications taking advantage of the missile's inherent precision assault capability against such targets. The TOW missiles are launched from a variety of combat systems to include High Mobility Multipurpose Wheeled Vehicle (HMMWV), Mine Resistant Ambush Protected (MRAP) Vehicle, and Light Armored Vehicle (LAV), as well as having the capability for ground mounted operations. The TOW missile provides the warfighter with a highly lethal, cost effective, interoperable, multi-purpose weapon.

<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1109N: Procurement, Marine Corps / BA 03: Guided missiles and equipment / BSA 3: Other Support		<b>P-1 Line Item Nomenclature:</b> 3123 - Modification Kits
<b>ID Code</b> (A=Service Ready, B=Not Service Ready) : A	<b>Program Elements for Code B Items:</b>	<b>Other Related Program Elements:</b>
<b>MDAP/MAIS Code(s):</b>		
TOW Training Missile Conversion - The Tube-Launched Optically-Tracked, Wire-Guided (TOW) Missile system modification program incorporated system safety and capabilities improvements in both the missile and sights. This mod program addressed safety of use issues and system component obsolescence issues, providing corrective integration. Conversion of TOW missiles for training required the procurement and integration of the Missile Ordnance Inhibit Circuit (MOIC) integrated circuitry to preclude missile fly-back and disarming of the warhead in cases of erratic or errant flight.		
FY 2012 Overseas Contingency Operations Request (OCO): \$59.730M Guided Missiles - TOW - Procurement of Pre-Deployment Training Period (PTP) expenditures for training conducted during Desert Talon, Mojave Viper, Weapons Training Institute (WTI), Urban Warfare, Mountain Warfare Training Center (MWTC) and combined arms training for units preparing to deploy per expenditure reports provided by Training and Education Command (TECOM). Combat expenditures based on past 12-months expenditure for one Regimental Combat Team (RCT) and doubled for surge forces. Failure to replenish PTP and combat expenditures would require additional withdrawals from war reserve stockpiles, further exacerbating the delay between expenditure reporting and replacement via the acquisition process. Procurement of new TOW-2A and TOW-BB missiles will replenish War Reserve stockpiles.		
FY 2013 Base Appropriation Request: \$0.00M		
FY 2013 Overseas Contingency Operations Request (OCO): \$41.602M Guided Missiles - TOW - Procurement of Pre-Deployment Training Period (PTP) expenditures for training conducted during Desert Talon, Mojave Viper, Weapons Training Institute (WTI), Urban Warfare, Mountain Warfare Training Center (MWTC) and combined arms training for units preparing to deploy. Anticipated cost based on estimate provided by Training and Education Command (TECOM). Combat anticipated cost estimate based on 12-months training for one Regimental Combat Team (RCT) and doubled for surge forces. Failure to replenish PTP and combat expenditures would require additional withdrawals from war reserve stockpiles, further exacerbating the delay between expenditure reporting and replacement via the acquisition process. Missiles consumed in support of OCO efforts require replenishment to maintain inventory. The USMC already has a diminished inventory due to end of service life conditions; diminishing the inventory without replacement will further exacerbate the shortage and diminish operational readiness. Keeping the missile inventory at proper levels will prevent Marine forces from having to limit the use of this weapon system against both state-on-state and irregular warfare. Procurement of new TOW-2A and TOW-BB missiles will replenish War Reserve stockpiles.		
FY 2014 Base Appropriation Request: \$33.976M Guided Missiles - TOW - Funding will be used for procurement of replacement missile assets that have reached end of service life and meeting expiration date across the FYDP. The USMC already has a diminished inventory due to end of service life conditions; diminishing the inventory without replacement will further exacerbate the shortage and diminish operational readiness. Keeping the missile inventory at proper levels will prevent Marine forces from having to limit the use of this weapon system against both state-on-state and irregular warfare. Procurement of new TOW-2A and TOW-BB missiles will replenish War Reserve stockpiles.		
FY 2014 Overseas Contingency Operations Request (OCO): \$16.081M Guided Missiles - TOW - Funding will be used for reimbursement of procurement cost of Pre-Deployment Training Period (PTP) expenditures for training conducted during Desert Talon, Mojave Viper, Weapons Training Institute (WTI), Urban Warfare, Mountain Warfare Training Center (MWTC) and combined arms training for units preparing to deploy. Failure to replenish PTP and combat expenditures would require additional withdrawals from war reserve stockpiles, further exacerbating the delay between expenditure reporting and replacement via the acquisition process. Procurement of new TOW-2A and TOW-BB missiles will replenish War Reserve stockpiles.

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012													
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013													
<b>Description:</b>													
Repair, and Test Equipment budget Line Item provides repair and test equipment consisting of 250+ different items of equipment (separate TAMCNS) required to support the operation and maintenance of USMC ground based weapon systems or major end items. Repair and test equipment includes tool kits, shop sets, manual and automatic test equipment, as well as metrology and calibration equipment. The following acquisition programs fall under the repair and test equipment budget line: General Purpose Electronic Test Equipment (GPETE), General Purpose Mechanical Test Equipment (GPMTE), General Purpose Tool, Sets & Kits (TS&K), Third Echelon Test System (TETS), Calibration Facilities (CF), Marine Corps Automatic Test Equipment (ATE), Electronic Maintenance Support System (EMSS), and other related repair and test equipment items.

<p><b>Justification:</b></p> <p>FY12 Baseline Appropriation:</p> <p>General Purpose Electronic Test Equipment (GPETE) \$11.440M: Funds procured a variety of Commercial-Off-The-Shelf (COTS) Electronic Test Equipment items used to support USMC weapon systems that utilize or consist of electronic components.</p> <p>General Purpose Mechanical Test Equipment (GPMTE) \$3.971M: Funds procured a combination of many types of test equipment used to test and diagnose Motor Transport, Ordnance, and Engineer vehicles and related mechanical components.</p> <p>General Purpose Tool, Sets, &amp; Kits (TS&amp;K) \$1.052M: Funds procured tools necessary to support all types of Marine Corps ground equipment. The program includes over 45 different types of individual mechanic or technician tool kits as well as the larger, mobile or deployable Shop Sets in 20 foot shelters or Pit Boxes, or pallets for mobile or expeditionary use.</p> <p>Calibration Facilities (CF) \$3.389M: Funds procured upgraded transfer standards to keep pace with new test instruments being fielded to support complex weapons and communication systems. In addition, the funding has supported the fielding of 6 upgraded expeditionary calibration facilities to the Marine Operating Forces.</p> <p>Marine Corps Automatic Test Equipment (ATE) \$9.292M: Funds procured General purpose ATE and Application Program Set (APS).</p> <p>Electronic Maintenance Support System (EMSS) \$1.915M: Funds procured refresh of the Electronic Maintenance Support System (EMSS). Procuring a Commercial Off-The-Shelf (COTS) hardware device equipped with network interfaces and Software Defined Test capabilities.</p> <p>FY 12 Overseas Contingency Operations (OCO):</p> <p>General Purpose Tool, Sets, &amp; Kits (TS&amp;K) \$13.240M: Funds are used to buy tools to support all types of Marine Corps ground equipment. This program includes over 45 different types of individual mechanic or technician tool kits as well as the larger, mobile or deployable Shop Sets in 20 foot shelters or Pit Boxes, or pallets for mobile or expeditionary use. OCO funds intended to fill TS&amp;K shortages in support of OEF units. There is a shortage of TS&amp;K assets in Afghanistan/OEF Theater of Operations and homestation training sites.</p> <p>General Purpose Mechanical Test Equipment (GPMTE) \$5.800M: Funds are used to buy a variety of mechanical test &amp; diagnostic equipment used to support all types of Marine Corps ground vehicles and generators. The program includes over 10 different types of hand-held portable test sets, as well as 10 different larger test stands in deployable 20 foot shelters or buildings. OCO funds will focus on acquiring a deployable Alternator/Starter Test Stand, Engine Dynamometer, and Transmission Dynamometer used to field test, align and repair vehicle components in Afghanistan/OEF Theater of Operations.</p> <p>FY 13 Baseline Appropriation Request:</p>																																																																																															

**UNCLASSIFIED**

<b>Exhibit P-40, Budget Item Justification Sheet:</b> PB Amended 2014 Navy		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1109N: Procurement, Marine Corps / BA 04: Communications & electronics equipment / BSA 7: Repair And Test Equipment	<b>P-1 Line Item Nomenclature:</b> 4181 - Repair and Test Equipment	
<b>ID Code</b> (A=Service Ready, B=Not Service Ready) : A	<b>Program Elements for Code B Items:</b>	<b>Other Related Program Elements:</b> 0206313M, 0206624M
<b>MDAP/MAIS Code(s):</b>		
General Purpose Electronic Test Equipment (GPETE) \$3.357M: Funding supports procurement of various Commercial-Off-The-Shelf (COTS) Electronic Test Equipment items used to support USMC weapon systems that utilize or consist of electronic components.		
General Purpose Mechanical Test Equipment (GPMTE) \$1.956M: Funding supports procurement of many types of test equipment used to test and diagnose Motor Transport, Ordnance, and Engineer vehicles and components. (Includes tracked and wheeled vehicles as well as stationary equipment such as generators and other utility type equipment.)		
General Purpose Tool, Sets, & Kits (TS&K) \$1.498M: Funding supports procurement of tools necessary to support all types of Marine Corps ground equipment. The program includes over 45 different types of individual mechanic or technician tool kits as well as the larger, mobile or deployable Shop Sets in 20 foot shelters or Pit Boxes, or pallets for mobile or expeditionary use.		
Third Echelon Test system (TETS) \$7.078M: Funding supports procurement of TETS and Ground Radio Maintenance Automatic Test Systems (GRMATS), providing mobile automatic testing on line replaceable units and circuit card assemblies, enabling rapid restoration of weapon systems. Equipment consists of hardware and software portable equipment.		
Marine Corps Automatic Test Equipment (ATE) \$5.785M: Funding supports procurement of General purpose ATE and Application Program Set (APS).		
Electronic Maintenance Support System (EMSS) \$5.453M: Funding supports refresh procurement of Electronic Maintenance Support System (EMSS). Procuring a Commercial Off-The-Shelf (COTS) hardware device equipped with network interfaces and Software Defined Test capabilities.		
FY13 Overseas Contingency Operations Request (OCO):		
General Purpose Tool, Sets, & Kits (TS&K) \$6.466M: Funding supports the procurement and fielding of TS&K items for use in OEF-A in order to replace items that are damaged, lost, or destroyed during operations. New TS&K items are bought & fielded in order to support new technology weapon systems fielded to OEF-A.		
General Purpose Mechanical Test Equipment (GPMTE) \$5.194M: Funds will be focused on acquiring Fuel System Test shop, Vehicle Automated Diagnostic system (VADS), and Transmission Dynamometers used to field test, align, and repair vehicle components in Afghanistan/OEF Theater of Operations. Funding will also be used to buy and field GPMTE items for use in OEF-A in order to replace items that are damaged, lost, or destroyed during operations. New GPMTE items are bought and fielded in order to support new vehicles, modified vehicles, or vehicle enhancements fielded to OEF (like the MRAP family).		
Electronic Maintenance Support System (EMSS) \$1.972M: Funds will be used to refresh Electronic Maintenance Devices (EMDs) used by maintainers in the 3521, 2147 and 2141 occupational fields. These funds are intended to replace and repair the Electronic Maintenance Devices (EMDs) supporting operations in Afghanistan. Warranties on the EMDs have begun to expire and failure rates continue to increase as the equipment ages.		
FY 14 Baseline Appropriation Request:		
Overall increase in funding is needed to support the attainment of AAO, modernization of existing sets and other equipment needed to achieve improved support to the multiple platforms in inventory.		
General Purpose Tools and Test Equipment (GPT&TE) \$22.0973M: This is not a new start program. Per request of CD&I and program office, the following programs have been consolidated under GPT&TE:		
1.General Purpose Electronic Test Equipment (GPETE): Funds will support the procurement of various Commercial-Off-The-Shelf (COTS) Electronic Test Equipment items used to support USMC weapon systems that utilize or consist of electronic components. GPETE is essential to the operational readiness of the Marine Corps for the installation, operation, and maintenance (preventive and corrective) of electronic weapon systems and equipment in both the USMC operating forces as well as the supporting establishment (Schools/Bases).		
2.General Purpose Mechanical Test Equipment (GPMTE): Funds will be focused on procurement of many types of test equipment used to test and diagnose Motor Transport, Ordnance, and Engineer vehicles and their components. (Includes tracked and wheeled vehicles as well as equipment such as generators and other utility type equipment.)

3.General Purpose Tool, Sets, & Kits (TS&K): Funds will be focused on procurement of tools necessary to support all types of Marine Corps ground equipment. The program includes over 46 different types of individual mechanic or technician tool kits as well as the larger, mobile or deployable Shop Sets in 20 foot shelters or Pit Boxes, or pallets for mobile or expeditionary use.		
General Purpose Automatic Test Systems (GPATS) \$12.992M: This is not a new start program. Per request of CD&I and program office, the following programs have been consolidated under GPATS:		
1.Third Echelon Test system (TETS): Funds will be focused on the procurement of TETS and Ground Radio Maintenance Automatic Test Systems (GRMATS), providing mobile automatic testing on line replaceable units and circuit card assemblies, enabling rapid restoration of weapon systems. Procurement consists of hardware and software portable equipment.		
2.Marine Corps Automatic Test Equipment (ATE): Funds will be focused on the procurement of General purpose ATE and Application Program Set (APS).		
Electronic Maintenance Support System (EMSS) \$5.974M: Funding will be focused on procurement of Electronic Maintenance Support System (EMSS). Procuring a Commercial Off-The-Shelf (COTS) hardware device equipped with network interfaces, Software Defined Test capabilities and regional servers.		
FY14 Overseas Contingency Operations Request (OCO):		
Funds increased to support reset and replacement of combat losses of our test measurement and diagnostics inventory. This inventory in turn will support the needed calibration and operational support for our equipment.		
General Purpose Electronic Test Equipment (GPETE) \$0.782M: Funding will be used to reset TAMCN A7081-Data Comm Test Sets and provide engineering/ logistical support to rapidly field and maintain this equipment.		
General Purpose Mechanical Test Equipment (GPMTE) \$7.570M: Funds will be focused on acquiring deployable Fuel System Test Shops and Transmission Dynamometers used to field test, align, and repair vehicle components in Afghanistan/OEF Theater of Operations. Funding will also be used to buy and field GPMTE items for use in OEF-A in order to replace items that are damaged, lost, or destroyed during operations. New GPMTE items are bought and fielded in order to support new vehicles, modified vehicles, or vehicle enhancements fielded to OEF.		
General Purpose Tool, Sets, & Kits (TS&K) \$5.005M: Funding will be used to buy TS&K items for use in OEF-A in order to replace items that are damaged, lost, or destroyed during operations. New TS&K items are bought and fielded in order to support new technology weapon systems fielded to OEF-A.		
Third Echelon Test system (TETS) \$0.752M: Funding will be used to buy and field Automatic Test Systems to replace testers damaged or destroyed during overseas contingency operations.		
Electronic Maintenance Support System (EMSS) \$1.972M: Funds will be used to reset Electronic Maintenance Devices (EMDs) used by maintainers in the 3521, 2147 and 2141 occupational fields. These funds are intended to replace and repair the Electronic Maintenance Devices (EMDs) supporting operations in Afghanistan.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																					
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																					
<b>Description:</b>																					
The Biometric Automated Toolset System (BATS) can collect and store biometric information, to include fingerprints, iris scans and facial images, and is able to "match" personnel whose biometrics correspond to a record stored data. Information from networked BAT-Clients is sent to BAT-Servers. The BAT-Servers update other BAT-Servers and provide information to the biometrics intelligence process for further analysis. Funding procures printers, laptop computers and Client Suites to support the Biometric Automated Toolset System (BATS), which is a fully-fielded capability with a three-year refresh cycle.																					
Intelligence Analysis System Mod (IAS) Family of Systems (FoS) provides intelligence support to Marines garrison, shipboard, and battlefield missions at all levels of the Marine Air-Ground Task Force (MAGTF). This support includes the formulation and/or compilation of the commander's Priority Intelligence Requirements (PIR), Essential Elements of Information (EEI), and Other Intelligence Requirements (OIR); contingency planning; management of MAGTF collection assets; all-source intelligence analysis, briefing support, intelligence product fusion, production, reporting dissemination and training. The IAS FoS has proven to be the All-Source Fusion Center that provides interoperable scalable, semi-automated capabilities to receive, process, analyze, display and disseminate all-source intelligence, including imagery, to support timely tactical decision-making across the MAGTF.

<b>Justification:</b> FY2012 Base Appropriation Request: N/A  FY2012 Overseas Contingency Operations Request (OCO): BATS: \$2.331M The FY12 OCO funding procured printers, laptop computers and Client Suites and Servers to support the Biometric Automated Toolset System (BATS) for forces in OEF, as well as refresh for both Badge Printers and Client Suites for the MAGTF Integrated Systems Training Center (MISTC) supporting Operation Enduring Freedom (OEF).  FY2013 Base Appropriation Request: BATS: \$2.831M The FY13 Baseline funding will procure printers, laptop computers and Client Suites and Servers to support the Biometric Automated Toolset System (BATS), as well as refresh both Badge Printers and Client Suites for the MAGTF Integrated Systems Training Center (MISTC).  FY2013 Overseas Contingency Operations Request (OCO): BATS: \$2.831M The FY13 OCO funding will procure additional printers, laptop computers and Client Suites and Servers to support the Biometric Automated Toolset System (BATS) for forces in OEF. Funding also provides for the initial support by the Biometrics Systems Analysts (BSA's) in theater, whose responsibilities are training users on new equipment fielded, ensuring 24/7 "help-desk" support to the users, and providing the logistics support for the myriad system components.  FY2014 Base Appropriation Request: N/A  FY2014 Overseas Contingency Operations Request (OCO) BATS:\$2.831M In support of operations in OEF, the FY14 OCO funding will procure and refresh the Biometric Automated Toolset System (BATS) system components (clients and servers) and peripherals (printers, cameras, etc) as part of the 3 year technical refresh of IT equipment. A portion will also fund the integration/installation support.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																	
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																	
<b>Description:</b>																	
Public Affairs System (PAS): Consists of Commercial-Off-The-Shelf (COTS) equipment that provides the Marine Air Ground Task Force (MAGTF) Commander and Marine Corps supporting establishment media-industry-standard video and still imagery acquisition, editing, production, management, and transmission systems. PAS facilitates Marine Corps participation in the 24-hour news cycle; communication planning and media analysis; and engagement of key publics across the full range of operations to include supporting activities. This capability set facilitates Marine Corps support to the Department of Defense, Joint, and Headquarters, Marine Corps strategic communication objectives; presents the First Truth about operations and de-conflicts misinformation in order to seize strategic non-kinetic initiatives; and maintain awareness and support across key publics, foreign and domestic.																	
Combat Camera Systems (CCS): Provides equipment to Fleet Marine Force (FMF) Combat Camera Units and training commands. This imagery acquisition/production equipment is used for collecting, editing and dissemination of imagery used to support the MAGTF, to include DoD, Joint and Marine Forces, and supporting establishments. This program standardizes equipment/systems and replaces worn out, unserviceable or obsolete acquisition/production equipment. Procurements are centrally managed and are non-developmental, Commercial/Government Off-the-Shelf (COTS/GOTS).																	
Audio Visual and Telecommunication: Provides for the initial outfitting of new construction and selected major HQMC I&L (Facilities) sponsored Facilities Sustainment, Restoration and Modernization (FSRM) projects. This one time first provisioning of Communication and Electronics (CE), includes assets which are loose, portable, or can be detached from the structure. Funds equipment items costing equal to or greater than \$250K.																	
Marine Civil Information Management System (MARCIMS): Is a system of systems comprised of people, process and technology that operates in the full Joint, Interagency, Intergovernmental, and Multinational (JIIM) environment. It is a force multiplier for the commander that allows him to leverage the process of Planning, Collection, Consolidation, Analysis, Production, and sharing of civil information in order to support the visualization and understanding of the civil environment to the military commander's decision making process. Program name has changed from Civil Affairs Capability Set and Civil Affairs Information Data Processing System (CIMDPS).

**Justification:**

FY12 Base Appropriation:

Public Affairs System (PAS) \$0.529M: FY12 PMC Base funding provides for procurement of Public Affairs Video Acquisition Systems (PAVAS) in order to support the tech refresh and upgrade cycle of the program and ensure the Marine Corps Public Affairs field is adequately equipped to conduct Public Affairs missions.

Combat Camera Systems (CCS) \$4.469M: FY12 PMC Base funding procures imagery equipment that is used for collecting, editing and dissemination of imagery for use by the MAGTF, to include DoD, Joint and Marine Forces, and supporting establishments. Procurements are centrally managed and are non-developmental, Commercial/Government Off-the-Shelf (COTS/GOTS). FY12 funds support Tactical Imagery Production System (TIPS) build #14 and procurement of Warfighter Image Collection Components.

Audio Visual and Telecommunication \$0.545M: FY12 PMC Base funding procure equipment for the initial outfitting of new construction and selected major HQMC I&L (Facilities) sponsored Facilities Sustainment, Restoration and Modernization (FSRM) projects. This one time first provisioning of CE, includes assets which are loose, portable, or can be detached from the structure. Specific use is for funding various equipment items costing equal to or greater than \$250K.

FY12 Overseas Contingency Operations (OCO):

**UNCLASSIFIED**

<b>Exhibit P-40, Budget Item Justification Sheet: PB Amended 2014 Navy</b>		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1109N: Procurement, Marine Corps / BA 04: Communications & electronics equipment / BSA 14: Command And Control System (Non-Tel)	<b>P-1 Line Item Nomenclature:</b> 4620 - Items under \$5 million (Comm & Elec)	
<b>ID Code</b> (A=Service Ready, B=Not Service Ready) : A	<b>Program Elements for Code B Items:</b>	<b>Other Related Program Elements:</b> 0206313M
<b>MDAP/MAIS Code(s):</b>		
Public Affairs System (PAS) \$0.677M: FY12 PMC OCO funding provides for procurement of Public Affairs Video Acquisition Systems (PAVAS) and Public Affairs Still Acquisition Systems (PASAS) in order to support the tech refresh and upgrade cycle of the program and ensure the Marine Corps Public Affairs field is adequately reset to conduct Public Affairs missions following OEF retrograde.		
Combat Camera Systems (CCS) \$0.979M: FY12 PMC OCO funding is used for the procurement of Warfighter Image Collection Components: Combat Video Acquisition Systems (CVAS), Combat Still Acquisition Systems (CSAS), and Visual Information Imagery Editing Systems (VIIES) to be used by Combat Camera (COMCAM) during combat operations for Operating Enduring Freedom. This is specialized equipment that is required to support Combat Operations, Information Operations, and Information Collection in Theater and is required to support multiple Combat Camera Teams.		
Civil Affairs Capability Set \$1.434M: FY12 PMC OCO funding procures Geospatial Assessment Tool for Engineering Reachback/It Knows Everything (GATER/IKE) hand-held processing devices.		
<b>FY13 Base Appropriation Request:</b>		
Public Affairs System (PAS) \$1.850M: FY13 PMC Base funding provides for procurement of Public Affairs Still Acquisition Systems (PASAS) in order to support the tech refresh and upgrade cycle of the program and ensure the Marine Corps Public Affairs field is adequately equipped to conduct Public Affairs missions.		
Combat Camera Systems \$2.588M: FY13 PMC funding supports TIPS build and Warfighting Image Collection Components.		
Audio Visual and Telecommunication \$0.804M: FY13 PMC funding will continue providing for the initial outfitting of new construction and selected major HQMC I&L (Facilities) sponsored Facilities Sustainment, Restoration and Modernization (FSRM) projects. Assets procured are loose, portable, or can be detached from the structure. Funds are used for equipment items costing equal to or greater than \$250K.		
Marine Civil Information Management System (MARCIMS) \$0.256M: FY13 funding will continue the acquisition process to meet the Abbreviated Acquisition Plan (AAP) criteria towards a Fielding Decision.		
<b>FY13 Overseas Contingency Operations (OCO):</b> N/A		
<b>FY14 Base Appropriation Request:</b>		
Public Affairs System (PAS) \$0.217M: The decrease in FY14 PMC Base results in the minimum equipment procurement of Public Affairs News Link System (PANLS) in order to support tech refresh and upgrade cycle. PANLS provides MAGTF and Supporting Establishment commanders the capability to transmit approved Public Affairs products, such as high-resolution photos, high-definition (HD) video, and live interviews, via the Defense Video and Imagery Distribution System (DVIDS). PANLS equipment has not been refreshed since PAS reached full operational capability (FOC) in 2008. Re-phasing of procurement of PANLS in support of tech refresh across FY15 and FY16 mitigates risk of funding decrease; however, a continued decrease in funds across the FYDP will have significant negative impacts on refresh and update cycle of PANLS and other PAS systems, reducing the capability for the Marine Corps Public Affairs field to engage with key stakeholders.		
Combat Camera Systems (CCS) \$.581M: FY14 PMC funding is used for the procurement of Warfighter Image Collection Components. COMCAM support to the MAGTF and OPFOR would be degraded if FY14 funding is further decremented. This would require the supported unit to outsource support as mission would remain. Additionally, unable to maintain DIACAP certification and accreditation resulting in no Authority to Operate (ATO).		
Audio Visual and Telecommunication \$0.340M: FY14 PMC funding will continue providing for the initial outfitting of new construction and selected major HQMC I&L (Facilities) sponsored Facilities Sustainment, Restoration and Modernization (FSRM) projects. Assets procured are loose, portable, or can be detached from the structure. Funds are used for equipment items costing equal to or greater than \$250K.		
Marine Civil Information Management System (MARCIMS) \$0.499M: FY14 funding will continue the acquisition, logistics, technical planning, and documentation to deploy MARCIMS in 4QFY14 to include procurement necessary for the MARCIMS Device. Specific use is for funding equipment items costing equal to or greater than \$250K.		
<b>FY14 Overseas Contingency Operations (OCO):</b>

Public Affairs Systems (PAS) \$2.065M: FY14 PMC OCO funding provides for procurement of Public Affairs Video Acquisition Systems (PAVAS), Public Affairs Still Acquisition Systems (PASAS), and Public Affairs Video Editing Systems in order to support the tech refresh and upgrade cycle of the program and ensure the Marine Corps Public Affairs field is adequately reset to conduct Public Affairs missions following OEF retrograde.		
Combat Camera Systems (CCS) \$4.671M: FY14 PMC OCO funding is used for the procurement of Warfighter Image Collection Components: CSAS, CVAS and TIPS to be used by Combat Camera (COMCAM) during combat operations for Operating Enduring Freedom. This is specialized equipment that is required to support Combat Operations, Information Operations, and Information Collection in Theater and is required to support multiple Combat Camera Teams.		
Civil Affairs Information Data Processing System (CIMDPS) \$1.434M: Fy14 PMC OCO funding procures Geospatial Assessment Tool for Engineering Reachback/It Knows Everything (GATER/IKE)hand-held processing devices. Devices are needed for CA teams and to be in line with DOD and Theater requirements.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012															
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013															
<b>Description:</b>															
Intelligence Analysis System (IAS) Family of Systems (FoS) has proven to be the All-Source Fusion Center that provides interoperable, scalable, semi-automated capabilities to receive, process, analyze, display, and disseminate all-source intelligence, including imagery, to support timely, tactical decision-making across the Marine Air-Ground Task Force (MAGTF).															
Intelligence Broadcast Receiver (IBR) family conforms to the DoD Integrated Broadcast Service (IBS) objectives of interoperability and commonality across the Services to receive and process near real-time intelligence data. The Universal Serial Bus Embedded National Tactical Receiver (USB ENTR) is the newest member of the IBR family and is an integral portion of 7 Programs of Record. It provides access to IBS data via Ultra High Frequency Satellite Communications (UHF SATCOM) broadcast channels delivering near real-time intelligence information within Combatant Commanders theaters of operation.															
Technical Control and Analysis Center (TCAC): Technical Control and Analysis Center (TCAC) Family of Systems consists of the AN/UYQ-83 TCAC Remote Analysis Workstation (RAWWS), AN/MYQ-9 TCAC Transportable Workstation, and is the focal point of Radio Battalions (RADBN), Marine Corps Special Operations Command (MARSOC), and Fixed Wing Marine Electronic Attack Squadron (VMAQ) Signals Intelligence (SIGINT) operations. TCAC automatically collects, stores, retrieves and plays back digital voice signals, and fuses and analyzes SIGINT data from tactical, theater and national collectors and databases for dissemination to tactical commanders. TCAC provides SIGINT analysis applications to deployable MAGTF units capable of directing and managing the technical and operational functions of other RADBN SIGINT/EW assets. TCAC provides termination of national, theater, and tactical data networks for data exchange with tactical SIGINT/EW assets, the Intelligence Analysis System (IAS) and national databases. TCAC also enables the transfer of USMC tactical SIGINT collection and analytical data into the Real-Time Regional Gateway (RT-RG) and Distributed Common Ground System (DCGS). The system provides ground processing of Electronic Warfare (EW) information, including Electronic Warfare Support (EWS) and Electronic Attack (EA) data collected by the RADBN and VMAQ EA-6B aircraft. The system is capable of correlating, fusing and evaluating radar emitter identification and location data from the EA-6B with other National and theater sources.															
Team Portable Collection System-Multi-Platform Capability (TPCS) is a modular, semi-automated, multi-platform system providing signals interception, direction-finding, reporting and collection management to the Marine Air Ground Task Force commander. This lightweight, team transportable system is scalable to meet Marine Corps tactical mission requirements. semi-automated, man/team portable system providing intercept, collection, direction-finding, reporting and collection management to Marine Air-Ground Task Force (MAGTF) commanders. It provides special signals intercept, and Direction Finding (DF) capability for each system and is modular, lightweight and team transportable.															

**UNCLASSIFIED**

<b>Exhibit P-40, Budget Item Justification Sheet: PB Amended 2014 Navy</b>		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1109N: Procurement, Marine Corps / BA 04: Communications & electronics equipment / BSA 16: Intell/Comm Equipment (Non-Tel)	<b>P-1 Line Item Nomenclature:</b> 4747 - Intelligence Support Equipment	
<b>ID Code</b> (A=Service Ready, B=Not Service Ready) : A	<b>Program Elements for Code B Items:</b>	<b>Other Related Program Elements:</b> 0206625M
<b>MDAP/MAIS Code(s):</b>		
Radio Reconnaissance Equipment Program (RREP) supports the Radio Recon Teams (RRT) within the Marine Corps Radio Battalions and the Marine Corps Special Operations Command (MARSOC) Direct Support Teams (DST). Capability to collect, record, and disseminate Signals Intelligence (SIGINT)/Electronic Warfare (EW) information. The Signals Intelligence Suite 3 (SS-3) searches, detects, intercepts, precision geo-locates (PGL), displays, monitors, records and forwards intelligence information and conducts ground electronic attack (EA) in the Marine Air-Ground Task Force (MAGTF) Area of Responsibility (AOR).		
Sensitive Compartmented Information Communications (SCI Comms) Systems support fast-paced, flexible, and distributed operations by providing commanders with mission critical voice, data and video connectivity at up to the Top Secret/Sensitive Compartmented Information (TS/SCI) level. These systems enable analyst-to-analyst interchange with tactical, theater or national intelligence organizations via Secret Internet Protocol Router Network (SIPRNet), Joint Worldwide Intelligence Communications System (JWICS) and National Security Agency Network (NSANet). This project was formerly TROJAN SPIRIT II.		
Communication Emitter Sensing and Attacking System (CESAS) is a digital Electronic Attack (EA) System that can be mounted in a variety of platforms. CESAS is the sole USMC high power, ground mobile EA asset and provides the Marine Air-Ground Task Force (MAGTF) Commander with the capability to detect, deny, and disrupt threat communication. Currently due to weight and armor issues is mounted only in the MRAP. An Analysis of Alternatives for a follow on capability, called CESAS II was completed in early FY13. Development of CESAS II started in FY13.		
Intelligence Equipment Readiness (IER) provides a responsive capability to alleviate Marine Corps intelligence systems shortfalls created by the rapidly evolving missions, threats and command relationships associated with the Overseas Contingency Operations (OCO) and 21st Century expeditionary military operations. IER provides for rapid technology insertion, as well as quick reaction training and logistics, the time sensitive intelligence infrastructure requirements of Marine Corps Operating Forces and the theater and service intelligence organizations supporting those forces. IER rapidly mitigates intelligence infrastructure shortfalls through exploitation of COTS, GOTS and Non-Developmental Item technology to the greatest extent practical. IER also centralizes support for Marine Corps intelligence infrastructure items and systems that are not separately identified within the program funding lines. IER provides the capability to address requirements that span across the entire Marine Corps Intelligence, Surveillance, Reconnaissance Enterprise (MCISR-E).		
Wide Field of View Persistent Surveillance (WFVPS) is a capability that supports Persistent Intelligence, Surveillance and Reconnaissance (PISR), Improvised Explosive Device (IED) mitigation, and actionable intelligence in urban and other operations (e.g. disaster relief, security, etc). The WFVPS Ground Receive Station (GRS) will allow wide area, near real time, geo-registered imagery to be incorporated into tactical level intelligence products. The WFVPS ground distribution network consists of the GRS, servers, storage, viewer client stations, and provides components to bring multi-intelligence data from programs of record into a Distributed Common Ground System (DCGS) Integration Backbone for distribution and publishing to the Intelligence Enterprise. The WFVPS GRS is being produced as a component for the Wide Focal Plane Array Camera (WFPAC) effort in response to Marine Corps UUNS (10335UA) and CENTCOM JUONS (CC-0424). WFPAC represents a significant additive/new capability for the Counter IED (CIED) fight.		
Joint Surveillance Target Attack Radar System (JSTARS) is a long-range, air-to-ground surveillance system, composed of a USAF E-8C aircraft, JSTARS Common Ground Stations (CGS) and Joint Service Workstations (JSWS).		
MAGTF Secondary Imagery Dissemination System (MSIDS) is the only FoS that provides organic tactical digital imagery collection, transmission and receiving capability to the MAGTF Commander. MSIDS is comprised of components necessary to enable Marines to capture, manipulate, annotate, transmit or receive images in near real time (NRT), internally with subordinate commands that are widely separated throughout the area of operations and externally with higher adjacent commands. The MSIDS capability resides with the MAGTF G/S-2 sections and Ground Reconnaissance Battalions, Infantry Battalion Scout Sniper Platoons and Marine Special Operations Command. The MSIDS FoS extends the digital imaging capability to all echelons within the MEF, down to and including battalions and squadrons. Captured images are capable of being forwarded throughout the MAGTF through the use of Base Station Workstation/Communication Interface (BW/CI), Outstation Workstation/Communication Interface (OW/CI) or existing C4ISR architecture. Images can also be transmitted to the Tactical Exploitation Group (TEG) for more detailed processing and analysis. The MSIDS Video Exploitation Workstation (VEW) requirement within Infantry Battalions and Wing units, down to the squadron level, has grown from 18 to 140. The VEW is utilized to import, manipulate, annotate still and video imagery, create intelligence products, lift still frames from video, view multi-format TV signals and provide a field briefing capability. MSIDS FoS is currently employed in every location world-wide where the Marine Corps participates in military operations to include Irregular Warfare. MSIDS is currently, or has been employed, in Iraq, Kuwait, Afghanistan, Haiti, Philippines and the Horn of Africa.

Tactical Remote Sensor System (TRSS) provides all-weather direction, location determination, targeting, and tactical indications and warning of enemy activity in the Marine Air-Ground Task Force (MAGTF) Commander's Area of Interest. Evolutionary, incremental upgrades to the system provide imagers with a remotely changeable field of view; more reliable, networked communications that provide higher-quality imagery; and smaller, power-efficient, magnetic detectors with improved target-detection range. The cumulative impact of these changes enable the system to provide higher discrimination of threats in a more reliable and timely manner. As the program proceeds, the upgrade of individual system components will continue to occur as needed as threats, technologies, and system requirements evolve.																																						
Counter Intelligence and Human Intelligence (CI/HUMINT) Equipment Program (CIHEP) integrates audio, video, imagery, communications, technical surveillance, and automated data processing equipment into lightweight, modular, deployable packages to provide dedicated MAGTF CI/HUMINT support for full spectrum controlled, surreptitious, and tactical CI/HUMINT, Force Protection, and technical collection operations. Technical Surveillance Countermeasures (TSCM) is a service level counterintelligence (CI) function that was formerly a separate program which has been combined with CIHEP.																																						
Joint Worldwide Intelligence Communications System (JWICS) is the Top Secret Sensitive Compartmented Information (TS/SCI) portion of the Defense Information System Network. It incorporates advanced networking technologies that permit point-to-point or multi-point information exchange involving voice, text, graphics, data and video teleconferencing within the Department of Defense (DoD) Intelligence Community. JWICS provides Marine Forces with special intelligence that significantly enhances the detail and quality of intelligence support that intelligence organizations provide to operating forces.

**Justification:**

FY 2012 Base Appropriation:

Team Portable Collection System - Multi-Platform Capable (TPCS-MPC): \$4.378M funds support production, integration, testing and training support and procured, and related support, Advanced Network Survey Kit (ANSK) and Precision Geo-location (PGL) systems.

Radio Reconnaissance Equipment Program (RREP): \$1.391M procured new technology and Electronic Attack (EA) components.

**UNCLASSIFIED**

<b>Exhibit P-40, Budget Item Justification Sheet: PB Amended 2014 Navy</b>		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1109N: Procurement, Marine Corps / BA 04: Communications & electronics equipment / BSA 16: Intell/Comm Equipment (Non-Tel)	<b>P-1 Line Item Nomenclature:</b> 4747 - Intelligence Support Equipment	
<b>ID Code</b> (A=Service Ready, B=Not Service Ready) : A	<b>Program Elements for Code B Items:</b>	<b>Other Related Program Elements:</b> 0206625M
<b>MDAP/MAIS Code(s):</b>		
Technical Control and Analysis Center (TCAC): \$10.255M procures the transportable workstation (TWS) laptop refresh, provided fielding support for TCAC 4.3. and software licenses as the first part of a three part obsolescence management strategy to ensure that the TCAC FoS is equipped with the most capable hardware and current versions of software, ensuring mission success.		
MAGTF Secondary Imagery Dissemination System (MSIDS): \$2.111M procured equipment, hardware, software and accessories for the MSIDS Suite necessary to keep ground-based imagery collection and dissemination assets current. Funds also provided interim contract services during fielding.		
Tactical Remote Sensor System (TRSS): \$8.042M procured Sensor Monitoring Groups, imager upgrades (from black and white to color), and engineering support.		
Counter Intelligence and Human Intelligence (CI/HUMINT) Equipment Program (CIHEP): \$6.882M supports the refresh of TSCM equipment. TSCM is selectively refreshed bi-annually in order to ensure the capabilities of the equipment meet the rapidly evolving technical surveillance threat. The TSCM Military Intelligence Program (MIP) project merged into the CIHEP MIP project in FY 2012.		
Intelligence Equipment Readiness (IER): \$3.169M procured SIPRNet connectivity equipment, initial connectivity during fielding, and logistics support for the program.		
Intelligence Broadcast Receiver (IBR): \$0.392M provided programmatic support and the procurement of Universal Serial Bus Embedded National Tactical Receiver (USB ENTR), accessory kits, and upgrade kits.		
Joint Worldwide Intelligence Communications System (JWICS): \$4.662M covers garrison and tactical equipment and integration costs for SCI Enterprise Office (SEO) and the MCISR-E Fixed Site, located at the Marine Corps Intelligence Activity (MCIA). This funding covers garrison hardware including desktops, laptops, servers, router, switches, maintenance of equipment, and EKMS for SEO services; Storage area network (SAN/NAS) capacity added to the existing storage architecture at MCISRE Fixed Site, and integration of web-based applications and common operating picture (COP)/common intelligence picture (CIP) portal components within the MCISRE architecture.		
Intelligence Analysis System Mod (IAS) FoS: \$5.105M provided programmatic support and the procurement of the Tier I Marine Expeditionary Force (MEF) IAS refresh and provided support to existing Tier II and Tier III systems. IAS FoS Tiers are supporting all echelons in Afghanistan.		
Wide Field of View Persistent Surveillance (WFVPS): \$1.344M provided Field User Evaluation (FUE) support for the Ground Receive Station (GRS).		
Sensitive Compartmented Information Communications (SCI Comms): \$16.545M procures 59 team terminals known as the Secure Compartmented Information Kits which will support intelligence collection and distribution missions throughout the MAGTF. This transit cased expeditionary capability does not currently exist for intelligence early entry teams today.		
FY 2012 Overseas Contingency Operations (OCO) Request:		
RREP: \$0.775M procured hardware upgrades necessary to transition advanced network survey capabilities provided by RadBn Mods to RREP. Funding also procures technology refresh for EA capability and to fund a technology refresh of the RREP basic collection and direction finding (DF) capability to improve the DF accuracy and interoperability with system receivers.		
TPCS: \$9.125M procured Advanced Network Survey Kit (ANSK) and Precision Geo-location (PGL).		
TCAC: \$0.986M provided initial contractor logistics support.		
MSIDS: \$9.564M procured thermal cameras for MSIDS in support of OEF. Due to use in combat operations, the thermal cameras degraded at an accelerated rate. The cameras were fielded to reconnaissance, Scout-Sniper and MARSOC Marines. Marines conducting reconnaissance and surveillance (R&S) operations require the ability to capture and transmit imagery for actionable intelligence. Without these thermal cameras, the capabilities of target identification, tracking, and determination are severely negatively impacted. Funds were also required to replace aging components throughout the 12 MSIDS Suites (capability

<b>Exhibit P-40, Budget Item Justification Sheet: PB Amended 2014 Navy</b>		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1109N: Procurement, Marine Corps / BA 04: Communications & electronics equipment / BSA 16: Intell/Comm Equipment (Non-Tel)		<b>P-1 Line Item Nomenclature:</b> 4747 - Intelligence Support Equipment
<b>ID Code</b> (A=Service Ready, B=Not Service Ready) : A	<b>Program Elements for Code B Items:</b>	<b>Other Related Program Elements:</b> 0206625M
<b>MDAP/MAIS Code(s):</b> sets) of the MSIDS Family of Systems both in theater and returning from units in theater; the COTS gear has degraded at an accelerated rate due to heavy sustained combat use. Funds procured CF-19 Panasonic Toughbook computers, replacing aging computers in the MSIDS Outstations and Base Stations in OEF. Funds procured Night Vision Devices (NVD), which are fielded to Reconnaissance, Sniper and Intelligence units, and were heavily used in combat. MSIDS procured 50 CF-52 Panasonic Toughbook computers in OEF, completing the AAO and replacing the spares that were totally depleted due to OEF EDL sourcing, directly supporting combat operations.		
TRSS: \$3.540M procured long-range color cameras and short-range color cameras. Color capability ensures better target identification and discrimination, more precise intelligence collected at areas of interest. A mix of long and short range cameras is necessary to obtain full imagery within the area of interest.		
CIHEP: \$1.440M procured an increased number of out-of-cycle gear refresh and replacement due to heavy use within the harsh combat environment of OEF. Heavy use and high operational tempo of CI/HUMINT Marines has led to shortened lifecycle of most components within the CIHEP suite. Funds replaced Commercial SatCom sets, vehicle accessory modules, data processing modules, advanced imagery modules, and tactical handheld communications sets.		
IER: \$7.600M procured upgrades to currently fielded special intelligence communication system platforms that are mission essential to the intelligence effort and supporting the formulation of the commander's Essential Elements of Information (EEI) and Other Intelligence Requirements (OIR). Due to combat operations these special intelligence platforms endure arduous environmental conditions that degrade life span significantly and require replacement.		
IBR: \$6.602M procured Universal Serial Bus (USB) Embedded National Tactical Receiver (ENTR) systems for fielding to OEF-A operational units. Funds also procure peripheral equipment (antennas, Amplifiers, RF cabling) that accompany the USB ENTR.		
IAS: \$1.400M procured "virtual machine" enhancements for the IAS FoS system configuration based on needs and after action reports from Marines in OEF-A. A prototype is currently in Afghanistan and has been utilized and has proven its effectiveness in timely execution of corrective procedures.		
JWICS: \$6.100M procured Analytic tool enhancement and Reachback support for the Marine Corps Intelligence, Surveillance and Reconnaissance Enterprise (MCISR-E). It procures JWICS Servers, JWICS Storage Devices, and associated TS/SCI network equipment. The MCISR-E requires network optimization to increase the capacity for operations on JWICS and NSAnet networks, this funding will allow the Fixed Site and corresponding Disaster Recovery (DR) sites to facilitate data replication and data compression. Additionally funding will provide Intelligence Reachback support to OEF-A with a 24x7 MCISR-E Watch and Response Desk.		
<b>FY 2013 Base Appropriation Request:</b>		
TPCS: \$5.650M provides initial support of Block 0 Modifications and technology insertion including spare component procurement and Platform Integration Kit development.		
JWICS: \$1.816M procures garrison and tactical equipment and integration costs for SCI Enterprise Office (SEO) and the Marine Corps Intelligence, Surveillance and Reconnaissance Enterprise (MCISR-E) Fixed Site, located at the Marine Corps Intelligence Activity (MCIA). This funding procures garrison hardware including desktops, laptops, servers, router, switches, maintenance of equipment, and EKMS for SEO services; Storage area network (SAN/NAS) capacity added to the existing storage architecture at MCISRE Fixed Site, and integration of web-based applications and common operating picture.		
<b>FY 2013 Overseas Contingency Operations (OCO) Request:</b>		
IBR: \$1.562M The MIP funding to the IBR program provides Program Management, Technical Support, and Acquisition support in preparation for replacement of Commanders Tactical Terminal (CTT3) and delivery of the (USB) Embedded National Tactical Receiver (ENTR) to host systems in support of overseas contingency operations.		
TCAC: \$2.516M procures initial fielding support for TCAC 4.4 server refresh including OEF systems.		

**UNCLASSIFIED**

<b>Exhibit P-40, Budget Item Justification Sheet: PB Amended 2014 Navy</b>		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1109N: Procurement, Marine Corps / BA 04: Communications & electronics equipment / BSA 16: Intell/Comm Equipment (Non-Tel)		<b>P-1 Line Item Nomenclature:</b> 4747 - Intelligence Support Equipment
<b>ID Code</b> (A=Service Ready, B=Not Service Ready) : A	<b>Program Elements for Code B Items:</b>	<b>Other Related Program Elements:</b> 0206625M
<b>MDAP/MAIS Code(s):</b>  JWICS: \$12.432M This is a MIP program. This funding purchases (32) hardware components, support equipment and software which are necessary for network optimization to meet near-term reach-back support to OEF-A. Funding supports MCISR-E Watch desk by providing (5) watch desk monitors, (10) computers and desktop communication software that is directly supporting units in OEF-A. It also provides (1) Storage Area Network System (SANS) necessary to support storage, processing, and analysis of OEF-A data. Funding purchases (10) servers and associated enterprise software licenses to support Advanced Analytics ISO OEF reach-back to garrison analysts on JWICS and SIPRNet located at MCIA and at the MEF Intelligence Centers. Without this funding, near-term reach-back support requirements to OEF-A, network optimization ISO reach-back, and IC-compliant reporting requirements will not be met.  MSIDS: \$6.380M procures 200 Thermal cameras and 60 Advance Video Cameras to support operations in OEF-A. Cameras and video provide the ability to electronically capture, manipulate, annotate, transmit and receive ground level imagery in near-real-time, which is shared internally or with subordinate or adjacent commands.  CIHEP: \$1.520M procures and fields the Technical Surveillance Countermeasures (TSCM) equipment to meet increased requirements in support of OEF-A. The expansion of USMC TSCM to a fourth functional location, for which gear was never fully fielded, has led to increasing shortfalls in equipment to support these highly technical and sensitive missions. Current funding levels will not be able to keep pace with the high demand for this capability. Without additional funding simultaneous operations at all locations will not be achievable, resulting in delays in providing this important CI capability, and potentially leaving sensitive locations vulnerable to foreign intelligence threats.  TPCS: \$10.900M procures advanced SIGINT components to TPCS Modifications systems supporting OEF operations. These funds support modifications necessary to address threat signals of interest in OEF. PMC funds will be used to procure the Advanced Network Survey Kit (ANSK) and Precision Geo-Locate (PGL). Emerging communications technologies used by adversaries are constantly changing and SIGINT is heavily relied upon within the current operational environment. This will allow for the next generation signals collection capability and to keep the system technically relevant.		
FY14 Base Appropriation Request:  IAS: \$8.632M will procure IAS Tier III refresh and fielding support. Increase of \$8.632M from FY13 to FY14 aligns funding to program schedule to procure IAS Tier III refresh as well as support to existing fielded IAS FoS Tiers.  IBR: \$1.134M will provide programmatic support. The IBR family conforms to the DoD Integrated Broadcast Service (IBS) objectives of interoperability and commonality across the Services to receive and process near real-time intelligence data.  TCAC: \$0.202M will provide initial fielding support for TCAC transportable workstation for Radio Battalions, Marine Corps Special Operations Command and Marine Tactical Electronic Warfare Squadrons. Funds will provide help desk support to deployed Marines, technical services and logistical support.  TPCS: \$12.360M will provide technical insertions for Digital Network Intelligence, Workstation technical refresh with Operating System upgrade, and receiver upgrades. Decrease of \$4.190M from FY13 to FY14 is due to completion of Block 0 Modifications procurements.  RREP: \$1.489M will procure the technology refresh of the RREP workstation and Advanced Collection kit and programmatic support. Increase of \$1.489M from FY13 to FY14 aligns funding to program schedule to procure RREP workstation and Advanced Collection kit.  SCI Comms: \$12.875M will procure Team Level communications capability and the Expeditionary Command & Control Suites SCI Kit. Increase of \$12.875M from FY13 to FY14 aligns funding to program schedule to procure team level communications capability and ECCS SCI Kit. Systems support fast-paced, flexible, and distributed operations by providing commanders with mission critical voice, data and video connectivity at up to the Top Secret/Sensitive Compartmented Information (TS/SCI) level. These systems enable analyst-to-analyst interchange with tactical, theater or national intelligence organizations via Secret Internet Protocol Router Network (SIPRNet), Joint Worldwide Intelligence Communications System (JWICS) and National Security Agency Network (NSANet). This project was formerly TROJAN SPIRIT II.  CESAS: \$2.272M will procure the CESAS II ground electronic attack system. Increase of \$2.272M from FY13 to FY14 aligns funding to program schedule to begin procurement of CESAS II.		

**UNCLASSIFIED**

<b>Exhibit P-40, Budget Item Justification Sheet:</b> PB Amended 2014 Navy		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1109N: Procurement, Marine Corps / BA 04: Communications & electronics equipment / BSA 16: Intell/Comm Equipment (Non-Tel)		<b>P-1 Line Item Nomenclature:</b> 4747 - Intelligence Support Equipment
<b>ID Code</b> (A=Service Ready, B=Not Service Ready) : A	<b>Program Elements for Code B Items:</b>	<b>Other Related Program Elements:</b> 0206625M
<b>MDAP/MAIS Code(s):</b>		
JSTARS: \$3.109M will procure ten Ground Moving Target Indicator (GMTI) exploitation system to replace ten JSTARS Ground Stations. Increase of \$3.109M from FY13 to FY14 aligns funding to program schedule to procure GMTI.		
MSIDS: \$9.320M will provide interim contract services, procure equipment, hardware, software and accessories in the MSIDS Suite necessary to keep ground-based imagery collection and dissemination assets current. Increase of \$2.940M from FY13 to FY14 aligns funding to program schedule to procure MSIDS equipment and initial support.		
TRSS: \$8.766M will procure evolutionary, incremental upgrades to the system, providing imagers with a remotely changeable field of view, which will be a more reliable, networked communications providing higher-quality imagery; and smaller, power-efficient, magnetic detectors with improved target-detection range. Increase of \$8.766M from FY 2013 to FY 2014 aligns funding to program schedule to procure the Common Sensor Radio (CSR) modification kits and engineering support.		
CIHEP: \$9.494M will procure and field the various program technical refreshes and upgrades needed to prevent operational degradation: Hardware/Software (HW/SW) Technical Surveillance Countermeasures (TSCM) equipment upgrades, Data Processing Module (DPM) Components, Advanced Imagery Module (AIM Components, the Commercial Satellite Communication System (CSCS). FY14 will procure the CIHEP Technical Support Sets (TSS). Increase of \$7.974M from FY 2013 to FY 2014 aligns funding to program schedule to procure CIHEP upgrades and tech refresh.		
IER: \$0.171M will provide logistics support to the Marine Corps Intelligence, Surveillance, Reconnaissance Enterprise (MCISR-E).		
JWICS: \$6.155M will cover garrison and tactical equipment and integration costs for SCI Enterprise Office (SEO) and the Marine Corps Intelligence, Surveillance and Reconnaissance Enterprise (MCISRE) Fixed Site, located at the Marine Corps Intelligence Activity (MCIA). This funding will cover garrison hardware including desktops, laptops, servers, router, switches, maintenance of equipment, and EKMS for SEO services; Storage area network (SAN/NAS) capacity added to the existing storage architecture at MCISRE Fixed Site, and integration of web-based applications and common operating picture. Program funding will show a rephase of \$2M from FY13 base to FY14 base and an increase of \$2.3M to support architecture upgrades, network optimization and increase network services to support the implementation of the FY14 OCO requests for "Cloud" technology. The implementation and upgrades will increase architecture and network efficiencies that decrease costs by reducing hardware at the tactical edge and remote sites. In addition, increase of network services includes implementation of additional computer network defense solutions and sustainment of Insider Threat Auditing capabilities across the network.		
FY14 OCO Appropriation Request:		
JWICS: \$2.700M will purchase one multi-security domain advanced analytics, data management and web-application hosting node to be implemented at the Marine Corps ISR Enterprise (MCISRE) Fixed Site at MCIA, with extended capacity to three Marine Expeditionary Force (MEF) Intelligence Centers (MIC). This node will comply with the existing joint effort being led by the US Army, using the IC IT Enterprise (ICITE) baseline, and being collaborated with NSA, DIA, and US Navy, providing early operational capability to tactical forces of the longer-term IC architecture efficiency efforts. The capability (referred to as "Red Disk") will be established on SIPRNET and JWICS and will include data management architecture for IC-compliant "Smart Data" security, portable web applications via an Ozone Marketplace, and access to the Global ISR data and PED support effort jointly offered by the US Army and US Air Force. Capabilities from this node with extensions to the MICs will enable Marines to leverage larger Service and IC-level developments with technological advancements to support BOG-reductions in OEF-A for enhanced reachback capabilities, as well as the refocus of attention to challenges in other theaters. Specific architecture investments include virtual machine hardware and software, virtualized application suites for Smart Data management and mission-based web-applications (Ozone Widget Framework compliant), and Storage Area Network (SAN)/Network Attached Storage (NAS) capacity to accommodate operating system, network optimization and mission application hosting, as well as local mission data repositories for PED processing in reachback mode.

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

<sup>#</sup> FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012

<sup>##</sup> This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013

**Description:**

GROUP 1 Family of Systems (FoS) UAS - Group 1 FoS UAS program procures a capability for unmanned aircraft systems (UAS) to provide the company/detachment level with airborne reconnaissance to aid in detecting, identifying, and engaging or avoiding enemy units. The UAS air vehicle autonomously gathers and transmits imagery of the tactical situation in near-real time at a range of up to ten kilometers. The material solution for the GROUP 1 FoS requirement is the Raven B UAS, which is a five pound, hand launched, reusable vehicle with a wing span of 55 inches. The air vehicle flies at an altitude of 300-500 feet above ground level (AGL) at a speed of approximately 35 knots. This system has a maximum duration of 90 minutes. Raven B's interchangeable payloads, autopilot and propulsion system are also commercial-off-the shelf (COTS) subsystems. The Ground Control Station (GCS) uses a rugged hand controller connected to a communication control box. A Raven B system consists of three Raven B air vehicles; two Ground Control Stations (GCS); one Reconnaissance, Surveillance, and Target Acquisition (RSTA) Kit; and one Field Repair Kit (FRK). The RSTA kit is used for mission planning, autonomous flight operations and mission product archiving. The FRK contains consumable items used during operations and maintenance. Raven B is a joint US ARMY/USSOCOM Program. Funds will be allocated to replace the previously fielded Small Unit Remote Scouting System (SURSS), Block 0 which are reaching the limit of operational life. NOTE: A system with Distributed Data Links (DDL) consists of three (3) air vehicles, two (2) ground control stations, and one (1) RSTA kit.

GROUP 1 Family of Systems (FoS) UAS - (OCO) The next increment will involve an evolution to a Group 1 (Family of System) individually capable of executing requirements for long, medium and short range missions in fulfillment of the SURSS requirement.

PUMA - PUMA is an all environment small Unmanned Aircraft System providing Intelligence Surveillance and Reconnaissance (ISR) to Route Clearance Platoons (RCP) and Combat Logistics Patrols (CLP). Asset allows them to scan an area prior to moving through it in order to detect Improvised Explosive Devices (IEDs), IED materials and IED emplacement teams and after clearing it to monitor for re-seeding. With a wingspan of 8.5 feet, this lightweight, hand-launched UAS provides aerial observation at line-of-sight ranges up to 10 kilometers. Payload consists of a gimbaled turret with EO/IR sensors and uses an encrypted digital data link. PUMA can be recovered in very tight areas using vertical descent AutoLand. A system consists of 3 air vehicles with a weight of approximately 13lbs per air vehicle and a ground control station (GCS).

WASP - WASP is a small UAS consisting of 2 air vehicles and a GCS. The air vehicle has an overall length of 40 inches with a weight of approximately 2.25lbs. Payload consists of a gimbaled turret with EO/IR sensors and uses an encrypted digital data link. It provides near real time area reconnaissance required by the platoon and rifle squad, greatly reduces the Intelligence, Surveillance, and Reconnaissance

(ISR) request-to-response timeframe, and eliminates delays or denials for coverage from higher headquarters due to an imbalance of Unmanned Air Systems (UAS) assets to requests. It is used for remote reconnaissance and surveillance, force protection, convoy security, target acquisition, and battle damage assessment.																													
TIER II (GROUP 3) UAS - The Small Tactical Unmanned Aircraft System (STUAS) program is a combined Navy and Marine Corps program that will provide persistent maritime and land-based tactical Reconnaissance, Surveillance and Target Acquisition (RSTA) data collection and dissemination capabilities to the warfighter. For the United States Marine Corps, STUAS will provide the Marine Expeditionary Force and subordinate commands (divisions and regiments) a dedicated Intelligence, Surveillance, and Reconnaissance system capable of delivering intelligence products directly to the tactical commander in real time. For the United States Navy, STUAS will provide persistent RSTA support for tactical maneuver decisions and unit-level force defense/force protection for Navy ships, Marine Corps land forces, Navy Expeditionary Combat Command forces and Navy Special Warfare Units. NOTE: A system consists of five (5) air vehicles (ship or land systems), ground control station(s) (GCS), multi-mission (plug-and-play) payloads, and associated launch, recovery and support equipment. Costs are shared between the two services.																													
NOTE: TIER II is reflected in LI 4737 for FY13 and beyond.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																	
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																	
<b>Description:</b>																	
MARINE CORPS COMMON HARDWARE SUITE (MCHS) provides Commercial-Off-The-Shelf (COTS) workstations (desktop/laptop), servers and other information technology (IT) hardware to support the Operating Forces and other non-Navy Marine Corps Intranet (NMCI) Marine Corps customers. MCHS provides support for two principal groups: 1) approximately 50 United States Marine Corps (USMC) Tactical and Functional Programs of Record that use COTS IT hardware as part of their fielded systems; and 2) tactical and other Marine Corps customers not supported by NMCI such as Marine Corps Forces, Europe/Marine Corps Forces, Korea and stand-alone Marine Corps units and schoolhouses. MCHS is also responsible for ADHOC emerging priority requirements approved by C4.																	
General Purpose Portable Computers: Funds are intended to replace assets used by deployed forces in support of OEF. Numbers shown are based on a nominal 5-Year refresh rate on revised Tables of Equipment (T/Es) driven by Marine Corps Combat Development Command (MCCDC) Approved Acquisition Objective (AAO) reconciliation. This is a TECH Refresh of 25% of assets currently in theater and used in deployment preparation. These purchases differ in quantities and costs based on varying circumstances including the current pricing and the quantities that are ordered. MCHS Laptops range in price from \$970 -\$2,400 each; Servers range in price from \$6,500 - \$15,533.																	
MARINE CORPS ENTERPRISE INFORMATION TECHNOLOGY SERVICES (MCEITS) provides an overarching portfolio of capabilities to deliver "Power to the Edge" for the Marine Corps. Born from an effort to establish a Continuity of Operations Plan of Headquarters Marine Corps (HQMC) Automated Information Systems, MCEITS will realign the existing USMC environment of applications, databases, networks, and facilities into an integrated architecture and programs to deliver new information technology capabilities based on a common infrastructure and shared services. MCEITS is a unifying framework of both the Net-Centric Enterprise Services to be delivered, and the infrastructure and systems which must be deployed to enable delivery of those services. Initially, it will encompass the operational, technical, and systems architectures of the garrison environment. Ultimately, it will extend to transform Command and Control (C2) both in garrison and in the deployed environment. Combined with policy, procedure, and standards provided by HQMC Command, Control, Communications and Computers (C4); MCEITS will allow for achievement of architectural standardization, consolidated management, seamless interoperability, and access to the data residing in our currently fielded applications (business and tactical). MCEITS enables access to enterprise information and provides the ability to collaborate and share information across the business and warfighter domains. MCEITS has an Approved Acquisition Objective (AAO) of one which includes two Enterprise Information Technology Centers (EITC), one System Integration Environment (SIE), up to eight Distributed Platform, and Expeditionary Software Platform. Procurement funding provides for various computers, network gear, racks, etc. and associated installation costs.

<b>Exhibit P-40, Budget Item Justification Sheet: PB Amended 2014 Navy</b>		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1109N: Procurement, Marine Corps / BA 04: Communications & electronics equipment / BSA 19: Other Support (Non-Tel)		<b>P-1 Line Item Nomenclature:</b> 4630 - Common Computer Resources
<b>ID Code</b> (A=Service Ready, B=Not Service Ready) : A	<b>Program Elements for Code B Items:</b>	<b>Other Related Program Elements:</b> 0206313M, 0206623M, 0206624M, 0303150M, 0604766M
<b>MDAP/MAIS Code(s):</b>		
TOTAL FORCE STRUCTURE MANAGEMENT SYSTEM (TFSMS) is the Marine Corps authoritative data source for force structure data and provider of the Marine Corps Tables of Organization and Equipment. TFSMS defines present and future Marine Corps force structure, establishes the Marine Corps baseline for readiness reporting, justifies resource requirements and allocation, and enables Marine Corps compliance with the Joint Staff and Office of the Secretary of Defense initiative to standardize force structure representation by providing the Marine Corps Global Force Management Organizational Server. TFSMS is a web-based system built on the Oracle E-Business suite and employs Cognos Report Net Business Intelligence software for the development of standard and ad-hoc queries.		
MARINE CORPS NETWORK OPERATIONS AND SECURITY CENTER (MCNOSC) provides global network operations and computer network defense of the Marine Corps Enterprise Network (MCEN) in order to facilitate seamless information exchange in support of Marine and Joint Forces operating worldwide. The MCNOSC concurrently provides technical leadership for service-wide initiatives that utilize the enterprise capabilities delivered by the MCEN. MCNOSC is the Network Operations (NETOPS) component of Marine Corps Cyber Command and provides network situational awareness, command and control, and technical support to Marine Corps operating forces and supporting establishment organizations, both in garrison and while deployed. MCNOSC is the primary DOD Computer Network Defense Service Provider for the U.S. Marine Corps and directs Service actions to prevent and respond to security incidents. The MCNOSC delivers numerous enterprise services for the Marine Corps, to include mainframe computer services management, Defense Message System, DOD PKI, and Active Directory/Global Address List. The MCNOSC is responsible for the operations and defense of MCEITS, which delivers data center services to the Marine Corps. Finally, MCNOSC provides technical expertise to HQMC, Marine Corps Combat Development Command, Marine Corps Systems Command (MCCDC), and Marine Corps organizations around the world in support of Information Technology initiatives undertaken within the Marine Corps and DOD. The FY13 will support Core Competencies in the Computer Networks Defense and Network Ops areas with skilled cyber-warriors (24x7x365). The added responsibilities and network security events have required continued operational employment of current assets and personnel. PMC funding is based on increased mission requirements dictated by DoD/USSTRATCOM/USCYBERCOM Operations to defend the network. The FY13 procurement funding will be used to refresh the MCNOSC Alternate Network Operations Security Center, USMC Site R refresh, Network Common Operational Picture Tools, Host Based Security Systems, Secure Configuration Compliance Validation Initiative and Secure Configuration Remediation Initiative (SCCVI/SCRI), Intrusion Prevention and scanning tools, Virtual Private Network, and other operations and defense tools.		
The SECRET INTERNET PROTOCOL ROUTING NETWORK (SIPRNET) INFRASTRUCTURE program provides funding to procure and sustain hardware, software, infrastructure and services necessary to sustain and improve critical C2 network operations. This funding enables central management of SIPRNET to ensure enterprise architecture goals and standards are established and maintained and to take advantage of quantity-related discounts. The SIPRNET provides Marine Corps garrison forces with a secure digital means to communicate and share data, information, and knowledge at the secret level with dispersed organizations located around the world. This program resources the refresh of technologically obsolete equipment, shortfalls in network operational capabilities, solutions to resolve and mitigate network security vulnerabilities, and increased SIPRNET capability as expressed by the Marine Corps Forces (MARFORs).		
NEXT GENERATION ENTERPRISE NETWORK (NGEN) is a Department of the Navy (DON) enterprise network which will provide secure, net-centric data and services to Navy and Marine Corps personnel. NGEN forms the foundation for the DON's future Naval Networking Environment (NNE) vision and strategy that will be interoperable with and leverage other DOD provided Net-Centric Enterprise Services. The formal transition to NGEN began in FY 2011 with the execution of the Continuity of Services Contract (CoSC) that was awarded on 8 Jul 2010 with a period of performance ending April 2014. For the Marine Corps, NGEN will be a Government Owned/Government Operated (GO/GO) model augmented by NGEN contractor services. NGEN will provide funding to transition the Marine Corps from the Navy and Marine Corps Intranet (NMCI) contractor owned and operated environment/ capability, with no break in service, through the CoSC as a bridge contract with the NMCI incumbent and other NGEN early transition activities. FY13 funding will procure hardware and software requirements to support transition, enterprise network management, information technology service management (ITSM), end user and network tech refresh, equipment for an Enterprise Service Desk (ESD), a USMC lab environment developed for engineering and testing in support of the Marine Corps GO/GO NGEN Management Domain, and software licenses. FY14 funding will procure hardware and software requirements to support transition, enterprise network management, refresh of equipment and infrastructure procured via the CoSC and for completion of transition to the NGEN contract(s), and software used by end users and for daily network operations to include ITSM processes and tools. Tech refresh of existing equipment including end user workstations, servers, routers, switches, and software will be accomplished across the enterprise as well. The equipment for this refresh differs in quantities and costs based on varying requirements including the current pricing and the quantities that are ordered.		
MARINE CORPS INFORMATION OPERATION PROGRAM (MCIOP) supports DOD capabilities based analysis (CBA) to address emerging Marine Air Ground Task Force C2 program and cyberspace requirements. MCIOP supports IO Range research/modeling/simulation conducted by MCL, industry, and/or academia to explore existing and emergent Information Operations initiatives and cyber technologies.

**Justification:**

MARINE CORPS COMMON HARDWARE SUITE (MCHS)

FY12 PMC (\$32.287M) funding supported the purchase of Hardware/Software for the MCHS program (MARFORE/MARFORK) and Programs of Record.

FY12 OCO (\$12.973M) funding procured General Purpose Portable Computers. Funds were intended to replace assets used by deployed forces in support of OEF. Numbers shown are based on a nominal 5-Year refresh rate on revised Tables of Equipment (T/Es) driven by Marine Corps Combat Development & Integration (CD&I) Approved Acquisition Objective (AAO) reconciliation. This was a TECH Refresh of 20% of assets currently in theater and used in deployment preparation. These purchases differ in quantities and costs based on varying circumstances including the current pricing and the quantities that were ordered. MCHS Laptops range in price from \$970 - \$2,400 each; Servers range in price from \$6,500 - \$15,533.

FY13 PMC (\$25.056M) funding supports the purchase of Hardware/Software for the MCHS program (MARFORE/MARFORK) and Programs of Record.

FY13 OCO (\$17.607M) funding supports the procurement of General Purpose Portable Computers. Funds are intended to replace assets used by deploying forces in support of OEF. Numbers shown are based on a nominal 5-Year refresh rate on revised Tables of Equipment (T/Es) driven by Marine Corps Combat Development & Integration (CD&I) Approved Acquisition Objective (AAO) reconciliation. This is a TECH Refresh of 20% of assets currently used in deployment preparation. These purchases differ in quantities and costs based on varying circumstances including the current pricing and the quantities that are ordered. MCHS Laptops range in price from \$970 - \$2,400 each; Servers range in price from \$6,500 - \$15,533.

<b>MDAP/MAIS Code(s):</b>		
<p>FY14 PMC (\$23.152M) funding will support the purchase of Hardware/Software for the MCHS program (MARFORE/MARFORK) and Programs of Record. FY14 OCO (\$4.866M) funding will support the procurement of General Purpose Portable Computers. Funds are intended to replace assets used by deployed forces in support of OEF. Numbers shown are based on a nominal 5-Year refresh rate on revised Tables of Equipment (T/Es) driven by Marine Corps Combat Development &amp; Integration (CD&amp;I) Approved Acquisition Objective (AAO) reconciliation. This is a TECH Refresh of 20% of assets currently in theater and used in deployment preparation. These purchases differ in quantities and costs based on varying circumstances including the current pricing and the quantities that are ordered. MCHS Laptops range in price from \$970 - \$2,400 each.</p> <p>MARINE CORPS ENTERPRISE INFORMATION TECHNOLOGY SERVICES (MCEITS) FY12 PMC (\$34.696M) funding supported the procurement of software and hardware (servers, clients, memory, pods) for 2nd MCEITS IT Center for High Availability and Disaster Recovery (HA/DR). FY13 PMC (\$22.412M) funding supports the Distributed Platform and Expeditionary Platform deployment in FY14 and FY15 as well as scaling of infrastructure in two Enterprise Information Technology Centers to provide high availability, disaster recovery, and operational continuity for USMC data systems. FY14 PMC (\$25.834M) funding will support the Distributed Platform and Expeditionary Platform deployment in FY14 and FY15 as well as scaling of infrastructure in two Enterprise Information Technology Centers to provide high availability, disaster recovery, and operational continuity for USMC data systems.</p> <p>MARINE CORPS NETWORK OPERATIONS AND SECURITY CENTER (MCNOSC) FY12 PMC (\$8.325M) funding supported the MCEN Backbone Diversity Refresh Phase I, Enterprise Logging and Keyboard Video Mouse Refresh (KVM), Microsoft Software Licenses in Support of the MCNOSC/ALTNOSC Workstation Software and Equipment to support the growth of the new Annex. FY13 PMC (\$13.244M) funding supports the refresh of the MCNOSC Alternate Network Operations Security Center, USMC Site R refresh, Network Common Operational Picture Tools, Host Based Security Systems, Secure Configuration Compliance Validation Initiative and Secure Configuration Remediation Initiative (SCCVI/SCRI), Intrusion Prevention and scanning tools, Virtual Private Network, and other operations and defense tools. FY13 OCO (\$2.200M) Deployed Support shall employ 10 segregated management pedestal networks; 5 on the NIPRNET and 5 on the SIPRNET. The management pedestal networks shall incorporate dedicated HA pair of VPN appliances, firewall managers, firewall analyzers, and administrative servers. Management pedestals are to be located at 5 sites: Camp Lejeune, Camp Pendleton, Okinawa, Quantico, and Bahrain (now = MARFOREUR). Aggregate logs from all locations are collected at MCNOSC, Quantico. The Cyber Defense Firewall Managers (CDFM) support all deployed Information Assurance boundaries to include those deployed in OEF. The current Deployed Security Interdiction Devices (DSID) in the OEF theater report back into the Camp Lejeune CDFM. The Camp Lejeune CDFM is also supporting JTF-Libya efforts currently underway. MARCENT FWD and the new Marine Expeditionary Brigade (MEB) standing up in Bahrain will be served by the MARFOREUR CDFM. The MFE CDFM will also serve as a backup for deployed assets in the OEF Theater of operations. Camp Pendleton CDFM supports 11th, 13th, and 15th Marine Expeditionary Unit's as they begin D-30 and all of the way through their workups. Camp Pendleton's CDFM also supports all exercises in deployment preparation to include Marine Expeditionary Forces (MEF) Rehearsal Exercises, Mojave Viper, and WTI. Camp Foster's CDFM supports the 31st Marine Expeditionary Unit (MEU) and III MEF deployments to include High Availability Disaster Recovery (HA/DR) missions such as Operation Tomodachi. All 4 locations receive updates from the MCNOSC CDFM and the log information located at the four locations is fed back into the MCNOSC CDFM for review by the MARCENT Analysts. Each of the configurations is identical and has identical costs of procurement. Each configuration has pairs of equipment. One set for NIPRNet, one for SIPRNet. The cost per site breaks down to ~\$440,000. FY14 PMC (\$12.541M) funding will support the refresh of current assets (workstations, VoIPs, software licenses, computer accessories, etc.), as well as procurement of new assets to support the MCNOSC's planned growth. PMC funding varies in direct proportion to equipment refresh requirements which varies from 3, 4, and 5 year cycles based on network devices.</p> <p>SECRET INTERNET PROTOCOL ROUTING NETWORK (SIPRNET) INFRASTRUCTURE FY12 PMC (\$10.817M) funding supported the refresh of end user equipment and system level infrastructure. Tech refresh of existing equipment including workstations, servers, routers, switches, and software will be accomplished across the Marine Corps SIPRNET environment and infrastructure. FY13 PMC (\$19.229M) funding supports the refresh of end user equipment and system level infrastructure and design and implementation of virtualization and software delivery capabilities. Tech refresh of existing equipment including workstations, servers, routers, switches, and software will be accomplished across the Marine Corps SIPRNET environment and infrastructure.</p>

<b>MDAP/MAIS Code(s):</b>		
FY14 PMC (\$5.365M) funding will support the refresh of end user equipment and system level infrastructure. Tech refresh of existing equipment including workstations, servers, routers, switches, and software will be accomplished across the Marine Corps SIPRNET environment and infrastructure.		
NEXT GENERATION ENTERPRISE NETWORK (NGEN) FY12 PMC (\$131.010M) funding supported the refresh of end user equipment and enterprise level infrastructure hardware. Tech refresh of existing equipment includes: workstations, servers, routers, switches, and software. FY13 PMC (\$124.337M) funding supports the refresh of end user equipment and enterprise level infrastructure. Tech refresh of existing equipment includes: workstations, servers, routers, switches, and software. Funding support initial ESD build-out and ITSM hardware and software. FY14 (\$53.019M) funding will support the refresh of end user equipment and enterprise level infrastructure. Tech refresh of existing equipment includes: workstations, servers, routers, switches, and software.		
MARINE CORPS INFORMATION OPERATION PROGRAM (MCIOP) FY12 PMC (\$1.508M) funding was used for requirements of outfitting new facilities for this program. Funding also provided mission critical hardware and software that is specific to the needs of the intelligence environment. FY13 PMC (\$1.101M) funding provides mission critical hardware and software that is specific to the needs of the intelligence environment. Modeling and simulation explores existing and emergent Information Operations (IO) initiatives and cyber technologies. FY14 PMC (\$1.124M) funding will support mission critical hardware and software that is specific to the needs of the intelligence environment. Modeling and simulation will explore existing and emergent Information Operations (IO) initiatives and cyber technologies.		
TOTAL FORCE STRUCTURE MANAGEMENT SYSTEM (TFSMS) FY12 PMC (\$0.016M) funding supported procurements to stand-up the TFSMS disaster recovery/continuity of operation (DR/COOP) site. FY13 PMC No funding. FY14 PMC (\$0.573M) funding will support the redesign and integration costs to virtualize TFSMS. This virtualization will help reduce life cycle costs to the program and also align TFSMS with the data center consolidation initiatives.		
TACTICAL COLLABORATION WORK SUITE (TCWS) FY12 PMC (\$4.175M) funding supported procurement for TCWS 2.0 hardware and TCWS Expeditionary software. FY13 PMC no funding FY14 PMC no funding		
IMPROVED RECOVERY VEHICLE (IRV) FY13 Reserve (\$.009M) funding supports the procurement of Hardware refresh for the M88A2 Recovery Vehicle. FY14 Reserve (\$.009M) funding will support the procurement of Hardware refresh for the M88A2 Recovery Vehicle.		
MARINE AIR COMMAND AND CONTROL SYSTEM (MACCS) FY13 Reserve (\$.188M) funding supports the continued sustainment and replacement of obsolete COTS equipment for Direct Air Support Center (DASC), Tactical Air Command Center (TACC), and Tactical Air Operations Center (TAOC) systems. Also supported is the In Service Engineering Agent (ISEA) for MACCS legacy systems and to complete and field four (4) additional Communication Datalink Systems (CDLS) to the TACC. FY14 Reserve (\$.158M) funding will support the continued sustainment and replacement of obsolete COTS equipment for Direct Air Support Center (DASC), Tactical Air Command Center (TACC), and Tactical Air Operations

**Footnotes:**

- (1) Justification for not providing P-21 for MCHS (Laptops), MCNOSC (Computer Network Defense) and NGEN (End user equipment Tech Refresh): Given the transient state of the IT environment with technology developments and innovation every 18 months or less, providing delivery schedules for IT equipment (HW/SW) procurements is not feasible. While we do have a procurement plan for IT Equipment, the specific configurations driving contractual decisions and the delivery timeline is imprecise until the actual time of procurement.
- (2) This line includes Hardware - multiple components to include servers, racks, etc.
- (3) This line includes Hardware - multiple components.
- (4) This line includes Hardware - multiple components to include servers, racks, memory modules, etc.
- (5) This line funds Technology Refresh Hardware
- (6) This line funds Technical Refresh Hardware for multiple components
- (7) This line funds Hardware refresh for Albany Classified and Unclassified- multiple components to include servers and hardware for Tech Refresh
- (8) Unit cost varies

<b>Exhibit P-40A, Budget Item Justification For Aggregated Items:</b> PB Amended 2014 Navy		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1109N: Procurement, Marine Corps / BA 04: Communications & electronics equipment / BSA 19: Other Support (Non-Tel)	<b>P-1 Line Item Nomenclature:</b> 4630 - Common Computer Resources	<b>Aggregated Item Name:</b> Common Computer Resources
(9) Unit cost varies. (10) Unit cost varies (11) Unit cost varies (12) Unit costs varies. IT equipment unit cost ranges from less than \$100.00 per item to more than \$20,000.00. SIPR Refresh unit cost includes workstations, servers, software and supporting infrastructure. (13) Software licenses pricing and quantities vary. Pricing ranges from \$3.69 each to \$4,266.00 each. (14) Unit costs vary from \$100.00 to more than \$20,000.00. Quantities vary. (15) Unit costs for end user hardware varies from \$949.00 to \$2,148.00. Unit cost is an average cost based on FY12 procurements. (16) Network equipment costs vary from a few dollars to thousands of dollars. IT equipment pricing is dependent upon pricing that varies as new technology updates are available. Equipment includes routers, switches, cables, servers, etc.

**Footnotes:**

(17) Justification for not providing P-21 for MCHC (Laptops/Servers), MCEITS (Distributed Platform), and NGEN (HW/ Tech Refresh): Given the transient state of the IT environment with technology developments and innovations every 18 months or less, providing delivery schedules for IT equipment (HW/SW) procurements is not feasible. While we do have a procurement plan for IT equipment, the specific configurations driving contractual decisions and the delivery timeline is imprecise until the actual time of procurement.

(18) To be purchased via MCHS IDIQ contract vehicles

<sup>#</sup> FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012

<sup>##</sup> This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013

**Description:**

Networking-on-the-Move (NOTM) - NOTM is a two increment program. Increment 1 was the response to an Urgent Universal Need Statement (UUNS) to produce the initial NOTM capability. The procurement dollars in FY14 are to maintain and sustain the increment 1 systems. In increment 2, NOTM will provide Beyond Line of Sight (BLOS)/Line of Sight (LOS) transmission capability to the operating forces for network connectivity while on the move to enable access to Command and Control (C2) applications, streaming video and collaboration tools. NOTM will also provide remote and dynamic network management to eliminate the burden on end-users and incidental operators to perform technical functions. NOTM will include vehicle integration kits, capable of being installed on existing and future vehicle platform as well as the software and hardware necessary to provide network management for all levels of the program. NOTM is being developed using an incremental approach where the first increment will provide capabilities to the Marine Expeditionary Unit (MEU) followed by additional capabilities and units based on funding availability. NOTM received R&D funding beginning in FY12 with the first system procurement to begin in FY17.

Blue Force Situational Awareness (BFSA) - The Marine Corps' Situational Awareness Blue Force Tracker family of systems is comprised of the Mounted and Dismounted variants of a terrestrial Enhanced Position Location Reporting System/Single Channel Ground Airborne Radio System (EPLRS/SINCGARS) and the mounted celestial (SATCOM) system. In FY14, the BFSA and JBC-P funding lines are merged into the JBCP FoS line.

Joint Battle Command - Platform (JBC-P) FoS - JBC-P FoS is a joint Army led ACAT II program. It is a product line made up of systems and products formerly associated with the Blue Force Tracker (BFT) FoS and JBC-P. It comprises L-Band SATCOM and terrestrial Command and Control (C2) and Situational Awareness (SA) systems that use graphic displays to identify friendly units by providing Position Location Information (PLI) while facilitating tactical level C2.

Global Command and Control System (GCCS) - Consists of Command and Control (C2) subsystems which provide Combatant Commanders, the Joint Staff and other Tactical Commanders a near real time picture of the battle space necessary to conduct joint and multinational operations of U.S. Military Forces. Beginning in FY 2014 and beyond, program funds were combined with Tactical Combat Operations System (TCO) per direction from HQMC C4 and CD&I.

<b>MDAP/MAIS Code(s):</b>																						
<p>Tactical Combat Operations System (TCO) - TCO is the principal tool within the Marine Air-Ground Task Force (MAGTF) for situational awareness through distribution of the Common Tactical Picture (CTP). It supports tactical operations providing information via high speed computer systems in a timely manner and includes the Intel Operations Workstations/Servers. Procurement funding allows for system refresh and replacements to match the program's acquisition objective.</p> <p>Advanced Field Artillery Tactical Data Systems (AFATDS) - The Advanced Field Artillery Tactical Data System (AFATDS) is an automated fire support command and control (C2) system consisting of fire support application software operating on common hardware platforms, which provides the MAGTF with the ability to rapidly integrate all supporting arms assets into maneuver plans via a digital data communications link. The Backup Computer System (BUCS) is a hand-held computer system residing on a Ruggedized Personal Data Assistant (R-PDA) which is used to compute technical firing data, safety computations, computer meteorological messages and artillery survey computations.</p> <p>Target Location Designation &amp; Hand-Off System (TLDHS) - TLDHS is the only Marine Corps man-portable digital fires entry system designed for the Forward Air Controllers (FACs), Forward Observers (FOs), Fire Support Teams (FSTs), Firepower Control Teams (FCTs), Tactical Air Control Parties (TACPs) and Reconnaissance Teams to quickly acquire targets in day, night and near-all-weather visibility conditions, in order to conduct precise, rapid indirect surface fire support, Naval Surface Fire Support (NSFS) and Close Air Support (CAS).</p> <p>Marine Corps Information Operation Center (MCIOC) - provides Marine Air Ground Task Force (MAGTF) commanders and the Marine Corps a responsive and effective full-spectrum information operations (IO) planning and psychological operations delivery capability by means of deployable support teams and a comprehensive general support IO reach-back capability in order to integrate IO into Marine Corps operations. Multiple classification levels require separate Information Technology (IT) infrastructure to support each classification level in accordance with National Security Agency and Defense Intelligence Agency standards. This includes equipment necessary for connecting internal MCIOC IT infrastructure (voice, video, and data) with the existing Marine Corps Base Quantico support infrastructure.</p>

*Item Nomenclature represents Item Number, DODIC, and Item Name for the P40A and P5; Name for the P18 and P23; Modification Number and Modification Title for the P3A; Item Number and Item Name for the P10.		
Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.		
<b>Justification:</b> FY12 Base Appropriation:  Global Command and Control System (GCCS) \$1.980M - The FY12 initiative continued the technical support for refreshed hardware that provides increased capabilities to the Fleet Marine Force, allowing continued interoperability with Joint forces.  BFSA/Blue Force Tracker (BFT) \$57.092M - The FY12 initiative procured new JCR hardware capabilities (BFTII Transceivers/KGV-72 Encryption Devices) to outfit already delivered systems. This new capability allowed a secure network and created a greater bandwidth to increase the reporting of friendly position location information (PLI) to the Joint Common Operational picture. Additionally, this initiative procured systems toward the AAO and associated support.  Joint Battle Command - Platform (JBC-P)FoS \$1.125M - The FY12 initiative procured BFT legacy systems toward the AAO.  Tactical Combat Operations System (TCO) \$15.079M - The FY12 initiative will continue the technical support for refreshed hardware that provides increased capabilities to the Fleet Marine Force, allowing continued interoperability with Joint forces.  Advanced Field Artillery Tactical Data Systems (AFATDS) \$2.487M - The FY12 initiative continued the MTS integration effort. The forecasted MTS integration completion year is FY13.  Target Location Designation & Hand-Off System (TLDHS) \$7.093M - The FY12 initiative was utilized to initiate a hardware refresh for the replacement of Block II Systems with a smaller/lighter capability.  FY12 Overseas Contingency Operations (OCO) Request:  BFSA/Blue Force Tracker (BFT) \$31.491M - The FY12 initiative procured new JCR hardware capabilities (BFTII Transceivers/KGV-72 Encryption Devices) to outfit already delivered systems. This new capability allows a secure network and creates a greater bandwidth to increase the reporting of friendly position location information (PLI) to the Joint Common Operational picture. Additionally, this initiative will procure systems toward the AAO and associated support.  FY13 Baseline Request:  BFSA/Blue Force Tracker (BFT) \$6.927M - The FY13 initiative will continue new equipment training, logistics and fielding support.  Joint Battle Command - Platform (JBC-P)FoS \$11.687M - The FY13 initiative procures BFT legacy systems toward the AAO and associated support.  Global Command and Control System (GCCS) \$1.660M - The FY13 initiative will continue the technical support for refreshed hardware that provides increased capabilities to the Fleet Marine Force, allowing continued interoperability with Joint forces.  Tactical Combat Operations System (TCO) \$7.298M - The FY13 initiative will continue the technical support for refreshed hardware that provides increased capabilities to the Fleet Marine Force allowing continued interoperability with Joint forces.

<b>Exhibit P-40, Budget Item Justification Sheet:</b> PB Amended 2014 Navy		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1109N: Procurement, Marine Corps / BA 04: Communications & electronics equipment / BSA 19: Other Support (Non-Tel)		<b>P-1 Line Item Nomenclature:</b> 4631 - Command Post Systems
<b>ID Code</b> (A=Service Ready, B=Not Service Ready) : A	<b>Program Elements for Code B Items:</b>	<b>Other Related Program Elements:</b> 0206313M
<b>MDAP/MAIS Code(s):</b>  Advanced Field Artillery Tactical Data Systems (AFATDS) \$2.545M - The FY13 initiative will be used to complete the Mobile Tactical Shelter Integration effort. The MTS will be fielded to each Marine Artillery Battery Fire Direction Center and Fire Support Team.  Target Location Designation & Hand-Off System (TLDHS) \$4.823M - FY13 continues the hardware refresh for the replacement of Block II Systems with a smaller/lighter capability.  Marine Corps Information Operation Center (MCIOC) \$0.250M - FY13 funding will provide tactical server refresh.  FY13 Overseas Contingency Operations (OCO) Request: N/A  <b>FY14 Baseline Request:</b>  Joint Battle Command - Platform (JBC-P) \$40.109 - The FY14 increase continues the refresh of BFT legacy systems and procures dismounted hand-held end-user devices that provide a dismounted capability to the family of systems. The dismounted handheld will enable integrated, on the move, timely, relevant Command and Control Situational Awareness (C2SA) information at the lowest levels of tactical leaders. JBC-P FoS will provide JROC mandated C2SA convergence across ground vehicles and dismounted personnel, and reduce risk of Inter and Intra service/coalition fratricide  Tactical Combat Operations System/Global Command and Control System (TCO/GCCS) \$9.836 - The FY14 increase will provide hardware and software technology refresh, essential GCCS-TCO software release "differences" training and complete requirements for Command Post Systems Advisors (CPAS) support to the operating forces. Additionally, the technical support for refreshed hardware provides increased capabilities to the Fleet Marine Force, allowing continued interoperability with Joint forces.  Advanced Field Artillery Tactical Data Systems (AFATDS) \$20.903M - The FY14 increase marks the start of the cyclical hardware refresh.  Target Location Designation & Hand-Off System (TLDHS) \$4.224M - FY14 completes the hardware refresh for the replacement of Block II Systems with a smaller/lighter capability.  Marine Corps Information Operation Center (MCIOC) \$.259M - FY14 funding will provide tactical server refresh.  Networking-on-the-Move (NOTM)- \$7.963M- The FY14 increase will be used for system refresh and equipment upgrades of existing 59 NOTM Inc. 1 systems.  <b>FY14 Overseas Contingency Operations (OCO) Request:</b>  Advanced Field Artillery Tactical Data Systems (AFATDS) \$.265M - The FY14 initiative replaces combat battle losses.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> The Marine Corps Systems Command supports and fields a number of tactical Environmental Control Units (ECUs) in various sizes that provide heating, ventilation, air conditioning, and dehumidification for soft wall (tents) and rigid wall shelters, as well as Small and Large Field Refrigeration Systems and a unique Cooling and Refrigeration Tool Kit. These systems consist of primarily commercial components, use EPA-compliant refrigerants, are designed to be more energy efficient than legacy systems, and are ruggedized to perform in extreme operating conditions.												
Integrated Trailer, Environmental Control Unit (ECU), and generator (ITEGII) are the next generation, capability that are towable by the High Mobility Multi-Purpose Wheeled Vehicle (HMMWV) and larger platforms. The ITEGII integrates both power generation equipment and environmental control equipment onto a single trailer chassis for highly mobile units, units that have tailored power and cooling requirements, units that predominantly have HMMWVs for transportation resources, or units operating forward that may not have Material Handling Equipment to support larger generators and ECUs.

Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.

**Justification:**

FY 2012 Base: \$2.734M

Funds procured various different components which consist of 9K,18K,36K, 60KW Environmental Control Units (ECUs), Small Field Refrigeration Systems (SFRS), Cooling Refrigeration ECU Kits (CREK), Energy Efficient ECUs (EEECUs) technical data, Cooling Refrigeration ECU Kits (CREK), Energy Efficient ECUs (EEECUs) technical data, 1.5 Ton (18,000 BTU) ECU3 Ton (36,000 BTU) ECU, Warranties, ILS and CLS support.

FY 2012 Overseas Contingency Operations (OCO): \$18.775M

The OCO funding procured the replacement of Combat Losses in OEF/OIF and addresses MEB-A Equipment Density List (EDL) shortfalls of Environmental Control Units (ECU). The EDL is the list of equipment the MEB requires to accomplish its missions in Afghanistan. Funds procured various different components to include 9K, 18K, 36K, 60kw ECUs; Small Field Refrigeration Systems (SFRS); Cooling Refrigeration ECU Kits (CREK); and Energy Efficient ECUs (EEECUs) technical data to fleet Marines forces.

FY 2013 Base Appropriation Request: \$13.576M

Funds procure various different components which consist of 9K, 18K, 36K, 60KW Environmental Control Units (ECUs); Small Field Refrigeration Systems (SFRS); Cooling Refrigeration ECU Kits (CREK); Energy Efficient ECUs (EEECUs) technical data; 1.5 Ton (18,000 BTU) ECU, 3 Ton (36,000 BTU) ECU, Warranties, ILS and CLS support.

FY 2013 Overseas Contingency Operations Request (OCO): N/A

FY 2014 Base Appropriation Request: \$14.377M The small increase is due to the switch over to new required coolant standards to meet EPA requirements as adjustments to approved authorizations are planned.

Funds will procure 9K, 18K Enhanced Environmental Control Units (E2CUs), Small Field Refrigeration Systems (SFRS) and ILS and CLS Support.

FY 2014 Overseas Contingency Operations Request (OCO): \$0.114M Funds will procure 9K/18K Enhanced Environmental Control Units (E2CUs).

<p><sup>#</sup> FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012</p> <p><sup>##</sup> This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013</p> <p><b>Description:</b>            Family of Expeditionary Water Systems is a roll up line that contains the Lightweight Water Purification System (LWPS), the Tactical Water Purification System (TWPS) and Containerized Batch Laundry Units as well as all the various water supply support components and equipment including Pump Modules, Nozzles, Field Laundry Units, Interconnection Sets, Water Packaging Components, Shower Units, 3k/5k/25k Tanks, Hypochlorination Units, Water Quality Analysis Sets and Small Unit Water Purifiers necessary to support the storage, distribution and analysis of potable water. The LWPS is a small, modular, self-contained system that uses filtration and reverse osmosis technology to produce 75 to 125 gallons per hour (GPH) of potable water from fresh, brackish, salt, and nuclear, biological, and chemical (NBC) contaminated water. This capability is necessary to provide safe and potable water to battalion sized or smaller units in an expeditionary environment or in extended company operations. TWPS provides the Marine Air Ground Task Force with an enhanced capability to produce potable water from salt, brackish, fresh and NBC contaminated water sources at a rate of 1,500 GPH in expeditionary environments.         </p>

Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.

**Justification:**

FY2012 Base Appropriation Request: \$20.978M - Funded the procurement of Containerized Batch Laundry units, SIXCON Tank & Pump Modules and various water supply support equipment components to include Field Expeditionary Bath Shower Units (FEBSU).

FY2012 Overseas Contingency Operations Request (OCO): \$7.361M - Funded the procurement of the Lightweight Water Purification Systems (LWPS) and various water systems components and equipment including SIXCON water pump modules, tanks and interconnection sets to support combat operations for forward operating units.

FY2013 Base Appropriation Request: \$16.869M - Funds the procurement of various water systems components and equipment to include SIXCON water tank modules.

FY2013 Overseas Contingency Operations Request (OCO): \$18.239M - Funds the procurement of LWPS, SIXCON water tank modules and various water system components and equipment to support combat operations for forward operating units.

FY2014 Base Appropriation Request: \$24.864M - Funds the procurement of various water systems components and equipment to include SIXCON water tank modules. FY13 maintains AAO for LWPS. The increase from FY13 to FY14 of base funding is to acquire and field water system components and assemblies needed to support fielding equipment to our operating forces. This equipment will support the material readiness and training for our forces not deployed to OCO theater.

FY14 Overseas Contingency Operations Request (OCO): \$0.523M - Funds the procurement of various water systems components and equipment (Water Pump Module and Centrifugal Pump) due to combat losses to support combat operations for forward operating units. Funds requested for the OCO budget line have reduced due to reduced demand for new or replacement water management equipment in the OCO area of operations.

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b> Family of Expeditionary Fuel Systems is a rolled budget line that contains highly versatile fuel systems designed to receive, store, transfer and dispense fuel in support of Marine Air Ground Tactical Force (MAGTF) operations ashore. This is a roll-up of 19 individual TAMCNs which support MAGTF operations by providing all aspects of land-based fuel support to include analysis, receipt, storage, transfer and dispensing fuel including all the components required to configure the following systems: Tactical Airfield Fuel Distribution System (TAFDS), Amphibious Assault Fuel System (AAFS), SIXCON Fuel Storage and Pump Module, Fire Suppression System (FSS), Helicopter Expedient Refueling System (HERS), 600 GPM Fuel Pump Assembly, Berm Liners, Various Capacity Fuel Tanks and includes over 108 various elastomeric fuel systems components and equipment.

Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.																								
<b>Justification:</b>		FY2012 Base: \$22.097M funds the procurement of various elastomeric fuel systems components and equipment.																						
FY2012 Overseas Contingency Operations (OCO): N/A																								
FY2013 Base Appropriation: \$19.108M funds the procurement of 600 GPM Fuel Pump Assembly, SIXCON Fuel Pump and Fuel Tank Modules, and various elastomeric fuel systems components and equipment.																								
FY2013 Overseas Contingency Operations (OCO): \$51.359M funds the procurement of Tactical Field Fuel Distribution System (TAFDS), Amphibious Assault Fuel System (AAFS), SIXCON Fuel Storage and Pump Module, and 600 GPM Fuel Pump Assembly.																								
FY2014 Base Appropriation Request: \$21.592M funds the procurement of the 600 GPM Fuel Pump Assembly, Amphibious Assault Fuel System, and 20K Tanks as well various fuel components such as 500 gallon drums and fire extinguishers. Funds decrease in FY14 due to FY13 funds maintaining AAO for SIXCONS and TAFDS.																								
FY2014 Overseas Contingency Operations Request (OCO): \$0.365M funds the procurement of various fuel components such as 20k/50k berm liners due to combat losses.

"A" in the Delivery Schedule indicated the Contract Award Date.  
Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

<b>Description:</b>													
FAMILY OF POWER EQUIPMENT - This family is comprised for five major elements (sub-families) that provide power generation, power distribution, and tactical external lighting to all user communities across the active Marine Corps and Reserves. These are centrally managed items.													
The first element is the sub-family of Department of Defense Standard Tactical Generators USMC (and all services) procures from the DOD Project Manager for Mobile Electric Power (PM MEP). USMC procures and manages 15 standard generator models in the power output range of 2 kilowatts (kW) to 100 kW in both 60HZ (ground equipment) and 400HZ (aviation equipment) configurations. Included in this for medium size models (5 kW to 60 kW) is the new Advanced Medium Mobile Power Sources (AMMPS) that USMC first began procuring in 2013 and will continue procuring for at least ten years. The AMMPS will provide improved fuel economy, improved maintainability, and reduced weight.													
The second element is the sub-family for non-Standard Tactical Generators. These address USMC unique requirements that the DOD PM MEP does not support. This includes the USMC unique Integrated Trailer - Environmental Control Unit - Generator (ITEG) capability that is towable by all vehicle platforms. The ITEG integrates both power generation equipment and environmental control equipment onto a single trailer chassis for highly mobile units, units that have tailored power and cooling requirements, units that predominantly have HMMWVs for transportation resources, or units operating forward that may not have Material Handling Equipment to support larger generators and environmental control units.													
The third element is the sub-family for Mobile Electric Power Distribution Systems - Replacement (MEPDIS-R) which provides a modernized, standard suite of electric power distribution panels and cabling assemblies to meet Marine Corps power requirements to support a variety of command and control systems and expeditionary forces. MEPDIS-R, as a highly tailororable system, consists of 20 separate components that are configured into capability sets by all using units.													
The fourth element is the Floodlight Set (FLS), a self contained external lighting system with a power plant and light tower assembly. The FLS is capable of providing up to five acres of area illumination and is used extensively for security purposes. For flexibility, the set is configured so it can be mounted on all trailer systems or ground mounted and plugged into grid power.

<b>Exhibit P-40, Budget Item Justification Sheet: PB Amended 2014 Navy</b>							<b>Date:</b> May 2013									
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1109N: Procurement, Marine Corps / BA 06: Engineer and Other Equipment / BSA 1: Engineer And Other Equipment				<b>P-1 Line Item Nomenclature:</b> 6366 - Power Equipment Assorted												
<b>ID Code</b> (A=Service Ready, B=Not Service Ready) : A			<b>Program Elements for Code B Items:</b>				<b>Other Related Program Elements:</b> 0206624M									
<b>MDAP/MAIS Code(s):</b> The fifth element is the sub-family of support equipment to support elements of the Power Equipment Family. This includes unique trailer mounting kits for all systems onto USMC standard trailers, software planning tools for emplacement of power and power distribution, unique training aids, and general purpose electrician toolkits.																
FAMILY OF ALTERNATIVE POWER SOURCES FOR COMMUNICATIONS EQUIPMENT (APSCE) - This family consists of multiple suites of devices, grouped into sub-families, that are used to provide highly expeditionary power (worn on the Marine, hand-carried, or vehicle mounted) to operate communications equipment, computers and peripheral equipment in place of disposable batteries, and for scenarios where fuel powered generators are too large, too heavy, unsuitable for use, or provide undue logistics burden due to refueling needs.																
The first suite of devices encompasses renewable energy based systems, and includes the man-portable Ground Renewable Expeditionary Energy Network System (GREENS) that supports a company level operations center and Forward Operating Base, and the man-portable Solar Portable Alternative Communications Energy Systems (SPACES) that supports Combat Outposts and Observation Points. Both of these exploit the use of solar energy technology to recharge batteries and directly power electronic equipment without the need for re-fueling generators.																
The second suite of devices is the Family of USMC Tactical Power Supplies. This includes both shelter based (semi-rugged) and fully ruggedized power supplies (operate outdoors) that convert grid power (alternating current) to vehicle based power (direct current). These power supplies support all elements across the USMC with standard models that provide variable electrical output to support a wide electrical range of operation. The suite also includes vehicle mounted inverters that convert vehicle 24 Volt direct current to 120 Volt alternating current to allow on-the-move operation of equipment that previously was only able to be used while stationary.																
The third suite of devices is On-Board Vehicle Power (OBVP) systems, that modify and implement power generation onboard multiple vehicles (High Mobility Multipurpose Wheeled Vehicle and Medium Tactical Vehicle). The HMMWV based system provides engine drive, electric AC power comparable to what a HMMWV towable, trailer mounted generator could provide (25 kilowatts). This saves embark space and weight for highly expeditionary applications. The MTV based system provides engine drive, electric AC power comparable to what a generator mounted to the bed of the truck could provide (100 kilowatts). This frees up cargo space, while saving space and weight also for highly expeditionary applications.																
The fourth suite of devices is the Family of Radio Power Adaptors (RPA), which provide an alternative power source for each radio in the Marine Corps (seven different models). Instead of consuming batteries when in garrison/shelter operations, RPAs allow the radios to be operated from central power sources (such as GREENS and SPACES) or grid power (120 volt AC generator). This provides cost avoidance, conservation of batteries, and flexibility of operations.																
The fifth suite is the Battery Management and Sustainment Systems (BMASS) that support all lead-acid batteries used in vehicles and artillery systems, and lithium ion rechargeable batteries used in command, control and communications systems. The suite consists of battery chargers, battery analyzers, and battery safety management systems for both chemistry of batteries, and for both garrison (semi-rugged) and deployed operations (ruggedized). As the USMC (and all services) move towards fully adopting rechargeable batteries for energy efficiency and logistics demand reduction, BMASS is critical to support numerous weapons, engineer, vehicle, and communication systems that are highly dependent on batteries for their operation.

Note: Totals in this Exhibit P-40 set may not be exact or add due to rounding.																							
<b>Justification:</b> FY12 Baseline Appropriation (\$27,599K): Funds procured Mobile Electric Power Distribution Systems (Replacement) (MEPDIS-R), 5KW 60HZ Advanced Medium Mobile Power Sources (AMMPS), 10KW 60 HZ AMMPS, 15KW 60HZ AMMPS, 30KW 60HQ AMMPS, 60KW 60HZ AMMPS, ITEG II, ITEGII Support Equipment, Floodlight Sets, AMMPS Initial Issue provisioning. Supported the procurement of Alternative Power Sources for Communications Equipment (APSCE) which consists of 24V Radio Power Adaptor, Battery Solar Charger, Benchtop Power Supply, Handheld Radio Power Adaptor, BB2590 Batteries and 117G Radio Power Adaptor.																							
FY12 Overseas Contingency Operations (OCO) (\$106,895K): Funds procured 5KW 60HZ Advanced Medium Mobile Power Sources (AMMPS), 10KW 60 HZ AMMPS, 15KW 60HZ AMMPS, 30KW 60HQ AMMPS, 60KW 60HZ AMMPS, Mobile Electric Power Distribution Systems (MEPDIS), 100KW 60 HZ and ITEG II support equipment and logistics support. Battery chargers, 24V Radio Power Adaptor, Suitcase Portable Charger, Ground Renewable Expeditionary Energy Network System (GREENS), APSCE consists of BB2590 Batteries, Stay Alive Power Supply, Solar Panel Cases and 117G Radio Power Adaptor.																							
FY13 Baseline Appropriation (\$56,253K): Funds the procurement of MEPDIS-R, 5KW 60HZ AMMPS, 10KW 60 HZ AMMPS, 15KW 60HZ AMMPS, 30KW 60HQ AMMPS, 60KW 60HZ AMMPS, ITEG II support equipment, Floodlight Sets, AMMPS Initial Issue provisioning. Solar Portable Alternative Communications Energy Systems (SPACES), Alternative Power Sources for Communications Equipment consists of 24V Radio Power Adaptor, Battery Solar Charger, Benchtop Power Supply, Handheld Radio Power Adaptor, BB2590 Batteries and 117G Radio Power Adaptor, will procure OBVP HMMWV Support and OBVP MTVR Kits.																							
FY13 Overseas Contingency Operations (OCO) (\$20,247K): Funds procure combat losses and other equipment that has been washed out in theatre including: 5KW 60HZ AMMPS, 10KW 60 HZ AMMPS, 15KW 60HZ AMMPS, 30KW 60HQ AMMPS, 60KW 60HZ AMMPS, Mobile Electric Power Distribution Systems (MEPDIS), 100KW 60 HZ and ITEG II support equipment and logistics support. Battery chargers, 24V Radio Power Adaptor, Suitcase Portable Charger, GREENS, APSCE consists of BB2590 Batteries, Stay Alive Power Supply, Solar Panel Cases, Battery Management and Sustainment Systems (BMASS), Lithium Battery Support and 117G Radio Power Adaptor, will procure ILS Support.																							
FY14 Baseline Appropriation (\$61,353K): Funds the procurement of MEPDIS-R, 5KW 60HZ AMMPS, 10KW 60 HZ AMMPS, 15KW 60HZ AMMPS, 30KW 60HZ AMMPS, 60KW 60HZ AMMPS, 2K 60 HZ Medium Tactical Generator (MTG), 3KW 60HZ TQG, 100KW 60 HZ TQG, Integrated Trailer-ECU Generator (ITEGII), ITEGII support equipment, Grounding Rods, ILS Support. Funds will procure SPACES, APSCE consists of 24V Radio Power Adaptor, Battery Solar Charger, Handheld Radio Power Adaptor, BB 2590 Batteries and 117G Radio Power Adaptor, OBVP HMMWV Support, OBVP MTVR Kits, Stay Alive Power Supply, Solar Panel Cases, BMASS, Lithium Battery Support and 117G Radio Power Adaptor, Power Supplies consists of Benchtop Power Supply and World Wide Power Supplies (WWPS) and CEOSS Support. Budget decrease from FY13 to FY14 is in line with requirements and resource realignment of all commodity areas and budget adjustments made by the Marine Corps Combat Development Command.																							
FY14 Overseas Contingency Operations (OCO) (\$2,004K): Funds the procurement of MEPDIS-R and Pulse Solar Chargers due to combat losses.

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012												
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013												
<b>Description:</b>												
ASSAULT BREACHER VEHICLE (ABV) is a tracked, armored combat engineer vehicle designed to breach minefields and complex obstacles and provide a deliberate and in-stride breaching capability. ABV consists of a rebuilt and upgraded M1A1 Tank chassis with the integration of Non-Developmental Items (NDI), which includes a Full-Width Mine Plow, a Dozer Blade, a Surface Mine Plow, a Rapid Ordnance Removal System, two M58 Linear Demolition Charges, a lane marking system and a self-defense weapon system. The ABV will provide crew protection and vehicle survivability while having the speed and mobility to keep pace with the maneuver force. The M1A1 Tank Chassis will provide economic supportability of the system through its commonality with the tank fleet and armor protection for survivability.												
COUNTER RADIO-CONTROLLED IMPROVISED EXPLOSIVE DEVICE (RCIED) ELECTRONIC WARFARE (USMC CREW) SYSTEMS are vehicle mounted or man portable modular programmable multi-band radio-frequency jammers designed to deny enemy use of selected portions of the radio frequency spectrum in the vicinity of the jammer to counter the RCIED threat. The systems protect convoy elements against the threat of RCIEDs. CREW Increment 2.1 (Jan 2009) consists of the CREW Vehicle Receiver Jammer (CVRJ V1) which replaced the 2.0 systems and is designed to meet the additional capability requirements established in the Statement of Need (SON) dated 5 Aug 2008. Increment 3.1 which consists of the Thor III man portable system is designed to meet requirements of the SON dated 6 May 2010. This capability will provide Marines on foot, in vehicle convoys and at fixed locations with the necessary protection from the continued and evolving threat of these deadly RCIEDs in all current and future operations. In FY12 the program transitioned to the CREW interim solution to meet the gap in capabilities until JCREW 3.3 became available. In addition, the program will transition to the Enduring Requirement of 2750 mounted and 685 dismounted systems. The USMC CREW MEU(SOC)/IOC requirement is 150 mounted and 360 dismounted.												
ENGINEER SQUAD ROBOT provides Ground Combat Element with a lightweight back packable robot to support the maneuver commander with organic route and obstacle reconnaissance, urban scouting and breaching capabilities, explosive detection, interrogation and reduction in support of dismounted tactical maneuver across the spectrum of conflict.												
FAMILY OF EOD EQUIPMENT supports Marine operating forces, national security strategy, and force protection by locating, accessing, identifying, rendering safe, neutralizing, and disposing of hazards from foreign and domestic, conventional, chemical, biological, radiological, nuclear, and high yield explosives (CBRNE), unexploded explosive ordnance (UXO), improvised explosive devices (IEDs), and weapons of mass destruction (WMD) that present a threat to operations, installations, personnel, or materiel. The Explosive Ordnance Disposal (EOD) mission provides a means to neutralize the hazards associated with explosive ordnance that are beyond the normal capabilities of other specialties that present a threat to operations, installations, personnel and material. The Family of EOD Equipment accomplishes this mission by detecting, identifying, rendering safe, recovering, evacuating and disassembling, and/or disposing of unexploded ordnance with a variety of EOD specialized equipment and tool kits.												

**UNCLASSIFIED**

<b>Exhibit P-40, Budget Item Justification Sheet: PB Amended 2014 Navy</b>		<b>Date:</b> May 2013
<b>Appropriation / Budget Activity / Budget Sub Activity:</b> 1109N: Procurement, Marine Corps / BA 06: Engineer and Other Equipment / BSA 1: Engineer And Other Equipment	<b>P-1 Line Item Nomenclature:</b> 6520 - EOD Systems

<b>MDAP/MAIS Code(s):</b>		
FAMILY OF MINE ROLLER SYSTEMS can be attached to wheeled vehicles to counter pressure initiated Improvised Explosive Devices threats. The rollers can be mounted to High Mobility Multipurpose Wheeled Vehicles (HMMWVs), Medium Tactical Vehicle Replacements (MTVRs), Light Armored Vehicles (LAVs), and Joint EOD (Explosive Ordnance Disposal) Rapid Response Vehicles (JERRVs)/Cougar vehicles to minimize damage to vehicles, and more importantly, prevent injury or loss of life to those Marines/Sailors/Soldiers in the vehicle crew compartment.		
LOW METALLIC SIGNATURE MINE DETECTOR will provide a light-weight, man portable, handheld detection capability that is capable of detecting traditional, low metallic, non-metallic mines, and explosive devices. The LMS MD capability enables mobility of dismounted forces by significantly increasing their ability to locate, mark, avoid, and/or reduce mine and IED threats. It will enable better categorization and identification of explosive hazards as it will be capable of detecting and discriminating between symmetric mines and asymmetric explosive devices, to include metallic, low metallic and zero metallic mines, IEDs, and Unexploded Ordnance (UXO) throughout a MAGTF Area of Operations (AO). The replacement detection capability to the interim VMR2 Minehound and AN/PSS-14 Mine Detector Program of Record, the LMS MD will be fielded throughout the Combat Engineer and EOD communities to provide dismounted maneuver and mobility support to a MAGTF in an expeditionary environment.		
M9 ARMORED COMBAT EARTHTMOVER (ACE) MODERNIZATION is a force multiplier for the combat engineer, performing mobility, counter mobility and survivability missions. The M9 is a highly mobile, fully tracked, armored earthmover capable of supporting forces in both offensive and defensive operations, performing critical combat engineer tasks, such as preparing hull defilade fighting positions for guns and tanks and preparing protected positions for other critical battlefield systems to increase their survivability. Marine Corps Modernization Kit (includes System Improvement Package (SIP) 4 configuration changes to Steel Flanges, Power Pack Removal, Crew Cooling System, One Inch Aluminum Bottom, Steel Apron and Blade, Integrated Vision System, Hydraulic System and Stowage Rack. Funding will install Driver Vision Enhancement System (DVES) on the M9 ACE vehicles in use in OEF. The DVES allows operation of the ACE with the hatch closed which significantly increases the survivability of the driver and provides enhanced vision day/night capability. Currently the M9 ACE has no night vision capability.		
MINE RESISTANT AMBUSH PROTECTED (MRAP) VEHICLES: The MRAP Family of Vehicles (FoV) provides Warfighters multimission platforms capable of mitigating Improvised Explosive Devices (IEDs), underbody mines, and small arms fire threats, which are currently the greatest casualty producers in Overseas Contingency Operations (OCO). Five vehicle categories (CATs) are being procured, fielded, and sustained: MRAP-All Terrain Vehicle (M-ATV) - Combat operations (ops) in rural, mountainous, urban terrain. Category I - Urban combat operations, ambulance. Category II - Multi-mission ops-convoy lead, troop transport, ambulance, utility vehicle. Category III - Mine/IED clearance ops, explosive ordnance disposal. Other Protected Vehicle - Specialty mission or unique configuration. Provides the same threshold ballistic, mine, and IED protection as other MRAP vehicles. Includes the MRAP Recovery Vehicle (MRV) variant. Funding includes required Government Furnished Equipment (GFE)/subsystems and Engineering Change Proposal (ECP)/Capability Insertion in response to a UUNS/JUONS and Warfighter safety and survivability requirements.		
MK 154 MODERNIZATION is a line charge launcher system installed in the Amphibious Assault Vehicle Personnel variant (AAVP7) used to breach mine fields in shallow water and inland areas, providing the USMC with an amphibious operations breaching capability.		
ROUTE CLEARANCE provides capabilities not found in the current Joint land force structure to defeat explosive hazards and protect Marines and equipment while conducting route and area clearance operations. The FoS for Route Clearance will enable Commanders to deliberately operate in explosive hazards environments by detecting and marking explosive hazards, enabling the Commanders to make timely and informed decisions to avoid the explosive hazards, or, if necessary, neutralize explosive hazards that impede their missions. Multiple detection and marking capabilities will detect a broader spectrum of explosive hazards and achieve higher overall effectiveness rates. Standoff and remote-controlled detection and marking capabilities will remove Joint forces from direct contact with explosive hazards and enhance force protection and the vehicles' system survivability. Operational speeds and rates will increase and better support the operational tempo (OPTEMPO) of the current and future force. ENFIRE is a digital surveying kit designed to collect and disseminate engineer-related information while minimizing exposure to enemy observation.

**Justification:**

ASSAULT BREACHER VEHICLE (ABV)

FY12 OCO (\$8.1M) procured ancillary equipment including plows, blades and front end equipment required to support operational units.

FY13 Baseline (\$3.658M) funds modernization efforts from lessons learned in OEF to increase survivability including locating and engaging targets at night and increased accuracy during fire and maneuver. Decrement of some or all planned FY13 PMC funds will delay the ongoing modernization, create mixed vehicles across the fleet, and decrease survivability due to lower fire and maneuver accuracy.

FY13 OCO (\$20.595M) will fund the Stabilized Commanders Weapons Station (SCWS) which provides a stabilized, under armor, shoot-on-the move capability for the ABV Commander to support deliberate and in-stride breaching capability of minefields and complex obstacles for the Ground Combat Element (GCE) of the Marine Air Ground Task Force (MAGTF).

FY14 (\$4M) will fund modernization efforts from lessons learned in OEF.

COUNTER RADIO-CONTROLLED IMPROVISED EXPLOSIVE DEVICE (RCIED) ELECTRONIC WARFARE (USMC CREW) SYSTEMS

FY12 Baseline (\$5.117M) continued integration of the CVRJ Band C Upgrade Kits into Marine Corps Vehicle Platforms and fielding of Thor III systems.

FY13 Baseline (\$18.808M) will procure an interim dismounted CREW capability in support of the enduring MEU operations to meet an IOC objective of 4th Qtr FY13.

FY13 OCO (\$180M) will commence procurement of replacement systems for transition from the CVRJ (V2) mounted and the 3.1 Thor III dismounted systems. These new items are to be bought & fielded to replace the Thor III dismounted and CVRJ mounted systems currently employed in OEF and provide for the necessary capability upgrade required to meet evolving threats.

FAMILY OF EOD EQUIPMENT

FY12 Baseline (\$9.945M) funded various types and quantities of specialized EOD Tools including EOD CBRNE Tool Kits, EOD Search Kits, Technician's Kits, Disposal Kits, Disassembly Kits, General Purpose Kits and Improvised Explosive Device Kits, Remote Firing Devices and Improved Mechanical Remote Fuze Disassembly Kits.

FY12 OCO (\$12.280M) funded various types and quantities of specialized EOD Tools including EOD CBRNE Tool Kits, EOD Search Kits, Technician's Kits, Disposal Kits, Disassembly Kits, General Purpose Kits and Improvised Explosive Device Kits, Remote Firing Devices and Improved Mechanical Remote Fuze Disassembly Kits.

FY13 Baseline (\$11.833M) funds various types and quantities of specialized EOD Tools including EOD CBRNE Tool Kits, EOD Search Kits, Technician's Kits, Disposal Kits, Disassembly Kits, General Purpose Kits and Improvised Explosive Device Kits, Future Radiographic Systems and Disruption Integration Systems.

FY13 OCO (\$17.200M) funds various types and quantities of specialized EOD Tools including EOD CBRNE Tool Kits, EOD Search Kits, Technician's Kits, Disposal Kits, Disassembly Kits, General Purpose Kits and Improvised Explosive Device Kits, Future Radiographic Systems and Disruption Integration Systems.

<b>ID Code</b> (A=Service Ready, B=Not Service Ready) : A	<b>Program Elements for Code B Items:</b>	<b>Other Related Program Elements:</b> 0206624M
<b>MDAP/MAIS Code(s):</b>  FY14 OCO (\$4.271M) funds various types and quantities of specialized EOD Tools including EOD CBRNE Tool Kits, EOD Search Kits, Technician's Kits, Disposal Kits, Disassembly Kits, General Purpose Kits and Improvised Explosive Device Kits, Future Radiographic Systems, Disruption Integration Systems and Bomb Suits to support distributed operations in OEF.  In FY12 and FY13, funding procures individual replacements of component pieces as necessary to replenish specialized EOD tool kits which have been returned to inventory with missing pieces. Beginning in FY14 the program plans to fully modernize the specialized EOD tool kits with a technology refresh which includes the replacement of major obsolete components in order to upgrade all kits to provide the warfighter with a more up-to-date capability in the field. FY14 Baseline (\$13.669M) funds various types and quantities of specialized EOD Tools including EOD CBRNE Tool Kits, EOD Search Kits, Technician's Kits, Disposal Kits, Disassembly Kits, General Purpose Kits and Improvised Explosive Device Kits, Future Radiographic Systems, Disruption Integration Systems and Bomb Suits.		
<b>M9 ARMORED COMBAT EARTHTMOVER (ACE) MODERNIZATION</b> FY12 OCO (\$1.3M) funded the procurement of Integrated Vision Systems in support of OEF. FY13 Baseline (\$11.048M) funds the procurement of modernization kits which incorporate lessons learned in OEF to increase survivability. FY13 OCO (\$27.442M) funds will support acquisition and installation of hydraulic modernization kits to increase system survivability in OEF.  <b>MINE RESISTANT AMBUSH PROTECTED (MRAP) VEHICLES</b> FY12 OCO funded (\$100M) supported the procurement of GFE, critical survivability and mobility upgrades, and automotive testing to the MRAP vehicles currently in use by our Warfighters in OEF. FY13 OCO funds (\$52.631M) supports the procurement of GFE, critical survivability and mobility upgrades, and automotive testing to the MRAP vehicles currently in use by our Warfighters in OEF and to achieve baseline configuration for enduring requirement.  <b>MINE ROLLERS</b> FY13 OCO (\$45.024M) funds the procurement of rollers and components to support various operational vehicle platforms in dwell. Funding supports procurement and fielding of items for use in OEF to replace items that are damaged or destroyed during operations to support multiple vehicles platforms to OEF. FY14 OCO (\$7.896M) funds the procurement of fabricated parts to support OCONUS Mine Rollers and to replace combat losses.  <b>MK 154 MODERNIZATION</b> FY13 Baseline (\$3M) funds the procurement of four "modernized" launchers and associated launcher support to begin product qualification testing. FY14 Baseline (\$8.849M) continues modernization efforts by acquiring additional kits, spares and other assets needed to complete the testing and begin efforts to establish fielding efforts for the MK 154 modernized launchers.  <b>ROUTE CLEARANCE</b> FY12 Baseline (\$47.921M) funded Interrogation Arms, Mine Flail, and Husky Mounted Detection System procurements, Vehicle Mounted Mine Detector modifications and Mine Roller System modifications. FY12 OCO (\$35.557M) funded Interrogation Arms, R2C Robot product qualification and ENFIRE procurement in support of OEF. FY13 Baseline (\$25.352M) funds R2C Robots, Husky Vehicle procurement, Vehicle Mounted Mine Detector Assemblies and Ground Penetrating Radar Assemblies. FY13 completes the procurement of Increment I systems and continues the procurement of Increment II systems. FY13 OCO funding (\$19.766M) is used to buy and field items for use in OEF to replace items that are damaged or destroyed during operations due to exposure to mines and explosive obstacles and will increase survivability when detecting, identifying, rendering safe, recovering, evacuating and disassembling, and/or disposing of unexploded ordnance. If funds are not appropriated, replenishment of combat losses will be delayed. FY14 Baseline (\$13.493M) funds will procure obstacle detection/neutralization vehicles. FY14 continues the procurement of Increment II systems. FY14 OCO funding (\$30.763M) funds Husky Mounted Detection System (Ground Penetrating Radar) parts blocks, Handheld Detectors parts blocks as well as Vehicle Mounted Mine Detector Parts Blocks in support of OEF.

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).

# FY 2013 Program is from the FY 2013 President's Budget, submitted February 2012																	
## This Budget Amendment, which includes Base and OCO funding for FY 2014, replaces the FY 2014 Base Budget Request only submission of April 2013																	
<b>Description:</b> The Family of Construction Equipment (FCE) line is a roll-up line that provides for the replacement and service life extension program (SLEP) of Marine Corps construction equipment. This line provides funding for equipment such as Scraper, Dozer W/angle Blade 1150, Interchangeable Grader 3D Modeling Laser Leveling System (LLS) and Mobile Tactical Welding Shop (MTWS), Vibratory Compactor and Matting.

**Justification:**

FY12 Base Appropriation \$18.137M: Funded Mobile Tactical Weld Shops (MTWS) and Scrapers and Scraper Crew Protection Kits as well as the Integrated Logistics Support for the Family of Construction Equipment programs.

FY12 Overseas Contingency Operations (OCO) \$28.533M: Funded Scrapers and Scraper Crew Protection Kits required due to combat losses, to fill OEF Equipment Density Lists (EDL).

FY13 Base Appropriation Request \$23.939M: Funding supports procurement of the MTWS and Laser Leveler Systems (LLS) as well as the Integrated Logistics Support for the Family of Construction Equipment programs.

FY13 Overseas Contingency Operations (OCO) Request \$15.900M: Funding supports procurement of the Scrapers, MTWS and LLS due to combat losses, washouts, and to fill OEF Equipment Density Lists (EDL).

FY14 Base Appropriation Request \$36.198M: Funding supports procurement of the MC1150 Dozer w/Blade, MTWS, and Scrapers as well as the Integrated Logistics Support for the Family of Construction Equipment programs.

FY14 Overseas Contingency Operations Request (OCO) \$0.385M: funding supports Integrated Logistics Support for combat losses of the Engineer Equipment Trailer, Multi-purpose Bucket, Motorized Road Grader, Hydroseeder, and Multi Terrain Loader in the Family of Construction equipment.

"A" in the Delivery Schedule indicated the Contract Award Date.

Due to space limitations, quantities in the Exhibit P-21 delivery calendar are truncated and rounded based on the maximum quantity in the calendar as follows. If the maximum quantity is less than or equal to than 99,999, all quantities are shown as each. If the maximum quantity is between 100,000 and 99,999,499 all quantities are shown in thousands (rounded to the nearest thousand). If the maximum quantity is greater than 99,999,499 all quantities are shown in millions (rounded to the nearest million).
